GENUINE IMPORTED SHEFFIELD PLATE

In order to have positively the finest silver plated tableware manufactured in the world, and be able to offer it to you at prices that inferior silverware generally brings, we sent our buyers direct to Sheffield, England, and there selected as the choicest designs and best values the pieces illustrated on this page, added our regular small profit, the same as on any other line of merchandise in our institution, and are offering it to you now at never before heard of prices.

Sheffield silver plated ware is known throughout the civilized world as positively the most perfect and best silver plated ware manufactured. Every piece illustrated on this page is heavily silver plated on genuine nickel silver. Nickel silver is a composition metal of which nickel and copper are the chief ingredients, not tin, not Britannia metal, but hard nickel and copper. Silverware of this make has been used in England for generations and has been handed down as heirlooms in families. Nowhere in the world is the art of silver plating brought to such a perfection as in Sheffield. Every piece shown on this page is stamped with the English guild marks, and we positively guarantee these to be genuine imported Sheffield silver plate.

No. 5F8556 Boudoir Alarm Clock. Our gold plated cupid design Boudoir Alarm Clock for 96 cents. Clock stands 10 inches high, 8½ inches wide at base; dial is 2¼ inches in diameter, fitted with a French crystal. The frame is made of metal. The movement runs thirty hours, is an excellent timekeeper, has an alarm attachment and rings the same as any alarm clock. Weight, boxed for shipment, 5 pounds. Price **96c**

$1.26 Guaranteed Alarm Clock.

No. 5F8564 $1.26 for this guaranteed intermitting Alarm Clock. Has bell on back, dial is 4½ inches in diameter. Alarms for 9 minutes. Nickel plated case. $1.75 is the regulation retail selling price. Shipping weight, 35 ounces. Price.. **$1.26**

Guaranteed for 2 years.

$2.48 Musical Alarm Clock.

No. 5F8592 One of the newest novelties on the market. This clock plays one tune for about ten minutes. Stands 7 inches high, 5 inches wide, with front arabesque ornamentation around dial, full nickel plated frame with glass sides so that the movement and its action are visible at all times. Runs thirty hours. The music attachment is ingeniously hidden at the bottom of the clock, and so arranged that when the clock is set at a certain time, instead of an alarm bell being heard, a beautiful tune is played. With care it should last for many years and give entire satisfaction. $2.48 is a remarkably low figure for such a unique piece of clock mechanism. Weight of clock, packed ready for shipment, about 3 pounds. Price **$2.48**

$1.49 Combination Alarm Clock.

No. 5F8566 $1.49 for this very latest highest grade two-year guaranteed Interval Alarm and Long Alarming combination Alarm Clock, made especially for us by the largest and best clock manufacturer in the United States. Bell is on rear of clock, has shut off attachment, likewise attachment to throw on long alarm or the repeating alarm as desired. Alarms 10 minutes. Has fine high grade nickel plated case, dial is 4¾ inches in diameter. $2.50 is the regulation retail selling price, our price $1.49. Not a toy alarm clock, but a substantially made high grade timekeeper. See illustration of movement. Shipping weight, 38 ounces. Price **$1.49**

$1.46 Strike Alarm Clock.

No. 5F8574 Height, 6¼ inches; dial, 4½ inches, movement runs thirty hours. Strikes the hours and half hours the same as a mantel clock. In addition it has an alarm attachment which alarms at any time set. We guarantee this clock to be an excellent timekeeper and to give entire satisfaction. Shipping weight, 36 ounces. Price **$1.46**

$1.96 Continuous Long Alarm Clock.

No. 5F8580 Continuous Long Alarm Clock. The case is metal, finished in bronze. The movement is warranted to us by the manufacturer; we in turn guarantee it to our customers. The alarm rings for seven minutes, but can be turned off at will by moving the lever. **Height, 12 inches; width at base, 8½ inches.** Shipping wt. 11 lbs. Price **$1.96**

No. 5F8586 Nickel Plated Glass Paneled High Grade Alarm Clock. Stands 6 inches high, 4¾ inches wide at base and 3 inches deep. The dial is 2⅞ inches in diameter, has plain Roman numerals. This clock is beautified by gilt arabesque panel work in the front of the clock. The movement is manufactured by the Waterbury Clock Co. It runs thirty hours. The alarm attachment is invisible, being placed underneath the clock. This clock is not only an alarm clock, but also strikes the hours and half hours on a bell. Weight, packed ready for shipment, about 4 pounds. Price **$2.30**

$1.39 Eight-Day Gold Plated Bureau or Bedroom Clock.

No. 5F8568 Eight-Day Clock. The clock stands 3¼ inches high, has a 2-inch dial with French bevel glass crystal. It is built on the order of a nickel plated alarm clock, but has no alarm, and runs eight days. Just the clock for your shelf, bureau, desk or library table. Shipping weight, 16 ounces. Price **$1.39**

No. 5F8594 Phono Alarm Clock, the most powerful alarm clock made; it is an alarm clock with a noise producer on the same principle as the sounding disc of a telephone. Instead of the hammer striking on a bell, it strikes on a disc and a horn, similar to a phonograph horn, increases the sound and throws it directly at the sleeper. The noisiest "sleep dispeller" ever made. Copper finished, dustproof case; height 7 inches; Arabic dial, 4 inches in diameter. Shipping weight, 35 ounces. Price **$2.15**

$2.97 Hanging Solid Oak Weathered Mission Eight-Day Clock.

No. 5F9026 Nothing handsomer as a wall clock for your hall, dining room, den, bedroom or parlor. The movement is manufactured by the New Haven Clock Co. The dial is exposed exactly as the illustration shows, fitted with gilt solid metal numerals and gilt solid metal hands. Height, 27½ inches; width, 15½ inches. The dial is 15½ inches by 15½ inches. The pendulum is likewise solid dark colored weathered oak with a fine polished brass pendulum disc, and is adjustable. The movement runs for eight days, strikes the hours and half hours on a beautiful toned wire gong. Each one has been oiled and tested. This clock, boxed for shipment, weighs about 25 pounds. Price **$2.97**

$1.74 Substantial Eight-Day Shelf Clock.

No. 5F9030 Do not ask the manufacturer's name; never has such a clock been offered at anything like the price. This wonderful pricing makes it impossible for us to print the maker's name; 17½ inches high, 11½ inches wide at base; has alarm attachment; does not strike the hours or half hours. Made of kiln dried oak, highly polished. Shipping weight, 16 pounds.

Price.. **$1.74**

No. 5F9031 Same style as No. 5F9030, but time only; does not alarm. Price **$1.59**

$1.83 THE ALDRICH.

Made by the Waterbury Clock Company, furnished in walnut finish. Stands 22 inches high, 15 inches wide at base. Case is handsomely embossed, perfectly fitted and jointed and is a marvel of value. Movement runs eight days, strikes the hours and half hours on a wire bell, has a 6-inch dial. Guaranteed to keep accurate time. Shipping weight, 16 pounds.

No. 5F9002 Strikes on a wire bell. Price **$1.83**

No. 5F9004 Strikes on a wire bell, with an alarm attachment. Price **$2.30**

No. 5F9008 Strikes on a gong bell, with an alarm attachment. Price **$2.45**

$1.98 Weathered Oak Mission Style Clock.

No. 5F9020 It stands 20½ inches high; width 12 inches. The dial is plain, made of solid oak with bright metal numerals and bright metal hands. The movement runs for eight days. Manufactured by the New Haven Clock Co. Strikes the hours and half hours on a sweet toned cathedral wire gong. Shipping weight, 18 pounds.

Price.... **$1.98**

$3.40

The Rochester Fancy Ornamental Cabinet Clock. Made of solid black walnut, handsomely carved; height, 26½ inches. This clock has an 8-in. dial which makes it easy to see the time from any part of the room. It is fitted with an eight-day movement made by the Waterbury Clock Co., strikes the hours and half hours. In addition it has a calendar attachment which automatically registers the day of the month. Shipping weight, about 20 pounds.

...rade One-Day Imported Quail and Cuckoo Clock.

$11.25

Comes to us direct from the Black Forest, Germany, the home of cuckoo clock making. Height, 19½ inches; width, 15½ inches; dial is 5½ inches. The quail and cuckoo calls lend a unique charm to this clock, making it a most interesting and novel acquisition, pleasing to young and old. The quail appears automatically and calls the quarter hours and the cuckoo appears calling full hours. The case is handsomely carved, as illustration shows. This clock is walnut finished, guaranteed not to warp, check or crack. The movement is excellently constructed, timed and tested, and guaranteed to perform its duties well and accurately. The motive power is by weights; not a spring clock. It is a known fact that clocks built on this principle are more accurate and longer running than by any other system; runs one day. To wind the clock pull up the weights. Boxed ready for shipment, weight, about 32 pounds.

...1276 Mantel Clock. Price... $5.32

Wonderful Clock Offering.

$4.44

This Cuckoo Clock is manufactured in the Black Forest, Germany. Comes in German walnut finish, ornaments are hand carved of an oak leaf design with inlaid ash and mahogany as illustration shows. Stands 21 inches high, 14 inches wide. Diameter of dial, 5¼ inches. Movement is made in the Black Forest, Germany, perfectly adjusted, perfectly fitted and timed. Runs one day with one winding, strikes the hours and half hours on a wire bell and at the same time the cuckoo appears at the top and calls the hours. This clock runs by weights. Weight, boxed ready for shipment, 26 pounds.

No. 5F9204 Cuckoo Clock. Price..... $4.44

Absolute Perfection in a Quail and Cuckoo Clock.

$14.98

On account of the demand for something more perfect, at a moderate price, something handsomer than has ever been offered for the money before, we have had imported for us this Black Forest genuine hand carved German walnut finish quail and cuckoo clock, 22½ inches high; dial is 6⅝ inches in diameter. The figures on the dial are applied plain white, the hands bleached white bone. This clock is run by three weights. The weight system of operating clocks equalizes and distributes the motive power throughout, insuring accurate timekeeping. The movement runs one day, is made after American models at the Black Forest, Germany, of extra thick, extra toughened hard wrought brass, polished oil tempered steel parts and pinions, straight line verge escapement. Two birds with automatically adjusted wings and beaks appear through the automatically opened doors. At the quarter hours the quail appears and whistles the quarter hour. The cuckoo appears at the full hours and calls the hour. At the same time that the full hours are called they are likewise sounded on a wire gong. The pendulum is hand carved, with adjusting screw on the bottom. Full instructions are sent with each one when shipped. Weight, packed for shipment, 32 pounds.

No. 5F9222 Quail and Cuckoo Clock. Price... $14.98

Gold Plated Clock for $1.10

Bureau or Bedroom Clock. Runs thirty hours with one winding. This clock is made by the Waterbury Clock Co., stands 5 inches high, dial 2 inches. Frame is solid metal plated with pure gold, and is a very handsome ornament as well as useful timepiece.

No. 5F8557 Price..... $1.10
Shipping weight, 17 ounces.

One-Day Imported Cuckoo Clock.

$7.39

This clock is manufactured in the Black Forest, Germany, the home of cuckoo clock making. Each leaf, the deer head, all parts as illustration shows, are guaranteed hand carved; nothing will please the children more than to hear the cuckoo calling. Clock is 19 inches high, 14 inches wide, strikes the half hours on a wire bell. At the half hour and full hour the cuckoo appears, opening automatically the little door placed directly above the hour of twelve, and calls out the half hours and full hours. This clock is run by two weights. The weight system of operating clocks equalizes and distributes the motive power and is far superior to the spring movement for keeping accurate time. The movement runs one day by pulling up the weight; built under new plans, is made of solid brass with oil tempered steel parts, simple in design, simple in execution. Dial, 5¼ inches in diameter, fitted with applied figures and white bleached bone hands. Full directions go with each clock, how to set it and to start it. Weight, packed ready for shipment, about 24 pounds.

No. 5F9214 Cuckoo Clock. Price..... $7.39

One-Day Quail and Cuckoo Clock.

$16.49

$16.49 for our latest imported Swartzwald Quail and Cuckoo Clock. About 25 inches high from bottom leaf to tip of horns. The design is one of the latest hand carved productions. Both quail and cuckoo. The cuckoo appears at the hours and calls, the quail appears and whistles the quarter hours. The movement is wrought brass, new extra large size, substantially made, runs one day by weights. The weight system of operating clocks equalizes and distributes the motive power and is far superior to the spring movement for keeping accurate time. Genuine bone hands, plain white numerals. Is finished in walnut style. $25.00 would be considered cheap anywhere for this magnificent clock. We import them ourselves direct from the manufacturer and offer them to you at less than wholesale price. Weight, boxed ready for shipment, 35 pounds.

No. 5F9228 Quail and Cuckoo Clock. Price..... $16.49

Nothing better for timekeeping qualities manufactured in clocks than the ones illustrated and described on these pages. Each one represents a wonderful saving compared with what others ask. Send for our special Clock Catalog if you desire the highest grade and artistic design in hall clocks. French crystal, solid mahogany, genuine marble, genuine onyx, ormolu gold and other styles. Restricted space will not allow illustrating and quoting these types in this catalog.

The Lexington Eight-Day Mantel Clock.

$4.55

$4.55 for this clock exactly as illustrated, exactly as described, means selling high grade clocks at unheard of prices. Don't compare this clock with clocks sold by others at $6.00, $7.00 and $8.00; compare with clocks offered at $9.00 and $10.00. This mantel clock runs eight days with one winding. Strikes the half hours on a brass bell and the full hours on a beautifully toned wire cathedral gong. THE DIMENSIONS: Clock stands 11 inches high, 17 inches wide at base and 7½ inches deep. Large, massive and most attractive. The case is made of wood treated by a secret process to imitate black Italian marble and blue Mexican onyx. The feet, side ornaments, top and bottom of front columns are of hard metal heavily plated. The contrast of the gilt finish and the black marble is most pleasing.

The dial is elaborate and ornate, being a new perforated rococo design, 5¾ inches in diameter; the dial sash is fitted with a heavy glass.

The movement is the most important feature of any clock. In this clock we have fitted our special anti-friction movement. All friction has been reduced to a minimum. All pivots are polished, fine metal pendulum, latest French verge escapement, accurately run and timed before being fitted into the case. The parts are made of roll tempered brass and oil tempered steel.

We insure this clock. With every one of these clocks we send our written binding five-year guarantee that protects you for this term of years against faulty material or workmanship. Never before has such an offer been made by any concern and it is only possible because we know the attractive contract we have for this our Lexington Mantel Clock. Weight of clock, boxed, about 20 pounds.

No. 5F9318 The Lexington Mantel Clock. Price..... $4.55

The movement is one of the best that this company produces, runs eight days, strikes the hours and half hours on a cathedral gong; has double sunk enameled dial with exposed jewel escapement. Boxed, ready for shipment, weighs 38 pounds. Price **$12.98**

Beautiful Mantel Clock. The New Idea in Clock Building.

$4.95

Look at its graceful lines, its antique appearance, yet massive and substantial. Stands 12½ inches high, 19½ inches wide, 6¼ inches deep. The case is constructed of black and dark brown mottled enamel, kiln dried and burnt hard on wood to imitate black marble and Mexican onyx, highly polished in every part, no rough edges, no exposed seams. It is further improved and beautified by rich gilded metal ornaments on sides and front; also fitted with solid gilded metal feet. The dial is of rich gilded metal, perforated in rococo design; plain Arabic numerals, easily read at a distance. The movement runs eight days; strikes the hours on a cathedral gong and half hours on a sweet toned bell; the works are made of hard rolled extra tough brass and oil tempered steel parts. Our five-year guarantee to you means a lifetime, for if the clock will run five years and run well, it positively will run your natural lifetime if given proper attention. This means an insurance and protection such as you can receive nowhere else. Go where you like, wholesale or retail, and at this price you will find that we are saving you from $3.00 to $5.00 on your purchase. Boxed ready for shipment, weighs 22 pounds. Guaranteed for five years.

NOTHING BETTER for timekeeping qualities manufactured in clocks than the ones illustrated and described on these pages. Each one represents a wonderful saving compared with what others ask. Send for our special Clock Catalog if you desire the highest grade and artistic designs in hall clocks, French crystal, solid mahogany, genuine marble, genuine onyx, ormolu gold and other styles. Restricted space will not allow illustrating and quoting these types in this catalog.

$5.98 FOR THIS GUARANTEED UP TO DATE CLOCK

GUARANTEED FOR FIVE YEARS.

RUNS EIGHT DAYS WITH ONE WINDING

STRIKES THE HOURS ON A BEAUTIFUL TONED GONG AND HALF HOURS ON A NICKEL CUP BELL.

THE CASE, as illustration shows, is something original and entirely new, imitating the facade and general outline of an ancient Greek temple; is made of wood, enameled to imitate black Italian marble and Mexican onyx. Beautiful metal ornaments embellish the bottoms and tops of columns, feet and top of facade of the case. The dial is new, being a rococo design, perforated, allowing the numerals to stand out prominent and clear from an ivory background. The hands are of the fleur de lis Louis XIV style.

THE MOVEMENT, according to our opinion, is one of the most essential features of a clock. This movement is made of solid brass and oil tempered steel, the mainsprings are agate drawn, the pivots and pinions have all been polished, each one thoroughly timed and adjusted, both in and out of the frame.

THE FINISH of this clock is remarkable. A piece of Canton flannel slightly moistened with oil and gently rubbed over the surface every once in a while, say about nine months or a year, will keep this clock as bright as when new. This clock surely would grace any parlor, ornamental as well as practical. Stands at highest point 12½ inches, 17¾ inches wide and 5½ inches deep; is different from most of the mantel clocks now being sold. You can adjust this clock from the front, and never need touch the back or tamper with the works.

OUR GUARANTEE. With this clock we send our written binding guarantee that protects and insures you against defective material and workmanship for a term of five years.

THIS CLOCK in its entirety is American manufactured, made here in the United States by one of the five great clock companies. We cannot divulge the maker's name on account of the ridiculously close price at which we are offering these goods. They sell the same goods to wholesale jewelers at a price that would astonish the retailer, as compared with what we sell it for. Clock, boxed ready for shipment, weighs about 25 pounds.

No. 5F9342 Eight-Day Mantel Clock. Price **$5.98**

MANTEL CLOCKS FOR THE PARLOR OR DINING R AT ASTONISHINGLY LOW PR

Directions for Adjusting and About Striking, Etc., With Each Clock. A Child Can Follow These Dire

$3.94 FOR THIS VERY HANDSOME WOOD MANTEL CLOCK.

Stands 12¾ Inches High, 17 Inches Wide at Base. Called STAR OF THE NORTH

The movement is a good one. Runs eight days with one winding, strikes the hours on a cathedral gong and half hours on a cup bell. It will last you for years. This clock is manufactured with the idea of producing something ornate, attractive and large for little money. Never has such a clock value been offered before. Note the ornamentation: Six beautiful columns ornament the front of the clock and handsome metal ornaments are fixed on its sides. It is equipped with fine metal feet. The clock is actually worth double what we ask; any store would ask from $6.00 to $10.00 for it. Weight, boxed ready for shipment, about 20 pounds.

No. 5F9304 Price **$3.94**

$4.22 LADY ISABELLE EIGHT-DAY MANTEL CLOCK.

THINK OF IT!

We will send you this specially made, rich appearing eight-day striking mantel clock for one-half of what a similar clock would sell the world over. The ornamentation on this clock is one of its most attractive features. It consists of two side ornaments, top and bottom capped columns, feet and front ornaments. The dial is simple but rich in style. 5¾ inches in diameter. Dial sash fitted with heavy glass.

The movement fitted in the Lady Isabelle Clock is the best clock movement we know of and is made after our own ideas on the new anti-friction principle, friction being reduced to a minimum. It runs eight days with one winding. Strikes the hours on a beautifully toned cathedral wire gong and the half hours on a brass cup bell. All parts are oil tempered, pivots all highly polished. The newest French verge escapement, metal pendulum. The case is most attractive, but the illustration does not begin to show the coloring and brass so as to give a full idea of its beauty. Stands 11 inches high, 16¼ inches wide at base, 7 inches deep, of the Corinthian style, secretly treated wood covered with hard enamel, guaranteed not to warp, chip or peel off. Comes in black and variegated colors to imitate green onyx and Italian black marble. This clock is covered by our five-year guarantee. We enclose it with every one sold and it amply protects and insures you against defective material or workmanship in this clock for a term of five years. Shipping weight, 20 pounds. **$4.22**

$5.32 FOR THIS HANDSOME COMBINATION MET WOOD MANTEL CLOCK.

This mantel clock is a fine timer. Manufactured by the Gilbert Clock Co., runs for eight days with one winding and strikes the hours and half hours on a curfew bell. The curfew bell is exposed on the top of the clock. It is made of metal, beautifully plated, thus producing one of the handsomest clocks manufactured. The case, including the curfew bell, stands 17½ inches high; width at base, 16½ inches. With the exception of the curfew bell part, this clock is manufactured of the finest kiln dried wood, beautifully enameled to imitate black Italian marble and green onyx. Note the ornamentation, the beautiful gilded metal feet, the handsome rococo sash surrounding the dial and the delicate scroll work on the facade of the clock. The movement is one that we can highly recommend, manufactured by the Gilbert Clock Co. Every clock user should be familiar with this great clockmaker's name. The parts are of the finest brass and hardened steel, properly timed and adjusted before it leaves the factory. We warrant it to reach destination in perfect order. Weight of clock, boxed ready for shipment, about 20 pounds. **$5.32**

OUR BICYCLES ARE THE WORLD'S BE

Our Napoleon and Elgin King Bicycles are famous names in bicycle history. For 1911 they show great improvements over previous models, while their prices have been steadily reduced. The Peerless, an even higher grade model introduced by us three seasons ago, gained instant popularity because its equipment embraces every successful late bicycle improvement and the materials used in its construction are the highest grade.

Our 1911 models show many important improvements. The full curved fork design, the upright head of the frame, the increased length of wheel base and the improved high grade puncture proof guaranteed America tires are improved features of merit found in our 1911 models, yet our prices remain the same because of tremendous manufacturing facilities and economies of manufacture. These prices are based on only one profit above our factory cost.

OUR LIBERAL TEN DAYS' TRIAL OFFER

To convince you that our bicycles are the best made, make this amazingly liberal offer: Order one of our new Peerless, Napoleon or Elgin King Bicycles, ride it for ten days on all kinds of roads, put it to any test you desire, compare with any bicycle costing from $5.00 to $25.00 more elsewhere and if you are not then satisfied that it is the best bicycle you can buy for the money, send it back to us and we will return your money and any transportation charges you paid.

OUR WRITTEN BINDING GUARANTEE

A written binding guarantee is given with every bicycle sell, guaranteeing to replace or repair free any defect in workmanship or material for a term of two years.

Our Improved Peerless Coaster Brake

A simple, automatic, improved device, the finest of its kind. Safer and more positive in action and neater in appearance than any other brake. Works without side arm, spring lever or other complicated parts and is no larger than an ordinary rear hub, weighing only 1½ pounds. Can be furnished with any of our bicycles at an additional price of only $3.00. For full description see page 862.

Our Great America Tires

Our greatly improved America Tires are famous for durability, resiliency, fast easy riding and practically puncture proof qualities. The finest and most serviceable single tires sold today. Furnished as equipment with all our bicycles except the Kenwood and Juvenile models. Sold under unlimited guarantee to repair or replace without charge if tire defective in workmanship or material, regardless of time or service. Price, per pair, $4.10. For full description of tires see page 861.

OUR FAMOUS RED HEAD ELGIN KING BICYCLE

A HIGH GRADE BICYCLE THROUGHOUT. SHOWS MANY NEW IMPROVEMENTS.

One of the most popular models and possibly the best known bicycle on the market today. Second in beauty of appearance and mechanical perfection to our Napoleon and Peerless bicycles. Sold in large numbers, only a few years ago, at $100.00. We have improved every feature used in the construction and equipment of the Elgin King, and yet it is sold at only a fractional part of its former price, due to our well known policy of selling goods from factory to user direct and taking only one profit. Many important improvements shown in our 1911 model make it superior to last season's dependable, up to date model. Its characteristic red head is conspicuous among others everywhere and its high quality is correspondingly well known. Has great depth of color and beauty of finish due to its jet black frame with red head and seat post mast beautifully enameled and baked. A good reliable wheel, recommended to those who wish to save the slight difference in price between this bicycle and our Napoleon or Peerless models. Sold under same binding guarantee of quality and as given with our other bicycles. Equipped with our wonderfully resilient, practically nondestructible, self healing, puncture proof America Tires. A most satisfactory bicycle.

$14.95

IMPROVED FEATURES IN OUR CELEBRATED HIGH GRADE ELGIN KING

IMPROVED ELGIN KING HANGER BRACKET ATTACHMENT.

Note the improved, specially designed hanger bracket attachment furnished on our 1911 model Elgin King Bicycle. Illustration shows detailed sectional view of this dustproof adjustable four-lug all steel ball bearing device. Frame is reinforced by lugs extending several inches into tubing, insuring perfect alignment of bearings, driving chain and all running gears, hence balls run easily and cranks revolve with practically no exertion. Readily apparent that the most vital part of the bicycle, one receiving the most strain, is greatly strengthened by this additional reinforcement. Cups are turned from solid bar steel and finely polished, of quality extra large, long lived balls used, carefully made Star Retainers. Many other features aid in making the Elgin King an entirely satisfactory bicycle, one that will last a natural lifetime.

ARMLESS PEERLESS COASTER BRAKE.

Specify a coaster brake on your next bicycle order. You will never regret it. Has been the greatest factor in restoring the bicycle to popularity. Enables one to cover the same distance with half the exertion. Greatly increases the joys and comforts of cycling. Invest only $3.00 additional to the price of an Elgin King Bicycle and get a coaster model that will give you twice the satisfaction.

Our wonderful Armless Peerless Coaster Brake is no larger than an ordinary rear hub, but is stronger, lighter, simpler and more durable than any other brake. Weighs only 25 ounces. Embodies every good feature found in other brakes, without their defects. Be sure to read the full description of this wonderful brake and our unheard of guarantee found on page 862.

NEWLY DESIGNED FORK CROWN.

An improved, specially shaped fork crown, one of the lightest and handsomest ever built. Furnished on our improved 1911 model Elgin King Bicycle; all steel; made from drop forging, which is conceded to be many times as strong and durable as cast crowns used on average medium priced bicycles. Emphatically proves we have spared neither money or effort in maintaining high standard of all parts used in Elgin King construction. Otherwise we could not give our binding guarantee on this bicycle.

If you intend buying a bicycle we would recommend that you buy our improved 1911 model Elgin King, if you do not care to pay the slight difference in price for our Napoleon or Peerless models. Order a famous Red Head Elgin King Bicycle, use it ten days, and if not absolutely satisfied, return it to us and we will return your money and any charges you paid.

SPECIFICATIONS OF OUR FAMOUS RED HEAD ELGIN KING BICYCLE.

FRAME—Size 20, 22 or 24-inch, as desired. Made of 1-inch, 20-gauge, best quality seamless cold drawn steel tubing, finished flush at all joints. The construction of this frame are mechanically correct. Its construction is such as to equalize throughout all weight and strain. There is absolutely no chance of this frame being out of alignment or buckling, and it is specially designed for the use of the Coaster Brake.

FORK—Fitted with heavy square forged crown. We show an illustration on this page.

WHEELS—Standard 28-inch, fitted with the celebrated straight center, specially constructed Elgin King guaranteed hub, which is conceded to be one of the finest hubs made.

RIMS—Made of selected one-piece rock elm, by the Mutual Rim Co., conceded to be the best manufacturers of high grade rims. All rims are enameled with red center, with [illegible] delicately outlined with a gold stripe to match the red head and red center.

SPOKES—Manufactured by the Birmingham Needle Co., and laced according to our special method, which insures the wheels on an Elgin King Bicycle never getting out of true.

BEARINGS—Extra large size, turned from the solid bar, and tempered. We use no bearings in our bicycles. The bearings are all tested by micrometer and are guaranteed accurate to the one-thousandth part of an inch. The bearings are all dustproof, effective features which insures their lasting and easy running qualities.

SPROCKET—Handsome design, as shown in the above illustration. Stamped from [illegible] steel boiler plate, finely finished and heavily nickel plated.

HANGER—The celebrated one-piece Duplex hanger, the simplest and strongest hanger [illegible] with 7-inch one-piece drop forged and tempered steel cranks.

PEDALS—Elgin King specially constructed rat trap pedals. Full ball bearing, [illegible] plated and polished. One of the finest pedals made.

SADDLE—Fine seal grain, full size, oil tanned leather saddle. Nicely padded [illegible] fitting shape.

HANDLE BARS—Adjustable, fitted with Hercules expander, which firmly holds the bar in position, yet can be quickly loosened. The bar is heavily nickel plated on copper, and is fitted with the best quality laminated leather grips.

TOOL BAG—Made of heavy specially tanned seal grain leather, and contains all necessary tools, such as wrench, pump, oiler, graphite and tire outfit.

TIRES—Our Elgin King Bicycles are equipped with our great America Tires, the newest and best single tube tires on the market, the manufacture and sale of which are controlled exclusively by us. See page 861 for full description of the America Tire.

GEAR—81-gear is regular equipment, and is always furnished unless otherwise specified. While we can furnish 72 or 91-gear upon order, experience has long since demonstrated that 81-gear, with 26-tooth front and a 9-tooth rear sprocket, gives by far the best results and is generally used.

FINISH—The finish of the Elgin King Bicycle is fully up to the standard of the other sterling qualities of this bicycle. It is furnished with a red head and red center tube. The balance of the frame is enameled in jet black. It is unquestionably one of the finest and most handsomely finished bicycles on the market today, and second only to our improved Peerless and Napoleon models. The enormous success attained by our Elgin King Bicycle has caused many manufacturers to imitate it in finish but there is only one Elgin King Bicycle, and while there are others that are enameled to imitate it, there is no bicycle that looks just like the Elgin King, or that will give you the satisfaction and wear that the genuine Elgin King Bicycle will. The frame is enameled with four coats of Eclipse American enamel, baked under high temperature in a dustproof oven. The head and center tube, as shown in illustration, are enameled in a rich vermilion red, which forms a handsome contrast with the jet black. The red head is further offset by graceful darts which extend on the upper and lower tubes, delicately outlined with a gold stripe.

19F1235 **Elgin King, Roadster Model.** Weight, packed for shipment, about 50 pounds. Price.....$14.95
19F1236 **Elgin King, Coaster Model.** Equipped with our new Peerless Coaster Brake. Wt., packed for shipment, about 50 lbs. Price. 17.95

OUR CELEBRATED 1911 MODEL NAPOLEON BICYCLE

OUR NAPOLEON BICYCLE needs no introduction. From the earliest days of cycling it has maintained, until the recent introduction of our matchless Peerless model, its standing as the leading high grade bicycle. Today it is second only to the wonderful Peerless. A comparison of the 1911 model bicycle with the early Napoleon models shows great changes. Improved fishmouth frame reinforcements, new design fork and crown, latest reinforced seat post cluster, improved design saddle, pedals, grips and handle bars and, ev important, the improved wonderful Armless Peerless Coaster Brake improved unequaled practically puncture proof self healing Ameri (the two leading features of improved bicycle construction of the co found on the 1911 model Napoleon, which is sold at only a fraction of its early cost, are only a few of the points of superiority that the purchaser of the 1911 model

Head Construction.

Ordinary Construction.

Our Construction, with mechanically correct long fishmouth reinforcements.

A bicycle is no stronger than its weakest part. The illustration tells its own story of the difference between our making of bicycle heads and ordinary head construction. The heavy seamless carbon steel tube with brazed instead of punched lugs, fitted with flaring ends offering greater brazing surface, gives our construction twice the ordinary strength. The long lug arms extend several inches into tubes, distribute strain of sudden wrench or heavy fall and prevent concentration of strain. Ordinary plain heads are not desirable, being simply bent together and brazed and cannot be reinforced. This expensive construction is justified by the importance of this part of the bicycle.

Great America Tires.

A most important part bicycle equipment. Bear brunt of the work. Our America Tires have sprun instant popularity, owing t practically puncture proof destructible, self healing q Made of several layers o Sea Island cotton and armor fabric, combined with other layers washed upper river Para rubber. Our approved method of slow v ing insures a properly constructed tire. Rubber air tube is ch treated by secret process, giving it practically puncture proof healing qualities. Improved new nonskid link chain tread, the mos tical and scientific tread ever used on a bicycle. As nearly nonde ble as a bicycle tire can be made. Practically 90 per cent of pu avoidable with this tire. Furnished as regular equipment wit Napoleon bicycle. For full description and illustration of this wo tire see page 861.

Seat Post Cluster.

Strongest, finest appearing and most expensive seat post cluster made. Ordinary method is drilling hole and pushing bolt through and locking with washers and nuts. Our improved process provides for insertion of special all steel tube in cluster. Cluster is then carefully welded, making it a part of frame; through this an all steel nickel plated clamp bolt extends right through cluster. Two strong shoulders on two outer surfaces of tube take brunt of compression from frame so that with bolt carefully tightened it acts not only as reinforcement to frame part, but also tightens seat post and prevents possible turning. Ordinary internal expanding seat post masts cannot readily be tightened to keep seat post from turning under pressure. Seat post is made of finest drop forged steel beautifully nickel plated and polished.

Superior Napoleon Hubs.

One of the strongest and most satisfactory hubs known. A special construction, adopting use of large cones, insuring smooth running qualities. Fitted with latest ball retainers and dustproof devices. Cones ingeniously devised so balls run one-third higher up than ordinarily. Note the three-point contact ball bearing construction. Balls touch cones and cups in three places only, hence the name. Conceded by mechanical experts to be most scientific construction for ball surfaces, insuring longer service and longer wear than any other. Cups and cones are extra heavy and c hardened. Illustration readily shows strength of this hub const Finished from steel drop forgings, finely nickel plated and polis

Tool Bag.

Selected grain leather tool bag complete with good steel wrench, polished brass quick action hand pump, nickel plated oiler, stick of Acme bicycle chain lubricant, and tube of Seroco quick repair tire cement, furnished with every Napoleon bicycle. An attractive leather tool bag ordinarily furnished only on higher priced bicycles.

Your New Bicycle Should Be Equipped With a Coaster Brake

Specify a coaster brake in your next bicycle order. You will never regret it. Your bicycle will be twice as satisfactory. The pleasures of cycling will be enjoyed to the utmost. Coast 25 miles in a 50-mile ride. Enjoy the sensation of descending steep hills without danger of loss of life or limb. You can stop within a few feet. You always have control of your machine. Many a bad accident could be avoided by the use of a coaster brake.

Our Improved Armless Peerless Coaster Brake is small, neat, simple, compact, and entirely automatic. Weighs only 25 ounces. Does not alter appearance of rear hub. Has only about half as many parts as other coaster brakes. Readily adjusted without removing from frame. Costs only $3.00 additional to the catalog price of the bicycle. You take no risk. We guarantee absolute satisfaction or return your money. For full description and illustration of this wonderful brake and our liberal trial offer, see page 862.

Handle Bar

New design all steel drop forged unbreakable Shelby Compensating Handle Bar Stems. Malleable castings are brittle and easily broke made many times stronger and more by our new method forging. Practicall sible to break the with entire weight handle bars. Finel plated and polished

Improved Faultless Bearings.

The bearings are the heart of the bicycle. Faultless bearings are well named. Made to give absolute satisfaction. Cups made from solid tool steel bar, tempered, select, perfectly round hardened steel balls which will last a natural lifetime. Constructed mechanically perfect, being dust and dirt proof, greatly reducing friction. Guaranteed true to one-thousandth of an inch by micrometer tests, insuring perfect alignment of ball races and a reliable easy running bicycle. Improve with age, working even more smoothly as they get older. Made of heavier gauge material than ordinarily and containing no soft steel, they are the best bearings made.

Specially Improved Napoleon Pedals.

Note the improved, specially full ball bearing, high grade rat tra furnished as Napoleon equipment, trated. Have practically no supe finish, wearing and easy running Pedal can be readily tested by spinn comparing with any other as regards appearance and workmanship. Ha sides, long pedal pin of great extra large balls and extra width between braces and bearings, e pressure from foot. Only other pedal made equal or superior is brated Peerless pedal.

Improved Napoleon Diamond Hanger.

Improved model diamond drop forged one-piece all steel hanger. Diamond shaped cranks made from full crucible stock, all cones turned from solid bar. Sprocket secured to cranks by stationary cones acting as self adjusting locknut. Small lug built into right crank engages sprocket and gives rider greatest possible driving power and absolutely prevents sprocket from loosening. Sprocket cannot possibly ever become disengaged. Durability and easy running qualities of our improved 1911 Napoleon model greatly due to our hanger construction. Impossible to get hanger out of alignment. Cranks can readily be removed from frame without removing sprocket. Cranks ordinarily made by drawing temper from drop forging, softening crank so steel is easily machined, drilled and threaded and then again tempered and nickel plated ready for use. Napoleon hangers made without softening by specially designed machines and specially tempered steel tools. Forgings are always weakened by softening. Our process gives cranks great natural strength and uniform temper. An expensive process, the most up to date and reliable.

Guaranteed Chains.

Do not pay $5.00 to $20.00 more for your bicycle because you want it equipped with roller chain. Not furnished as regular equipment, their size rendering them impractical. They will not roll and are rather being made of many parts. Chain supplied on our regular bicycle best bicycle chain made. Made by Duckworth Chain Mfg. Co., meaning chain perfection. Guaranteed tested strength of 1,200 po chain. Roller chain can be supplied if desired at an additional $1.00 more than the catalog price of the bicycle.

Napoleon Equipment.

Every feature of the equipment furnished with our 1911 model N bicycle is up to date in design and is made only of the best grade by skillful workmen. The construction of the frame, etc., as desc this page, shows the same careful selection of improved desig material and workmanship. Nowhere save in our improved 1911 model will be found as good construction and as high class an equ We would recommend, however, that for the slight additional ch purchase our Peerless bicycle, as it shows an even finer grade of tion and an even superior line of equipment than we can afford to on our Napoleon model. The construction of our Napoleon bicycle equipment are practically identical with the construction and ment of the standard high grade bicycles made today, while Perl struction and equipment is absolutely unequaled in bicycle history

OUR TEN DAYS' TRIAL OFFER. Order one of our Napoleon Bicycles, ride it for ten days, subject it to any tests you see fit, and if you do not find it al satisfactory and the best value obtainable for your money, return it to us and we will return your money and any cha have paid.

Digitized by Google

Specifications of Our New Improved 1911 Napoleon Bicycle

FRAME—20, 22 or 24-inch. Made of the highest quality 1-inch 20-gauge Shelby seamless drawn tubing, finished flush at every joint. All joints are doubly reinforced with an inside tube or sleeve, which greatly increases the strength and makes this wheel almost again as strong as wheels of ordinary construction offered in competition, making it specially practical for use of coaster brake.

FRONT FORK—Exceptionally durable, practical and attractive fork, with drop forged fork crown beautifully polished and nickel plated on copper. See above illustration.

WHEELS—Built with standard No. 6 spokes, laced according to our improved method, which insures long wear. Rims are made of one-piece rock elm, handsomely enameled and striped to match frame, with blue centers and black sides.

HUBS—Straight center genuine Napoleon improved specially constructed long distance wearproof hubs, heavily nickel plated, with large hardened steel bearings, cups and cones, which positively insure long wearing qualities.

HANGER—Improved Twentieth Century Diamond one-piece drop forged hanger with 7-inch steel crank, fitted with Starr ball retainers. First quality in every particular and one of the best and easiest running hangers ever placed in a bicycle.

TIRES—Equipped with our great America tires, the most phenomenal value ever offered in single tube tires; practically indestructible and the nearest puncture proof tires made. For full information regarding our great America tires see page 861.

PEDALS—Fitted with the well known new model Napoleon specially constructed full ball bearing high grade rat trap service pedals.

HANDLE BARS—Famous extra wide curved Ideal type. Full adjustable forward extension with combination expander which holds handle bars firmly in position, at the same time allowing the bar to be quickly released to allow changes. Forward extension stem positively insures a more comfortable and easier riding position than any other type of bar.

SADDLE—Full size extra heavy selected leather saddle, specially tanned, finely padded and finished. Guaranteed to hold its shape. Fitted with adjustable clamp. A quality saddle in every particular.

GEAR—81-gear is our regular equipment. We can furnish 72 or 91-gear upon request. Long experience has proven that 81-gear, with 26-tooth front and 9-tooth rear, gives the best results and is most universally used.

TOOL BAG AND TOOLS—Bag made of heavy specially tanned grain leather, as illustrated on previous page. Complete with all the necessary tools, such as wrench, pump, oiler, repair outfit, etc.

FINISH—Our New Improved 1911 Napoleon is one of the finest finished bicycles on the market. It is only surpassed by our New Model Peerless. Handsomely enameled in a rich jet black, with delicate artistic double panel gold stripe which beautifully offsets its jet black body. It is further decorated with heavy nickel plated fork crown, handle bar and stem, seat post stem, hanger, sprockets and hubs. This bicycle is specially finished in several coats of the highest grade of anti-rust enamel, hand rubbed, which gives it a finish found only in our Napoleon and Peerless Bicycles. The rims are further decorated with black sides with a broad blue stripe in center to match blue in name plate, as illustrated above.

No. 19F1243 Our New Improved 1911 Napoleon Bicycle. Shipping weight, about 50 pounds. Price **$15.95**

No. 19F1244 Our New Improved 1911 Napoleon Bicycle. Fitted with our improved Peerless Coaster Brake. Shipping weight, about 50 pounds. Price **18.95**

Specifications of Our Latest 1911 Model Peerless Bicycle

FRAME—20, 22 or 24-inch. Made of highest grade 1-inch 19-gauge Shelby cold drawn seamless steel tubing, all joints finished smooth and doubly reinforced by extra long pressed fishmouth steel reinforcements. Design and outline mechanically correct. Note the long wheel base. This construction absorbs all vibration; strain, wear and tear distributed equally throughout frame. Doubly reinforced and specially designed for use of coaster brake.

FRONT FORK—Equipped with our specially designed ribbed fork and triple truss Keystone crown, a new creation. Practically again as strong as ordinary forks.

WHEELS—Made with finest grade Excelsior Needle Co.'s double swaged Everbright spokes, thirty-two spokes in front wheel, thirty-six in rear. Best grade Mutual Rim Co.'s one-piece rock elm rims, enameled in Brewster green and gold, matching frame. All wheels 28 inches in diameter.

HUBS—Fitted with our new absolutely superior spindle shaped drop forged Peerless hubs. See complete description on opposite page.

HANGER—Duplex diamond all steel one-piece hanger. Extra large 2¼-inch cups for heavy steel balls and extra large cones. Fitted with 7-inch one-piece tempered steel diamond cranks, beautifully nickel plated, polished and specially designed. Reduced center sprocket, pressed from finest cold rolled steel; one of the lightest, strongest and handsomest sprockets ever introduced.

TIRES—Equipped with our latest improved America single tube tires, the strongest, toughest, easiest riding tires sold. See page 861 for complete description of this wonderful tire.

PEDALS—New Peerless improved adjustable reinforced center durable dustproof rat trap pedals, full ball bearing hardened steel cones, turned axles, finely nickel plated and polished. Absolutely noiseless; long life.

HANDLE BARS—Equipped with extra wide 2¾-inch forward extension adjustable and 3¾-inch drop Ideal handle bars, ⅞ inch in diameter, fully adjustable and fitted with Hercules internal expander, which guarantees rigidity of position. Heavily nickel plated over copper and highly polished. Equipped with sewed leather cowhide grips. Finest handle bar ever placed on a bicycle as regular equipment.

SADDLE—Specially constructed triple coil spiral spring saddle, made of well tanned selected grain leather, finely shaped and padded. Best tempered steel spiral vibration absorbing springs.

GEAR—81-gear is our regular equipment. Furnished in 72 and 91-gear upon request. 81-gear gives the best of satisfaction for general use and is most universally used.

TOOL BAG AND TOOLS—Finest oil tanned grain leather tool bag, handsomely embossed, with ends doubly reinforced to keep shape indefinitely. Complete with fine drop forged wrench, quick action brass hand pump, tube of quick tire repair cement, oiler and graphite. See opposite page.

FINISH—The finest and most durable finish ever used on a bicycle. Four coats of best anti-rust slow baked Eclipse enamel, hand rubbed to piano polish. Enameled in beautiful light Brewster green with fancy gold sunburst head, with three darts on upper and lower mast, and fancy gold seat post mast with darts to match head. Rims enameled with gold center and green sides to match frame. The contrasting heavily nickel plated parts give this bicycle a positively unequaled elegant and stylish appearance.

UR UNEQUALED ARTISTIC MODEL PEERLESS BICYCLE

ur Peerless Bicycle embodies every correct feature found in a high bicycle today and also shows improvements not found on any other Every feature has been carefully designed and planned by experts bine in one bicycle the finest material, the most skilled construc- and the most up to date ideas known to mechanical experts. The rations on this page show a few of these many features. Frame internal reinforcements, hanger perfection, minute exactness of fork and crown, handle bars, saddle, pedals and grips, in fact, part has been conscientiously selected to give our Peerless Bicycles construction and equipment conceivable. These are all features aid in giving this bicycle its wonderful popularity and its enviable tion. Unequaled factory facilities, equipment, and economies of construction due to the installation of the finest automatic machinery, have secured even greater results in the construction of this model than in our famous Napoleon and celebrated Elgin King models. Although these two last named bicycles are splendid models and of unequaled value, for the slight additional charge we recommend that you order one of our unequaled artistic 1911 model Peerless Bicycles. Remember, this bicycle is sold under our unequaled liberal ten days' trial offer. If at the end of ten days' riding on all sorts of roads, under all kinds of conditions, and after having subjected the bicycle to all tests imaginable, you are not fully satisfied that it is not only the greatest value you could get for your money, but also the finest bicycle you could buy at any price, return it to us and we will return your money and any transportation charges you may have paid.

Peerless Reinforcements.

Note the unequaled pressed steel reinforcements in every joint, as shown in the illustration. These specially designed double reinforcements, found only in our bicycles, both strengthen the frame and equalize all vibration. Every reinforcement extends several inches into the tubes, making the improved Peerless Bicycle the most comfortable bicycle made and especially adapted for our Peerless Coaster Brake.

Wonderful Peerless Hanger.

Our strong simple hanger construction is apparent in the illustration. The one-piece crank and hanger, made from solid steel drop forgings, is finished and designed to give the greatest possible strength. The ordinary method of crank making softens the metal so that it can be more readily machined, drill- threaded, and then tempered and nickel plated. Our Peer- Crank and Hanger is finished with the aid of specially tem- steel tools without drawing the spring temper, thus giving greater natural strength. A special machine takes the rough tempered steel shaft, performs several different opera- and turns out a finished hanger, drilled, threaded and trued, for nickel plating and placing on bicycle. This also produces easiest, easiest running crank and hanger made.

Unapproachable Fork and Crown Construction.

Our unequaled Peerless fork and crown construction is featured by our ribbed method of making forks and our scientific Keystone arch crown. Fork is designed to be amply strong to withstand severest usage of any unusual strain or twist when getting out of a rut, etc. Most attractive and nearest mechanically perfect bicycle fork ever made. Subject the bicycle to the most severe tests imaginable; you cannot bend, twist or throw the forks out of alignment, even with all the rider's strength exerted in the effort. Furnished only on our 1911 Peerless model.

Our Great America Tires.

Furnished on every Peerless Bicycle, giving it the finest bicycle tire equipment ever used. Destined to be more popular than ever this season, having greatly improved practically puncture proof self healing qualities. Extra long genuine Schraeder Valve, the only perfect valve made. Made of finest Sea Island cotton fabric and choicest washed upper river Para rubber. New link chain, non-skid tread, the most practical and scientific tread ever made. For full description of this wonderful tire see page 861.

oidal Sprockets.

An exclusive design, a strong feature of Peerless construction. Guaranteed absolutely satisfactory by peculiar teeth curves and per- ting. Threads can- stripped no matter hard rider back pedals, area of sprockets three times greater the ordinary kind. bicycle sprockets are rect in mechanical and are not equipped hange.

You Should Buy a Bicycle Equipped With Coaster Brake

Specify a Coaster Brake in your next bicycle order and make the pleasures of cycling complete. The coaster brake has unquestionably been the greatest factor in restoring the bicycle to popularity. You can coast 25 miles in a 50-mile ride. Steep hills will be no menace. Enjoy the pleasant sensation of coasting along on level ground or down steep hills. You have a feeling of confidence in knowing that you have complete control over your bicycle and can avoid danger to others by being able to stop within a few feet. Costs only $3.00 in addition to the price of our regular roadster model. Small, compact, easily attached, and easily taken apart and assembled again. Does not alter appearance of bicycle. Weighs only 25 ounces. To coast, simply cease pedaling. It never fails you. Use a coaster brake on your bicycle for sixty days and if not fully satisfied return rear wheel to us and we will send you in exchange a regular rear wheel and the difference in price of the wheels, $3.00.

Quality Grips.

Finest hand sewed leather cowhide grips furnished on handle bars of our new model Peerless Bicycle. Finely finished, made of best oil tanned leather. Most expensive, most comfortable and easiest grips ever used on a bicycle. Leather covering of grip is first stitched and then turned inside out, leaving seam on inside cover. Cover is drawn over wooden core, seams fitting into groove in wood, making a perfectly smooth outside. Open end has a fine nickel plated ferrule.

Faultless Bearings.

Faultless Bearings will last a lifetime. They are provided with cups turned from solid tool and with perfect round hard- balls. Ball surfaces are most ground, giving them a smooth surface. Ordinary bearings are stampings, simply polished, and left to smoothen their running themselves, thus quickly caus- in bearings and also causing bicycles to run hard even after much riding. Faultless Bearings dust proof and their use greatly reduces friction and wear. true to one-thousandth of an inch by micrometer measure- perfect alignment of ball races and insuring a reliable easy bicycle.

Improved Peerless Hub.

New design, spindle shaped, drop forged, as illustrated. Distinctly different from hubs used on any other bicycle. Body is made from steel drop forgings, turned to shape; cups turned from solid tool steel bar stock, carefully tempered and securely placed in hub body, making the body and cups in two distinct parts. One-piece hubs either do not have body of right degree of toughness and resiliency or else are not hard enough in cups for balls. Cup portion of one-piece hubs cannot be tempered without over tempering flanges, making spoke flanges break out under sudden strain. Peerless Hubs are absolutely new and far superior to any other.

Perfect Frame Construction.

The frame is the foundation of the bicycle. Our Peerless frame has been made so rigid that it cannot be thrown out of alignment. With many bicycles, when ridden on a rough or hilly road with the rider pressing downward on the pedals, the leverage springs the frame and throws the hanger and front sprocket from ⅛ to ½ inch out of alignment with the rear sprocket, the resulting drag upon the sides of chain and sprocket spuds causing the bicycle to run unusually hard. Our Peerless frame will not lose its perfect alignment under a heavy strain, having exceptional strength and rigidity without greatly increasing weight of frame, an exceedingly difficult construction. The illustration herewith shows the contrast between the high grade Peerless construction and ordinary frame construction when subjected to a heavy strain while running. Our frame construction insures ease, comfort, durability and efficiency.

Tool Bag and Tool Equipment.

Beautiful oil tanned grain leather reinforced embossed Tool Bag, with complete equipment consisting of quick action brass hand pump, drop forged steel bicycle wrench, high grade bicycle oiler, stick of Acme Bicycle Chain Graphite and famous Quick Repair Cement Outfit. Furnished only with our improved 1911 model Peerless Bicycle. Ample equipment to make any necessary repairs. Bag presents an unusually fine appearance. Has a double fiber shape retaining reinforcement.

Improved Peerless Pedal Equipment.

Strongest, handsomest and easiest running Bicycle Pedal ever made. Note the unequaled strength of crossbars and side plates. Will stand severest strain. Made from the finest drop forged steel, heavily nickel plated and beautifully polished. Unequaled in workmanship, material and beauty of design. Made especially for our improved 1911 model Peerless Bicycle by the Standard Mfg. Co., a firm whose name means pedal excellence.

OUR TEN DAYS' TRIAL OFFER. Order one of our 1911 model Peerless Bicycles, ride it for ten days, put it to any tests you desire, and if you do not find it absolutely satisfactory and the best value you can get for your money, send it back to us and we will return your money and any transportation charges you may have paid.

TIRES

BICYCLE TIRE VALUES THAT APPEAL TO THE RIDER.

We take practically the entire output of several large factories. Hence our manufacturers were able to purchase vast amou crude rubber at favorable prices. We could not otherwise maintain our low tire prices. We do a larger tire business tha other dealer and always keep in stock only fresh and clean material. Every tire we sell is guaranteed absolutely as described and illustrated. Re description of our Great America Tire on page 861.

$3.10 A PAIR NAPOLEON SINGLE TUBE TIRES.

Best Tire Value Ever Offered at This Price. Finer Construction, Longer Wear and Better Value Than Ever.

Napoleon Tires are well and favorably known. Thousands of bicycle riders using them are best witnesses to their value. Improved construction of this year's Napoleon tires insures their being stronger, tougher, longer wearing and even more resilient than ever before. Greatly increased sales enable us to improve both material and workmanship without raising prices. Note the high grade construction as shown in illustration. Five-piece method used makes practically five different tires vulcanized together.

A—Shows outer tread or friction layer of rubber; thick, heavy and hard to puncture.

B—Fabric woven and sealed together with special vulcanizing compound.

C—Thin layer of pure gum rubber which, when heated, thoroughly vulcanizes both layers next to it into one solid flexible piece.

D—Layer of tough interwoven armor fabric.

E—Airtight, reinforced pure gum inner tube, containing air.

Every part made separately and vulcanized into one combination, making complete tire. Insures excellent and satisfactory construction. We have added a layer of tough, interwoven armor fabric, made of good quality Sea Island cotton and layer of pure gum rubber between the two fabric layers, greatly increasing the resiliency. Our sales of this tire have doubled every season for several years, allowing us to maintain a price so low that we would caution you not to confuse this tire with the average tire sold at this price. Remember, we will gladly repair or replace any defective Napoleon Tire if same is sent to us prepaid for inspection.

No. 19F1808 Improved Napoleon Single Tube Tires. Size, 28x1½ inches. Shipping weight, 6 pounds. Price, per pair..... **$3.10**

Absolutely same construction as larger size, but for use only on boys' or girls' bicycles. In ordering follow instructions for ordering tires as shown on this page.

No. 19F1813 Improved Napoleon Juvenile Tires. Size, 26x1½ inches. Shipping weight, 5 pounds. Price, per pair..... **$3.10**

No. 19F1815 Improved Napoleon Juvenile Tires. Size, 24x1½ inches. Shiping weight, 4 pounds. Price, per pair..... **$3.10**

$2.85 A PAIR POPULAR KENWOOD SINGLE T TIRES.

Resilient. Easy Riding. Wear Resisting Tread.

Our popular Kenwood Tires, sold for yea great success. Do not confuse this tire wit nary tires sold at this price. Although a phenomenally low figure, they contain claimed rubber, mineral compound or canvas, substitutions due to the unusuall price of pure gum rubber and the scar Sea Island cotton. Made only of pure gu ber, selected Sea Island cotton and best quality friction fabric, therefore anteed perfect in every respect. Will give an amount of hard service foun narily only in greatly higher priced tires. We recommend, however, th read the description of our Napoleon and especially our Great America before buying, as for the slight difference in cost they will give even difference in service. Shipping weight, 5 pounds.

No. 19F1820 Kenwood Tires. Size, 28x1½ inches. Price, per pair..

$7.95 A PAIR IMPROVED GOODYEAR CUSH PNEUMATIC TIRES.

Extra Strong, Wear Resisting, Heavy Tread.

Tremendous popularity and con increasing sales have caused much tion of this tire. The result is many ion pneumatic tires on the market o ing price, none, however, equal to o proved Goodyear, a combination of a matic and a cushion tire. Made e of new rubber and finest Sea Island fabric cut on the bias, insuring th resilient and longest lasting cushi sold today. No heavy, hard pulling tion. Additional layers of cotton protect heavy walls as shown, a proved tread makes it practically p proof. Thickness of walls practical vents nails, tacks, broken glass or from puncturing air tube. Air chamber ¾-inch in diameter, lined with pu ber, runs within heavy walls, insuring exceptionally easy riding tires, so more elastic than ordinary cushion tires and requiring pumping up only twice a season. Shipping weight, 8 pounds.

No. 19F1828 Improved Cushion Pneumatic Tires. Size, 28x1½ inches. Price, per pair.....

Can be attached to any of our bicycles in place of our regular tires additional.

$4.30 A PAIR IMPERIAL DOUBLE TUBE TIRES.

Absolutely Reliable.

Large sales on this tire prove it meets with the satisfaction riders desire from double tube tires. Continual hard service proves its strictly reliable, high grade qualities. Surpassed by no other double tube tire made, regardless of price. Construction is unusually good, the part the first to show signs of wear, the tread, getting special attention. Heavy raised tread aids against punctures. Comfortable riding qualities not affected by heavy service construction. Has high grade pure rubber inner tube. Recommended to those who prefer double tube tire equipment.

No. 19F1846 Imperial Double Tube Tires. Size, 28x1½ or 1¾ inches. Be sure to state size desired. Shipping weight, 5½ pounds. Price, per pair..... **$4.30**

4.10 A PAIR — OUR GREAT AMERICA TIRES

A PHENOMENAL VALUE IN A PRACTICALLY NONDESTRUCTIBLE TIRE. THE NEAREST PUNCTURE PROOF TIRE MADE.

Our Great America Tire is made by an entirely different construction from any used in any other tire and combines all well known features that mean durability, service and satisfaction, such as resiliency and fast easy riding qualities, with many new improvements which place it in a class entirely alone. Made by one of the world's most experienced tire manufacturers. Its tremendous popularity the past few seasons has been won only through merit. Every ounce of it represents both satisfaction and great wear resisting qualities. We confidently believe we have left out nothing of merit. By placing our tremendous tire contracts early our manufacturers bought their raw material at lowest prices. This permits us, despite the increased cost of tire construction, to sell this tire at the phenomenally low price of $4.10 a pair, making it the greatest tire value ever offered. Our aim this season has been not only to maintain the previous high quality, but to even improve upon it. Remember, if this tire is not exactly as illustrated and described we will return your money, together with any transportation charges you paid. See our wonderful guarantee given below.

NOTICE—Ladies' and Men's Bicycles always require 28-inch tires. Do not order tires of a smaller size unless wanted for a Juvenile Bicycle.

DON'T FAIL TO READ OUR WONDERFUL LONG TIME GUARANTEE UNDER WHICH THIS TIRE IS SOLD

This tire has practically puncture proof qualities obtained through a wonderful secret process by which we chemically prepare the inside pure rubber air tube so that practically all punctures are self closing and self healing. The air chamber quickly closing prevents air from escaping if the two layers of armor are punctured. Any pneumatic tire may be punctured, but owing to our secret process and unequaled construction, nails, tacks, glass, broken stones and splinters will not cause the trouble they ordinarily do. Remember, this saves you 90 per cent of ordinary puncture, and although no other high grade tire is guaranteed for more than sixty days, this tire is sold at the phenomenally low price of $4.10 a pair under the most satisfactory, binding and longest term bicycle tire guarantee ever given.

Note the unequaled high grade construction of this wonderful tire, as shown in the illustration. The new link chain nonskid tread shown is the most practical and scientific tread ever made. The heavy side walls are even heavier than those ordinarily used on high grade tires, yet our construction has admittedly enabled us to maintain its wonderful speed, lightness and great resiliency. Note the many layers of Sea Island cotton and armor fabrics and the quantity of finest washed upper river Para rubber, so combined in semi-liquid form that alternate layers of pure rubber and fabric laid one upon the other and thoroughly cemented together make practically one piece. We then employ our improved method of slow vulcanizing, which positively prevents a loss of elasticity and resiliency in the rubber. The rapid method of vulcanizing ordinarily used subjects the tire to an extraordinary heat for a few moments and actually burns the life out of the rubber, causing it to soon lose its resiliency and wear out. No reclaimed rubber whatsoever is used in this tire. Every tire is carefully inspected and tested before leaving our factory.

WE GUARANTEE to absolutely protect every purchaser of America Tires. We hereby agree to replace or repair free of charge any tire which is unsatisfactory through defective material or imperfect workmanship, regardless of length of service. A similar guarantee has never before been given on any bicycle tire, regardless of make or price.

A—Sectional view of complete tire, showing extra thick link chain non-skid tough rubber tread. Note thick side wall.
B—Special thick layer of closely woven armor fabric, chemically treated, practically puncture proof and made from the best quality of Sea Island cotton.
C—Pure gum rubber reinforcing jacket.
D—Tough interwoven puncture proof chemically treated fabric.
E—Pure gum rubber reinforcing jacket.
F—Special two-ply Sea Island closely woven friction fabric.
G—Special layer of closely woven armor fabric, chemically treated, practically puncture proof, made from best quality Sea Island cotton.
H—Best grade pure rubber tube or air chamber, chemically treated.
J—Special flannelette strip vulcanized to tire, which protects the rim side of tire from rim wearing, and having a rough outer side which offers a free surface to which the rim cement can adhere and prevent the tire from creeping.
K—Genuine Universal Schraeder valve.

No. 19F1805 **Great America Tires.** Size, 28x1½ inches. Shipping weight, 6 pounds. Price, per pair..... **$4.10**

3.85 A PAIR — Our Guaranteed Columbia Combination Clincher Tires

For those who prefer double tube clincher style, our Guaranteed Columbia Combination Clincher Tire is the greatest achievement in the development of the bicycle tire since the introduction of the single tube. Experts have long conceded that a prohibitively high price has been the principal reason why the ordinary double clincher style tire has not been more generally used. Our mechanical experts have been engaged for many months in constant experimenting, to perfect a clincher type of tire which would fulfill the most exacting requirements of the cyclist as regard quality, utility and price. Although these experiments put us to great expense, we knew that the great demand for a successful tire of this nature would enable us to manufacture and offer it at a distinct saving in price. Our Columbia Tire is the result. It possesses many advantages over the ordinary single or double tube tire. It is adapted for both G. & J. rims and for the recently perfected single clincher metal lined wood rim, as well as for all steel rims, this adaptability alone giving it a tremendous advantage over the ordinary higher priced double clincher style. The ease and facility of attachment and detachment are conceded, no special tools are required. The use of cement is unnecessary. The inner tube is not exposed in case of puncture, and a satisfactory repair easily made without removing wheel from frame. If the casing has been cut or punctured it can be quickly repaired or vulcanized when necessary, all surfaces being very accessible. The construction of this tire shows the use of high quality materials throughout. The extra heavy wear resisting tread used has been found previously only on the very highest priced tires; its use will in no way detract from its speed, resiliency and life. Several layers of choicest Sea Island cotton are carefully alternated with resilient long lasting pure rubber. Our aim has been to make this tire the most practical and most attractive clincher tire ever made. Its successful adaptability to the G. & J. clincher and the new metal lined wood rim is readily apparent in the illustrations shown herewith. It will absolutely satisfy the requirements demanded of a high grade clincher tire, such as speed, comfort, resiliency, service and, better yet, moderate price. Remember, this wonderfully designed tire is offered at a price far below that asked for most single and double tube tires. So sure are we that our Columbia Combination Clincher Tire, when properly inflated, will absolutely satisfy every requirement demanded of a clincher style of tire, that we ask you to send in your order for a pair under the most liberal longest term bicycle tire guarantee ever made. Don't fail to read this wonderful guarantee shown herewith. We could not make this absolutely unheard of offer if we did not possess the highest confidence in these tires. Shipping weight, per pair, 7 pounds.

GUARANTEE.

To absolutely protect every purchaser of Columbia Combination Clincher Tires we make the following amazingly liberal offer: Send us your order for a pair of these tires, use them for ten days, ride them over all kinds of roads, subject them to all kinds of tests, compare them with the highest priced clincher tires sold, and if you are not then absolutely convinced that they are not only equal to any tires with which you have compared them, but also superior, return them to us and we will return your money and any transportation charges you paid.

TIRE FITTED TO G. & J. RIMS.

TIRE FITTED TO STEEL LINED WOOD RIM.

NOTE—We can furnish Guaranteed Columbia Combination Clincher Tires as part of the equipment of your new bicycle at an additional price of $3.90 to the catalog price of the bicycle fitted with Great America Tires. **In ordering be sure to state size desired.**

No. 19F1800 **Guaranteed Columbia Combination Clincher Tires.** Sizes, 28x1½ or 28x1⅝ inches. Price, per pair..... **$6.85**
No. 19F1801 **Casings only.** Shipping weight, 3 pounds. Price, each **2.49**

$3.50 FOR OUR NEW PEERLESS AUTOMATIC COASTER BRA

THE COASTER BRAKE HAS BEEN THE MOST IMPORTANT FACTOR IN RESTORING THE BICYCLE TO POPULA
OUR WONDERFUL ARMLESS PEERLESS COASTER BRAKE HAS BEEN A MOST IMPORTANT FACTOR IN ESTABLISHING THE SUCCESS OF THE COASTER BRAKE.

OUR NEW PEERLESS COASTER BRAKE.

Our wonderful Armless Peerless Coaster Brake was first introduced three seasons ago, after months of expert testing and experimenting, and the sales of the first season clearly showed that this small, unique, light weight brake, built on new principles of construction, had already eclipsed in popularity the heavy, complicated, clumsy brakes then in use. It revolutionized the coaster brake business, acquired an unequaled reputation, established its merit beyond question and stimulated an almost unbelievable demand for coaster brakes. It has never before happened in the bicycle industry that any coaster brake has secured such immediate prominence on its own merits without the aid of extensive advertising. It is best by test; countless experiments have failed to reveal any weakness in it.

This brake possesses many points of superiority. The heavy weight, cumbersome shape and unwieldy side arm of the old style coaster brakes cause these brakes to run hard and tire the rider. The Armless Peerless Brake is light, simple, compact, and no larger than an ordinary rear hub. It weighs only 25 ounces and is so simply constructed that it contains only about half as many parts as any other coaster brake, yet is so ingeniously constructed that it is absolutely as effective as the heaviest coaster brake. None of its parts will get out of adjustment. A child can take it apart and reassemble it. Its extreme simplicity is readily apparent. It consists of a barrel hub containing a special composition metal shoe resting upon a half screw which works perfectly and silently. A powerful metal brake is automatically brought into play by a slight backward pressure on the pedal, the speed of the wheel being controlled and regulated by the amount of this pressure. It positively will not slip when changing from one operation to another, being positive in its action. Has absolutely no friction in its bearings either when driving or coasting, regardless of speed or steepness of hill.

Hub cannot lock, therefore wheel is always free to go backward or forward. Does its work without aid of springs, levers or side arms, being entirely automatic in action, requiring no special knowledge to operate. Simply pedal forward when you wish to go ahead, and stop pedaling when you wish to coast (the bicycle speeds along, in the latter event, on its own momentum). When you wish to stop, back pedal slightly, and the result is immediate. You can coast 25 miles in a 50-mile ride, hence you cover the same distance with about half the exertion. You can descend the steepest hill with the same ease, speed and comfort with which a level stretch is ridden. A most striking advantage of this brake only is the ability to adjust it without removing from the frame. With any other brake the wheel must first be detached and the chain removed from the sprocket, the result being the loosening of the entire brake adjustment in regulating the adjusting cone.

Note the neat and attractive appearance of this hub when attac frame. Practically no larger than an ordinary rear hub. The old brake with side arm is unsightly in comparison. Put a Peerless C Brake on your old bicycle, or, better yet, buy a Peerless Coaster Bicycle and you will become a more enthusiastic bicycle rider tha before. This brake will prove its worth to you many times on w when the slightest mishap endangers life or limb; in descending a hill, or turning a corner suddenly and finding a team or aut directly in your path. All your strength and skill must be call play at this time, and even then you are not always fortunate enou escape without serious injury unless your bicycle is equipped coaster brake.

So sure are we that this brake will more than fulfill your most ing requirements that we make these most liberal terms: Buy one coaster brake model bicycles, use it sixty days, and if you are no satisfied that it is a lighter, surer, safer and more effective brake th other, superior in every respect, return the rear wheel with brake will express to you, charges prepaid, a regular rear wheel fully eq for your bicycle and will return you $3.00, the difference in price b the Coaster Brake Model and the Roadster Model Bicycles.

We can furnish these hubs complete, drilled for twenty-eight, two or thirty-six spokes, with 7, 8, 9, 10 or 11-tooth sprockets, for 3-16 or ¼-inch chain. **When ordering be sure to specify the num spokes and size of sprocket.** Unless otherwise specified we will ship hub for thirty-six spokes, with a 9-tooth sprocket with 3-16-inch ch

Note—This hub can be attached to any bicycle or fitted on any of our bicycles by any repair man at very slight expense. Thousands of o cles that have been in use for one year or more will be equipped with this wonderful Armless Coaster Brake this season.

GUARANTEED INNER TUBES.

Finest Butt End Tubes.

We have such confidence in the matchless quality of our Inner Tubes, although we sell them at unequaled low prices, that we ask you to give them a trial, with the distinct understanding that every tube must be absolutely satisfactory or you can send it back to us and we will return your money and any charges you paid. Every tube is made under our special specifications from the very finest quality upper river Para rewashed rubber, with double reinforced butt ends and improved standard cloth inserted valve stem construction. The special process used to close the ends is known as the butt end method of closing, and any tube constructed under this method is positively warranted not to blow out. If you have an old bicycle with porous tires, either single or double tube, you can put it in first class riding condition with one or more of these inner tubes.

NAPOLEON GUARANTEED INNER TUBES.

We have sold Napoleon Inner Tubes for many years with the most satisfactory results, and as a consequence they are well and favorably known among cyclists today. Without question the best inner tube that can be made, regardless of price. We have such confidence in the great service this tube will give you that we will cheerfully replace without charge any tube that is blown out. Shipping weight, 11 ounces.

STANDARD FAMILY MEDICINES

Dr. Fletcher's Castoria.

"The kind you have always bought." Every bottle contains 500 drops of Castoria and bears the facsimile signature of Dr. Charles H. Fletcher.

Castoria is truly a wonderful medicine for children. Doctors prescribe it, medical journals recommend it, and millions of mothers are using it daily. It is the quickest remedy known to regulate stomach and bowels of children and it is guaranteed to be absolutely harmless. Children like it. (Unmailable.) Regular price, 35 cents.

No. 8F106 Our price.....**27c**

Laxative Bromo Quinine.

The well known remedy for la grippe and colds. Relieves the cold and also the feverish conditions and headaches in the shortest possible time. Moves bowels gently without griping, aiding expulsion of the poisonous matter from the system. Colds come quickly and this package should be in every home. Full directions in package. The letters L. B. Q. stamped on every tablet proves them to be genuine. Beware of imitations. Shipping weight, 2 ounces. 25 cents everywhere.

No. 8F99 Our price.....**19c**

Foster's Cod Liver Oil Emulsion.

One of the purest, whitest, best and most palatable emulsions made. Guaranteed to be a perfect composition of 40 per cent pure nonfreezing cod liver oil, 15 per cent chemically pure glycerin, 6 grains hypophosphite of lime, 3 grains hypophosphite of soda to every fluid ounce. The preparation is (on account of the ease with which it can be taken) greatly appreciated by those who have taken the old form emulsion of pure cod liver oil, as the odor is nowhere near as perceptible as from preparations.

Cod Liver Oil Emulsion has long been a remedy for the upbuilding of tissues and is combined with hypophosphites which is also largely employed as a tissue upbuilding preparation. It is also a beneficial preparation as a general tonic for those who are run down and in weak condition and for puny children. As fine a product as can be manufactured. (Unmailable.)

No. 8F119 Large $1.00 bottle. Price.**79c**
No. 8F120 50-cent bottle. Price....**39c**

Beef, Iron and Wine.

A Spring Tonic of Quality.

The ideal home tonic, pleasantly aromatized and delightful to the taste. Combines the nutritive constituents of beef with the tonic properties of iron in a fine sherry wine base and contains beef and iron to give the patient the strength that should be derived from a preparation of this nature.

There are all grades and makes of Beef, Iron and Wine on the market, but we assure you this is an exceptionally high class preparation from which you should derive an amount of benefit. Probably as a home tonic than any other ever made. Your money returned if not satisfactory. (All sizes unmailable.)

HOME EYE REMEDIES.

Murine. The World's Standard.

Positive relief for the eyes that need care. Remedies compounded by oculists who have used them for years in successful private practice. They are now the standard eye remedies of the day, favorites alike with the medical and optical professions, as well as in the home as family remedies.

The eye is your most delicate and sensitive organ and should be treated only with remedies of pronounced professional standing. You cannot buy new eyes. The question of price should not be considered when ordering remedies for eye care.

We have supplied the Murine Eye Remedies to our friends for many years with such a great degree of satisfaction to all that we have now discontinued the sale of all other eye remedies than those compounded in the Murine laboratories. These have stood all tests of time and criticism as well as the United States Government Pure Food and Drugs Law. They are fully guaranteed under this law and contain no injurious drugs. Safe in the eyes of infant or adult.

Murine Eye Remedy.

"Two Drops." Liquid Form.

Murine is recommended for red, weak, dull, smarting, watery eyes and for soreness, blurring and itching inside the lids. It is a tonic for all eyes and an aid to those wearing glasses, and a favorite toilet accessory for producing a healthy tone and brilliancy to the eyes. Causes no smarting.

No. 8F100 Our price, per bottle (50-cent size)....(Shipping weight, 6 oz.)....**39c**

California Fig Syrup.

We handle the original and only Genuine Syrup of Figs and Elixir of Senna manufactured by the California Fig Syrup Company, the popular laxative remedy for ills arising from an inactive condition of the kidneys, liver and bowels. Its pleasant taste and mild action make it particularly acceptable to ladies and children. It is highly recommended and endorsed by leading physicians everywhere and is sold in every civilized country in the world. In buying this remedy you get a superior laxative. It is always reliable and seldom fails to give satisfaction. Shipping weight, 12 ounces. (Unmailable.)

No. 8F98 Price.....**42c**

Syrup Hypophosphites Compound.

The ideal tonic for children. Hypophosphites has long been known as an excellent remedy for weak and puny children up to the age of fifteen to sixteen years. This Syrup of Hypophosphites comprises the hypophosphites of potassium, sodium, lime, iron, manganese and quinine. Potassium, sodium and lime serve as a great constructive tonic to bones, nerves and muscle tissues. Manganese and iron supply red color to the blood. Phosphorus as it exists in the medicine forms a large per cent of the different parts of the body and the quinine acts as a tonic, keeping up and improving the strength of the system, toning the appetite and improving the functions of the growing body. One or two bottles of this preparation we believe will greatly benefit the health of any puny child. Your money returned if not satisfactory. (Unmailable.)

Ezuma Asthma Oil.

A well known remedy for the treatment of asthma and asthmatic affections. Ezuma Asthma Oil is not a new remedy, having been tried for several years and with the very best of success. It is a combination of oils to be rubbed upon the chest night and morning, which is absorbed by the skin, relaxes the muscles involved, and rapidly frees the air passages from that choking and wheezing sensation. The remedy penetrates and opens the air cells, making the patient breathe normally and without distress. With an application of Ezuma Oil to the chest before retiring the asthmatic condition easily disappears and you can sleep nights with perfect ease and comfort. If you suffer from asthma, try this remedy. It is guaranteed to relieve you or your money returned. It is harmless and from the testimonials received is a very reliable and satisfactory product. We will cheerfully return your money if at any time it proves unsatisfactory. Charles K. Harris, the well known music publisher, of Chicago, composer of the famous song, "After the Ball," writes, "Ezuma Oil cured me after dozens of other remedies and several of the best doctors of Chicago failed." This is merely one of the hundreds of testimonials. Will you give it a trial? (Unmailable.)

Lysol.

An ideal antiseptic and disinfectant. Lysol has been adopted by the majority of surgeons and physicians and by all the leading hospitals in the United States because of its safety, efficiency and reliability in weak solutions, which are free from the dangers of other antiseptics, such as carbolic acid, etc. Lysol finds a very wide use in the home as an antiseptic wash for internal douches or injections, for the treatment of wounds and as a general disinfectant. Full directions on bottle. Shipping weight, 6 ounces. Regular price, 25 cents.

No. 8F72 Our price.....**20c**

Dr. Hume's Pile Outfit.

Consisting of self injecting rectal pipe, absorbing pessary and the remedy. A scientific treatment for blind, itching, bleeding, internal or external piles or kindred rectal diseases. Comprises the three necessary requisites of a perfect treatment, a pile pipe for injecting the ointment into the bowels, a hard rubber dilator for holding the parts apart while healing, and lastly a well known and long tried pile ointment for healing the parts. If you are troubled with this complaint, try this remedy for relief. All parts carefully packed. Shipping weight, 12 ounces. Regular price for outfit, $5.00.

No. 8F71 Our price.....**$1.89**

Marbourg Plastic Poultice.

For reducing inflammation from any causes. Used today by physicians everywhere in the treatment of diseases accompanied by inflammation or congestion. This is surely a product that belongs in every home; ready for quick use when needed. No one can tell when inflammations may come from any one of a hundred causes and this is the one remedy you must have for this purpose. Pneumonia, croup, tonsilitis, insect bites, sprains, bruises, strains and many others are first of all treated with this remedy, and your physician will praise you for having this on hand. He will tell you the quick application of this product has saved thousands of lives, drawing out the poison or keeping down the inflammation instead of allowing it to spread. Takes the place of the old bread or linseed poultices which had to be changed hourly and constantly guarded, while the remedy is free from all objections. Acts as a poultice, does all that any other poultice can do, supplying heat and moisture, but goes a great deal further, being absorbent and antiseptic and lasting from twelve to twenty-four hours. Does not annoy or irritate the patient, which nearly always is the case when a regular or too frequent poultice application is made. It does not interfere with internal remedies of any kind. You should not be without this remedy for a day. You will save money, worry and perhaps the life of the patient by having this remedy on hand to meet any emergency. Full directions accompany package. Shipping weight, 1-lb. can, 30 oz.; 5-lb. can, 8 lbs.

No. 8F134 1-pound can. Our price.....**$0.44**
No. 8F135 5-pound can. Our price.....**1.69**

PLATO

SOMETHING ENTIRELY NEW.

A silver polish and plater in one. Keeps bright surfaces new and renews old and worn ones. An absolutely harmless preparation for polishing, which at the same time deposits a new coat of silver on knives, forks, spoons, dishes and all silver plated articles, and also cleans and plates in the same manner steel, brass, copper and nickel plated objects. Endorsed and largely used by surgeons and dentists for cleaning, plating and keeping in perfect condition their various instruments. "Plato" is entirely reliable and one of the very best articles made. Containing neither dust nor grease, it is easy to apply, does not scratch the brightest surfaces, leaves no disagreeable effects on the hands or clothing, and removes, with light rubbing, dirt, tarnish and stain from all silver plated articles. It deposits a really surprising silver plate and is free from cyanide, mercury, acids or any injurious or inflammable ingredients. After once using this article we believe you will always have it on hand, it being to our knowledge the best yet produced. (Unmailable.)

WAGONER'S ODORLESS DISINFECTANT

A Powerful Disinfectant. For use in all cases where a Deodorizer or Disinfectant is necessary

This new article contains nature's own disinfectant—oxygen, and acts like the great disinfectant provided by nature for purifying the air we breathe, and called by chemists ozone. It is particularly suitable for meat and fish markets, poultry and slaughter houses, saloons, hotels, restaurants, dairies, refrigerators, etc., and is especially useful around the house, as it is a preventive against all infectious diseases, such as typhoid and scarlet fever, smallpox, diphtheria, etc., in fact in all places where any foul odors or gases are liable to collect and increase the danger of all kinds of malignant diseases. Most janitors take pleasure in using this on account of its easy application, it throwing off no poisonous gases or offensive odors. It will destroy any odor or germ in twenty seconds' time. It is highly recommended by physicians and school men.

This preparation is as odorless as water and will kill any odor in from ten to twenty seconds' time. It is very valuable for sprinkling around cesspools, sewers, hog pens, etc., as it not only destroys odors, but prevents disease.

This disinfectant is the cheapest of all disinfectants—dissolves easily in water—and costs 1 cent a gallon when dissolved. Being odorless it can be used in any compartment of the house without attracting the attention of the occupants, which is much more pleasant than using carbolic acid or chlorides, that possess offensive odors. Its action is immediate and it is not poisonous when dissolved, besides imparting to the atmosphere peculiarly invigorating and refreshing qualities. It can not be mistaken for any other disinfectant; it does not corrode pipes and will neutralize gases. It not only deodorizes but disinfects thoroughly, and is therefore the best, cheapest and safest disinfectant in the market. It is perfectly safe to use as it throws off no poisonous gas or odor like carbolic acid, formaldehyde, sulphur or other disinfectants, and can thus be easily applied in school rooms every day if required, without dangerous effects. Being a powder it never loses its strength, as it is not dissolved until ready for use. (Unmailable.)

HARMLESS FIREWORKS

Electric Sparkler Torches.

A Harmless Firework. Beautiful in Appearance, Odorless and Absolutely Harmless.

For street parades, Fourth of July celebrations, picnics, lawn parties, coach parties, theatrical performances, lodge work and for all indoor and outdoor celebrations and illuminations. These torches fill the air with showers of sparkling golden stars and produce for a long time a brilliant and dazzling illumination of all surrounding objects, making a beautiful and lasting display. These are the new fireworks approved by everyone and far superior to the old kinds, which cause injury, danger and fires, to say nothing of the loss of life itself. After once using these torches you would never use the old form of fireworks.

Twelve-Inch Sparkler Torches, burning three minutes each, packed twelve torches in neat box, with 12-inch wooden handle for holding. Shipping weight, 3 pounds.

The same cabinet as above, but with beautiful 6x14-inch heavy French bevel plate mirror in each door.

No. 8F4032 Price.....**$5.50**

Protect Your Home, Stables and Property

WITH AN ABSOLUTELY SURE FIRE EXTINGUISHER THE LIBERTY

One of the greatest, simplest and most reliable of all fire extinguishers. Never gets out of order. Always ready. It effectively and instantly extinguishes, by scientifically smothering, all kinds of fire, no matter how fierce or savage, whether the fire originates from gasoline, naphtha, benzine, excelsior, rubbish, electricity, or from your own burning clothing. Simply dash **"Liberty"** Dry Chemical into the flames and the fire is out.

We Absolutely GUARANTEE **The "Liberty" will never freeze, cake or harden in the tubes, but will retain all of its fire destroying powers until used,** thus proving itself superior to so called liquid fire extinguishers.

Buy the "Liberty" and you have the best, the kind that is always ready. During ten years of constant use under varying conditions **"Liberty" has never once failed to extinguish fire instantly when used.**

The "Liberty" is perfectly safe and can be as easily used by women and children as by an expert fireman. Merely pull the tube from the hook and throw the powder on the base of the flames. **"Liberty"** is harmless to person or fabrics. No dangerous acids, no explosives.

About 95 per cent of all fires are discovered in the incipient stage, and **"Liberty"** actually destroys 100 per cent of all such fires when used on them. Therefore you should buy **"Liberty,"** the original and only guaranteed dry chemical extinguisher. In case of fire it is worth its weight in gold.

Don't leave your family, your home and your property unprotected from fire! Six **"Liberty"** Extinguishers (at a cost of $15.00) hung at convenient points about your house and stables, will afford abundant protection, and will extinguish fires which otherwise might destroy property worth thousands of dollars, or even cost the life of a loved one. No matter what protection you have, add **"Liberty"** to your equipment, and you can rest in safety. Shipping weight, 3½ pounds. Regular price, $3.00 each.

No. 8F328 Our price, each.....**$ 2.55**
Six for.....**15.00**

FIRE EXTINGUISHER.

On account of the extensive demand for both the best as well as a cheaper dry powder extinguisher, we will from this date on supply both the genuine Liberty (the best) and the Quick Fire Extinguisher, a very good medium priced extinguisher. Similar to the Liberty without their guarantee. However, a very good extinguisher and sold by others at all prices from $1.00 to $3.00 each. Shipping weight, each, 3½ pounds.

QUICK DEATH Bug Killer and Fertilizer.

Insure Your Crops Against Loss.

ABSOLUTE DEATH TO ALL INSECT LIFE; **cheaper than any other insecticide known; a good fertilizer; any child can apply it; not dangerous to handle; ready for immediate use; no mixing nor preparation required.**

QUICK DEATH **is a whirlwind of destruction to potato bugs** and at the same time fertilizes and invigorates the plants. This means that if you use Quick Death your potato vines will be green and growing days after those of your neighbors are dead.

QUICK DEATH **will positively kill potato bugs, squash bugs, pumpkin bugs, watermelon bugs, rose bugs, currant worms, cabbage worms,** and all others that eat the leaves of vegetables or plants. **Quick Death** has been on the market for years, during which time it has met with unprecedented success all over the United States. It has proved to be the most successful destroyer of all insects, bugs and beetles that live on vegetation. We can recommend this preparation to our customers with every confidence, we can assure them it is a better and cheaper insect powder than they have ever used and it operates with certainty.

A GOOD CROP OF POTATOES, CABBAGE, **or any other vegetable is assured if the growing vines and trees be kept free from the ravages of insects and bugs.** Remember, every dollar invested in Quick Death may mean fifty times that amount in increased profit when the crop is harvested.

QUICK DEATH KILLS POTATO BUGS IMMEDIATELY. **Three crops of eggs are laid each year. Prompt action is therefore necessary. Just as soon as the potato bug makes his appearance, dust the potato vines thoroughly and carefully with Quick Death and your plants are safe from destruction.** Kill off the first arrivals and you will have no further trouble, pursuing the same course in the case of other bugs and insects. Dust the leaves of the plants as soon as there is the slightest indication of their presence and save your crop from destruction.

THE WAY TO APPLY QUICK DEATH.

THE BEST WAY IS **to shake QUICK DEATH on the vine dry** (never mix with water), early in the morning when the plants are damp with dew, but do not apply it when the plants are dry. It can be applied with a sifter, or put on with a small burlap bag or sack made of moderately coarse cloth. In this way the powder is not unnecessarily wasted. **Be on the lookout for the first appearance of the bugs,** as at that time a few pounds will do the work of a much larger quantity later. One application will usually exterminate all the bugs for the entire season, but sometimes two applications are necessary.

AMOUNT NECESSARY. **We recommend that you apply 10 to 15 pounds per acre for potatoes,** but 20 to 30 pounds can be applied with safety and the expense of it will be many times returned in the greatly increased crop.

EVERY POTATO GROWER, **every cabbage grower, every farmer, every market gardener,** every grower of roses or flowers, or plants of any kind should give **QUICK DEATH** a fair trial. If it is once used, it will always be used. **DO NOT FAIL TO GIVE IT A TRIAL.**

Bordeaux Mixture.

Endorsed by leading Agricultural Experiment Stations as a reliable and superior preparation in every respect. Compounded from an old formula, but by a new process, making a usable and practical mixture. By simply adding water and stirring it is ready for use. Destroys all fungus growth on vegetation, prevents blight, rot, mildew and rust. Should be diluted fifty times with water before using. Actual cost of spray less than 1 cent per gallon. Use little or much, remainder is always ready for use. The only Bordeaux Mixture that has stood the test of years. Do not waste your time and money on cheap and worthless products. The easiest man convinced is the one who has seen the results of spraying on his neighbor's potato, grape or cucumber vines. The results are very profitable. Being in concentrated paste form, it is much better and stronger than weaker solutions. Full directions on packages. **You cannot afford to be without it.**

No. 8F2025 Price, per quart can.**36c**
No. 8F2026 Price, per gallon can.**98c**
No. 8F2027 Price, per 5-gallon can (approximately 5 gallons).....**$3.55**

Kerosene Emulsion.

CONCENTRATED.

A perfectly reliable and safe concentrated emulsion that does not separate. Can be reduced by adding ten to thirty parts of water, and is at all times ready for use. Kills all suctorial insects, such as plant lice, bark lice, and all true bugs, as tree bugs, squash bugs, red spiders, scabs, mealy bugs. The trouble with so many so called emulsions, as well as formulas handed out by experimental stations is that they do not make a perfect emulsion and when diluted with water part of the kerosene separates and in spraying you get clear kerosene in some parts and clear water in others. The clear water has no effect and the clear oil damages the plant or leaves. Buy the only safe, reliable, perfect and effective emulsion. Do not go without this valuable remedy or waste time trying to make something like it. **You can't.** Many cheap emulsions are offered, but buy the best. Each gallon can is sufficient for 50 gallons wash. (Unmailable.)

No. 8F2020 Price, per quart can.**$0.43**
No. 8F2021 Price, per gallon can. **1.10**
No. 8F2022 Price, per 5-gal. can **3.89**

LIQUID FORMALDEHYDE.

Full 40 Per Cent Strength.

An insecticide too well known to need extended description. Try it on your seeds and cereals before sowing; kill the smut on the corn, oats, barley or rye, and note your increased yield. Every up to date farmer uses it. Full directions on package. For full information see page 871.

Lime and Sulphur Solution.

CALIFORNIA WASH.

Used by thousands of fruit growers and recommended by all the leading experimental stations. Millions of fruit trees are being destroyed annually by the San Jose scale and millions of others are infested with it and are the breeding places for others. Always ready for use by simply adding water. Use what you want out of can; balance good at any time. Trees should be sprayed first time in March or April and a few weeks later go over them a second time to be sure every part is covered. Reasonable in price, effective in results, keeps permanently. **You cannot afford to be without it.**

Standard Toilet and Beauty Produc

Mrs. Gervaise Graham's Well Known Beauty Products

Mrs. Gervaise Graham is probably one of the best known women in the country because of her fam beauty products and the good she has accomplished for women generally. Her excellent preparations been sold for over twenty years and are today in every high class drug store in the country and are well known to need further description.

Beauty is one of woman's greatest attractions. Her opportunities for developing it are increasing ev day, and to work and strive faithfully for perfection of beauty and form should be one of her noblest highest ambitions. It is the duty of every woman therefore to spend at least ten minutes a day to impro her beauty and complexion, to free her skin from blemishes and produce for herself that clear velvety skin so much appreciated and admired by all.

SYSTEMATIC TREATMENT. One reason why women do not improve more under treatment is that th expect such wonderful results in too short a time. They buy a pot of beauty cream and use it fai fully every day for a week, watching every day for improvement and almost expecting to find the wrinkl gone after three or four treatments. If at the end of the week they do not find any visible improvem they are usually ready to give up in despair, declaring the preparation a failure and the manufacture fraud, or they at least weaken in the performance of their part of the work and in place of using the pre ration every day they give a little careless attention to it every now and then and yet all the time dis pointed because they do not find improvement. Wrinkles do not come in a week; the complexion is not in a day; neither can they be erased and renewed in an unreasonably short time. It requires daily systematic treatment, and by this means alone can the complexion be restored to health and beauty.

Mrs. Graham's preparations are particularly good for home use. They are meritorious and in the prepa tions themselves the virtue lies rather than in the treatment of the specialist.

We furnish her five best known and highest grade products as follows:

Kosmeo Beauty Cream.

The finest of toilet cerates, and unlike any other preparation. Soothing, healing and cleansing. A beauty cream of high reputation. Shipping weight, 7 ounces. Regular price, 50 cents.

Royal Veloutine Face Powder is one of the most delicious, finest, most delicate and sweetest perfumed powders made. It is the masterpiece of its maker, the celebrated Ch. Fay of Paris. Much superior to most powders in that it is more adhesive, impalpable and invisible. It is the proper powder to be used by all ladies desirous of preserving or recovering as far as possible the beauty and freshness of youth through the use of the finest powders. A very light application of it is sufficient to give a velvety softness to the skin. Veloutine Face Powder should be used sparingly. Although Veloutine costs more than others, it becomes cheaper in the end because less is needed to produce satisfactory results. If you are particular regarding your face and complexion, this is the powder to buy. Furnished in white, flesh or brunette. State color. Shipping weight, 8 ounces.

No. 8F3005 Price.....$1.98

Poudre de Riz la Dugazon.

FACE CREAMS OF QUALITY

DR. C. H. BERRY'S Freckle Ointment

Used for the Removal of Freckles, Moth Patches, Muddy Complexion or Discolorations of the Skin.

Three freckles can make any woman forget that beauty is only skin deep. Standards of beauty in the matter of features or form differ. There is little difference of opinion in the matter of complexion. Only those endowed by nature with bewitching clear and delicate skins are affected by that great enemy of beauty, freckles. Nothing so mars a woman's beauty and it, is absolutely impossible for any lady to have a real pretty face, a complexion the envy of her friends, if her face is covered with freckles. Outdoor exercise is always productive of freckles and it is highly essential that a reliable remedy be always kept on hand. Artificial means are often used to cover up defects of face and form, but heavy blotches and freckles cannot be concealed. Dr. Berry's Freckle Ointment does not cover them. It is used to aid their removal and help you have a more perfect complexion.

Dr. Berry's Freckle Ointment is an exquisitely dainty preparation in the form of a fragrant snow white cream and is easily and quickly applied. No massage is necessary. For nearly fifteen years it has been the standard of all freckle ointments in America and in all that time it has not, according to the manufacturers, injured the most delicate skin, but has given the most universal satisfaction. Try it after all else has failed. Satisfaction guaranteed or your money back. Shipping weight, 14 ounces.

No. 8F3073 Large $1.00 jar. Our price **79c**

Creme Veloutine.

One of the most perfect and delightful of face creams. Gives freshness and softness to the skin. Imported direct from Paris, France, and sold at reasonable prices. Combines the delightful and carefully selected ingredients together with a delicate delicious perfume in cream form. Absolutely snow white in color, soothing and hygienic and makes the skin white and healthy. It is to be applied with a small linen cloth or else rubbed in with the palm of the hand. It is one of the best selling and finest creams made in France and is a preparation made for ladies who are very particular regarding their faces and complexions. Once used you would have no other. This is not like many of the so called imported creams, but is guaranteed to be the genuine. Every bottle bears the genuine imported label. Just give it a trial. Shipping weight, 8 ounces. Regular price, per jar, $1.00.

No. 8F3040 Our price, per jar....**83c**

No. 8F3041 Same cream as above, but smaller jar holding one-half the quantity. Shipping weight, 5 ounces. Price.....**42c**

Ingram's Greaseless Cream.

A very fine, sweetly perfumed greaseless cream. Rubs into the skin, leaving no grease or shiny appearance. Silky texture, snow white and a largely used cream. Fancy octagon jar with gilt top. Shipping weight, 12 ounces. 25 cents everywhere.

Our price.....**19c**

Comfort Vegetable Cream.

A guaranteed vegetable cream and free from vaseline, petrolatum, mineral or hair growing ingredients. A fine cream for softening the skin, clearing the complexion, preventing blackheads and for massage and toilet purposes generally. Apply it before using talcum or face powder as it produces a more pleasing appearance. A pretty jar and a fine package.

No. 8F3042 Large $1.00 package. Shipping weight, 12 ounces. Our price.....**79c**

No. 8F3043 Large 50-cent package. Shipping weight, 8 ounces. Our price...**39c**

There Is Beauty in Every Jar of Ingram's Milkweed Cream

The well known and highly advertised beautifier. One toilet cream that has proved its merits. It is nature's own aid to beauty, a skin tonic. Apply a small amount to the face, neck and hands night and morning and note the pleasing result. Good for all complexions as it is absorbed by the skin, stimulating, nourishing and beautifying. Dainty, fastidious and refined. A largely used toilet luxury. Shipping weight, 21 ounces. Regular price, per large jar, $1.00.

No. 8F3044 Our price.....**79c**

NOTE—We do not carry the small 50-cent size jar as it holds only one-third the amount of the $1.00 size jar. It is therefore more economical to buy the large jar. (See also Ingram's Greaseless Cream, this page.)

Daggett & Ramsdell's Perfect Cold Cream

One of the finest cold creams manufactured. Just as the name implies, perfect in every respect Snow white in color, finely perfumed and keeps indefinitely. Of world wide use and reputation. There is nothing just as good. If you once use this cream you will never be without it. Sizes as follows:

Tones up flabby skin and aids in smoothing out wrinkles. Will not make hair grow. Shipping weight, 12 ounces. Regular price, 25 cents a jar.

No. 8F3039 Our price.....**19c**

Queen Louise Massage Cream

An ideal face massage cream for cleansing and beautifying the skin. Promotes facial attractiveness through cleanliness.

Queen Louise Massage Cream differs from most others in that it is a nongreasy pore cleanser. It is merely applied to the face after washing in the ordinary manner, to remove from the pores the dirt and accumulations that are unaffected by soap and water. Merely rub the cream lightly over the face and massage. You will notice the cream disappears entirely, but by continuing the massage, the cream after drying on the face for a moment, begins to roll up and brings with it the dirt from the pores. Continue massage until the face is entirely clean and smooth.

Just try for yourself. Buy a jar and test it yourself. Wash your face or hands just as clean as possible with soap and water; dry, and then apply Queen Louise Massage Cream. Collect all the dirt on a piece of white paper and then decide for yourself whether or not you will use this cleansing cream in the future.

Queen Louise Massage Cream is of a beautiful pink color and nicely perfumed. Its use is a delight and the results surprising. It gives the face the healthy pink tone of youth, removes the dirt and waste matter from the pores, affords excellent massage for the face and helps remove the telltale marks of time. A very important and necessary toilet article. Fine illustrated booklet giving full directions and instructions on massage accompanies each package. Shipping weight, large jar, 20 ounces; small jar, 12 ounces.

No. 8F3110 Small 50-cent jar...Our price.....**37c**

No. 8F3111 Large $1.00 jar, holding three times the smaller jar. Our price.....**79c**

Theatrical Cold Cream

An absolutely pure cold cream. Made from pure materials and free from all injurious substances. Nicely perfumed, white in color. Largely used today as a face cleansing cream. Not as highly perfumed as some of the more expensive cold creams, yet a great value at the price. Keeps indefinitely and affords an excellent application as a general soothing and cleansing agent. Packed in beautifully decorated screw top cans.

No. 8F3050 Large, 1-pound can. Our price.....**49c**

No. 8F3049 Large ½-pound can. Our price.....**29c**

Cream Ormonde With Peroxide Hydrogen.

Pure, creamy and delightfully fragrant. Cream Ormonde is not an experimental discovery. It is the result of an endless amount of work by chemists and has been proved today to be one of the best nongreasy beautifiers made. It is of snow white creaminess, soothing, soothing, whitening to the skin, free from all forms of eczema, even exceptionally fine as a beauty cream. It contains peroxide of hydrogen which greatly adds to its value as a cosmetic bleaching beauty cream. It leaves the skin soft and clean. Put up in a beautiful jar. Shipping weight, 12 ounces. Regular price, per jar, 50 cents.

Massage At Home Without Expense

For the Complexion.

Massage benefits you so much, but don't pay a professional a high price to do it. Massage at home, every day, with the Blackstone Vacuum Massager. It slips on any faucet, as the illustrations show, and is operated by simply running water. Daily massage stimulates the circulation, making the flesh clean and firm, free from hollows and blemishes. Without one cent of expense you can thoroughly massage your face and any part of your body with Blackstone Vacuum Massager.

After the Shave.

For the man who shaves at home the Blackstone Vacuum Massager is priceless. It softens a stubborn beard before shaving and completes the smooth appearance afterward. It cleanses and refreshes the skin as soap and water cannot do and makes the flesh firm and clear. In three minutes it will thoroughly massage the face and neck. It operates perfectly. Try it on our recommendation.

Fits any faucet and operates by simply running water. High grade in every respect. Once used you would never be without it. Shipping weight, 20 ounces. Regular price, $5.00.

EVERY WOMAN who is afflicted with the disfigurement of superfluous hair and who has been deceived and swindled by u scrupulous manufacturers of poisonous, worthless depilatories which simply break off the hair at the su face of the skin in the same way that the razor does, causing it to grow heavier than before after each removal, will b delighted to know that we can now offer her De Miracle, guaranteed by the manufacturers as a nonpoisonous, safe, sure a reliable hair remover. Acknowledged by physicians and medical journals, as per testimonials attached, as the greatest disco ery known to medical science for the removal of this unsightly blemish.

THE BEST PROOF THAT DE MIRACLE IS THE STANDARD DEPILATORY of the world is that it has stood the test time. Numerous depilatories of questionab merit have been put upon the market in the past few years, but they did not last long; the public soon realized that th were not only worthless, but dangerous as well. Others sprung up from time to time to take their place, but soon met a li fate. It is because De Miracle enjoys this enviable reputation and the backing it has by the medical profession that we ha discontinued the sale of all other similar preparations.

DON'T BE DECEIVED BY EXTRAVAGANT CLAIMS. The extravagant claims made by unscrupulous manufacturers of hair remov in sensational advertisements unquestionably justify physicians in cautioni the public against the use of this class of depilatories. How many people have been enticed into using these dangerous preparations with con quent injury to themselves cannot be estimated but only guessed at. There is only one logical and scientific way to remove unwelcome h and that is by means of a liquid containing soluble ingredients which can be absorbed by the skin. De Miracle is guaranteed by the ma facturers as just such a preparation.

ENDORSED BY THE HIGHEST AUTHORITIES EVERYWHERE. De Miracle is the only method which is endors by physicians, surgeons, dermatologists, me cal journals, prominent magazines and newspapers. The endorsements are not just claimed; they are published and sent broadcast with the identity and the address of the writer or the publication added.

ANNOUNCEMENT EXTRAORDINARY. On account of our very large purchases, our arrangements with the manufacturers of De Miracle are such that we are enabled to give our customers this standard, high class article at greatly reduced prices. **Our cut prices are:** The large $2.00 bottle for only $1.69, and the $1.00 bottle for 79 cents. Surely at these never before heard of prices no one will buy the inferior preparations. Buy the genuine and take no risk.

FREE BOOKLET. We will send you a 52-page booklet containing full information concerning this remarkable treatment, as well as testimonials of prominent physicians, surgeons, dermatologists, medical journals, the principal magazines and daily newspapers. You should read this booklet before you try anything. Simply write saying you want the 52-page booklet and it will be mailed sealed at once. Write for it today.

Read These Testimonials

Medical journals and magazines also endorse De Miracle highly. few extracts from them. Canadian Medical Journal: "Does the w and does it well." Annals Gynecology and Pediatry: "The claims m for it are true." The Medical Council: "It is well to use." T Chicago Clinic: "Action is exceedingly rapid and entirely nonirrita ing." New Albany Medical Journal: "Editor effectually rem mustache of woman with one application." Toilettes: "Has pro itself superior to electricity, X-rays or anything else." Mens Monthly: "I believe it to be the best method yet presented to the public Vogue: "I know of none better than that under review." Pictorial R view: "It has been many years since I have had occasion to speak w such praise." L'Art de la Mode and Le Charme: "The best meth yet presented to the public." Elite Styles: "I have found a meth I can recommend." The American Dressmaker: "We would recom mend this to our readers as the best." Theatre: "I can recommend as being far superior to electricity, X-ray or any other method Modes: "I am now free to admit that there is a safe and sure way removing superfluous hair." The American Journal: "To all w readers I recommend this as the most trustworthy and reliable e offered womankind." Men and Women: "I should surely recomm trying." Le Bon Ton: "Would not think of adding my endorsem if I were not convinced that this is the best method in the world today

De Miracle Cream

De Miracle Cream, according to the well known reliable manufacturer, is a real skin cleanser, therefore a good beautifier, a cream which positively prevents or retards hair growth. So called greaseless and other creams which remove or neutralize the natural oil in the skin are objected to by many persons. Remember, the natural oil in the skin should remain as nature intended. Otherwise it would not be there. De Miracle Cream preserves it, but its antiseptic properties destroy impurities, therefore more quickly relieving irritations and assisting nature in restoring a healthful beautiful velvety condition to the skin. It is always best to use a cream after applying a depilatory, and hence, after bathing the face, dry and apply De Miracle Cream. It keeps the face soft and beautiful and prevents irritation. Shipping weight, 8 ounces. Large size jar, regular price, 50 cents.

PRINCESS HAIR TONIC

A Delightful Preparation for Aiding Stimulation of the Hair Roots and Helping to Make the Hair Grow

PRINCESS HAIR TONIC is a reliable household necessity and will do everything which an honest hair tonic can possibly do. When the hair is dead nothing on earth can bring it back to life; we therefore make no impossible claims, but we do say that in the opinion of our chemists Princess Hair Tonic is one of the best hair tonics manufactured, and if used as directed will do all that any honest hair tonic can do.

UNLESS THE HAIR FOLLICLES ARE ABSOLUTELY DEAD, it is possible by following the directions accompanying the package to greatly stimulate the scalp and help nature to produce a growth of hair. The causes of falling hair in many cases are due to improper care and it is possible by using a reliable hair tonic before the roots are dead to check in many cases the falling of the hair and greatly stimulate the scalp and increase the growth of the hair.

FOR FALLING OF THE HAIR, dandruff, scalp irregularities, a reliable tonic should be used once a day, rubbed into the scalp with the finger tips at least five minutes and until the liquid is all absorbed by the tissues.

PRINCESS HAIR TONIC IS NOT AN EXPERIMENT, is not an untried preparation, but is an honest hair tonic made from high class ingredients, used for stimulating the scalp generally. Remember also, we give you a much larger bottle of hair tonic than others sell for $1.00, and we sell a big $1.00 bottle for only 63 cents. Besides, you can have your money back if the preparation is not entirely satisfactory.

ORDER THREE BOTTLES of Princess Hair Tonic for $1.55, use it according to directions upon the bottle and if after all is used you do not believe you have been benefited, do not find that it is just the preparation you want, write us to that effect and we will cheerfully return your money. Princess Hair Tonic is sold upon this guarantee and your money always returned if the preparation is not satisfactory.

No. 8F3125 Regular $1.00 bottle. Our price, per bottle..... **63c**
Three bottles for.....**$1.55**

NOTE—Three bottles weigh about 4 pounds, therefore cannot be shipped by mail. Must be shipped by express or ordered with other goods.

Nine Good Reasons Why You Should Buy and Use Princess Hair Tonic

First. It is an exceptionally good hair tonic, as proven by the largely increased sale each year and the testimonials of our thousands of customers.

Second. It is not a dye in any sense of the word, nor does it soil the daintiest headdress.

Third. Useful for falling hair, as proven by the testimonials of customers.

Fourth. It contains antiseptic ingredients for dandruff, which is one of the main causes of baldness.

Fifth. It contains valuable antiseptic and stimulant medicines for killing germs which are not found in many tonics on the market.

Sixth. It contains no sediment or sulphur requiring shaking before using or leaving particles of powdered sulphur all over the head.

Seventh. It is free from grease or oil.

Eighth. It contains nearly double the amount of medicine offered by others for $1.00, because we sell a large $1.00 bottle for the cut price of 63 cents each.

Ninth. Because we guarantee satisfaction or your money returned. You are to be the judge.

The Seven Sutherland Sisters Hair Grower

STANDARD FOR THIRTY-FIVE YEARS

The Seven Sutherland Sisters With the Longest and Most Beautiful Hair in the World.

This is the genuine Seven Sutherland Sisters Hair Grower, known the country over as one of the best hair tonics made and founded upon thirty-five years' actual trial and backed by thousands upon thousands of testimonials. If you want a good hair tonic, one free from injurious chemical preparations, one that has been upon the market for thirty-five years and is in all probability the best known tonic the country has, then use Seven Sutherland Sisters Hair Grower. Le Grande Shampoo.

This shampoo is one of the high grades of shampoo preparations used by the first class barbers in large cities, and is very popular in every part of the country. As a gentleman's shampoo it is unequaled, makes clean and healthy hair, stops itching of the scalp, and is guaranteed not to contain, like most shampoos, any alkali, which leaves the hair harsh and dry. Our Le Grande Shampoo renders the hair soft, smooth and fluffy. Shipping wt., 12 oz. (Unmailable.)

No. 8F3216 Price, 8-ounce round shampoo bottle..... **15c**

Pomade Philacome.

An exquisite dressing for the hair and mustache, nicely perfumed and highest quality, in 2-ounce large mouthed screw top bottle, very convenient for use. This pomade is preferred by many to any other pomade usually retailing for 25 and 50 cents a bottle. Shipping weight, 5 ounces.

No. 8F3222. Our price, 2-ounce screw top bottle..... **19c**

Regal Shampoo Jelly.

A finely perfumed transparent soap, put up in glass jars, used for shampoo purposes. A small amount worked in the hair produces a heavy cleansing shampoo. Antiseptic, cleansing and leaves the hair clean, soft and glossy. Shipping weight, 6 oz. (Unmailable.)

No. 8F3237 Large 4-ounce jar, 50-cent value; our price..... **21c**

No. 8F3236 2-ounce jar, 25-cent value; our price..... **13c**

Hair Brilliantine.

A sweetly perfumed liquid for making the hair soft and glossy. Used to advantage to keep the hair in place and make it glossy. Largely used today by women wearing artificial puffs and switches for giving the soft glossy lifelike appearance. Needs no shaking, will not cause the hair to appear greasy and never turns rancid. The fine perfume in this product greatly adds to its value. Shipping weight, 13 ounces.

Don't Pull Out Those Gray Hairs

Restore them to their natural color with Hay's Hair-Health. Thousands have used this remedy with very beneficial results. A splendid hair dressing and invigorant. Twenty-five years of success is its record. Its use cannot be detected. Very easy to apply. Satisfaction guaranteed or your money back. Shipping weight, 20 ounces.

No. 8F3129 Large $1.00 bottle; our price..... **79c**

Lyon's Scalp Cream
A Fine Tonic for the Scalp.

A highly beneficial and absolutely harmless hair dressing for application to scalp for massage treatment to stimulate the condition of the hair and scalp. It is in the form of an ointment, and a small amount is all that is necessary to apply at a time. This preparation is well known and if used as directed will be found a very refreshing and pleasing product. Should be applied to the scalp after each treatment of hair tonic. It materially aids the hair tonic in performing its work and leaves the scalp and hair in a clean, soft, healthy condition. Full directions accompanying each jar. Shipping weight, 15 ounces.

No. 8F3130 Price, per jar..... **43c**

New Life Curly Hair Straightener

An ointment to be applied to the hair in all cases where curls or kinky hair are objectionable. It is merely applied to the hair, rubbed in and the hair then thoroughly brushed. It causes the hair to straighten and lie flat to the head without injuring the hair. Nicely perfumed, keeps indefinitely, and if you desire straight instead of curly or kinky hair give this product a trial. Shipping weight, 6 ounces. Regular price, per jar, 50 cents.

DR. GRIFFITH'S TOOTHACHE REMEDY.

Prepared from the best and surest remedies known to the dentist for the prevention and cure of toothache. Put up in simple form, convenient for home treatment, and guaranteed if used as directed. The nature of toothache is such that a remedy to meet all requirements must consist of two separate parts. (1) A combined remedy that will stop the ache, cure the inflammation and check decay. (2) A preparation that will seal the remedy in place, close the cavity securely from food and moisture, become hard and remain so indefinitely until you have an opportunity to have the tooth filled. In this remedy we have both these requirements, simple in form and easy to apply, making it a perfect remedy. Superior to all others in so much as the effect of other remedies are soon lost by the cavity being left open to food and moisture. **Seal this remedy in as directed, keep the cavity closed and toothache will not return.** Nonaching cavities treated as above check the decay and prevent the ache. It is not a cheap gum or wax nor an evaporating liquid, but a sure and lasting remedy. Prepared only by Dr. Griffith and used by thousands of dentists for the prevention and cure of toothache; nonpoisonous, reliable, quick to act and safe for young and old. Full directions in each box. Regular price, per box, 25 cents.

No. 8F3320 Our price.....13c

Cake Toilet Pumice Stone for whitening the hands, manicuring and toilet use. Shipping weight, 4 ounces.
No. 8F3906 Price.9c

MANICURE PREPARATIONS.

Lustr-ite Nail Enamel.

An ideal preparation for polishing the finger nails. Free from pumice, acids or injurious ingredients. Gives a most brilliant and lasting polish with least possible effort. No flying dust to cover the garments, but a fine enamel in cake form. Polish with buffer or palm of the hand. Shipping weight, 2 ounces. Sells everywhere at 25 cents.
No. 8F3956 Our price.....19c

Lustr-ite Salve and Enamel.

A harmless preparation for tinting the nails, lips and cheeks. Especially adapted for finger nails which are inclined to brittleness or corrugation. Will polish them beautifully. Merely tint the nails with the enamel and polish with buffer or palm of the hand. Shipping weight, 8 ounces. 25 cents everywhere.
No. 8F3957 Our price.....17c

Lustr-ite Cuticle Cream.

For lacerated, inflamed or dry cuticle, hang nails or brittle nails. Antiseptic and harmless. Rub in the cuticle and allow to remain five or ten minutes. Also prevents cuticle from growing to the nails. Large size opal jar. Shipping weight, 8 ounces. 25 cents everywhere.
No. 8F3958 Our price.....18c

Lustr-ite Nail Bleach.

An effective and absolutely harmless preparation, especially adapted for removing ink, fruit stains and discolorations of every description from the finger nails and skin. Unsurpassed for removing stains from linen, gloves and all kinds of fabrics. Nonpoisonous and guaranteed free from oxalic or injurious acids. Large size bottle. Shipping wt., 14 oz. (Unmailable.) 25 cents everywhere.
No. 8F3959 Our price.19c

Lustr-ite Cuticle Softener.

Antiseptic and harmless. Ideal preparation for softening the cuticle. Merely sprinkle small amount into the water in which the fingers are to be placed. Cleans and bleaches the finger tips and nails. More convenient and superior to soap. Put up in attractive box with sprinkler top. Shipping weight, 6 ounces. Regular price, 25 cents.
No. 8F3960 Our price.....19c

Manicure Sets.

GAMES, TOYS AND AMUSEMENTS

THIS PAGE SHOWS JUST A FEW ITEMS FROM THE MANY PAGES OF OUR TOY, GAME AND AMUSEMENT CATALOG. WRITE FOR OUR SPECIAL CATALOG OF TOYS, MAILED FREE ON REQUEST.

Parchesi.

Parchesi is too well known to need an extended description. It is the popular backgammon game of India and is played on a board, as shown in illustration. Nevertheless, experience, judgment and skill enable the player to make every move count to the best advantage. The game consists of an imitation leather covered 18-inch square board, eight dice, four dice cups, various colored counters and all the necessary directions for playing. Shipping weight, 28 ounces. Regular $1.00 game.

No. 8F510 Our price..... **65c**

Chessindia.

One of the most popular games of today. It is played identically the same as Parchesi and is preferred by many on account of the cheaper price. The board is the same as Parchesi, 18½ inches square, imitation leather covered, has four dice cups, four dice, various colored counters and full directions for playing. Shipping weight, 28 ounces. Regular price, 75 cents.

No. 8F515 Our price..... **47c**

The same game as above, but furnished with 16x16-inch board and with cheaper counters and dice. At the price of this board everyone can enjoy this very interesting and fascinating pastime. Shipping weight, 18 ounces.

No. 8F516 Price..... **23c**

Table Croquet.

This very popular game of Table Croquet can now be played all the year around by means of this up to date high class indoor set. Every part is a duplicate of the larger size outdoor fittings and is played according to the rules of the regular outdoor game. This is the largest and one of the best sets manufactured and contains eight fancy turned and beautifully varnished and striped wood mallets with balls to match, ten fancy wire weighted bottom arches, two colored striped stakes and a set of four clamps and tape to fasten on corners and around the table so the balls will not roll off. Popular for the long winter evenings; equally enjoyed by old and young. One of the best selling games of today. Packed in heavy wood box. Shipping weight, 4 pounds. You would give $2.00 for this set if you could only see it.

No. 8F525 Our price..... **95c**

A set similar to the above, but containing only six unvarnished mallets and balls instead of eight and wood tipped instead of heavy metal tipped arches. A good medium priced set, but not nearly as good as the set above. Packed in fancy wood box. Shipping weight, 2½ pounds.

No. 8F526 Price..... **47c**

Large Size Ouija or Egyptian Luck Board.

A most remarkable, interesting and mystifying game. Its operations are always mystifying and highly amusing, answering as it does questions concerning the past, present and future. One of the best selling games of today and exceedingly popular. Full directions for operating the Ouija Luck Board accompany each package. Size, 15x22 inches. Unmailable. Shipping weight, 10 pounds. Regular $1.00 size. Do not compare our price with the smaller size sold at 75c.

No. 8F535 Our price..... **87c**

Miniature Pool Table.

Complete table size 15½x27½ inches, made with 3-ply wood beds, nicely mahogany finished, covered with billiard green felt and has rubber side cushions, crocheted pockets and brass trimmings. Furnished complete with triangle, two hardwood cues, set of fifteen composition balls and white cue ball. A much better game than we have heretofore handled. Amusement, recreation and entertainment for all. Shipping weight, 8 pounds.

No. 8F502 Price.... **$3.45**

GENUINE OWL REVERSIBLE COMBINATION GAME BOARD

Without Doubt the Most Beautifully Designed and Best Finished Game Board Ever Manufactured.

The Genuine Owl Combination Game Board is too well known to need any extended description. By far the best made, the one others try to imitate, and if you want the best, this is the one to buy. Unique in attractiveness, unsurpassed for quality and the number of games. No other game board contains so many entirely new and original games; the result of many years' experience and study to make this the most interesting and amusing game board made, both for old and young.

We have just been permitted to make this never before heard of price of $2.98, by making a very large purchase.

The Genuine Owl Combination Game Board is made of the best three-ply whitest basswood, which has been found by experience to be the only satisfactory wood for game boards to prevent warping. Only the whitest basswood is used and each face of board is one single piece of fine clean white basswood, and not like some boards sold with two or three different colored woods on each face, making it not only harder to play but of very bad appearance. All the squares, circles, diagrams, decorations, checker board, and stencil work are in the very highest and brightest colors and marquetry, transfer work, thoroughly polished, varnished and rubbed, giving the board a very high and artistic finish.

The board is 28½ inches square, reversible, with good net pockets, and is furnished complete with 109 pieces of equipment as follows: 29 rings (four colors), 2 cues, 15 numbered discs, 10 tenpins, back stop, 2 dice boxes, 4 dice, 38 pawns (four colors), complete direction book, two boxes for the men, three removable legs and the improved revolving stand. From two to eight players can use the board at the same time. The stand is a firm support at the proper height for the players sitting in chairs.

One hundred very interesting games can be played upon this board as follows:

Are You a Buffalo?	Crokinole	Owl Game, No. 1	Sham Battle
A Scratch Game	Curling	Owl Game, No. 2	Shuffle Board
Auto Race	Devota	Owl Game, No. 3	Shuttle Back
Backgammon	Diagonal Checkers	Owl Game, No. 4	Shuttle Back No. 2
Bagatelle	Excellent	Owl Game, No. 5	16 to 1
Bagatelle, No. 2	Expert Pin Game	Passing the Pickets	Solitary
Boxing	Fortune Telling	Perfecto	Sono
Brag	Four Back	Pin Bagatelle	Sparring
Brownies	Fox and Geese	Pocket Crokinole	Star Game
Canoo	Fox Hunting	Polish Draughts	Straight Pool
Chasing the Bumble Bee	Go Bang	Progresso	Ten Pins
Chasing the Owl	Jumbo	Pyramid Checkers	The Losing Game
Chasing the Robin	King Pin	Pyramid Pool	The Owl Game
Chasing the Thief	Krokeen	Rotation Pool	Three-Ring Game
Chess	Lasso	Russian Backgammon	Three Tumblers
Checkers	Mining	Sancho	Toms Cat
Chuck-A-Luck	Nine Pins	Scientifico	Tumble
Cocked Hat	Novity	Second Form of Star Game	20th Century Crokinole
Cricket	Obstacles	Sevota	
	Old Mill Game		

And twenty-five Assorted Cue Games.

Considering the varied number of games that can be played on this very popular board and being equally enjoyable to old and young, it is a pastime that should be in every home. Largely sold for progressive parties, each party at each board playing a different game and a prize awarded to the one winning the most games. After once seeing and trying it and finding out for yourself the immense amount of enjoyment for the small investment you will thank us many times for urging you to buy this item.

More pleasant and enjoyable evenings for less money than you ever before thought possible. Be sure to include one in your next order. Carefully crated for shipping. Shipping weight, 14 pounds. Every board guaranteed absolutely perfect and complete in every detail. Regular price, $5.00.

No. 8F500 Our price, per set complete, board, cases, rings, stand and full instruction book, only..... **$2.98**

Owl Combination Board No. 2.

Similar and same size board as the above but having less equipment and of not quite as good workmanship, material or finish, yet a very good board upon which seventy-five enjoyable games can be played. This medium priced board compares with the many imitations of the Genuine Owl Game Board No. 1 shown above. It contains 60 pieces of equipment, revolving stand, a similar board but with less decoration, and a special favorite as a medium priced $2.50 to $2.75 board.

Thousands of satisfied purchasers of this board throughout the country. It is a board that we know will please you. Every board perfect and guaranteed not to split. Carefully crated for shipping. Shipping weight, 14 pounds. Regular price, $2.50 to $2.75.

Pit Game (Universal Favorite)

The latest and greatest of the jolliest games ever invented. Informally called Pit, it is in reality the trading card game invented. It is fun tooth for laughter, excitement and a general pandemonium. Pit has never been equaled. The craze for Pit is world wide and it will create a tremendous sale. Can be learned in one game. The game is based on the exchange in the American Corn Exchange, using the Wheat Pit. It is supposed to represent exciting buying and selling on the exchange, each commodity being represented by cards; for example, wheat, corn, etc. The idea is to obtain the nine cards of a kind, or, in other words, obtain a monopoly of the commodity. If you have never seen this game, take our suggestion and buy it. It is a wonder pastime. Shipping weight, 4 ounces. Regular price, 50 cents.

Marathon Racer.

Practical, Inexpensive Coasting Car. Where is the boy who doesn't want to stand up and ride? Have you ever watched the youngster half sitting in his express wagon pushing himself with the other foot. Here is the thing the boy wants. The development of his own suggestion. More fun than a wagon or bicycle. Safe, strong, easy running, and practically indestructible. On level surfaces it may be operated by swaying the body from side to side, as in roller skating. Solid oak frame, Mission finish; malleable iron castings, black japanned; seasoned maple wheels, painted red, with brass bearings. Foot brake gives perfect control. Size, 27 inches long, platform 17 inches wide, handle 27 inches from the floor, front wheel 4½ inches in diameter, rear wheels 5½ inches in diameter. Shipped knocked down; easily set up. Strongly constructed and no intricate or delicate parts to get out of order. Just what the boy wants. Shipping weight, 11½ pounds.

No. 8F920 Price **$1.95**

KING POPGUNS.

Sport and Noise for Girls and Boys.

These Popguns are without doubt the very best manufactured. They are intended for boys' and girls' use and are free from the danger of the regular gun. They are built on the line of an air rifle with a steel barrel, nickel plated, polished and fitted with black walnut handles. The popgun breaks at the lock for loading, shoots a cork and, while making a loud noise, is not in any way dangerous. Each carefully packed in carton.

Long Distance Popgun. Shoots a large cork and a rubber ball but there is no danger. Use the cork for noise and the soft rubber ball for sport. Shoot the ball against the wall and catch it as it rebounds, or into the air catching it as it descends. Length of barrel, 10½ inches; over all, 21 inches. Shipping weight, 1½ pounds. Regular price, 50 cents.

No. 8F834 Our price..... **39c**

King Popgun, similar to the above, but smaller size and has only cork for shooting. Length, 15½ inches. Shipping weight, 10 ounces.

No. 8F889 Our price..... **21c**

Folding Ball Bearing Merry-Go-Round Open Ready for Use.

This is the easiest running Merry-Go-Round on the market. It can be used outdoors in the summer and in the house in winter. When not in use can be folded and put up out of the way. It is painted bright red and nicely striped and decorated. Width over all, 72 inches. Good exercise for boy or girl, and an article from which they will derive an endless amount of pleasure and benefit. Shipping weight, 40 pounds. Regular price, $15.00 to $18.00.

Kindergarten Education and Amusemen

A few items from our line of Kindergarten Educational Supplies and Amusements. For full line send for our complete Toy C

Combination Blackboard and Writing Desk.

$1.29

A very substantial board, and although similar to the Chautauqua board is nowhere its equal. Made entirely of polished oak beautifully varnished. The blackboard proper is made of heavy sheet iron coated on one side with especially prepared black enamel and has on the other side an accurate map of the United States finely enameled in high colors. When the board is down it makes a fine writing desk and has three partitions for keeping paper, envelopes, notes, etc. The top board contains a revolving chart, showing various styles of the alphabet, numbers, music, animals and other designs for the child to copy on the board. Will induce children to study. When not in use can be folded so as to stand against the wall occupying a thickness of only 2½ inches. Height of board, 46 inches; width, 23½ inches. Shipping weight, 17 lbs. **No. 8F4173** Price..... **$1.29**

Puzzle Blocks.

Picture Puzzle Blocks. Forty-five blocks lithographed in high colors, cut in odd shapes which when fitted together will make three complete pictures, measuring 13 x 9 inches. Put up in a heavy cardboard box with lithographed cover, showing one of the designs that can be made with these blocks. Teach your children to put these parts together and then tell the story. Comes in well known subjects as Old Mother Hubbard, Red Riding Hood, Little Boy Blue, etc. Shipping wt., 20 oz. **No. 8F4190** Price..... **23c**

The Universal Spelling Board.

Entertaining and educating for children. The board has about fifty-six lettered blocks which are made of hardwood and very strong and serviceable. Size of board, 13½ in. long by 9½ in. wide. Shipping weight, 32 ounces. **No. 8F4191** Price..... **70c**

Dissected Map of United States

A Cut Up Outlined Map of the United States, containing about sixty-two pieces cut to represent the shapes of the various states and on the reverse side the flags of all nations. A most instructive and interesting puzzle for the children. Will teach them location of the various states and places and enable them to know the shapes of the states as well. Put up in heavy cardboard box. Size, 8x9¾ in. Shipping wt., 16 oz. **No. 8F4154** Price..... **21c**

Architectural Building Blocks. A set comprising a large number of small fancily colored and artistically shaped blocks for making various designs shown on instruction sheet accompanying each package. Kindergarten Combination Blackboard and Writing Desk.

One of the Finest Made. The One We Recommend.

$2.25

A Combination Instructive Board and Chart for the Child. The result of the manufacturer's effort to make the most complete, highest class and finest educational chart, instead of the cheapest. Many cheap boards are made and sold but this is sold as a different class article. Nothing has been spared to make it the very best, and it is in our opinion one of the finest and most instructive boards manufactured. Made entirely of hardwood, beautifully finished and varnished throughout, with heavily embossed, handsomely finished front. The blackboard proper is 19x29 inches, black enamel coated on one side to be used as a drawing or blackboard, and the other side is finely finished for use as a writing desk. Inside the desk has five compartments for letters, stationery, pens and drawing utensils. The top of the board contains the celebrated Chautauqua kindergarten revolving chart with the genuine Chautauqua subjects for instructing the young child in writing, drawing and general information. It comprises the entire alphabet in both capital and small letters in slant writing, vertical writing, German script and backhand printing, as well as the vowels, list of numbers, arithmetic signs, Roman numbers and numerical instruction for addition, subtraction, division and multiplication; various easily drawn household articles, together with the name of each one; trees, animals, birds, fishes; a map of the world, face of a clock, fancy flower and scroll designs; faces, heads and general outlines; treble and bass scales, together with the different kinds of notes and rests in music; train, engine and cars; mechanical engines and parts; views and landscapes; boats and marine; architectural subjects; nine lessons in shorthand; valuable interest rules and calculations; standard weights and measures; Bible quotations, and ending with the Lord's Prayer. Endorsed by the Chautauqua, and without doubt the most complete, most perfect, the best board ever manufactured. When not in use can be folded against the wall, occupying a thickness of only 2½ inches. Size, 47x22 inches. Shipping weight, 21½ pounds. Regular price, $3.50 and often sold by canvassers as high as $8.00 each. **No. 8F4160** Our price..... **$2.25**

One of the Mechanical Drawings.

One of the A B C Styles.

A Few Figures for Drawing.

MAGIC DOTS FOR LITTLE TOTS.

A practical pleasing design making game or busy work for children. A fascinating pastime for grownups. Attractive and educating. Providing artistic color work without paint or crayons and affording an amusement which a small child can enjoy without suggestions or help from his elders.

Magic Dots consists of a set of cards upon which are printed interesting and attractive designs with holes punched through the cards. An ample supply of discs or dots, called magic dots, of proper size to fit snugly into the holes of the cards is furnished with each package. They can be easily removed when desired, and used over and over again. Enameled in bright colors, and when placed in the cards make a very pleasing and attractive picture. An educational and busy work for children of all ages from 2 to 10 years.

No. 8F4163 Large box. Size, 6 x 9¾ inches. Shipping weight, 12 ounces. Price..... **43c**

Similar to above, but containing ten assorted cards and ample supply of dots, in fancy lithographed box. Size, 4½x6½ inches. Shipping weight, 6 ounces. **No. 8F4164** Price..... **21c**

Story Sewing Cards.

Set of twelve assorted cards having subjects traced on them in outline which are to be sewed in colored threads. Especially adapted for small children. Box contains Little Red Riding Hood, Three Little Kittens, Bo Peep, and other equally popular subjects, together with five assorted colored threads. The holes are larger than in many other cards, making it easier to sew the outlines. Fascinating for children. When the cards are completed tell the child the story. Size box, 5½x7½ inches. Shipping weight, 6 ounces. **No. 8F4165** Price..... **21c**

Harbutt's Plasticine.

A clean, safe, antiseptic modeling material. No water required, makes no dirt, creates no dust, always ready for use, brings into the home the delight of clay modeling with none of the attendant discomforts and inconveniences which practically prevent the use of ordinary clay in the average home. Entirely overcomes the expense, difficulties and discomforts of wet clay or wax and supersedes the greasy foreign modeling paste made with animal fats of bad odor. A joy and education for the child. Full directions for using plasticine, different models that can be produced and full information are included in each package.

The Complete Modeler. The largest and best package we carry. Contains five large packages assorted colored plasticine, instruments, instruction book, modeling lessons, and complete data for making the various articles. Size box, 7x9½ inches. Shipping weight, 22 ounces. Regular $1.00 package. **No. 8F4170** Our price..... **89c**

The Beginner's Box. Similar to the above but containing a smaller quantity of plasticine, one less instrument, and with full information, instruction books and data for making the various articles for home amusement and education. Size box, 7¼x6¼ inches. Shipping weight, 9 ounces. **No. 8F4171** Price..... **43c**

Queen Modeler. Smallest package we carry. Contains five assorted pieces of colored plasticine, modeling instrument and instruction book. Packed complete in box. Size box, 4¼x5½ inches. Shipping weight, 5 ounces. **No. 8F4172** Price.... **21c**

Home, Sweet Home, for Dollies.

A portable doll house printed in two colors, size 8x14 inches, representing a cottage, made to stand up revealing full colored interior of two rooms. FINEST QUALITY PLUSH TEDDY BEARS.

Plush Bears are not a fad, but are actually more popular than ever before. No toy brought out in recent years will hold the interest of the child so well as the bear, besides giving most splendid service, as they are almost indestructible. The quality we offer is of celebrated German manufacture, the best that money can buy. Beautiful long silk plush, perfectly featured bodies, very true to life, full jointed, allowing the bear to assume countless comical positions. All sizes are fitted with the very latest improved automatic growing voice, which requires no pushing or pressing to operate. The bear growls when the head is tilted forward. Comes in natural cinnamon color only. Priced according to size and proportion as given below.

PYROGRAPHY OR THE ART OF WOOD BURNIN

PYROGRAPHY OR WOOD ETCHING is the art of burning decorated stamped designs on wood, leather or cardboard by means of a heated platinum point. The heat is produced with the rubber bellows and attachments, as fully explained with each outfit. Pyrography is wonderfully fascinating and growing more so each year. It requires no great amount of talent to produce very satisfactory results. When you consider the small expense for an outfit to begin in this art and the enjoyment it brings, it is worthy the efforts of anyone who has a desire to develop a natural gift in the line of art.

YOU CAN MAKE AN EXCELLENT LIVING in pyrography, as the designs and pictures are so artistic and popular they bring good prices. Articles costing but 15 cents or 25 cents when burned and stained bring as high as $1.00, which is about the proportion of profit throughout. Photo frames, fancy designed panels, table book racks, collar, cuff, handker necktie boxes, pipeholders, spoonholders, etc., are very popular, adding much to t tic appearance of any home. They also make handsome presents which are alway appreciated, because they are the work of one's own hands.

BUY THE BEST. The main essential in this line is the best of materials. handling the best line manufactured, all parts being m finest white basswood, made in three-ply construction to prevent warping, h polished and finished, and then very clearly stamped with very popular and artis Many cheaper articles are made and sold, but we handle only the best. We have h experience in this line. Take our frank advice and select any one of the following may desire and you will have the best workmanship and material in every respect to buy the best.

This High Grade Amateur Pyrographic Outfit With a Reliable Platinum Point in Fine Basswood Box for Only $1.98.

This outfit is especially intended for those expecting to do a limited amount of work. An exceptionally high grade outfit put up in a clearly stamped fine white basswood box for burning. The Alco Fountain Burning Instrument.

The only apparatus employing denatured alcohol for fuel. Replacing troublesome and dangerous elements in benzine outfits. Can be used with any outfit employing platinum points. Any point that will burn with benzine will burn better and last longer with the Alco fountain. Its use insures perfect freedom of manipulation, there being no bottles in the way to upset and points will not carbonize. A perfectly balanced handle and insures steadier, straighter lines and better work than is possible with benzine outfits. Absolutely safe, reliable and so simple that any child can use it without the slightest danger or difficulty. Requires very little air, the labor of pumping being reduced to a minimum. Newly patented yet sure to become one of the best selling pyrographic instruments ever manufactured. We suggest that you give it a trial. Shipping weight, 10 ounces. Regular price, $1.00.

Pierced Brass Art Metal Work

Send for Our Pierced Brass and Pyrography Catalog

Metal Craft or the piercing of brass according to definite designs is most instructive and popular. It has grown with wonderful rapidity and is claimed to be the most fascinating work ever adopted by the true lover of art. It requires little practice to produce some very pretty designs. The work is easy. By merely following instructions as given on the direction sheet you will be very much surprised how very pretty the designs are when finished and how they are admired by everyone. We handle only the best and most popular designs and anyone can follow their plain and simple outlines. If you are interested at all in art and the beautiful, we suggest that you buy an outfit and a few pieces and start. You will thank us many times for calling your attention to this fascinating work, to say nothing of the many enjoyable evenings and the beautiful finished articles you will derive therefrom.

Our Amateur Outfit, 98c.

Especially intended for beginners, as it gives them all the essential tools and two practice pieces and lets them ascertain for themselves how very fascinating the work really is. Outfit consists of polished piercing board 9x12 inches, fancy stamped brass candle shade ready for work, mallet, awl, envelope of shanks, bender, bottle of lacquer, oil stone, cake of brightening polish, one dozen thumb tacks, lacquering brush, stamped brass calendar plate for practice and full direction book. Packed in fancy hinge cover box, 14x9x2 inches. Shipping weight, 40 ounces. Regular price, $1.25.

PYROGRAPHY OR THE ART OF WOOD BURNI

PYROGRAPHY OR WOOD ETCHING is the art of burning decorated stamped designs on wood, leather or cardboard by means of a heated platinum point. The heat is produced with the rubber bellows and attachments, as fully explained with each outfit. Pyrography is wonderfully fascinating and growing more so each year. It requires no great amount of talent to produce very satisfactory results. When you consider the small expense for an outfit to begin in this art and the enjoyment it brings, it is worthy the efforts of anyone who has a desire to develop a natural gift in the line of art.

YOU CAN MAKE AN EXCELLENT LIVING in pyrography, as the designs and pictures are so artistic and popular they bring good prices. Articles costing but 15 cents or 25 cents when burned and stained bring as high as $1.00, which is about the proportion of profit throughout.

Photo frames, fancy designed panels, table book racks, collar, cuff, handke necktie boxes, pipeholders, spoonholders, etc., are very popular, adding much to tic appearance of any home. They also make handsome presents which are alwa appreciated, because they are the work of one's own hands.

BUY THE BEST. The main essential in this line is the best of materials. handling the best line manufactured, all parts being m finest white basswood, made in three-ply construction to prevent warping, polished and finished, and then very clearly stamped with very popular and artis Many cheaper articles are made and sold, but we handle only the best. We have experience in this line. Take our frank advice and select any one of the following may desire and you will have the best workmanship and material in every respect to buy the best.

Send for Our Pierced Brass and Pyrography Catalog

Metal Craft or the piercing of brass according to definite designs is most instructive and popular. It has grown with wonderful rapidity and is claimed to be the most fascinating work ever adopted by the true lover of art. It requires little practice to produce some very pretty designs. The work is easy. By merely following instructions as given on the direction sheet you will be very much surprised how very pretty the designs are when finished and how they are admired by everyone. We handle only the best and most popular designs and anyone can follow their plain and simple outlines. If you are interested at all in art and the beautiful, we suggest that you buy an outfit and a few pieces and start. You will thank us many times for calling your attention to this fascinating work, to say nothing of the many enjoyable evenings and the beautiful finished articles you will derive therefrom.

Our Amateur Outfit, 98c.

Especially intended for beginners, as it gives them all the essential tools and two practice pieces and lets them ascertain for themselves how very fascinating the work really is. Outfit consists of polished piercing board 9x12 inches, fancy stamped brass candle shade ready for work, mallet, awl, envelope of shanks, bender, bottle of lacquer, oil stone, cake of brightening polish, one dozen thumb tacks, lacquering brush, stamped brass calendar plate for practice and full direction book. Packed in fancy hinge cover box, 14x9x2 inches. Shipping weight, 40 ounces. Regular price, $1.25.

No. 8F4515 Our price.....98c

Our Best Outfit, $1.98.

This is the outfit to buy, as it contains the most complete assortment of materials and allows you to finish completely two beautiful pieces. Outfit includes mallet, awl, envelope of shanks, bender, bottle of lacquer, oil stone, cake of brightening polish, one dozen thumb tacks, lacquering brush, piercing board 9x12 inches, direction book, with the addition of two fancy stamped brass lamp shades and sufficient fancy glass fringe for both shades and jewels for inserting in one of the lamp shade designs. Shipping weight, 3½ pounds.

No. 8F4520 Price.....$1.98

Candelabra Shades.

Made of polished brass plainly stamped ready for piercing. These designs have the advantage over all others in that one section of each of the designs is stamped, showing the proper place for piercing.

Veno-Star Household Red Rubber Gloves.

Ladies! If you wash dishes, scrub floors, blacken the stove, develop photographic negatives, wash windows, trim plants, work in the garden, dye fabrics or do a hundred and one other household duties which roughen and soil the hands, then protect your hands and buy a pair of Veno-Star Red Rubber Household Gloves.

Never waste time and money on cheap household gloves. They look nice for a short time but do not wear. In rubber gloves, as in nearly all other commodities, it pays to buy the best. The Veno-Star Red Rubber Household Gloves are among the very best and highest class household gloves manufactured. They are as good as fine material and expert workmen can produce. They keep the hands soft and white and are unequaled for ladies' use in doing general housework. They are strong, soft and pliable and can be worn without the slightest inconvenience in doing work of the most delicate nature. Every pair fully guaranteed. Order one size larger than your kid glove number. Follow closely the directions for keeping them clean found on cover of each box. Especially note effect of oil and grease. Shipping weight, 8 ounces. Regular price, $1.25 per pair.

No. 8F2496 Our price, per pair.....**89c**

Fountain Rubber Sponge Complete With Tubing and Aluminum Faucet Attachment.

COMBINES SHOWER AND MASSAGE.

A large size high grade red rubber porous sponge, with 6 feet of large size rapid flow rubber tubing and aluminum faucet connection. Enables one to take a shower bath in his own home and is more efficient and altogether satisfactory than an overhead shower.

For those who like the soft soothing effect of rubber with little friction, our Fountain Rubber Sponge will give entire satisfaction. By a special process it is so constructed that the water flows from the center in all directions to the surface and emerges through the many pores of the rubber. A bath with it is therefore much more sanitary, efficient and cleansing than the old method of dipping and redipping an ordinary sponge in murky water.

Splendid for bath. Just slip the tube over the combination faucet and you can regulate the force and temperature of water to a nicety. Ideal for bathing children.

Delightful for shampoo. It enables you to use eggs or soap to keep the hair luxuriant and fine, and affords an easy method of cleansing the scalp afterward.

Magnificent for massage. The soft rubber sponge is very effective and convenient for massage purposes. It will not scratch or irritate the tenderest skin. You must really use this outfit to appreciate its value. Should be in every home. The faucet connection fits any size or shape of bathtub faucet. Shipping weight, 32 ounces. Ordinary value, $2.00.

No. 8F2468 Our price.....**$1.79**

Famous H. & H. Pneumatic, Air Retaining Bust Forms.

PIN PUNCTURES HAVE NO EFFECT.

Superbly stylish, healthful, strikingly lifelike, light, cool and comfortable. Durable, economical, cleanly, a necessity for most well dressed women. They give a fit and finish to the toilet that feminine beauty counts one of its chief charms. If a woman is deficient in natural development it is impossible for her to appear well dressed, to meet the requirements of fashion and style, without artificial aid. She simply must adopt some means to gain the proper contour.

Nature's Only Rival.

The only bust form made which defies detection.

The celebrated H. & H. Bust Forms are now so perfect that they cannot be detected from the natural bust, by either sight or touch. Strikingly stylish, a source of relief, delight and pride to the wearer and of admiration to others. These forms do away with all unsightly, unhealthy and uncomfortable padding. Light as air and take all the motions of the body. They produce perfectly the fashionable full bust and slender waist. Applied in an instant; made of white rubber, invisible with any costume. They are enclosed in fine muslin cover, lace trimmed, cannot get out of place, and can be made any desired size.

When it is desirable to begin wearing artificial forms and to avoid attracting attention to the change, the H. & H. Pneumatics may be worn slightly inflated at first, the size gradually increased, extending this over as long a time as may be wished. The same may be done by those wearing some substitute necessary to add to the bust measure.

H. & H. Pneumatics are forms inflated with air. By blowing lightly through a little valve, the forms are made the size desired and the valves then closed. Pin punctures can be easily repaired by using our H. & H. Repair Outfit, No. 8F2481, price 15 cents. Shipping weight, 4 ounces.

Inflated Forms. Round Shape.

No. 8F2477 Round style, the shape of the bosom. Each complete with lace trimmed muslin cover. Price, per pair.**$1.35**

No. 8F2480 Same as No. 8F2477, except oblong style, which is better adapted for slender women for filling out the hollows under the arms. Price, per pair.....**$1.79**

Air Retaining Bust Forms are similar to the foregoing except that they contain a resilient filling which admits the air when the valve is removed, causing the forms to expand to their normal size. They can also be expanded to any desired size. These forms when punctured still retain their normal shape and cannot collapse. Pin punctures have no effect. Shipping weight, 8 ounces.

Air Retaining Forms. Oblong Shape.

No. 8F2478 Round style. Price, per pair.....**$1.79**

No. 8F2479 Oblong style. Price, per pair.....**$2.29**

Ventilated Bust Forms will appeal to women who prefer a form that does not require inflating or repairing when punctured. Can be adjusted in a second to fit any figure. The white rubber form is expanded by a resilient filling which can be removed, washed and returned to the forms ready for use in a few minutes. Absolutely sanitary. Pin punctures have no effect. Shipping weight, 8 ounces.

Ventilated Forms. Round Shape.

No. 8F2475 Round style. Price, per pair.....**$1.35**

No. 8F2476 Oblong style. Price, per pair.....**$1.80**

Soft Rubber Urinal Bags.

FOR MEN, WOMEN, BOYS AND GIRLS.

For bed wetting and general incontinence of urine. For male and female, children and adults. For day and night use. Consult your family physician before ordering, that you may purchase the proper article, because Soft Rubber Urinal Bags are for personal use and cannot be returned for credit after leaving our store. We cannot offer for sale articles of this character which have or may have been used. This is for your protection as well as our own.

Safety Pure Gum Male Urinal Bag.

For Day or Night Use.

The best Male Urinal Bag made. Pure red rubber and much better and higher grade than the cheaper kinds. The top can be removed for day use if desired, and the two combined for night use. Is fitted with special double valve and inner tube, thereby preventing return flow of urine. The long slender receptacle when worn during the day can never be detected. The only perfectly satisfactory male urinal bag on the market. Be sure to buy this bag. Shipping weight, 12 ounces. Regular price, $3.50.
No. 8F2450 Our price.....$2.98

Safety Inner Tube Pure Gum Rubber Female Urinal Bag.

This Urinal Bag is constructed for day and night use, for women only, and is fitted with double valve and inner tube to prevent the return flow of the urine. This is the only urinal bag on the market for female use that can be guaranteed to prove entirely satisfactory for both day and night use. An absolutely safe female urinal. Urinals being employed for personal use cannot be returned. This is your protection as well as our own. Consult your physician before ordering. Shipping weight, 10 ounces. Regular price, $4.50.
No. 8F2451 Our price.....$3.85

Soft Rubber Urinal Bag, the most comfortable pattern made, of the best material, for male, day or night use. The adult size has elongated bag with two leg straps, as shown in lower half of illustration of No. 8F2450 above, and the youth's size has short bag and one leg strap as shown in illustration of No. 8F2454. Hygeia Nursing Bottles.

Not a Breast. NO BOTTLE—but NO TROUBLE TO CLEAN.

The Hygeia Nursing Bottle consists of two parts—breast and cell. The food is not put into a bottle, but into an open, wide mouth cell. This can be filled without a funnel, and cleaned without a brush. The interior can be wiped out with a towel, the same as a drinking glass.

The other portion of the bottle is not a nipple, but a breast, which is seamless, reinforced, reversible, and in form and function is like a mother's breast. It is yielding like an air cushion, yet noncollapsible, and is turned inside out with perfect ease for cleansing, so that each part and all parts of the bottle, the interior as well as the exterior, are readily accessible for rapid and thorough cleaning.

Cell

The breast is so nearly like mother's that a babe scarcely notices the difference, so that when milk fails, or time for weaning arrived, there is no difficulty in transferring baby from mother to the breast of a bottle, or feeding from the bottle, weaning from the breast, to make up deficiency in the natural supply. Eight ounces. Shipping weight, 14 ounces. 25 cents.

ADJUSTABLE BEDSIDE AND UTILITY TABLE.

A COMFORT IN HEALTH; A BLESSING IN SICKNESS.

One of the most useful pieces of furniture ever manufactured. It can be used in a great number of ways and readily conveyed from one place to another. It can be set up in a moment at any desired height or angle and projects over the bed without touching it, leaving the patient free to move body and limbs without upsetting the dishes. It is mounted on casters and can be moved to any place or adjusted to any position required. Not a novelty, but a necessity at all times. It is strong in construction and the lines are light and graceful. Will be found very convenient for writing, reading, games, drawing, music stand, sewing table, back rest, child's dining table, bedside table and many other uses. When not in use can be folded up in small floor space. Each table packed for shipment in a single box. Shipping weight, 35 pounds.

No. 8F3895 Adjustable Bedside and Utility Table. Black enameled metal parts, with a golden oak hand rubbed oil finished top, 18x24 inches. Price.....$3.45

Elastic Stockings and Abdominal Belt

SPECIAL MAKE ELASTICS

for the relief of varicose veins; weak, swollen or ulcerated limbs; corpulency, abdominal weakness and tumors.

We guarantee that every article listed and sold by us as "special make elastics" is a special article, made exactly to measurements given by customer. Many concerns claim special elastics when in reality they send you stock sizes kept on their shelves, giving you the nearest size to your order.

All of our elastics are made to order just as soon as the order is received and made exactly according to the sizes given on your order. We keep several large powerful elastic stocking machines busy making special order elastics for our customers. All of the operators are experts, and you receive the very best that finest material and experience can produce.

Our prices are much lower than other firms charge for the same high quality goods. We use only the best material, best grade rubber and highest priced, experienced labor. You can get nothing better at double the price at which we sell these goods. As rubber goods spoil with age, these Elastic Stockings and Belts to wear well should be made of fresh material. As soon as we receive an order from a customer for elastic stockings, or other special make elastic goods, we at once send it to the factory and have the article manufactured exactly according to measurements given. We guarantee perfect fit and goods that are actually fresh. Anyone who has had trouble in obtaining either serviceable or perfect fitting stockings is requested to give us a trial.

Study the illustrations carefully and take the measurements accurately. Decide what elastic you want. Every position of the body is designated by a certain letter and the position of the letter on illustration shows position for measurement.

Thigh Piece, G to I; Garter Legging, C to E. | Knee Cap, E to G; Anklet, Floor to C. | Thigh Stocking, Floor to F; F to I. | Knee Stocking, Floor to F; F to G. | Garter

THE LETTERS (SEE ILLUSTRATION) AND POSITIONS ARE AS FOLLOWS:

A—Number inches around foot half way between toes and heel (ball of foot).
B—Distance around foot over heel.
C—Distance around ankle.
D—Distance around calf of limb.
E—Distance around limb just below knee.
F—Distance around knee.
G—Distance around limb just above knee.
H—Distance around limb medium between knee and thigh.
I—Distance around limb at thigh.
K—Distance around abdomen at thigh.
L—Distance around abdomen at navel.
M—Distance around waist.
N—Distance around wrist above joint.
O—Distance around wrist at joint.
P—Distance around wrist nearer hand.
R—Distance around arm at shoulder.
S—Distance around chest under one arm and over the other.
U—Distance around fingers not counting
V—Distance around hand above thumb
W—Distance around wrist.
X—Distance around forearm below elbow
Y—Distance around elbow.
Z—Distance around arm above elbow.

MEASUREMENTS.

In all cases give exact measurements, which should be taken, if possible, in the morning. We allow for expansion. Follow measurements as follows:

Thigh Stocking—Take the distance in inches at A, B, C, D, E, F, G, H and I and distance from floor to F (center of knee) and from F to highest point.
Thigh Legging—Take measurements at C, D, E, F, G, H and I and the distance from floor to F and from F to highest point.
Thigh Piece—Take measurements at G, H and I and distance from G to I.
Knee Stocking—Take measurements at A, B, C, D, E, F and G and the distance from floor to F, and from F to G.
Knee Legging—Take measurements at C, D, E, F and G and distance from C to F and from F to G.
Knee Cap—Take measurements at E, F and G and distance from E to G and F to G.
Garter Stocking—Take measurements at A, B, C, D and E and distance from floor to E.
Garter Legging—Take measurements at C, D and E and distance from C to E.
Anklet—Take measurements at A, B and C.
Thigh Knee Cap—Take measurements at E, F, G, H and I and distance from E to F and F to I.
Hand Piece—Take measurements at U, V and W and distance from U to W and state whether for right or left hand.
Elbow Piece—Take measurements at X, Y and Z and distance from X to Z.
Wrist Band—Take measurements at N, O and P and distance from N to P.

Abdominal Belt—Take measurements at M, L and K and width in front from M to
Shoulder Piece—Take measurements around the arm at R, around the body fro
injured arm at S under opposite arm at T and width of band over chest.

Abdominal Supporters.

This supporter is made of the very best Egyptian thread, interwoven with soft lisle covered rubber thread, fine elastic and firm sateen back, making it a very durable and desirable supporter. This is the genuine Egyptian thread supporter and by reason of the excellent material used in its manufacture it can be washed in lukewarm water and be kept clean and antiseptic. Being porous, it produces warmth without perspiration. A very comfortable supporter in cases of corpulency and before and after confinement. We allow for pressure. **Give measurement around the abdomen.** Shipping weight, 13 ounces.

No. 8F3650 Sizes, 30 to and including 38 inches, 8 inches wide. Price.....$1.00
No. 8F3651 Sizes, 38 to 44 inches, 10 inches wide. Price.....$1.39
No. 8F3652 Sizes, 44 to 58 inches, 12 inches wide. Price.....$1.53

Pink Abdominal Supporters.

Made of the best covered mercerized Sea Island thread with two stays to prevent wrinkling, and with four attachments for understraps if desired. Stays and backs of best white leather. Quickly applied, conforming readily to the abdomen. Especially knit much wider in front than back, thereby preventing any tucks in back to hurt the body. Heavier elastic but similar construction to above supporter. Particularly recommended for patients with large and pendulous abdomens. We allow for pressure. Sizes, 32 to 56 inches. **The best medium priced supporter made. Give measurements around the abdomen.** Shipping weight, 13 ounces.

No. 8F3695 Sizes, 30 to and including 38 inches, 8 inches wide. Price.....$1.95
No. 8F3696 Sizes, 40 to 46 inches, 10 inches wide. Price.....$2.15
No. 8F3697 Sizes, 46 to 56 inches, 12 inches wide. Price.....$2.65

Silk Abdominal Belt.

Buckling at side affords easy adjustment.

This supporter is made of fine silk thread, full leather trimmings, pads are of soft leather and chamois lined. Full fashioned front, extra heavy at top and bottom to prevent wrinkling. Give measurements at largest parts of abdomen. We allow for pressure. Made in all sizes and in 8 and 10-inch fronts. **Be sure to give all measurements.** All belts over 54 inches in length are extra sizes for which 25 cents extra must be charged. Shipping weight, 19 ounces.

No. 8F3701 Price.....$4.35

Full Fashioned Abdominal Belt.

The best abdominal belt made.

Every part made specially to order by hand and is by far the strongest elastic, finest material, and the best finished supporter ever manufactured. Very best Egyptian linen thread knit double at the top and bottom, which not only gives extra support at these two places, but prevents wrinkling of the supporter. Full leather trimmed, silk stitched, back pad full leather chamois lined. Has eyelets for the attachment of understraps if desired. Twelve stays and full fashioned front, which not only fits the abdomen, but holds it up in correct position. No welts, no folds, but perfectly smooth throughout. Every one made to special order. The same belt sold by surgical instrument and physicians' supply houses for $10.00 to $20.00. If you want something fine, something that will give exceptional support and wear, the best it is possible to manufacture, then select this belt. Shipping weight, 18 ounces.

No. 8F3703 Same as above, but made of the finest silk. Our price.....$8.50

Favorite Obesity Belt.

Made of very fine strong moleskin cloth that yields sufficiently to assist shaping the abdomen, thereby giving comfort and the support required. Our obesity belts are used to advantage by corpulent people, both ladies and gentlemen. They will give shape to the pendulous or relaxed abdomen. Its use reduces the size and leaves no room for surplus fat to accumulate. They are fitted with strong elastic side straps and stays. **In sending your order be sure to give your measure at the largest circumference around the abdomen.** Shipping weight, 14 ounces. Regular price, $3.00 to $5.00.

No. 8F3705 Heavy extra high grade moleskin cloth, leather protected stays to keep from working out of belt and an extra fine high grade belt made especially for us—The best one to buy. Our price.....$2.45
No. 8F3704 The same belt sold by others and a good belt in every respect but of cheaper material and finish than belt above. Our price.....$1.65

Elastic Bust Supporter.

By the use of this improved Elastic Bust Supporter the weight of the breasts is removed from the dress waist to the shoulders, giving coolness and dress comfort ventilation and a perfectly shaped bust; also free and easy movement of the body. Made of the very best knitted elastic, interwoven with silk or cotton; the back and shoulder straps making it an ideal supporter for the purpose. Just as important for a slender woman as for a fleshy one, and can be worn without a corset and still keep the figure in shape. A necessity for every pregnant woman, as well as women nursing their children. Can be unbuckled at shoulder strap and after child nurses be buckled again holding breasts in shape without undue strain. No necessity for unfastening the corset. All sizes, 32 to 46 inches bust measure. **State size.** Shipping weight, 10 ounces. Regular price, $3.50.

No. 8F3745 Our price.....$1.65

Improved Abdominal and Uterine Supporter.

Extra fine pebbled morocco or russet leather front and back with elastic side straps. Cup form pessary of highly polished hard rubber held in position by strong smooth rubber tubing. Made in all sizes. **Give size around abdomen at largest part.** Shipping weight, 20 ounces. $1.65

Extra Hard Rubber Pessaries. Each.....40

Dr. Diemel's Linen Mesh Abdominal Supporter.

A Cool Abdominal Belt With Improved Liftup Attachment.

Dr. Diemel's Linen Mesh affords a material not equaled for making abdominal supporters because they are cool and comfortable. Light weight, perfectly ventilating, soft, cool and agreeable to the skin. It readily absorbs and eliminates the body temperature. Woven in such a manner that it will not unravel and its wearing qualities are superior to muslins, flannel, silk or similar fabrics. Can be washed as any article of underwear. Costs far less than elastic supporters and on account of its special features and easy regulation affords a supporter meeting almost every requirement. Contains three straps on each side for easy adjustment and a liftup strap at bottom affording additional support when needed for large or pendulous abdomen or abdominal weakness. A great favorite on account of the light weight, coolness, comfort, strength and support produced. Sizes from 30 to 48 inches. **In ordering give measurement around the abdomen.** Shipping weight, 18 ounces. Regular price, $2.50.

OULDER AND BODY BRACES

REBORN—For Man, Woman and Child

and comfortable reminder. Expands the chest, compels deep breathing, under the arms, no stoppage of circulation. Makes men, women and children of living. Reborn consists of two linen bands, each of which passes under the arm and across the small of the back, the two bands buckling at waist. Each band is widened and boned at the back to prevent binding. The effect of these bands is to straighten up the back and support the The shoulders are squared or drawn back and the chest expanded by the two as they pass over the shoulders. These bands do not of themselves hold the shoulders rigidly in position, but constantly remind the wearer to "brace up." However, it permits perfect freedom of movement, and there is an entire absence of the galling restriction of movement, muscular pain and interruption of circulation common to devices on the "straight jacket" order. Reborn is light, cool, washable and comfortable. The material is of high quality linen and brace is well made. One of the most popular $1.00 braces made. In ordering give chest measure (not bust measure) and waist measure, also height and weight. Shipping weight, 5 ounces.

No. 8F3743 Ladies' Brace. Sizes, 24 to 42 inches chest measure. Price....79c
No. 8F3744 Gentlemen's Brace. Sizes, 28 to 46 inches chest measure. Price..79c

THE PERFECT FORM BRACE

(Patented Aug. 2, 1910.)

For Men, Women and Children.

Erect shoulders compel deep breathing. Modern men and women desire modern apparel, and we offer you our Perfect Form Brace (recently patented), as a modern appliance for promoting deep and proper breathing, developing the chest and reducing the abdomen. It gives nature the best remedy, the revitalizing air a chance to enter the lower and unused part of your lungs and do the work which nature intended it to perform.

A prominent abdomen reduced. When your shoulders droop your abdomen is pushed forward and the muscles gradually become soft, as they no longer have a function to perform. This is quickly corrected by throwing the shoulders back and keeping them back, drawing in the abdomen by the gentle but firm pressure that is the principle upon which the Perfect Form Brace is made.

HOW TO ORDER. State size according to your chest measurement taken close up under the arms as below:

Chest measures from 24 to 26, order size No. 0
Chest measures from 28 to 30, order size No. 1
Chest measures from 32 to 34, order size No. 2
Chest measures from 36 to 38, order size No. 3
Chest measures from 40 to 42, order size No. 4
to order; no extra charge.

Regular price, $2.50. Our price.....$1.39
Shipping weight, 10 ounces.

RADIUM SHOULDER BRACE

Comfortable, Durable, Useful and Healthful.

Let your lungs breathe by wearing a Radium brace. It will make your shoulders square and your lungs strong. It is not a harness. It weighs only 7 ounces and fits like a glove. Just a subtle, gentle influence that straightens the back and shoulders almost without the knowledge of wearer. It makes the person breathe deeply and properly and by supplying the lungs with a sufficient quantity of air aids in properly developing the body and warding off disease.

Made of good material and is a good brace. Invaluable to business and professional men, tradesmen, working people, housewives, clerks, children, and made in sizes for every member in the family. Once worn you would never be without it. In ordering give chest measurement around the body under the arms. Shipping weight, 10 ounces.

No. 8F3740 Men's or boys' sizes. 28 to 44 inches. Price.....85c
No. 8F3742 Ladies' or misses' sizes, 26 to 42 inches. Price.....85c

Shoulder Brace.

This is a perfect for supporting the back, and at the same time drawing the shoulders back so as to expand the chest and throw the body into an erect, graceful position. All tendency to round shoulders is thus avoided, and this to young people in the period when the bones and muscles are growing and hardening is of the utmost importance. of good wearing material, non- and kid trimmed buckles. A able brace. Children's sizes from In ordering, give measurement shoulder to waist line. II ounces. Regular price,

Our price.....$1.45
medium or large size for give age and length for children.

Respiro Shoulder Brace

The best low priced brace made. A well known and very popular support for holding the shoulders in correct position. Easy to put on, nothing to get out of order, nothing to break, easily adjusted, does not stop circulation and adapted to man, woman and child. Endorsed by physicians everywhere as greatly improving the health of any person wearing it. Merely slip the arms in the brace, cross over the back and fasten in front. You will be surprised how much better you feel by wearing it. In ordering give chest measure (not bust measure) and give height and weight. Sold at various prices from 50 to 75 cents. Washington Shoulder Brace.

Men and Boys, Take Notice. You Need This Very Brace.

This brace is well arranged to draw the shoulders gently back without cutting or chafing under the arms, thus inclining the body to a graceful, correct position, expanding the chest and correcting all tendency to stooping or round shoulders. Made of strong webbing, calf back; webbing rolled under arms so as not to cut. Suspender attachment is of the strongest material. Order small, medium or large size as wanted. Shipping weight, 7 ounces. Regular price, $1.50.

No. 8F3759 Our price.....99c

Why pay $5.00? Our price, $1.98

OLD COMFORT BODY BRACE

This well known body brace has been upon the market for many years and actual experience proves that it is an exceptionally fine support. It strengthens and supports the shoulders, reduces the abdomen, supporting the weaker parts, promotes deep breathing, compels better appearance, and strengthens and supports the parts of the body most needing it. You will never know what comfort can actually be derived from it until you have worn one.

THE GENUINE OLD COMFORT BODY BRACE is an abdominal supporter and shoulder brace combined, constructed so as to form natural support to the various organs of the body, including the spine, ribs, lungs, liver, bowels, womb and abdomen. The supporting and strengthening influence of the Genuine Old Comfort Body Brace has never, according to our customers' letters, been approached by any other appliance. It assures to the wearer comfort, vigor, health, elasticity, ease; all of the utmost importance to women subject to physical changes, in all conditions and in every wal.. of life. The Genuine Old Comfort Body Brace is made of specially prepared material and is adjustable, thus always insuring a perfect fit. The upper portion of belt and shoulder pads consists of strong elastic webbing. The lower belt is nonelastic, so you will find in it perfect support yet absolute freedom for every movement of the body. White material is used throughout, which can easily be laundered and kept clean and in a sanitary condition. You can wear the Genuine Old Comfort Body Brace to suit your own convenience and, as you may prefer, either under corset or over vest. The adjustable features of this brace make it possible to wear the same appliance at all times and to fit any condition of the body.

HOW TO ORDER. Take measure over vest and drawers; state size around body about two inches below top of hip bones. An extra set of understraps is furnished with each body brace, free of charge, to be used when the first set is in the laundry, thus enabling the wearer to use the Genuine Old Comfort Brace without interruption when most needed. Shipping weight, 20 ounces.

No. 8F3500 The Old Comfort Body Brace complete. Price.....$1.98

PROF. CHARLES MUNTER'S

NULIFE

PATENTED

The Health Garment for Man, Woman and Chil

MAKES YOU USE ALL YOUR LUNGS ALL THE TI

THE BEST, EASIEST AND MOST RELIABLE GARMENT EVER MADE FOR THOSE SEEKING GOOD HEALTH THROUGH DEEP AND PROPER BREATHING.

NULIFE has been upon the market for about seven years and du that time has surpassed every form and kind of shoulder brace manufactured. It stands today the standard of all and enjoy larger sale than all other shoulder braces and supports combi Millions of round shouldered, narrow chested men, women and children through its means, been converted into fine specimens of physical dev ment and enjoy today the best of health brought about solely thr wearing **NULIFE.**

Everybody Should Know the Great Benefits of Deep and Pro Breathing.

FIRST—Proper expansion of the lungs, causing you to use all of the lungs all the time. The lungs being held wide open enlarges the lung space for proper breathing.

SECOND—The larger the lungs the greater the strength and vitality of the body, for deep breathing strengthens the nerves, the muscles and vital forces and builds up the entire body. The healthiest people in the world are deep breathers. Fresh air is the greatest of all strength builders and insures perfect health.

THIRD—Removes all danger from round shoulders or sunken chests and diseases resulting therefrom.

FOURTH—Aids purification of the blood through the greater amount of oxygen absorbed through the lungs from the air.

FIFTH—Causes the lungs to take in the largest possible amount of pure fresh air, the deadliest foe to the germs of lung affections.

SIXTH—Throws the shoulders back in a correct position, giving a full, correct form and beauty of figure.

SEVENTH—Regulates and increases the health of the body by feeding the lungs with plenty of fresh air.

EIGHTH—Prevents many of the fresh colds brought about through sudden drafts or sudden changes of temperature.

NINTH—Renders the body less susceptible to disease. It makes the lungs, the foundation on which healthy bodies are built, strong and vigorous.

TENTH—Gives all the benefits of physical culture without exercises or loss of time.

These ten statements are secrets of perfect health, but, even though well known, how are observed? The young child goes to school, the young man or woman to college work. They sit all day crowded over a desk, bench or whatever occupation, and before they become hollow chested, round shouldered, bent or weak, and sooner or later suf the ill effects brought about by these conditions.

It is not the amount of money in your pocket, but the amount of health in your bo makes you happy.

SHOULDER BRACES

Made of metal springs or rubber supports have been made for many years. Many peo tried first one kind and then another, but the agony of blistered backs, pinched arm shoulder blades, to say nothing of the wrong principles upon which many are found caused most people to discard them, awaiting someone to perfect the correct and proper Well acquainted with these facts, Prof. Charles Munter, a physician of New York, sp some seven years ago to produce a garment based on anatomical principles, one that co worn with ease, one that would be free from the many objections of others, yet embodyi the necessary principles for holding up the shoulders in the correct position and pro proper breathing. After some twelve months **NULIFE** was perfected and patented. sold for a time in a limited way in the Eastern states, but with uniform success. Th seven years ago and today **NULIFE** has spread and is well known not only in every our vast country but in all parts of the civilized globe. **NULIFE** has at last solved the and we offer it to you as in our opinion by far the best shoulder supporting garme produced.

NULIFE is not a brace made of steel or rubber, but is a light weight washable garment that is pleasant to wear and so simple that any child can put it on without assistance. It is a health garment based on scientific principles for holding the vital organs of the body in their **correct position** without physical or medical attention, and without any assistance from the wearer.

NULIFE raises your shoulders upward and backward, straightening them and compelling deep and proper breathing, filling every cell of the lungs with fresh, pure and vitalizing air. **NULIFE** ventilates the entire lungs, expanding the chest from 2 to 6 inches, allowing the air to pass down to the lower parts of the lungs, freeing the system from foul and poisonous gases contained therein, and permitting nature's tonic, fresh air, to purify and strengthen the vital organs.

NULIFE compels you to use all of your lungs all the time, thereby receiving the greatest amount of benefit from the fresh air taken into the system.

NULIFE makes you walk, stand and sit erect. It acts as guardian over your body, especially when your mind is engaged with other matters, keeping you at all times in a healthy and correct position.

NULIFE is an invaluable aid to growing boys and girls, protecting them by making them breathe properly and correctly. "As the twig is bent, the tree is inclined" is a true statement and applies especially to the breathing habits of children. **NULIFE** is a boon to the frail, delicate or deformed child, who with the least assistance during the early childhood days may grow to become strong, straight and healthy. Keep the young shoulders in a correct position, make the child breathe properly, let the young body absorb the fresh air of nature and you will be well repaid in the health, to say nothing of the beauty of figure and strength of body resulting therefrom.

NULIFE gives women the grace, symmetry and poise demanded by beauty, health and fashion. Different from a corset in that it holds the chest and shoulders in a proper position with ease, instead of forcing the body in a mechanical vise of steel supports and pressing down the lower parts of the body, causing many of the ill effects well known from their wear.

NULIFE is a thin washable garment, light as a feather, weighing only 3 ounces, and as strong as steel. No arm pressure and no binding. It not only fits well but feels well. Holds the body up, gives you a commanding appearance and responds to every movement of the body. Always pleasant to the wearer. Once used you would never be without it.

NULIFE is recommended the world over by eminent physicians, physical and vocal instructors, military authorities and teachers of respiratory exercises as the best device ever invented for the purpose for which it is intended. There is only one **NULIFE** and the name is stamped on every garment.

Over 7,000,000 NULIFE Supports Are Now Worn.

The army of satisfied wearers is rapidly increasing daily. Persons in every stage and walk of life in this and foreign countries, round shouldered, hollow chested, weak individuals are today deriving a great amount of benefit sure to be gained through wearing NULIFE. If people only knew the great benefits NULIFE gives to the body, no man, woman or child would be without it.

WHO NEEDS NULIFE?

Every man, woman and child would be greatly benefited by wearing NULIFE. The healthy, that their vitality may be preserved and their figure remain straight, graceful and beautiful and that their body may derive at all times the exhilarating and vitalizing effect of nature's tonic, fresh air; the round shouldered, sunken chested weak individual, that he may be saved from resulting diseases and be restored once more to perfect health, correct form and beauty of figure. You owe it to your health to wear a **NULIFE.**

NULIFE will straighten round shoulders, expand the chest from 2 to 6 inches, aid in reducing the abdomen to proper proportions, make you walk, sit and grow erect, making the tall broader, and the short, stout person taller and more symmetrical, and gives freer deep breathing to the wearer than any other device ever invented.

NULIFE was formerly sold by physicians, physical and vocal instructors, military authorities and teachers of respiratory exercises at $5.00 each. The price has now been reduced so as to enable every man, woman and child to buy and wear the best support it is possible to manufacture, **NULIFE. In ordering please be sure to give height, weight and chest measure and state whether for lady or gentleman.**

Invalid Chairs At Prices Within the Reach of All.

MORE COMFORT AND PLEASURE FOR INVALIDS FOR LESS MONEY THAN EVER BEFORE THOUGHT POSSIBLE.

SPECIAL CATALOG FREE

A NEW HAND AND FOOT PROPELLING CHAIR.

AND PROPELLING CHAIR. our new catalog for particulars.

Special Catalog Free.

We have for years carefully studied the wants and requirements of invalids, and realize that the important requirements of a perfect invalid chair are strength, comfort and ease of operation. Our chairs have been improved wherever possible until they are today the standard, beautiful in appearance, perfect in construction, as good as money, science and ability can produce.

If you are interested in invalid chairs send at once for our special Invalid Chair Catalog, here illustrated. Contains large illustrations of some forty to fifty reclining, propelling, folding, combination, reed, car, traveling and carrying chairs, the finest line of invalid chairs offered by any firm or dealer. It gives you full and accurate information concerning each one, tells you just the purposes for which they are designed. It quotes the lowest prices ever named by any firm or individual. It gives the freight rates to various parts of every state in the Union, it answers every possible question that you might ask concerning invalid chairs. In short, this book is an authority, and it will give you such information as you cannot obtain from any other source. We sell invalid chairs just as we sell other merchandise, that is to say, our prices represent the cost of materials and labor when made in large quantities, plus one profit. Dealers generally charge very high prices for invalid chairs, but we have changed all this, as explained in the pages of this free catalog. **Write for it.**

Reclining Rolling Chairs

WITH SWIVEL WHEEL OF LARGE DIAMETER. ONE OF OUR MOST POPULAR STYLES OF INVALIDS' RECLINING CHAIRS

One of the easiest running chairs because of the large swivel wheel in the rear. Made of oak with a rubbed and polished finish. Fitted with hygienic cane weaving. Has the improved curved reclining back that is a perfect fit to the human body, equipped with the improved patent reclining device, so constructed that by simply turning a thumbscrew and slightly pressing against the back the occupant can assume any desired position without assistance. Footboard can be laid flat against the leg rest when entering or leaving the chair, affording great comfort to rheumatic or paralytic patients. Chair equipped with hand rims, enabling the occupant to turn chair in its own space, or propel it forward or backward at will.

Width of seat between arms	19	17
Diameter of large wheels	28	28
Diameter of small wheel	14	14
Width over all	29	27

the Benefit of Fresh Air While You Sleep

Window Tent in Use, With Portion of Wall Cut to Show the Relation of Tent to the Bed.

The Perfection and Monarch Window Tents are the most sanitary window tents yet devised. They are scientifically constructed and differ from all others; are adjustable, not only to fit the window but the bed as well, and can be put up or removed on a moment's notice. Require no nails, hooks or screws to put in place, and all covering can be removed for cleansing and disinfecting by the release of a single spring. By the use of an awning and the curtain you can regulate the amount of air entering the tent and protect yourself from cold or storm.

Open Air Window Tents are furnished in two grades as follows: THE PERFECTION. The best open air window tent it is possible to manufacture. Highest grade material, very best connections, perfect in every detail. Satisfaction guaranteed.. Weight, crated, 20 pounds. Regular price, $20.00.

STEEL FRAME BATH CABINETS.

Note. We no longer handle the old fashioned, cheap, clumsy, frail, wood frame cabinets. The new steel frame cabinets will not warp or break, yet they occupy smaller space and are superior to the wooden ones in every way, and, if comfort and quality are considered, are cheaper in price. Splendid satisfaction marks every sale of the three bath cabinets listed below. They are first class in every particular.

The Vapor-Bath is a very reliable means for effectively opening the pores of the skin and causing proper elimination of the poisons and waste matter. The kidneys and liver become healthy and active, the blood is purified, the digestive organs stimulated, the nerves strengthened and the general health improves from the very first.

With a Steam Cabinet you can take a Turkish bath in the privacy of your own home just before retiring, consequently there is no exposure afterward. You avoid any danger from this source and also save much valuable time and have the bath ready for immediate use when most needed, save the expense of public baths, and most important of all, breathe fresh air while bathing, air not polluted with poisons exhaled from others.

If You Desire a home treatment for opening the pores of the skin, for aiding the production of a clean, healthy body, buy a good bath cabinet. It is an investment you will never regret. We carry three grades of bath cabinets, depending upon the covering material and appliance desired, as follows:

Peerless Bath Cabinet, $3.75.

The Peerless Bath Cabinet represents the best low priced cabinet. It is a four-wall rubber lined room fitted with galvanized steel wire frame. Size cabinet, 28x30½x42 inches. The coating is the best rubber lined muslin. We will sell you this genuine Peerless Bath Cabinet for $3.75 complete with alcohol heater and vaporizing pan. While the Peerless is the best low priced cabinet made, it can in no way compare with our higher priced ones in efficiency, wear and durability. Weight, boxed, 40 pounds. Regular price, $5.00.

No. 8F4000 Peerless Bath Cabinet. Our price.....$3.75

Our Leader Bath Cabinet, $4.75.

Our Special Leader Cabinet is made of the very best material and on the most scientific principles. It is large enough to enable you to take a foot bath while you are taking a Turkish bath. The top of the Leader Cabinet is in two pieces, a feature of very great convenience in entering as well as in cooling off. The construction of our Leader Cabinet is most substantial. The covering is of special cabinet material (rubber coating inside, checked drill outside) that never stretches, thoroughly vaporproof. The frame is of the best steel construction, and, unlike old fashioned wood frames, does not warp or break. In cooling off, both sides of the top may be unbuttoned and thrown back. When you have finished using the cabinet simply loosen the braces, tip the frame and it folds up completely and can be put away in the smallest possible space. Any child can open and close it in a minute. Shipping weight, 40 pounds. Regular price, $7.50.

No. 8F4005 Leader Bath Cabinet. Our price.....$4.75

The Best Cabinet to Buy. The Highest Grade Perfection Bath Cabinet, $7.25.

For $7.25 we offer the highest grade bath cabinet of the celebrated Perfection grade as the very finest and highest grade bath cabinet made. There is no better bath cabinet construction possible.

Our $7.25 Bath Cabinet is constructed with double walls of the best rubber coated material that can be made. The construction of our special $7.25 cabinet is without doubt the best ever shown.

Face Steamer Free. A celebrated Perfection Face Steamer, improved style, as shown in illustration below, will be included with each Perfection Bath Cabinet free. For treatment of the complexion the Perfection Face Steamer is one of the most important parts of a vapor bath cabinet. If face steamer is wanted with other cabinets, price is $1.00 extra.

Vapor Baths are great for blood and skin diseases. For neuralgia and rheumatism, chronic, acute or inflammatory, our vapor baths have been known to benefit where everything else had failed to give relief. You'll be surprised and delighted at the improvement in your health, feelings and complexion. Weight, boxed, 40 pounds. Retail price, $12.00.

No. 8F4010 Perfection Bath Cabinet. Our price (without metal bath stool and with face steamer, as illustrated).....$7.25

Cane Seat Chairs or ordinary kitchen chairs can be employed in taking vapor baths in these cabinets. Customers wishing to order the fancy heavy wire metal stool with hardwood polished seat, as illustrated above, can get them from us at our very low price.

No. 8F4011 Wire Metal Vapor Bath Stool. Price.....$1.45

THE BEST TRUSSES At Reasonable Prices — TRUSSES — THE LARGEST TRU Business IN THE United Sta

WE HANDLE ONLY THE VERY BEST MAKES. TRUSSES OF EXCEPTIONAL QUALITY AND FINISH.

OUR UNQUALIFIED GUARANTEE. We guarantee every truss we ship to be strictly as represented and of the highest grade manufactured. We guarantee that our prices are much lower than those charged by others for trusses of like quality. Make an investigation for yourself and prove our statement.

IN ORDER TO PROVE TO EVERY PERSON who wears a truss that we can fit your condition, that we can save you half the retail price you formerly paid, and in order that the truss may meet your every requirement, we will allow you to purchase any truss shown in our catalog, with the distinct understanding that you may compare it with trusses from other houses and that you may try it on, adjust it, and wear it for a reasonable time as a trial. In order to prove its value and that it is just the truss you require. A few hours' wear will easily prove to you whether or n fits your particular case. If, however, you find after trying it on that it causes pain, not hold the rupture, or, in other words, is not satisfactory, then DO NOT WEAR LONGER, but return it to us and we will either exchange it for another truss of tr gladly return your money.

EVERY TRUSS WEARER should wear a "Nulife" Shoulder It holds up the shoulders and importance in keeping the rupture in place. We urge you to buy a "Nulife" us many times for the suggestion.

Elastic Trusses

Trusses with elastic bands are excellent styles for use at night to continue the support given by a spring truss during the day. Remember, in elastic as well as spring trusses, it pays to buy the best.

A rupture can only be cured by support and not allowing protru An elastic truss worn at night during the day give such support to contract and heal the opening possible time.

J. ELLWOOD LEE'S GENUINE NEW YORK ELASTIC TRUSS.

SINGLE, 59c
DOUBLE, 98c

Made of an extra good quality web elastic 1½ inches wide, of great strength and durability. Fitted with nickel fastenings, solid front and fine enamel pad, which is reversible, so it can be arranged for either right or left side. Remember that this truss is fitted with the very best improved safety clutch fastenings, the most reliable fastener made. The price of this style of truss elsewhere is usually from $1.00 to $2.50. We guarantee our trusses to be high quality, workmanship and finish, and to cost you much less than usual prices. Shipping weight, 8 ounces.

No. 8F3510 J. Ellwood Lee's New York Elastic Truss, reversible, single. (Be sure to state size and side.) Price 59c

No. 8F3511 J. Ellwood Lee's New York Elastic Truss, reversible, double. Price 98c

The above truss can be furnished in youths' and adults' sizes at the prices quoted. Be sure to send with your order measurement around body on a line with rupture.

Do not fail to state on which side the rupture is located.

Every truss wearer should have a "Nulife." See above.

LEE'S SPECIAL ELASTIC TRUSS.

SINGLE $1.47
DOUBLE $2.70

A superior quality high grade elastic truss, made of a fine quality of heavy web elastic. It has a new style belt, adjustable at both ends so it can be lengthened or shortened as may be desired. It is fitted with improved safety clutch fastenings. Complete with the well known leather covered water pads. These water pads are very popular and comfortable and are reversible, so they can be arranged for either right or left side. This class of truss is seldom sold by others for less than $2.50 to $4.00, single, and as high as $4.00 to $6.00 for the double truss. We furnish them with a positive guarantee to our customers that this is a very high grade truss and one that gives universal satisfaction. Shipping weight, 10 ounces.

No. 8F3514 Lee's Special Elastic Truss, youths' or adults' sizes, single. (Be sure to state size and side.) Price $1.47

No. 8F3516 Lee's Special Elastic Truss, youths' or adults' size, double. Price $2.70

Be sure to send with your order measurement around the body on a line with rupture, also state whether leather or silk covered pads are desired.

Every truss wearer should have a "Nulife." See above.

GENUINE WALKER'S APPROVED FRENCH PAD SINGLE ELASTIC TRUSS.

A HIGHLY RECOMMENDED TRUSS.

SINGLE, $1.98

Composed of fine strong extra wide elastic, to which is attached the improved Walker pad or pads combined with strong elastic understraps. It is one of the best elastic trusses ever made. This truss is fitted across the body, the full part of the pad facing the center. The advantages of this style of truss over other elastic trusses are as follows:

First—By fitting across the body and fastening on the center steel posts on the back of pad a center draft over the top of pad is produced, insuring in all cases the right kind of pressure.

Second—By hooking on the tie strap the pad tips produce upward and inward pressure at the same time. Walker's Approved French Pad Elastic Truss is, therefore, especially adapted for rupture which comes out egg shape, usually known as inguinal hernia, or light cases of scrotal rupture, where the intestines go down into the scrotum, called inguinal scrotal rupture. Fitted with rubber tubing understraps. Can be furnished in stuffed pad or water pad. In ordering state which kind is desired. Made of the finest extra wide and heavy web elastic. Handsomely trimmed and stitched. This truss is reversible and adjustable. Shipping weight, 8 ounces.

No. 8F3512 Walker's Approved French Pad Single Elastic Truss. (Be sure to state size and side.) Price .. $1.98

Every truss wearer should have a "Nulife." See paragraph above.

WALKER'S APPROVED FRENCH PAD DOUBLE ELASTIC TRUSS, $2.98.

DOUBLE, $2.98

The Walker Double Elastic Truss has all the advantages as explained in the description of the single truss, but has two pads instead of one and is furnished with double rubber tubing under straps. It is adjustable in width, and also enables you to get the proper angle in the groin, thus making this double elastic truss one of the easiest and most comfortable in existence. Shipping weight, 12 ounces.

No. 8F3519 Walker's Approved French Pad Double Elastic Truss. Price $2.98

Every truss wearer should have a "Nulife." See paragraph above.

LEE'S LEVER ELASTIC T DOUBLE, $3.25.

Every truss wearer should have a "Nulife graph above.

KEYSTONE APPENDICITIS

This newly perfected truss now meets a long felt want. It affords good pressure and protection needed for all persons subject to attacks of this dangerous disease. The large soft white kid pad is attached to body by means of the very best 3-inch white elastic. The understrap is of best material and prevents slipping. The pad is of celluloid face with white kid pad, is adjustable, is soft, easy and comfortable and affords a good protection. This truss can also be used for holding difficult ruptures and for protection after operation lower parts. We believe this truss will give Shipping weight, 10 ounces.

No. 8F3570 Price .....

Every truss wearer should have a graph above.

DR. FOSGATE'S ELASTIC TRUSS

One of the very best elastic trusses made. Special design, heavily nickel plated metal front plate fo in position, and attachments for elastic. Very good grade 1½-inch wide elastic with pull up buckle on the wearer to take up the stretch conveniently. Pads are of special construction, cushion rubber and hair filling with soft high grade white rubber, securely fastened on polished aluminum back. Pads are medium soft, ve and very popular with truss wearers.

If you want our best elastic truss, select this exceptionally fine one. Will hold many ruptures by any other form of truss. Easy to apply and gives splendid satisfaction. A little more expensive than worth the difference. Shipping weight, 12 ounces.

SPRING TRUSSES

LEATHER COVERED FRENCH SPRING TRUSSES.

SINGLE TRUSS. 87c

A very serviceable spring truss at a price within the reach of everyone. A high grade spring truss, but covered with a medium grade of leather, and attached instead of movable pad, single instead of double stitched, and without some of the more expensive attachments of the higher priced trusses. This truss cannot be duplicated at any price near our quotation considering the quality of the truss, and although we supply them to our customers at a nominal figure, they are high grade, well made, leather covered spring trusses and give good satisfaction. Even at our low prices we sell this truss with a guarantee that it will fit perfectly and if not entirely satisfactory when you receive it you can return it at our expense and we will cheerfully return your money. Shipping weight, 19 oz.

No. 8F3528 Leather Covered Spring French Truss, single. (Be sure to state size and side.) Price 87c

DOUBLE TRUSS. $1.98

The style, material and finish of this truss are the same as the single truss, except that it has two pads which with the additional feature of spring back pad as shown in illustration, which is soft and pliable, make the double truss very comfortable. Shipping weight, 19 ounces.

No. 8F3529 Leather Covered Spring French Truss, double. Price $1.98

Every truss wearer should have a "Nulife." See paragraph above.

WALKER'S APPROVED FINE FRENCH LEATH COVERED SPRING TRUSSES.

VERY HIGH GRADE MEDIUM PRICED TRUSS.

SINGLE TRUSS.

$2.25

This truss has fine Russia calf covering and is furnished with fine water pad or stuffed pad to make it soft and comfortable for wearer. This truss has a special feature by which it may be adjusted to any angle to suit the position of the rupture, by releasing the thumbscrew that goes through the nickel steel neck into the pad, thereby allowing pad to revolve on a pivot. A very comfortable truss. Shipping weight, 14 ounces.

No. 8F3540 Walker's Approved Fine Leather Covered Spring Truss, single. (State size and side.) Price $2.25

OUR LEADING SPRING TRUSSES.

OUR POPULAR SCROTAL TRUSS. ONE THAT MEETS NEARLY ALL REQUIREMENTS. THE BEST THAT MONEY CAN BUY.

Single, $3.95
Double, $5.95

WE HAVE SELECTED as a leader the genuine full calf covered scrotal truss, manufactured by J. Ellwood Lee Co., the celebrated American truss manufacturers. It is a truss that can be used for either regular or scrotal rupture, and is sold by nearly every surgical instrument and physicians' supply dealer in the country at practically double our prices.

EVERY PART OF THE TRUSS is selected with special care. The springs are the very best steel and carefully tempered. The covering over the spring is heavy calfskin, padded inside and fine casing, double silk stitched, with hand made pad, making the truss easy and comfortable, preventing its cutting the body. The pad is especially constructed, hair stuffed, covered with soft leather, large in size and will hold a rupture where every other form of pad has failed. It has a rubber covered elastic understrap which keeps the pad in perfect shape and prevents its slipping or shifting. **This truss is the very best truss that can be made and will give perfect satisfaction.** We offer you the single truss for $3.95 and the double truss for $5.95. We offer this excellent truss at these low prices in order to bring the best truss within the reach of all.

IT PAYS TO BUY THE BEST.

NOTE—No other mail order house in the country offers you this same high grade truss. Duplicate pictures are easy to make, but do not confuse low prices or similar pictures with this article, because no other mail order house has the genuine article. If you want the best and at a price that others charge you for a cheap imitation, take no risk, but buy this truss at once. Remember it always pays to buy the best. For cheaper scrotal truss, see German Scrotal No. 8F3552. Shipping weight, 24 ounces.

No. 8F3541 Lee's Fine Single Scrotal Truss. (Be sure to state size and side.) Price.....

No. 8F3543 Lee's Double Scrotal Truss. Price.....$3.95 / 5.95

In ordering please state side on which rupture is located; also give measurement around body on a line with the rupture. Sold under a positive guarantee that no better truss of this style could be obtained anywhere at any price.

Every truss wearer should have a "Nulife." See page 912.

CHASE REVERSIBLE TRUSS.

Improved Style.

This fine calfskin orange colored leather covered truss is one of our most popular styles. Best springs, heavy double silk stitched leather casing, padded inside, top and bottom edges of the new style roll finish which prevents the edges from cutting the skin. Fitted with the well known Chase leather covered water pad which affords so much comfort and satisfaction to the wearer. Attachments are adjustable so pad can easily be placed in the desired position. Back of pad and all adjustments heavily nickel plated and beautifully polished. Not how cheap but how good. It pays to buy the best. **Be sure to give size and side.** Shipping weight, 16 ounces.

SINGLE.

DOUBLE.
$3.25

A large number of our customers prefer the hard rubber trusses because of their many advantages. They are made from the best of springs, are always clean, are not affected by perspiration, heat nor cold. The rubber coating is vulcanized upon them to such a degree of efficiency as to produce nicely rounded edges, perfect smoothness and extreme durability. All metal parts are heavily nickel plated and highly polished. They are free from any unpleasant odor and can be easily shaped and adjusted. We carry only the finest grade of hard rubber trusses and supply them at such very low prices that even those in moderate circumstances can now afford to secure for themselves the very best, the very finest hard rubber trusses at extremely low prices as offered below.

The Chase truss is different from most hard rubber trusses on the market in the fact that the hard rubber pad is adjustable in many ways. Has various distances; also has adjustable attachment on spring enabling the pad to be raised to any distance required. One of the easiest adjusting trusses we carry. **In ordering be sure to give size and side and distance around body on line with the rupture.** Shipping weight, 16 ounces.

No. 8F3580 Chase Hard Rubber Truss, single. Price.....$1.98
No. 8F3582 Chase Hard Rubber Truss, double. Price.....3.25

THE SOLID COMFORT (HOOD'S) HARD RUBBER TRUSS.

Single, $3.45
Double, $3.85

One of the highest grade and best fitting trusses made. Not the cheapest, but the best. This is an elegant hard rubber single truss, especially recommended by all truss experts and scientific truss fitters. Before putting on this truss, the rupture should always be returned into the inguinal ring, placing truss in position, the pad right over the spot where the rupture is located. Then fasten the truss at the back. This truss not only checks rupture quicker than any other appliance, but prevents a breach or rupture on the opposite side. It has a small flat pad on the opposite side from the rupture, known as a "blind" pad, which will save you from a double rupture. Once adjusted it usually proves to be the most comfortable and safest truss for single rupture. Regular price, $9.00 to $15.00. **Do not compare this fine truss with the cheaper grades sold around our prices. Be sure to give size and side.** Shipping weight 18 ounces.

No. 8F3590 The Solid Comfort Hard Rubber Truss, for single rupture. Price.....$3.45

In ordering state location of rupture, whether on right or left side; also give measurement around body on a line with the rupture.

No. 8F3592 Double Truss. Our price.....$3.85

This truss can be fitted with Radical Cure Pads at 75 cents each, extra.

Every truss wearer should wear "Nulife." See page 912.

J. ELLWOOD LEE'S PILE TRUSS.

A newly perfected appliance to be used in the treatment of piles. Comprises a 1½-inch wide genuine leather belt, handsomely double silk stitched, with hard rubber retaining attachment and with double understraps. Finest material throughout. All metal parts heavily nickel plated and beautifully polished. Hard rubber parts of very finest polished hard rubber, perfectly smooth. If you are troubled with piles we suggest that you give this truss a trial. It has been so successfully used and so highly recommended we believe it will give satisfaction in most cases. Inasmuch as this article is for personal use, after once used it cannot be returned. This is your protection as well as ours. **In ordering be sure to state waist measure.** Easily sells for $5.00. Shipping weight, 16 ounces.

Vim Athletic Supporter and Suspensory Combined.

Combines all the convenient and essential features of an athletic supporter and suspensory. The materials used are the very best and workmanship par excellence.

As an Athletic Supporter. The leg bands are attached in front, not to the waistband, but to the bandage itself, and for this reason there is no downward pull to cause the supporter to slip over the hips, nor will the leg bands get out of place and cause chafing.

As a Suspensory. The Vim is light, cool and comfortable. It fits perfectly without adjustment. There are no buckles to cause discomfort and the comparatively wide bands lie flat so they cannot possibly cut into the flesh. Especially adapted to athletes and as a combination suspensory. Can be changed in a moment's time while being worn from a reinforced athletic supporter to a light, cool suspensory. Regular price, $1.00. Furnished in three sizes, small, medium or large. **State size.** Shipping weight, 5 ounces.

No. 8F3780 Vim Athletic Supporter and Suspensory. Our price.....79c

Atlas Suspensory.

Something new in the line of draw string suspensories. Exceptionally neat in appearance and embodies features and advantages in construction not found in any other suspensory. Durable, comfortable, easily washed, no elastic in bands and very serviceable. Shipping weight, 4 ounces.

No. 8F3783 Lisle Suspensory.....33c

No. 8F3784 Silk Suspensory.....50c

STANDARD VETERINARY REMEDI

Arabian Stock Tonic Tablets.

An excellent and very efficient stock conditioner and sold extensively throughout the United States and Canada. Analysis of many leading stock foods show most of them to be composed of about 90 per cent of filling materials and 10 per cent actual medicine. The Arabian Stock Tonic Tablets are manufactured out of medicinal ingredients used in the various stock foods but without the filler and contain only the medicinal ingredients in concentrated form required of any stock food or conditioner. Each tablet represents a dose. Just the medicine for horses, cattle, sheep and hogs. Full directions with each can. Considering economy no stockman can afford to be without this reliable medicine. Each box of tablets represents the equivalent of 100 pounds of stock food. They are all fully guaranteed, and if you buy them or any medicine on this page, and are not entirely satisfied, your money will be cheerfully returned for the asking. Shipping weight, 10 ounces. Regular price, per can, $1.00.

No. 8F1300 Our price, per large can $1.00 **79c**

Poultry Roup Remedy.

A RELIABLE POULTRY FRIEND.

Chickens affected with roup.

A long used remedy for roup and colds in chickens. Roup is usually caused by the chickens roosting in the open air and catching cold which soon develops into roup. The symptoms are well known and need no description. The disease saps the vitality of the bird and in a short time it appears weak and drooping and death follows unless relief is prompt. Poultry Roup Powder is a very reliable remedy, and is merely dissolved in the drinking water. Full directions for feeding and treating accompany each package. If you raise chickens you will need this splendid remedy. Your money back if not satisfactory. Shipping weight, 6 ounces. Regular price, per box, 50 cents.

No. 8F1307 Our price **39c**

FOR GRIST MILLS, Egg Cases and other Poultry Supplies see page 1063.

Liquid Lice Killer.

Liquid Lice Killer is compounded for the use of poultry raisers for killing all vermin and annoying pests of fowls. An article of unquestionable merit. Poultry cannot flourish while infested with annoying parasites and Liquid Lice Killer is easily applied and very effective. Paint the roosts and nests, etc., where the lice harbor and the fumes will kill them and allow the chicks to grow and become healthy. A trial will convince you. Your money cheerfully returned if at any time it proves unsatisfactory. Regular price, per half gallon can, 90 cents. (Unmailable.)

No. 8F1308 Our price **63c**

Gall Ointment.

A healing salve for applying while the horse works. Recommended for all gall abrasions of the skin; makes the part antiseptic, toughens the skin and heals in the shortest possible time. One of the best, most perfect, high grade gall remedies on the market. An ointment that has proven very satisfactory to our customers. Your money cheerfully returned at any time if not satisfactory.

Veterinary Blister.

Intended for use only on what is known as soft swellings or injuries affecting the muscles or ligaments. Will have absolutely no effect where the bone is affected. Easily applied and with apparently good results. If you need a veterinary blister give this remedy a trial. Your money cheerfully returned if it ever fails. Shipping weight, 3 ounces. Regular price, per package, 50c.

No. 8F1312 Our price **33c**

IS YOUR HORSE WITH HEAVES WORTH $1.67? Arabian Heave Tablets.

Heaves is considered a most stubborn disease and claimed by many veterinary doctors impossible to cure. Arabian Heave Tablets have been used by veterinary doctors for years and have helped and cured hundreds of cases of heaves. While we believe no one preparation will cure every case, nevertheless, the results with this preparation have been so satisfactory that we offer it to you purely upon its merits and for the splendid results it has produced. The Arabian Heave Tablet is a compound made from extracts of seeds, one that has been tested and tried for years, one that if the directions are followed carefully will cure or greatly benefit nine out of every ten cases with a fair and honest chance, even to cases of years' standing. They contain one of the best germicides and antiseptics known to medical science, they reduce the inflammation promptly and, acting as a strong soothing cordial, they are most remarkable and speedy in giving relief. If you have a horse with heaves and desire to give this preparation a trial, you can do so without any risk. We will allow you to purchase a package, use the contents according to the directions and if after the last dose has been given it has not accomplished satisfactory results, all you have to do is to write us to that effect and your money will be cheerfully returned. It is sold on this spot cash guarantee. Shipping weight, 16 ounces. Regular price, per can, $2.00.

No. 8F1310 Our price **$1.67**

Worm Powders.

Nearly all young colts, especially about the weaning period, are subject to worms, which rapidly weaken their systems and affect their growth. Worm Powders have proven very satisfactory for the killing of worms in colts and horses, and their removal from the system. Worm symptoms are well known and are the cause of a great many diseases and the loss of numerous animals. These powders are easily given with the food and have proven very effective. Give these powders a trial. Your money back for the asking. Shipping weight, 8 ounces. Regular price, $1.00.

No. 8F1311 Our price **77c**

Veterinary Carbolic Salve.

A very reliable friend in treating and healing galls, burns, cuts, wounds, scratches, hoof diseases and skin diseases of animals generally. Considered the farmers' universal friend. It will usually produce a new growth of hair of natural color; also important in healing wounds. Put up only in 1-lb. packages. Shipping weight, 21 ounces. Regular price, per 1-pound can, 50 cents.

No. 8F1317 Our price **31c**

Veterinary Liniment.

A cooling, penetrating and healing remedy of merit, and largely used for sprains, bruises, swellings, lameness, large joints, inflammation, etc. Externally employed for coughs, colds, sore throat, being applied to the throat and windpipe and rubbed in thoroughly. Full directions accompany each package. Regular price, per 10-ounce bottle, $1.00. (Unmailable.)

Century Cresol

BEST AND CHEAPEST SHEEP DIP IN TH

Permitted by the Government in all Official Dippings for Sheep good for Hogs, Cattle and all Stock.

What does it cost you to fill your vats? Century Cresol Dip will fill official fluid for sheep scab at almost half the price of any other dip highly concentrated and will save freight and cartage. Because of this Century Dip goes almost as far as two barrels of any other dip on the

It is easily and quickly mixed, makes a perfect emulsion in either hot or is guaranteed.

Figure it out for yourself. One gallon of Century Cresol Dip makes dipping fluid, official strength, for sheep scab. One barrel makes 2,100 actual dipping fluid costs less than 1 cent a gallon, and it is the price of the that interests you. Century Cresol Dip is a highly concentrated, beautiful, colored fluid, sparkling and brilliant. Mixes instantly with water, filling your soapy fluid that quickly penetrates the fleece, softening the skin and is not for sheep scab, but also kills ticks and all parasites. Contains no rosin, caustic soda; just pure linseed oil and cresol saponified with our own process. cost of dipping in Century official fluid is tremendous. Remember, it is highly

CENTURY CRESOL DIP is harmless. It will not sicken your sheep, injure their eyes, and even should they not harm them. The ideal time for dipping is immediately after shearing, is a great healing agent. It will quickly heal all wounds or scratches by shearing pens. A very popular and largely used dip. Satisfaction guaranteed.

HUNT'S CRESYLINE DIP AND DISINFECTANT

A germ killer and vermin destroyer. An ideal germicide, insecticide, deodorizer and antiseptic. The improved coal tar dip, which when added to water makes the well known milky solution. It is similar to the many dips usually sold as sheep dips but is of greater strength than most of them and therefore greatly superior. A very reliable remedy for all parasitic skin diseases of sheep, cattle, swine, horses, dogs and poultry. One gallon of this high grade dip added to 70 gallons water produces a solution that will effectively kill and destroy all parasites, lice, ticks and fleas, and at the same time cure scab and mange. It does not injure the animal in the least, prevents attacks of insects and in the case of sheep improves the wool, strengthens the animal and facilitates succeeding clips. In weak solutions Hunt's Dip furnishes an excellent stable disinfectant for cleansing of stalls, sties, henneries, kennels, etc., an all around useful product for the farm.

Don't risk sow and growing pigs in filthy, vermin infested quarters; don't, by neglect, invite an outbreak of cholera or swine plague or infectious pneumonia. Clean up and disinfect everything with Hunt's Reliable Dip. Nothing like it for purifying stables, outbuildings, pens and the home. Keeps indefinitely. Satisfaction guaranteed. Sold by many concerns under their own label at $1.50 a gallon.

No. 8F1351 Galvanized iron frame for holding the brick in place, keeping it dry and preventing waste. Shipping weight, 15 ounces. Price . **12c**

Fistula and Poll Evil Remedy.

These two diseases are extremely hard to cure and many preparations have been offered on the market for their treatment. We believe the only way the disease can be checked and satisfactory results obtained is by taking it in its earliest stages.

Fistula and Poll Evil Remedy is a combination of antiseptics and penetrators for killing the germs causing the disease, stopping the growth and healing the parts. If the disease is firmly established we do not believe this or any other remedy of a similar nature should be used, but the animal should be put at once under the care of a reliable veterinary doctor. However, in the early stages it has proven very satisfactory in many cases and we offer you the remedy purely upon its merits. If you desire to use this remedy you can buy it, use the contents according to directions accompanying the package, and if you are not entirely satisfied with the results, your money will be cheerfully returned. While we believe this preparation will do all that can reasonably be expected of a medicine of this nature, nevertheless, cases vary so greatly and the disease is so hard to relieve that we offer you the remedy purely upon merit and allow you to use it and judge its value for yourself. Regular price per bottle, $2.00. Shipping weight, 13 ounces.

No. 8F1327 Our price **$1.29**

Fistula and Poll Evil Syringe.

Poultriotone

How to Make More Profits From Your Poultry.

THERE IS MONEY IN POULTRY.

It takes just as much time, trouble, feed, labor and care to keep hens that lay sparingly as it does to keep hens that lay 200 eggs a year. Only one doesn't make as much profit. Every extra egg you induce a hen to lay, every extra chick you hatch, every gain you make in the condition, the health and the vitality of your flock, adds just so much more to your profits. If you don't get this added profit it is time you did. You can get it, you can double your poultry profits this season. The fertility of your eggs, the percentage of your hatches, the vigor and health of your fowls depend upon a tonic, and that tonic is Poultriotone.

WHAT POULTRIOTONE WILL DO.

Poultriotone isn't a panacea for all poultry ills, but it certainly is the biggest help to profits the poultry raiser ever saw. It will greatly aid fowls in recovering from disease, it increases the appetite, aids digestion, and has a peculiar tonic effect, which keeps the system in good condition, makes thrift and produces healthy stock, red combs, glossy plumage and a full egg basket. Proven successful by years of experience.

A PROFITABLE INVESTMENT.

Your hens can't lay, your chicks can't grow, and your flocks can't thrive unless they are vigorous and healthy. Poultriotone is the product necessary to keep your fowls in a condition to make them profitable. **Poultriotone is purely vegetable,** containing no mineral poison and can be used with no fear of bad after effects. It invigorates breeding fowls and increases fertility of the eggs. You can save and raise a greater number from each hatch by feeding Poultriotone because it keeps the young chicks free from disease, makes them vigorous and aids them in withstanding cold and damp weather, and supplies the want of green food in winter. Poultriotone is equally well adapted for use in feeding turkeys, ducks, geese, pigeons and other fowls. Poultriotone is easy to give. Mix it either in the feed or water. A heaping tablespoonful for a dozen fowls. Poultriotone is cheap. A little makes a great improvement in the condition of your poultry. Pays big returns on its cost. Endorsed and recommended by thousands of poultry owners everywhere. It will prove its value on your poultry if you will give it a chance. It costs little to try it and convince yourself that what we say is true.

Hooftone.

Nature's own remedy for diseases of the foot and frog. The cheapest, safest and one of the best hoof packings ever offered to the public. A natural rock that will absorb from six to seven times its own volume of water, making a smooth jelly paste; antiseptic, cooling and soothing. It is a reliable remedy for all diseases of the horse's foot; it allays all fever and inflammation, and removes soreness from any cause; a scientific hoof packing that has been endorsed and is used by all leading horsemen. Hooftone thoroughly cools out the foot, replaces the natural moisture and penetrates the hoof, making it soft, tough and healthy; relieves hard, brittle and contracted feet; softens the sole and frog and takes out all soreness from stepping on nails; relieves thrush, corns, etc. Protect your horse's feet, as they are the life and energy of the horse. Full directions with package.

Hercules Horse Mouth Speculum.

The best Speculum made regardless of price.

The strongest, safest and best Speculum ever manufactured, easy to operate and one that we know will please you. For general veterinary use and for all around work nothing can compare with it, and the price has been brought so low that every veterinarian, stockman and farmer can now afford this fine instrument. It is light in weight, very strong in material, thereby safe for the operator; aseptic in every part, not complicated, is interchangeable and very easy to operate. It can be taken apart and carried in pocket or satchel, occupying very little space. Its construction is so simple that it cannot get out of order and has patented self locking joint. It is free from every obstruction on sides and it allows operator to work with ease from front or either side. A single pull of the lower chain closes the speculum instantly. If you need a horse mouth speculum we recommend that you send for the Hercules Patented Horse Mouth Speculum, compare it with other speculums that sell at $12.00 to $15.00 and you will prefer the Hercules Patented Speculum every time. Full nickel plated throughout. The merits and advantages of this instrument are so apparent that everyone can see them. Should be in every stable. Shipping weight, 10 pounds.

Improved Drenching Bit.

Without doubt the best instrument for giving medicine to horses, cows, calves, sheep and hogs. An improvement over the old form bit; better finish, more ease in giving, and far superior in every way.

This bit has a container with a screw cap so that the animal cannot spill the medicine. A shut off valve allows the medicine to be turned on and off at will. You may take container from bit, fill it with medicine, and screw into position after the bit has been adjusted to animal's head. The bit keeps the animal's head up and keeps its mouth shut. The animal has to swallow every drop after you open valve. A perfectly made, compact, strong veterinary appliance. Will last a lifetime. Fully nickel plated. Each in box. Shipping weight, 3 pounds.
No. 8F1875 Improved Drenching Bit. Price.....$2.45

Castrating Knives.

Castrating Knife. Spring back. Fine steel. Metal handle. A good instrument and one that can be relied upon. Buy the best. Shipping weight, 4 ounces.

FIRE ARMS SHOTGUNS, RIFL AND REVOLVE

The Largest Stock of Fire Arms in the United States, Including the Best and Most Dependable Guns and Rifles of Domestic and Foreign Make

THE POSITION WE HOLD in the fire arms business as manufacturers and largest buyers enables us to offer you unequaled values in shotguns, rifles and revolvers. Our fire arms factory at Meriden, Conn., manufactures a more extensive and complete line than any other factory in the United States. In this factory we manufacture a complete line of double barrel guns, hammerless and hammer; a large line of single barrel guns, several styles of rifles, and a complete line of revolvers. Manufacturing these goods ourselves, we enjoy first cost and are able to offer them to you at prices below the lowest wholesale price. In other words, you can buy guns, rifles and revolvers of us for less money than the retail dealer can buy them from the wholesale dealer or manufacturer.

In addition to the extensive line of fire arms of our own manufacture, we carry all the best standard makes, such as the Winchester, Marlin, Stevens, Bayard and Colt, of which we are enormous buyers, and we are in a position to offer you the latest model guns direct from the factories at the very lowest prices.

There are at the present time over 65,000 enthusiastic shooters guns. There are no guns on the market today so well and known as this famous line, made in our own factory, the Meriden Company, Meriden, Conn. We would be pleased to send you our entitled, "The Man Behind the Gun." It contains the opinions of of shooters as to the merits of the A. J. Aubrey guns.

ALL A. J. AUBREY GUNS ARE SENT ON A SIXTY-DAY and are covered by a twenty-year guarantee, which means that if you buy an A. J. Aubrey gun of us you have the privilege of giving the gun a thorough trial, and if at the end of sixty days you are in any way dissatisfied with it, return it to us and we will return your money and the transportation charges. The guarantee covers any defect in material or workmanship which might develop within twenty years of the date of purchase. No other manufacturer ever offered his product under such liberal terms, which will speak for the confidence we have in these A. J. Aubrey guns.

Most Beautiful American Made Guns Ever Offered

The two guns illustrated below are unquestionably the most beautiful American made guns ever carried in stock by any factory or dealer. Or guns such as these would be made only to special order, and if of equal quality, would be sold for at least treble the price we ask; in fact, up to we experienced a demand sufficiently large to warrant making these guns in quantities for stock, we were compelled to charge not less than $45.00 No. 6F55 gun, which we now sell at $26.45, and $60.00 for the No. 6F58 gun, now sold from stock for $38.50. There are but few factories in this country make guns of this quality, and they charge from $50.00 to $125.00 for guns that would compare with these we offer at $26.45, $30.50 and $38.50.

A. J. AUBREY TOURNAMENT HAMMERLESS SHOTGUN $26

FOR $26.45 we furnish this beautiful A. J. Aubrey Hammerless Gun with elaborate hand engraved locks, hand checkered stock and fore end. One of the most beautiful and artistic guns made. This price is below what you would have to pay for an ordinary plain finish double barrel hammerless gun. A gun of this same quality, with the same amount of checkering and engraving, if purchased in any other make, would cost at least $50.00; in fact, any other factory would charge as much for the engraving alone as we charge for the entire gun. The beautiful game pattern is all chiseled out by hand by one of the finest artist engravers, and the engraving is as fine and artistic as that employed on the finest jewelry. The checkering on the stock and fore end is the work of experts, is all done by hand and requires almost treble the time required for checkering an ordinary gun.

THE STOCK AND FORE END are made of selected walnut with a beautiful grain.

THE FRAME is beautifully case hardened in mottled colors, handsomely displaying the exquisite engraving.

THE BARRELS are taper choke bored. The mechanism of this gun is the same as on all our A. the strongest and safest mechanism following page for full description.

No. 6F55

FOR $26.45 we furnish this beautiful gun with compressed XX carbon steel barrels beautifully finished and polished; for $30.50 the same gun with the finest imported three-blade Damascus barrels. Be sure to state length of barrels wanted.

No. 6F55 Aubrey Special Hammerless Gun. 12-gauge, 28, 30 or 32-inch compressed XX carbon steel barrels. Every gun guaranteed for twenty years. Weight, 7½ to 8 pounds. Price **$26.45**

No. 6F56 The same gun as No. 6F55, except the barrels, which are the finest imported three-blade Damascus, beautifully browned and finished. 12-gauge, 28, 30 or 32 inches. Weight, 7½ to 8 pounds. Price **30.50**

Weight, packed for shipment, about 14 pounds.

$38.50 DIAMOND GRADE A. J. AUBREY HAMMERLESS

THE MOST ARTISTIC AND BEAUTIFUL AMERICAN MADE GUN EVER CARRIED IN STOC

THIS GUN SURPASSES in material, finish, artistic design and workmanship, any $100.00 made to order gun. It is an artistic triumph in gun making, a gun such as any shooter would be proud to own and which would excite favorable comment at any tournament. This is not an ordinary gun, elaborately or flashily machine engraved and finished, but the highest grade gun made, in every detail; from muzzle to butt plate, made by experts.

THE BARRELS are of the finest small figured, three-blade, imported, genuine Damascus, browned in a deep, rich color. The barrels are beautifully polished inside, full taper choke bore, insuring an excellent target and maximum penetration. The balance and hang of this gun are perfect. All told, it is the acme of perfection in every detail and reflects the work of a master hand.

THE ILLUSTRATION cannot do the gun justice, for in order to bring forth ing and design, the photographer had to use heavy the actual engraving and checkering on the gun is as delicate as the work on the silver. Every cut, every line is made by hand by fine artists. It requires hours lock plate. The game design, chiseled with the finest tools, is a beautiful piece of are few artists in the country who are able to do work of this kind work on the frame, trigger guard, tang and barrels is all done by the The stock and fore end are of the finest selected checkered by experts, the checkering on this gun again as on any ordinary gun. The engraving is beautifully set forth by the tled case hardening.

No. 6F58

THE ENGRAVING and checkering are correct in every detail of artistic finish; all working parts of the gun are made of the finest tool steel. This gun is designed with a view to the correct distribution of material, making lighter handling and better balance in proportion to the weight.

No. 6F58 Aubrey Hammerless Shotgun. 12-gauge, 28, 30 or 32-inch barrels carried in stock (26-inch barrels made to order requiring several weeks' delay); barrels of the finest imported three-blade Damascus steel; regular stock, full choke bored (can be furnished cylinder bored or one barrel cylinder and one barrel choke bored, if desired, to special order); full pistol grip, rubber cap stock. **Be sure to state length of barrels wanted.** Weight, 7½ to 8 pounds.

Price ..... (Weight, packed for shipment, about 14 pounds) **$38.50**

HE AUBREY FIELD GRADE DOUBLE
TREBLE BOLTED
ARREL HAMMERLESS SHOTGUN

$13.85

A STRONG AND SUBSTANTIAL GUN, MADE OF THE BEST MATERIAL, BUILT FOR HARD SERVICE AND TESTED BY THE SAME METHOD AS OUR HIGHER PRICED GRADES.

OUR PRICE OF $13.85 for this field gun does not permit of elaborate engraving or the special artistic finish employed in the higher priced grades, nevertheless this gun is finished better than any $20.00 or $25.00 hammerless gun on the market, and in regard to safety, strength, shooting and wearing qualities, will give the same satisfaction as the higher priced, elaborately finished guns.

THE ADVANTAGES OF A LOCK PLATE GUN over the box or solid frame type are numerous. In the lock plate gun the lock mechanism is assembled on the lock plate, and the mechanism is accessible by simply moving the screws which hold either plate, and all parts being interchangeable, repairs can be made or parts replaced by any novice; whereas in the box frame type of gun, the mechanism is all concealed in the frame and requires considerable skill to make repairs or replace any part.

THE TRI-PART LOCK OF THE AUBREY GUN is the acme of simplicity in gunlock construction. As shown in the illustration, the lock of this gun consists of but three working parts, namely, the hammer, mainspring and sear. The hammer and sear are made of the finest tool steel, guaranteed against wear. The mainsprings are all oil tempered, and every spring is put through a rigid test, absolutely guaranteeing against misfire. There are no better springs than those used in the Aubrey guns.

WE NOW USE the improved model Deeley & Edge fore end on these Aubrey hammerless guns. This fore end engages with the fore end lug of special construction, insuring a positive and rigid fastening and permitting of instantaneous removal by simply raising the lever, a big improvement over the various types of snap fore ends used by other manufacturers.

THE BREECH of the Aubrey gun, heavily reinforced and multi-bolted, is shown in this illustration, also the two heavy steel bolts and extension rib with cross bite, giving you at a glance an idea of the wonderful strength, durability and construction of these guns.

LICITY OF THE AUBREY MECHANISM is clearly shown in the illustration ...ge. You will note there are no unnecessary links or cams, ...ade of coiled or flat springs. The number of parts is reduced to ...um, and they all work with a positive, direct action. We par...ll your attention to the automatic safety, which is abso...matic and positive in its action, the safest device of its kind ...n a double hammerless gun. You will also note that the ...ers work with a direct thrust; the hammers are cocked with ...rod being pushed forward. There is no strain on the gun. ...at improvement over the hinged or lift-up type of cocking ...in most hammerless guns. All working parts of the mechan...Aubrey gun, such as the cocking cams, cocking levers, sears, ...ring pins, and all pins carrying working parts are made of the ...ality tool steel, ground and tempered, and absolutely guaran...frictional wear. We use no soft steel stock in any part of the ...hanism.

OTING QUALITIES OF AUBREY GUNS. Aubrey guns are famous for their excellent shooting qualities. ...y guns are choke bored on the taper system. We do not swage or jug choke our...s, as this method, while inexpensive, is also unsafe and will not produce the results ...bored gun. In the Aubrey guns the choke is bored from breech to muzzle by skilled ...and the metal necessary for strength and safety is left in the barrel. We have improved ...ed of boring, and through our improved method we get results in target and penetra...ound in any other make of gun. Aubrey guns will bring down game at a greater distance ...of the ordinary double barrel guns. With an Aubrey gun you can bring down game that ...ollow misses.

$16.35 A. J. AUBREY LATEST MODEL HAMMERLESS SHOTG

THIS IS A VERY POPULAR GRADE AUBREY GUN, designed particularly for the man who wants a better finished and fancier gun than the regular grade. The difference between this gun and our $13.85 gun is in the selection of wood in the stock and fore end and in the handsome hand engraving on the frame and lock plates, as shown in the illustration. Any other make of gun of comparative quality, engraved and finished as this A. J. Aubrey gun at $16.35 is, could not be purchased for less than $30.00.

GUARANTEED FOR 20 YEARS

GLOBE SIGHT FREE. We include with every one of these guns one of our celebrated Patent Globe Sights. These sights are of great value to the shooter, and may be instantly attached or detached without interfering in any way with the regular sight.

$19.35 A. J. AUBREY HAMMERLESS GUN WITH C ENGRA

$19.35 WITH TWIST BARRELS. $22.25 and $22.45 with two-blade Damascus barrels; these are our prices for these beautiful guns with hand engraved locks and frame and selected walnut stocks, guns such as you could not duplicate elsewhere for less than double our price. The finish, the lock work, the close fitting, the fine checkering, the handsome engraving and the beautiful proportions and balance of these guns are better than can be found on almost any other make of gun, regardless of price. If you want a gun that combines beauty with strength and shooting qualities, a gun that will last you a lifetime, which is handsomer than any $50.00 gun of any other make in your neighborhood, we would advise you to purchase this grade of Aubrey gun. The mechanical construction and general outline are the same in all Aubrey guns, and what we say in this respect of any of our Aubrey Double Barrel Hammerless Guns is true of all. The illustration we show is taken from an actual and while an exact reproduction, it nevertheless fails to do the gun justice, as this c seen, handled and brought to the shoulder in order to appreciate its wonde and beautiful outline. Guaranteed for either black or smokeless shells.

WE CAN FURNISH THIS GUN with two-blade Damascus barrels in 16-gauge. This is the only grade which we make in 16-gauge. Bear in mind that our liberal sixty days' trial offer and binding twenty years' written guarantee apply on all Aubrey guns.

Our Improved Patent Globe Sight free with these guns.

$21.98 A. J. AUBREY EJECTOR MODEL HAMMERLESS

$21.98 IS THE LOWEST PRICE that has ever been made on an ejector model double gun. Heretofore ejector model guns were and even at the present time are sold for $23.00 and upward. These guns offered at $23.00 to $35.00 do not compare in quality, finish and construction with this A. J. Aubrey Ejector Model Gun, made in our own factory under the supervision of the most expert workmen. This price of $21.98 is possible only through the fact that we make these guns in our Meriden factory and are not obliged to include in our price heavy selling expenses, advertising expenses or the salaries of paid shooters. We manufacture these guns in quantities twice as large as most manufacturers, and are therefore able to offer you this gun at a price which is really below the ordinary manufacturer's cost, quality considered.

THE MECHANISM and general construction of this gun, with the exception of the ejector, are the same as our regular line of Aubrey guns described on previous pages, and is the strongest and best mechanism and construction known.

THE EJECTOR on this gun contains fewer parts than almost any other on the market. It is absolutely automatic and is guaranteed not to get out of order. The of the ejector is all contained in the fore operated by the cocking levers. When the pulled the cocking lever automatically trips and the discharged shell is automatically ej of the gun when the gun is opened. The ej independently and will eject either left or r or both; in other words, the ejector only the shell that is discharged. It as a positive extractor when are not fired.

No. 6F35

THIS EJECTOR GUN, the same as all Aubrey guns, is fitted with our automatic safety, which blocks the sears, preventing all danger of accidental discharge.

THE BARRELS of this gun are made of the genuine Krupp steel, a special grade of very tough steel of fine grain, especially adapted to gun barrels, which takes a beautiful finish and which possesses unequaled wearing qualities. These barrels are finished in a deep, rich dark blue and are taper choke bored. The choke is bored in the barrel from the breech to the muzzle, causing these guns to shoot with penetration and target not found in any other make of gun.

THE FRAME is beautifully case hardened. The locks are handsomely engraved, as shown in the illustration. The stock and fore end are made of the finest selected walnut; in fact this gun is of the celebrated Aubrey construction throughout. The material, workmanship, alignment and proportions are absolutely the best.

$8.95 OUR AMERICAN MADE GUN

MADE ESPECIALLY FOR US UNDER CONTRACT.

WE WOULD ADVISE THE PURCHASE OF THIS GUN in preference to any of the ordinary Belgian guns on the market, as it is vastly superior, this gun being extra strongly bolted. The barrels are reinforced at the breech; gun has water table frame and nitro firing pins, rebounding hammers, is taper choke bored, with matted extension rib, selected checkered pistol grip stock with rubber cap and fancy rubber butt plate, and finely checkered walnut fore end. Guaranteed to equal in pattern and penetration any $15.00 gun on the market. All parts are machine made and strictly interchangeable.

WE RECOMMEND THIS as being an excellent, safe, dependable g that will give satisfaction, and as being ordinary value for the money. It is not so good a gun as our A. J. at $12.59 but it is a good gun for the money, a better gun than an Belgian guns selling regularly for $11.00 to $12.00.

THIS GUN will be shipped with the understanding that if at the end of ten after giving it a thorough trial, you are tirely satisfied with it, you may return we will return your money and any transp charges you may have paid.

Wing shooting made easy—Use a Leader Sight. See page 936.

$10.80 NEW ENGLAND WONDER

THIS NEW ENGLAND WONDER is made for us under contract by one of the large Eastern gun manufacturers, and next to our A. J. Aubrey gun we consider it one of the best double barrel hammer shotguns on the market. In order to insure this gun being up to date in mechanical construction, outline and general appearance, we had the manufacturer follow closely along the lines of the famous A. J. Aubrey guns, and while, of course, this gun does not possess the patented and special features of the A. J. Aubrey, nevertheless, in a general way it closely resembles our A. J. Aubrey, thereby insuring its being absolutely up to date and modern, embodying all the latest improved features found in double barrel hammer shotguns.

MACHINE MADE This gun is strictly machine made, all parts are interchangeable and should any piece or part break at any time, we can immediately replace it, and the parts being absolutely true to gauge, the gun can be repaired by anyone, although these guns are so durably constructed and the parts are so well finished and hardened that there is hardly any possibility of the gun getting out of order.

Place this $10.80 New England Wonder Gun alongside any of the ordinary ham sold by dealers for from $12.00 to $15.00, and you will at once appreciate the difference and vast superiority of this gun. In material, construction and finish way resembles the ordinary double barrel hammer gun. It is because it is so much better. Where the ordinary hammer gun single bolted, this gun is treble bolted. The same difference exists out the entire gun from muzzle to butt plate.

12-GAUGE
30 OR 32-INCH
BARRELS.

No. 6F81
$10.80

WITH EVERY ONE OF THESE GUNS we include one of our special patent Globe Sights, which is of great aid to the shooter in wing shooting, and which can be instantly attached or detached and does not in any way interfere with the regular sight on the gun.

DETAILED DESCRIPTION.

THE BARRELS of this gun are made of the finest crucible steel, beautiful dark blue finish, heavily reinforced at the breech, adapting this gun to black or nitro powder. It is choke bored on the taper system, absolutely insuring the highest possible penetration and excellent target. The barrels are fitted with a finely matted extension rib and heavy steel lugs. Positive extractor. The frame, lock plates and all metal parts are beautifully case hardened in a mottled finish. The locks are of the improved bar lock type, rebounding. The frame is fitted with the latest style nitro firing pins, absolutely guarding against blow outs or escaping gases. Same style top lever and bolt action as found on the highest priced double barrel guns made, namely, the Improved Scott Action.

THE FRAME is a solid drop steel forging, not a malleable casting, such as is used on all Belgian guns and a great many American guns sold at the same or higher prices.

THE STOCK is made of carefully selected straight grain walnut, full pistol cap and finely checkered fancy rubber butt plate.

THE FORE END is of fine walnut, patent snap. This gun is well proportioned beautifully balanced. It comes up to the shoulder with any $25.00 to $30.00 gun.

No. 6F81 New England Wonder, 12-gauge only, 30 or 32-inch crystal steel barrels, blue finish, full choke bored. Be sure to state length of barrels wanted. Weight, 7½ to 8 pounds ..... (Weight, packed for shipment, about 14 pounds.) .....

$14.80 COMBINATION SHOTGUN AND RIFLE 12-GA 38-55-CA

THESE GUNS are made especially for us under contract in Europe, are imported by us into this country and are sold at a price lower than the dealer could buy them for from the importer or jobber. This gun is particularly desirable in communities where there is an abundance of game, particularly large game. The 38-55-caliber cartridge is large enough for any game, whereas in a 12-gauge shotgun barrel you can shoot from heavy BB shot, for geese and ducks, to No. 10, suitable for the smallest feathered game. The rifle barrel is removable. By unscrewing the knurled nut at the muzzle, the rifle barrel can be withdrawn at the breech, giving you both barrels to use for shot. The rifle barrel is turned from the finest steel, accurately rifled; the shotgun barrel is choke bored and shoots with great penetration.

GREAT ACCURACY with either the shotgun or rifle barrel is se shooter becomes accustomed to the handling It requires a little practice to become proficient, as the sights are loca ter and the shooter must take this into consideration when shooting with the It requires, however, but a few shots to learn how to properly sight this gun; a one can shoot as accurately with this gun as he wo with any ordinary single barrel rifle or double barrel sh Manufactured for us exclusively by one of the ufacturers in Liege, Belgium. Others have attempt it, but have not been able to obtain a gun standard of excellence, and at that to furnish a gun, even of inferior quality, would in any way compare with our price of sidering its high quality, its st struction, and the fact th tically two complete fire arm in one, our pri is remarkably

No. 6F79

THE SPORTING REAR SIGHT with which this gun is equipped is adjustable to various elevations, and it has a Rocky Mountain front sight. The barrels are of a handsome twist finish with matted extension rib and positive extractor. The frame and lock plates are nicely engraved and case hardened. The gun has rebounding locks and is fitted with a full pistol grip, checkered walnut stock and checkered patent snap fore end.

TWO-IN-ONE. Remember, this combination gun gives you your choice of a 38-55-caliber rifle barrel and a 12-gauge shotgun barrel, or you can, if you desire, instantly remove the rifle barrel and have a high class double barrel shotgun. The shotgun barrel shoots the regular 12-gauge shells, loaded with black or smokeless powder; the rifle barrel shoots the 38-55 black powder cartridge, our No. 6F2432.

TEN DAYS' TRIAL. If you would like to see, examine and fully understand the advantages of the Combination Shotgun and Rifle, and will send us your order, enclosing $14.80, we will send the gun to you with the understanding and agreement that you may give it ten days' trial, during which time you may put it to every reasonable test, and if for any reason you are not perfectly satisfied with your purchase, you may return it to us at our expense, and we will immediately return your money.

THIS ILLUSTRATION is just one-half the size of a 38-55 cartridge used in the rifle barrel of this gun.

No. 6F79 Combination Shotgun and Rifle. Caliber of rifle barrel, 38-55, center fire; shotgun barrel, 12-gauge. Length of barrel, 30 inches. Weight, 9 to 9½ pounds. Price **$14.80**

Weight, packed for shipment, about 14 pounds.

A. J. AUBREY DOUBLE BARREL HAMMER SHOTGUN

$12.59

The following illustrations will give you an idea of the ideal construction of the Aubrey Double Barrel Hammer Breech Loading Shotgun.

THIS ILLUSTRATION shows the heavy reinforced breech, the large, solid, positive extractor, also the three bolts that securely hold the barrel to the frame, making this gun the most securely bolted hammer gun made. This bolting mechanism makes the gun rigid and safe, and absolutely prevents its shooting loose, a fault common with almost all other makes of hammer guns.

Treble Bolted.

THIS PICTURE of a section of the matted rib that goes on these guns gives you an idea of the careful attention paid to every detail in the construction of these guns. This rib is beautifully matted, tapers gradually from breech to muzzle, and is the handsomest rib ever placed on a hammer shotgun, adding greatly to the beautiful appearance of the gun.

THE LOCK of the A. J. Aubrey gun, as herewith illustrated, is considered the best lock ever placed on a hammer shotgun. Note the two tumblers, enabling the use of a mainspring the same as is used in hammerless guns and avoiding the use of a tumbler with a stirrup, or hook, which invariably breaks. This gives the hammer a sweep and a rebound not found in any other construction. The parts are all interchangeable and are made of the finest tool steel.

THIS IS AN ILLUSTRATION of a rough, unfinished steel forging, just as it comes from under the hammer. Compare this solid steel forging with the malleable castings used in most foreign and in a great many American made

guns. These solid steel forgings are cut to shape in large, powerful milling machines, and when completed, are absolutely true to a thousandth part of an inch and possess unequaled strength.

WE WILL SEND THIS GUN ON SIXTY DAYS' TRIAL, and if at the end of sixty days you are in any way dissatisfied with the gun, if you do not think it is the best hammer gun you have ever seen, if you do not think it all we claim it to be, the greatest value for the money ever offered in a double barrel hammer gun, or if for any reason whatsoever you are dissatisfied with the gun after trying it for sixty days, send it back, and your money and transportation charges will be immediately returned to you.

WE HAVE THOUSANDS OF LETTERS from our customers, who say that this is the best gun on earth. We should be glad to send you copies of these letters, a number of which we have embodied in a booklet of testimonials. If you are interested, send us a postal, asking for our booklet of testimonials on Aubrey guns, and it will be sent to you by return mail, postpaid.

GUARANTEED FOR 20 YEARS

HANDSOMEST, ...NGEST AND BEST ...TING DOUBLE BARREL ...MER SHOTGUN MADE.

...IFFERENCE IS NOTICEABLE. ...of the A. J. Aubrey gun shown on this ...aking into consideration its general lines ...ppearance, will doubtless call to your attention ...that the A. J. Aubrey Double Barrel Hammer Guns ...different from any other double barrel hammer guns ...market. The Aubrey Double Barrel Hammer Guns have ...proportion and alignment entirely foreign to all other ...barrel hammer guns, and they resemble, in this respect, the ...grade hammerless guns.

...ALS THE HAMMERLESS. **Many shooters ceased using the hammer gun ...the lines of the hammer gun were so clumsy and ...,** as compared with those of the hammerless. The ham...ns were made far more graceful and balanced better and a ...y shooters for no other reason preferred them, but there ...been a demand for a high grade double barrel hammer shotgun ...general lines of the highest grade double barrel hammerless gun. ...has not been appreciated by the manufacturers; in fact, several ...gest manufacturers ceased making double barrel hammer guns, not ap...the demand; but we, owing to our close connection with the gun busi...as dealers and manufacturers; realized that there was a demand for a ...hammer gun, properly built and constructed, and that if a double barrel ...were made with the same attention to every detail that is given to ...less guns, it would meet with a large sale. We accordingly set about ...a double barrel hammer gun that would embody all the modern, ...features, a gun that would equal the best hammerless guns.

$14.20 Reduced Price. A. J. AUBREY SPECIAL ENGRAVED MODEL HAMMER G

THIS IS ONE OF THE HANDSOMEST double barrel hammer guns ever placed on the market. It is elaborately hand engraved, finely checkered and beautifully finished. This gun is not to be compared with the cheap machine engraved guns of American or foreign make sold throughout the country. The work on this gun is high class; the engraving and checkering are all done by hand by high priced, skilled engravers.

FOR THE MAN who wants a double barrel hammer gun finished and engraved the same as any ordinary $25.00 to $30.00 hammerless, we recommend this gun, which, at our price of $14.20 for the crystal steel barrels, $15.10 for the twist, and $16.40 for the Damascus, is extraordinary value.

IN MECHANICAL CONSTRUCTION and general outline this gun is the same as the $12.59 gun described and illustrated on preceding page. The difference in price between this gun and the gun at $12.59 is due to the elaborate engraving, extra fine checkering, the additional hand work in finishing and the selection of wood in the stock and fore end. The demand for these guns during the past season has been so large that we have been compelled to double our output, and in so doing have obtained a lower cost for manufacturing, of which we give you the benefit by offering this gun at the reduced price of $14.2 the elaborate engraving, as shown in the illustration, the artistic che compare this gun with any hammer gun you can buy for $20.00 to $2 gun, the same as all Aubrey double barrel guns, is treble bolted, has paten end, is choke bored on the Aubrey taper system, has reinforced breech bite extension rib, is covered by our twenty years' guarantee against de sent on sixty days' trial with the full understanding and agreement tha end of sixty days, after putting the gun to every reasonable test, you way dissatisfied with it for any reason whatsoever, you may return the at our expense, and we will immediately return your money, together express or freight charges you may have paid.

12-GAUGE ONLY. These guns come in 12-gauge only with 30 or barrels. The stock and fore end are made of the lected walnut, finely checkered. The stock is full pistol gr rubber cap and fancy rubber butt plate. The frame and are beautifully case hardened with a mottled finish. The barrels are finished in a rich dark blue; the Dam twist are handsomely browned. All considered, the unquestionably the handsomest, strongest, most finest shooting hammer guns ma less of name, make or price.

$16.20 Reduced Price. OUR HIGHEST QUALITY A. J. AUBREY HAMMER SHOTG

12-GAUGE, 30 OR 32-INCH BARRELS, TREBLE BOLTED, TAPER CHOKE BO

THIS GUN is the same as that above described, except that it is more elaborately engraved, fitted with special selected walnut stock and fore end, and is exceptionally well finished. It is intended for the man who wants the finest and most beautiful hammer gun made.

IF YOU WANT A GUN that you would be proud to show to your friends and neighbors, a gun that will outshine anything in your neighborhood, regardless of name, make or price, a gun such as you could not purchase in any other make for less than double our price; in other words, if you want the finest double barrel hammer shotgun, then we would advise you to buy this A. J. Aubrey Highest Quality Hammer Gun.

THIS ILLUSTRATION does not do the gun justice, as it is impossible in this picture to bring out the fine detail in the engraving, checkering and finish. The engraving, as shown on the frame and lock plates, is all done by hand by high priced, skilled artists. The engraving on this gun represents hours and hours of patient, careful work. The checkering on the stock is very fine, and the finish of the gun throughout is all in harmony with and skilled manner in which this gun is constructed from butt plate to muzzle.

THIS GUN IS COVERED BY OUR TWENTY YEARS' GUARANTEE AGAINST DEFE SENT ON SIXTY DAYS' TRIAL, AS EXPLAINED ON THE PREVIOUS PAG

IN MECHANICAL CONSTRUCTION and outline it is identically the lower priced Aubrey Ha described above and on preceding page. The variance in price is accounted for amount of hand labor employed on this gun and in the special finish and selec in the stock and fore end.

$14.25 LATEST MODEL COMBINATION SHOTGUN AND RIFLE

16-GAUGE
32 S. & W.

No. 6F78

To meet the demand for a combination shotgun and rifle with a small bore shotgun barrel and a popular caliber rifle barrel, we have had this gun built especially for us under contract. The combination of a 16-gauge shotgun barrel with a 32 S. & W. rifle barrel makes this gun effective for large and small game, the 32 S. & W. cartridge being sufficiently large for game as large as fox, and at the same time small enough not to mutilate small game, such as rabbits, skunk, etc. The rifle barrel is removable and can be instantly withdrawn from the left barrel of the gun, giving you the use of both barrels for 16-gauge shot shells. This gun is made with imported barrels, twist finish, 16-gauge, 28 inches long, full pistol grip stock, checkered walnut stock, checkered patent snap fore end. Fitted with adjustable sporting rear sight and open front sight. Rebounding locks. We guarantee this gun to give excellent satisfaction.

IMPROVED MARLIN REPEATING TAKE DOWN SHOTGUN $16

REGULAR PRICE, $21.32; OUR REDUCED PRICE, $16.27

THE MOST STUPENDOUS VALUE ever offered in a repeating shotgun. The lowest price on a repeating take down shotgun today that will compare with this genuine improved Marlin is $21.32. Our price of $16.27 is a full reduction of $5.00 from the price of a similar high grade repeating gun. Bear in mind that these are the genuine Improved Marlin Repeating Take Down Shotguns, double extractor, trombone action, take down style; the same guns as are sold today for $21.32.

THIS MARLIN GUN is absolutely safe. The breech block is securely locked in position, and it is impossible for the gun to be accidentally opened while shooting. The safety lock is entirely automatic, and the gun can be operated as fast as the trigger can be pulled; in fact, by holding back the trigger and operating the fore arm, the entire load of six shells can be discharged in a few seconds' time. The magazine holds five shells and the one in the chamber makes this a six-shot repeater.

THESE GUNS are manufactured by the Fire Arms Co., New Conn., the famous manufacturers of repeating and rifles. There is no repeating gun made that than the Marlin. These guns are second to none. made with special rolled steel blued barrels, with strength of 66,000 pounds to the square inch. The barrels choke bored, guaranteed to target better than 325 pellets of 30-inch circle at 40 yards. The frame is made of a solid drop accurately milled and machined, made with solid top, affording protection to the shooter. The top of the frame is raised and matted top being of great aid to the shooter in sighting. The action of gun is exceedingly simple. It contains the minimum number of parts. All are made of the finest tool steel, made on accurately gauged machines, are thousandth part of an inch, and are interchangeable. Should a part of the become broken it can be replaced by any novice by simply inserting the new part. interchange without fitting or filing. The shells are ejected from the side of the frame. is made with a solid top frame, and the breech bolt, when closed, fills the opening in the pletely, keeping out all snow, dirt, twigs, pine needles, etc., and keeping the action and mechanism at all times.

SHOOT POINTER SHELLS — SIX SHOTS

THE TAKE DOWN FEATURE is exceedingly simple. By pulling the magazine tube forward, releasing and pulling forward the trombone slide, and unscrewing the barrel, the gun can be taken apart in less than a minute's time and as easily put together. The take down feature, while exceedingly simple, does not in any way weaken the gun. This gun, when put together, is as rigid as a solid bar. The breech end of the barrel is provided with a locknut to take up the wear, and by means of this adjustment the barrel can always be made tight and any looseness in the take down mechanism can be immediately overcome. This is a valuable feature in this gun and a big advantage over other take down repeating guns.

OUR GUARANTEE.

We guarantee all Marlin Shotguns sold by first class guns in every respect. We guarantee material to be absolutely the best, and any defective or unsatisfactory for any reason can be to us at our expense and we will return the full price, together with any transportation charges have paid. These guns are absolutely guaranteed defective material or workmanship.

IF YOU ARE CONSIDERING the purchase of a repeating shotgun, you should purchase this Improved Marlin Repeating Take Down Shotgun, and by so doing save fully you will obtain a shotgun that cannot be excelled by any gun on the market, regardless of name, make or price.

Made in 12-gauge only. When ordering, be sure to state the length of barrel wanted.

With every Marlin Repeating Shotgun we furnish one of our Patent Globe Sights, which are a valuable aid to the shooter, particularly wing shooting. There are over 100,000 of these sights used today by enthusiastic shooters who claim this sight has improved their marksmanship over 50 per cent.

10-GAUGE 36-INCH TWIST BARREL SHOTGUN $1

NEVER BEFORE has a 10-gauge 36-inch twist barrel shotgun been sold at so low a price. These guns have always been sold at prices ranging from $14.00 to $16.00. With the scarcity of the game in many sections and the necessity for having a gun of extreme long range and killing power, there has been an increased demand for a gun of this kind. The manufacture of a gun of this description was limited to one manufacturer, and under the existing conditions we found it impossible to furnish one at a popular price. We accordingly arranged to have this gun made especially for us under contract by one of the largest Eastern factories.

No. 6F230

WE GUARANTEE these 10-gauge 36-inch guns furnished by us to be superior to any similar guns on the market, regardless of name or price. Our guns are better balanced, better finished; they are full taper choke bored; the bolting mechanism is made unusually strong, to stand heavy 10-gauge smokeless loads; it has an extra long top lever, giving ample leverage; the stock and fore end are made of selected walnut; the fore end is fitted with a heavy metal joint or hinge; all parts are made exceptionally strong and heavy, to stand severe usage. This gun will last a lifetime. The frame is beautifully mottled and case hardened; the barrels are genuine imported twist, beautifully browned. At our price of $11.45 this gun is unquestionably the greatest value ever offered in a gun of this kind. This gun is particularly recommended for geese and It will shoot either black or smokeless ammunition with equally satisfactory results. Weight, packed for shipment, about 14 pounds.

No. 6F230 10-Gauge Long Range 36-Inch Twist Barrel Gun. Weight, about 9 pounds. Price .....

Weight, packed for shipment, about 14 pounds.

REMINGTON REPEATING SHOTGUN, $22.75

SIX-SHOT TAKE DOWN.

Made by the Remington Arms Co., Ilion, N. Y.

This is the latest product of the Remington Arms Co., one of the best repeating shotguns on the market. It has several very commendable features which give it the advantage over the ordinary type of repeating gun. The solid closed breech affords absolute protection to the shooter and also prevents dirt, snow or rain from getting into the action. The shells are all ejected from the under side of the frame and the shooter is, therefore, not annoyed by the empty shell flying into his face, as is frequently the case with repeating shotguns from which the shells are ejected from the top or side. This gun is of the hammerless type. The hammer is concealed in the frame, making the frame perfectly smooth. There are no projections to catch on the brush or clothing, causing accidental discharge.

These guns are all carefully inspected and tested and they are guaranteed by the Remington Arms Co. to give absolute satisfaction. Made in 12-gauge only, with a 30-inch fluid steel blued barrel, matted rib on the receiver, pistol grip walnut stock, 13¾ inches long, 2½-inch drop; weight, about 7½ lbs.

No. 6F162 Remington Repeating Take Down Shotgun, Price, **$22.75**

A. J. AUBREY SINGLE BARREL SAFETY HAMMER SHOTGUN $5

THE HANDSOMEST, SAFEST, STRONGEST SINGLE HAMMER GUN MADE IN AMERICA

ACCIDENTAL DISCHARGE ABSOLUTELY PREVENTED BY OUR FAMOUS FIRING PIN BLOCK SAFETY

OUR PRICES OF $5.95 for the Aubrey Single Barrel Hammer Gun with crystal steel barrel, and $6.95 for the same gun with genuine imported twist barrel, are exceedingly low, considering the high quality of these guns, the first class manner in which they are constructed and finished. These prices are only possible because we manufacture these guns in our own factory, the Meriden Fire Arms Co., Meriden, Conn., and by so doing we eliminate all jobbers' and dealers' profits. This is the finest single barrel hammer gun in the world, and it can be purchased only of us. Every gun we manufacture is sold through this catalog and in no other way.

HANDSOME. Generally in building an article to withstand severe usage and in which the feature of safety is all important, the manufacturer builds it, whether shotgun or piece of machinery, along heavy, clumsy lines. Not so with the Aubrey Single Barrel Hammer Shotgun, as this gun, while possessing the maximum of strength and the greatest development of the feature of safety, is the most graceful, the best proportioned and handsomest single barrel shotgun made. A study of the illustration, which is made from a photograph of the gun, will convince you of its graceful, symmetrical proportions. Note the handsomely shaped fore end, as compared with the clumsy fore ends on other single barrel guns, handsomely shaped stock with its hand rubber capped, full pistol grip.

THE QUESTION

in buying a fire arm of any kind, whether it be a shotgun, rifle or revolver, is whether or not it is safe. This is the first thing that comes to every shooter's mind, especially in these days of high pressure smokeless powder and the market flooded with low grade, poorly constructed fire arms. In building this the Aubrey Single Barrel Hammer Shotgun we gave the matter of safety the greatest possible consideration; in fact, it was carrying out the idea of building a gun that was absolutely safe that brought forth this gun. The only claim any other single barrel hammer gun has to being safe is that it will withstand ordinary loads of smokeless or nitro powder. When you have said this about any other make of gun, you have said everything. As a matter of fact, the percentage of blown up barrels is less than one-fourth of one per cent, whereas 90 per cent of the accidents in handling shotguns are due to no safety features whatsoever being connected with the mechanism. Accidents in the handling of single barrel hammer shotguns are invariably caused by the hammer slipping from cold or numb fingers, causing a discharge, or by the hammer suddenly coming in contact with some hard substance, being knocked against the side of a boat, pulled out of a buggy and knocked against a fence post, or any one of the hundred odd ways in which it is possible for the hammer of a shotgun to come in contact with any object. A sudden sharp blow against the hammer of any other single barrel hammer shotgun will cause the hammer to strike the firing pin and cause a discharge. Not so with the Aubrey Single Barrel Hammer Gun.

You Can Pound the Hammer With a Mallet.

You can pound the hammer with a mallet, but you cannot discharge the shell. The hammer may slip from under your thumb when cocking, but there will be no discharge. In other words, the hammer must be back at full cock and the trigger must be pulled before the shell can be fired, making this absolutely the safest single barrel hammer shotgun on the market. This feature alone, as a matter of insurance against accident, is worth more to you and your friends than the price of the complete gun.

Can't Happen With an A. J. Aubrey Gun.

Stumbled, Gun Accidentally Discharged

Thumb Slipped, Gun Accidentally Discharged

Inasmuch as the A. J. Aubrey Gun is a better constructed gun, handsomer in outline, finer finished and more shapely than any other single barrel gun, does not cost any more than the ordinary single barrel gun and combines this all important feature of safety possessed by no other single barrel gun, in the interest of yourself and of your friends, why buy any other gun? This safety feature alone is worth more to you than the price of the entire gun.

DETAILED DESCRIPTION

FRAME—The frame of this gun is made extra heavy and is strongly reinforced. The lines are graceful. The best proportioned frame ever placed on a single barrel gun. Made with a flat water table, as shown in the illustration, fitted with a positive automatic bolting mechanism, Scott top lever, same as used on the highest priced double guns. The frame is beautifully case hardened. **THE STOCK** is made of selected, seasoned walnut, handsomely finished, high piano finish, made with full pistol grip stock with fancy rubber cap and fancy rubber butt plate. The stock is well proportioned. It is beautifully checkered by hand, as shown in the illustration. **THE FORE END** is made of walnut, checkered to match the stock, is our own design, very neat and graceful. **THE BARRELS** of these guns are either crystal steel or twist. The crystal steel barrels are a special grade of steel made especially for us and bought by us in the rough bar and turned, bored and finished in our own factory by the most experienced barrel makers in the United States. The twist barrels are imported direct from Europe, as there are no good twist barrels made in this country and we desire only the best material to enter into the construction of these guns. The barrels are made 12-gauge, 30 and 32 inches long, and 16-gauge, 28 and 30 inches long. **BORING**—These guns are all choke bored on the Aubrey Taper System. The shooting quality is guaranteed to be superior to that of any other single barrel hammer gun on the market, regardless of price. There are no better shooting guns made than the A. J. Aubrey.

Our Sixty Days' Trial Offer

SEND US YOUR ORDER FOR THIS GUN, enclose $5.95, we will send the gun to you with the understanding and agreement that you may give it sixty days' trial, during which time you may put it to every possible test, try it for long range killing, long distance shooting, for target, pattern and penetration, compare it with any double guns for shooting, compare it with any of the ordinary single barrel guns which you can buy for $6.00 to $8.00, and if you don't think it is worth a dozen of the cheaper grades, in short, if you are not perfectly satisfied with your purchase in every way, you may return the gun to us at our expense, and we will immediately return your money.

OUR TWENTY YEARS' BINDING GUARANTEE. Every one of these hammer single barrel breech loading shotguns is covered by our written binding twenty years' guarantee, by the terms and conditions of which, if any piece or part gives out within twenty years, by reason of defect in material or workmanship, we will repair or replace it free of cost to the buyer or owner.

TESTIMONIALS. WE HAVE THOUSANDS OF THEM AND WILL BE PLEASED TO SEND OUR AUBREY TESTIMONIAL BOOKLET CONTAINING A LARGE NUMBER OF THEM FREE AND POSTPAID, UPON RECEIPT OF YOUR REQUEST.

WHITE POWDER WONDER IMPROVED MODEL

12-Gauge, 30 or 32-inch Armory Steel Barrel, Automatic Ejector, Full Choke Bored.

IS ONE OF THE BEST KNOWN SINGLE GUNS ON THE MARKET.

BEAR IN MIND that this White Powder Wonder Gun was originally sold at $7.00. We sold such a large quantity of these guns at this price that we were able to reduce our price to and are now able to offer a still further reduction and sell at $3.89. Remember, this gun today at $3.89 is a better gun than we formerly sold at $7.00, as it has been kept thoroughly up to date and embodies the latest improvements in barrel guns. We do not claim that this gun is as good as the A. J. Aubrey Single Barrel Guns. There are no shotgun guns made that compare in quality with the Aubrey guns illustrated and described elsewhere in this catalog. We advise every shooter who can purchase a single barrel gun, if he can pay the price of an A. J. Aubrey, or an A. J. Aubrey gun in preference to any other gun, as he will thereby obtain the strongest, handsomest, most and safest single barrel gun

TEN DAYS' TRIAL. We would be glad to send you this gun at $3.89 upon receipt of your order with the full understanding and agreement, that if, after giving it a ten days' trial, you are in any way dissatisfied with it, if you do not think it is the best single barrel gun for the money you ever saw, send it back to us any time within ten days and we will immediately return your money, together with any express or freight charges you may have paid.

With each of these guns we include free one of our patent Globe Sights, which can be instantly attached or removed, and which does not interfere with the regular sight on the gun.

$3.89

DETAILED DESCRIPTION

THE FRAME of this White Powder Wonder Gun is made extra strong, finely machined and finished, beautifully case hardened with a mottled finish, fitted with a heavy steel bolt, improved top snap break and rebounding hammer. THE BARREL is bored from a solid bar of high pressure steel, thoroughly tested, full choke bored, fitted with a heavy, solid steel lug and a square stem automatic shell ejector, the strongest and most reliable ejector ever placed in a single barrel gun. THE STOCK is made of a good quality walnut, full pistol grip, and is fitted with a rubber cap and fancy rubber butt plate. THE FORE END is not screwed to the barrel, the same as on ordinary single barrel guns, but is of the patent snap style, the same as the fore end on a double gun. THIS GUN is finely finished throughout. The barrel is handsomely finished in a deep dark blue. The frame and all metal parts are case hardened. This gun is made in 12-gauge only with 30 or 32-inch barrel, and weighs about 6½ pounds. Weight, packed for shipment, about 10 pounds.

No. 6F414 White Powder Wonder Gun, special steel barrel, 30 or 32 inches as desired. State length of barrel wanted. Weight, about 6½ pounds. Price.....$3.89

LONG RANGE, LONG BARREL, SINGLE HAMMER GUN

36 AND 40-INCH BARREL, 12 OR 16-GAUGE

OUR GREAT TRIAL OFFER

We will be pleased to ship one of these guns to you upon receipt of your order, with the full understanding and agreement that if you do not find it all we claim it to be, do not shoot well, or if the shooting qualities are as good or better than we claim they are, or if you, after a ten days' trial for penetration and target, are in any way dissatisfied with it, return the gun to us within ten days at our expense, and we will immediately upon receipt of the gun return you your money, together with any express charges you may have paid.

$5.70

THE LONG TOM 36 and 40-inch barrel gun, 12 or 16-gauge, is made in our own factory, and is the only gun of its kind on the market. This gun meets a large demand for a gun with a long barrel and extreme long range for shooting geese, turkeys, jack rabbits and similar game. This gun is thoroughly up to date. It embodies all the latest improved features known in single barrel guns, and at our price of $5.70 for the 36-inch barrel and $6.20 for the 40-inch barrel, is exceptional value. It would be impossible for you to buy a gun of like grade and quality with ordinary length of barrel at the prices we are asking for this gun with this exceptional length of barrel.

EXTRA STRONG PARTS. It is made with extra strong, heavy, reinforced breech and extra heavy frame, and is particularly intended for heavy loads of black or nitro powder. The barrel is made of genuine armory steel, handsomely blued, full choke bored, fitted with heavy drop forged lug. We guarantee that this gun will not shoot loose. The frame is made extra heavy, is beautifully case hardened, with mottled finish, and is fitted with rebounding hammer, a positive, simple mechanism and improved top snap break. The stock is selected walnut, full pistol grip, hand checkered, fitted with rubber cap and fancy rubber butt plate. This gun has a patent snap metal hinged fore end, the same as on a double gun, made of selected walnut, neatly checkered.

WE INCLUDE FREE with this Long Tom Gun one of our special patent Globe Sights, which can be instantly attached or detached, and which will greatly improve your marksmanship.

AUBREY SINGLE BARREL HAMMERLESS SHOTGUN

$6.95

UNEQUALED VALUE. Made in our own factory, of the finest material, under the supervision of experts, this gun is unequaled by any single barrel hammerless gun on the market, although our price of $6.95 is but half what a gun of corresponding quality and grade could be purchased for elsewhere. In the construction of this gun we departed entirely from the adopted method of manufacturing single barrel guns. This gun, in lines, construction and mechanism, more closely resembles the highest grade double barrel guns than it does the regular line of single barrel guns, with the exception of our A. J. Aubrey Hammer Gun, are made with a flat water table, whereas this gun is made with a flat water table breech, the same as the highest priced hammerless guns. The lines of this gun are beautiful, the best proportioned and best single barrel hammerless gun made.

THE STRONGEST, SAFEST AND BEST SHOOTING SINGLE BARREL HAMMERLESS SHOTGUN MADE

THIS GLOBE SIGHT FREE

With every A. J. Aubrey Shotgun we include one of our famous Globe Sights, which is a valuable aid to the shooter. This sight can be instantly attached to the muzzle of the gun and as quickly detached. The use of this sight does not in any way interfere with the regular sight of the gun.

No. 6F424

SAFETY FEATURE. This all important feature has been given careful attention in the construction of this gun. We claim that this is the safest hammerless single gun made. The gun cannot be opened to insert the shell without cocking, thereby throwing back the firing pin and obviating all danger of the shell striking the solid firing pin in closing the gun, a fault common in many guns of various makes, often causing serious accidents. The safety is entirely automatic. Having safeguarded the mechanism, we paid particular attention to the barrel, and you will note by referring to the illustration that the barrel of this gun is made with an extra heavy breech.

THIS GUN IS MADE IN 12-GAUGE ONLY, 30 or 32-inch barrel, crystal steel or twist. The crystal steel barrel is a special grade of tough steel, made especially for gun barrels. Gun barrels made of this steel are bored from the solid bar. The close grain of crystal steel permits of a higher finish and greater wearing qualities than the steel used in ordinary gun barrels. The barrels are all made with a square water table breech, heavy drop forged steel lug and square stem ejector.

FRAME is a solid drop forging, accurately milled and machined, beautifully case hardened, with a mottled finish, fitted with a strong, positive steel bolt and snap action.

STOCK is made of selected walnut of handsome grain, beautifully checkered by hand, full pistol grip, with rubber cap and fancy rubber butt plate.

FORE END is of artistic design, made of selected walnut, handsomely checkered, and is of the patent snap metal hinge type, the same as is found on

SIXTY-DAY TRIAL OFFER AND FIVE-YEAR GUARANTEE

UPON RECEIPT OF YOUR ORDER we will send this gun to you with the understanding that you have the privilege of trying it at target and in the field, giving it every possible test for shooting qualities and penetration, and comparing it with any single gun in your neighborhood, single shot or repeater, and if at the end of sixty days you are in any way dissatisfied with your purchase, send it back, and your money, together with any freight or express charges you have paid, will be immediately returned to you.

ERIDEN MODEL 10 —22— CALIBER SINGLE SHOT RIFLE $2.38

$2.38 IS OUR PRICE for this high grade Meriden Model 10 Take Down 22-Caliber Single Shot Rifle, 22-inch barrel, chambered for 22 short, long or long rifle cartridges, loaded with either black or smokeless powder. Compare this price of $2.38 with the prices asked by others and you will realize what sterling value this rifle represents at our price. Note where other rifles ranging in price from $2.50 to $3.50 are fitted with 18 or 20-inch barrels, this rifle is fitted with a 22-inch barrel; where the stocks of ordinary rifles measure from 11 to 12 inches and are made of gumwood, the stock of this rifle is of standard length, 13½ inches, and is made of the finest walnut.

GUARANTEED FOR FIVE YEARS AGAINST DEFECT IN MATERIAL OR CONSTRUCTION.

GREATEST VALUE EVER OFFERED. This is the greatest value ever offered for a 22-caliber single shot rifle. The construction of this rifle is unexcelled. It is fitted with a steel breech block, which fits snugly against the cartridge, permitting of no back fire or spit fire, a fault common in other rifles. The shell is automatically extracted when pulling back the breech block. The extractor is unusually heavy and strong, made extra strong by a full purchase on the exploded shell and overcoming the possibility of the extractor slipping past the shell, making it necessary to punch out the shell with a rod or pick it out with a knife, another fault very common with other makes of 22-caliber rifles. The hammer of this rifle has a full ¼ inch more sweep than the regular 22-caliber rifle, giving a strong, hard blow and absolutely overcoming misfires. The parts are all carefully machined, are true to a thousandth part of an inch and are absolutely interchangeable. In case any piece or part break, you can repair the rifle by simply inserting a new part, as these parts are so perfectly made that any fitting or finishing is unnecessary.

DESCRIPTION OF THE RIFLE.

THE BARREL is made of the finest high carbon steel, 22 inches long, round, handsomely blued, heavy at breech and gradually tapering to the muzzle, fitted with standard size open front and rear sights. The sight slots, as stated, are of standard size, allowing the shooter to have special sights fitted at any time. Chambered for 22 short, long or long rifle black or smokeless cartridges. The rifling is cut by the improved, latest type rifling machine, giving the proper twist in proportion to the length of the barrel and insuring for this rifle more accuracy and penetration than is found in most 22-caliber rifles selling at twice the price we ask. **THE FRAME** is nicely proportioned; the finish is a pleasing, Handsomely case hardened in a beautiful mottled finish. **THE MECHANISM** is very simple. It consists of but three parts, and they are made of the finest tool steel. **THE STOCK** is of standard length, 13½ inches, made of selected walnut, nicely shaped and fitted with curved rubber butt plate, neatly scored. **THE FORE END** is made of walnut and is of neat design. **THE SHOOTING** qualities of this rifle are unexcelled. We guarantee it to be equal in accuracy and penetration to any 22-caliber rifle made. Full length of rifle, 36 inches. Weight, 4 pounds. Weight, packed for shipment, 8 pounds.

OUR NEW No. 6 REMINGTON TAKE DOWN RIFLE, $3.00

20-INCH BARREL.

This new No. 6 Remington Rifle is made from the best material that money can buy, the shooting quality is of a high order, and each rifle is bored and rifled with the same accuracy and precision that follows the entire line of Remington rifles, which have become famous for their shooting qualities. It is made in 22-caliber only, shoots the 22-caliber cartridges Nos. 6F2336 or 6F2338, and is good for 35 to 100 yards.

No. 6F681 Remington Rifle No. 6, 22-caliber, 20-inch round barrel; weight, 3¼ pounds, walnut stock and fore end; case hardened frame; take down model. Weight, packed for shipment, about 8 pounds. Price **$3.00**
Nos. 6F4698 and 6F4716 Covers fit these rifles. See page 949.

$9.50 REMINGTON 22-CALIBER HAMMERLESS REPEATER.

No. 6F686

These rifles are furnished in two grades, namely, the No. 1 Standard, with 22-inch round barrel, rubber butt plate (weight, 4½ pounds), and the No. 3 Target, with 24-inch octagon barrel, steel rifle butt plate (weight, 5½ pounds). Both grades are chambered for the 22 short, long and long rifle cartridges, black or smokeless. The magazine of the No. 1 Standard holds fourteen 22 short cartridges, and that of the No. 3 Target fifteen 22 short cartridges. The barrel, frame and magazine tube are nicely blued. This rifle is take down style; the barrel can be quickly detached from the frame, and it possesses an advantage over most other repeating rifles in that the barrel can be cleaned from the breech. Short and long cartridges can be loaded in magazine at same time without danger of clogging mechanism. Weight, packed for shipment, 10 pounds.

RAY'S LEAD SOLVENT.

This is a preparation which thoroughly removes all lead and residue from rifle and gun barrels. After a rifle barrel becomes leaded, its accuracy is greatly impaired. In order to get accurate results, it is necessary that the rifling be kept clear of lead. This is the only preparation of the kind which removes lead from the barrels without injury to the barrels. One bottle of liquid and one capsule of powder in a box. Full directions accompany each box. Shipping weight, 10 ounces.

One box is sufficient for a 22-caliber rifle; a 38-55 rifle and those of similar size require two boxes; a 12-gauge shotgun barrel requires three boxes.

No. 6F4549 Price for one bottle liquid and one capsule powder. **18c**

MARLIN REPEATING RIFLE

MARLIN MODEL 20 TAKE DOWN REPEATING RIFLE, $11.50.

22-CALIBER.

Shoots 22 short, 22 long and 22 long rifle cartridges.

AT $11.50 we furnish the New Model No. 20 Pump Action Marlin Take Down Repeating Rifle, the latest product of the well known Marlin Fire Arms Co., New Haven, Conn. This New Model No. 20 Repeating Rifle is fitted with ivory bead front sight and Marlin's new patent sporting rear sight, the latter being the best rear sight ever placed upon any rifle. It is made to adjust with a small screw and when once set to range, cannot be changed except at the wish of the shooter. The No. 20 rifle is fitted with 23-inch octagon steel barrel, of the best Marlin rifle steel, accurately bored, chambered and rifled for fine shooting up to 200 yards; the frame is made from a special quality of gun frame steel, nicely blued, finely machined and finished in every particular.

Catalog No.	Caliber	Barrel	Weight	Shoots Cartridge No.	Number of Shots	Price
6F736	22 Rim Fire	23-inch octagon	4¼ lbs.	6F2336 6F2338 6F2340	15 12 11	$11.50

MARLIN MODEL 1892 REPEATING RIFLES.

All Model 1892 Rifles have BLUED FRAMES, Sporting rear sights, Rocky Mountain front sights.

$12.15 $13.15

FOR SMALL GAME AND TARGET WORK.

Made in 22-caliber rim fire, 32-caliber rim fire and 32-caliber center fire.

In the 22-caliber rifles any or all of the following rim fire cartridges may be used: 22 short, 22 long and 22 long rifle. The Model '92, the Model '97 and Model 20 Marlin are the only repeaters that will do this. The magazine holds 25 cartridges 22 short, 20 cartridges 22 long and 18 cartridges 22 long rifle.

All 32-caliber rifles are sent out with two firing pins. The rifle is so made that in the same rifle may be used 32 short rim fire and 32 long rim fire cartridges; and by changing the firing pin, 32 short and 32 long center fire cartridges may be used. The magazine holds 18 cartridges 32-caliber short and 15 cartridges 32-caliber long. This ammunition is cheap, and as compared with repeaters using the 32-20 cartridge, will save the entire cost of the rifle on the first 2,000 cartridges. Always clean your rifle after shooting. It will last longer. A rifle cleaning rod is a good investment.

Catalog No.	Caliber	Length of Barrel	Shoots Cartridge No.	Good for	Weight	Price

SUPPLEMENTAL CHAMBERS. - For 30-30 and 32-40 Rifles.

These supplemental chambers, to be used in 30-30 and 32-40 rifles, enable you to shoot a short range cartridge in a high power rifle. This chamber resembles a shell with the head cut off, and is chambered to take a pistol cartridge. By placing one of these chambers in your rifle, you can with a 30-30 rifle shoot a 32 Smith & Wesson cartridge, and with a 32-40 rifle a 32 Colt cartridge. These supplemental chambers are made of brass, nicely nickel plated.

No. 6F4322 Supplemental Chamber for 30-30 rifle, takes the 32 Smith & Wesson cartridge No. 6F2377 and the 32 short Colt No. 6F2380. Price.....48c

No. 6F4323 As above, for 32-40 Marlin or Winchester, takes the 32 Colt cartridge No. 6F2380 and No. 6F2381. Price .....(Shipping weight, 2 ounces).....49c

BAYARD AUTOMATIC RIFLE, $4.75

22 SHORT OR LONG SMOKELESS CARTRIDGES.

Reduced Price.

TO OPERATE the Bayard rifle pull back the breach bolt, drop a cartridge into the opening, press the release stud "A," and the bolt automatically springs forward, placing the cartridge into the chamber and the rifle is cocked, ready to shoot. After the first shot, the gases automatically throw back the bolt and eject the cartridge. In other words, this rifle automatically ejects and cocks, and although single shot, can be operated faster than most 22-caliber repeating rifles.

BEST MATERIAL. This rifle is excellently made of the best material, fitted with a 24-inch round barrel of the finest steel, handsomely blued, extra heavy at breech, tapering to the muzzle, adjustable rear sight, open front sight. The military style stock is of walnut, finely finished, with hand checkered pistol grip; fitted with loops for sling strap. This is the only 22-caliber rifle fitted with a safety lock, which absolutely blocks the trigger, obviating all danger of accidental discharge. It can be instantly taken down by unscrewing the knurled fore end screw. The breech bolt can be entirely withdrawn by unscrewing the knurled collar, leaving the barrel free for cleaning from either end. The mechanism is of the finest hardened steel, contains very few parts and all parts are accessible without the aid of any tools. It is chambered for the 22 long and short smokeless cartridges.

WE GUARANTEE this rifle to be equal in accuracy to any 22-caliber rifle made, regardless of name, make or price. We further guarantee the workmanship and material employed to be absolutely the best. Length over all, 39 inches; weight, 3¾ pounds.

GENUINE MAUSER RIFLE $6.29

SHOT REPEATING 11 M|M CALIBER

Purchased from the German Government.

20.00 RIFLE FOR $6.29. These are the genuine original Mauser Rifles, which have become world wide famous for their qualities and superior construction. The German Government recently decided to adopt a different type of Mauser rifle, and by filing a bond guaranteeing that these rifles would be used for military purposes we were able to secure a limited quantity of these famous rifles, which originally cost the German government not less than $20.00. We have remodeled these rifles, and have changed them from the military type to a sporting model. We have altered the stock and cut down the length of the barrel to 24 inches. The remodeled rifle, as furnished by us at $6.29, is an ideal sporting rifle and cannot be compared with the original military model. Round barrel 24 inches long, octagon breech, open front sight, and graduated folding adjustable rear sight. Can be operated as a single shot or repeater.

TO OPERATE AS A SINGLE SHOT throw the thumb latch "A" on the left side forward as far as it will go. The carrier is then locked and the cartridges in the magazine can be held in reserve.

THE ONLY REPEATING RIFLE WITH A POSITIVE SAFETY, making accidental discharge impossible. To release the trigger from the sear, push the flat thumbpiece "B" in rear of bolt from left to right. To reengage sear with trigger, so as to shoot, push thumbpiece "B" back from right to left.

THIS RIFLE CAN BE TAKEN APART without the aid of any tools. Chambered for 11 M|M Mauser cartridges, containing 77 grains of powder, with a 380 grain bullet. The magazine holds four cartridges and the cartridge in the chamber makes this a five-shot repeater. This rifle has a flat range of over 1,000 yards. For big game, such as wolves, bear, deer or moose, it cannot be excelled.

Weight, packed in box for shipment, about 18 pounds.

VETTERLI REPEATING RIFLE $5.95

A HIGH POWER RIFLE AT A LOW PRICE.

A RIFLE FOR BIG GAME.

We purchased from the Swiss Government a large number of genuine Vetterli Repeating High Power Rifles, such as were used by the Swiss Government and known as the Model 1881, which we have remodeled into sporting rifles, as illustrated. We improved these rifles by cutting off the barrel to 26 inches, fitting new stocks, making them 13½ inches from trigger to center of butt, remodeling the fore end and transforming it into a 6-shot repeating rifle weighing about 8 pounds, which is very much more desirable and balances much better and looks better than the original Vetterli rifles when they reached us from Switzerland. For $5.95 we furnish this Vetterli Repeating Rifle. Remember, this is not a cheap rifle. It is a rifle which originally cost the Swiss Government at least $16.00 to make. Carries five cartridges in the magazine and one in the chamber, making it a 6-shot repeating rifle, and shoots the 41-caliber Swiss cartridges, which may be compared in power to the 30-30 smokeless cartridges; the bullet is 7-16-inch in diameter, weighs 300 grains and strikes a very powerful blow. Remember, $5.95 is our price for the genuine Vetterli high power rifle.

No. 6F851 Our Vetterli High Power Repeating Rifle. Price..... $5.95

Weight, packed for shipment, about 14 pounds.

To remove lead from rifle barrels use Ray's lead solvent, Catalog No. 6F4549.

The Standard Shooting Gallery Rifle.

Model 1906 Winchester Take Down Rifle is one of the most popular repeating rifles on the market. The rifle is cocked and operated by a sliding action of the fore arm and is fitted with 20-inch round barrel. Model 1906, rear sight, weighs about 5 pounds, can be easily and quickly taken apart by unscrewing a thumbscrew on the left side of the frame, is made in 22-caliber only to shoot 22 long or 22 long rifle cartridges. The 22-caliber short is good for 35 yards. **MODEL 1906 RIFLE** is similar to the Model 1890 except it has a plain fore end, round barrel, 20 inches long, instead of octagon barrel, 24 inches long, and shotgun butt instead of rifle butt. Otherwise it is identical with the Model 1890. These rifles cannot be furnished in any other way.

WINCHESTER MODEL 1890 REPEATING RIFLE.

Made in 22-Caliber only.

$10.80

This is a 22-caliber Rifle, one of the popular pump action rifles on the market. This rifle is operated by the action of the fore arm; fitted with 24-inch octagon barrel, adjustable rear sight and sporting front sight. The rifle may be taken apart by unscrewing thumbscrew on the left side of frame. Made for rim fire only, and although made for three different sizes of rim fire cartridges, one rifle will chamber but one size cartridge. A rifle chambered for cartridges will not take 22 long.

WINCHESTER MODEL 1892 REPEATING RIFLES.

$12.15 $13.16

The Model 1892 Winchester Repeater superseded the old model 1873. It is an improvement over the original 1873 model. The rifle is operated with finger lever; the empty shell is ejected and new shell carried from magazine to chamber by the operation of the lever. This rifle is light, strong and handsome, and the range varies from 200 to 400 yards, according to caliber.

WINCHESTER MODEL 1907 SELF LOADING RIFLE.

.351-Caliber. High Power.

$22.40

This rifle shoots a cartridge .351-caliber, with a 180-grain bullet, having a muzzle velocity of 1,861 feet per second. It will penetrate a steel plate ¼ inch thick or twenty-six ⅞-inch pine boards. This is a high power rifle of the latest type, powerful enough for the largest game. The working parts of this rifle are few and strong. There are no moving projections on the outside of the rifle, no pins or screws to work loose. The barrel is stationary like that of an ordinary rifle. The recoil of the exploded cartridge ejects the empty shell, cocks the hammer, and feeds a fresh cartridge from the magazine into the chamber. This rifle is provided with a trigger lock, allowing it to be carried with the hammer at full cock. The take down feature of the rifle is simple. By giving the screw at the rear of the receiver a few turns, the rifle is separated into two parts. This rifle is fitted with a 20-inch round nickeled steel barrel, with sporting front and rear sights.

Catalog No.	Caliber	Barrel	Weight	Shoots Cartridges No.	Number of Shots	Price
6F841	.351 High Power	20-inch Round	7¾ lbs.	6F2587 6F2588	6	$22.40

Weight, packed for shipment, about 10 pounds.

Nos. 6F4698 and 6F4701 covers fit this rifle. See page 949.

RIFLE AND SHOTGUN SIGHTS.

LYMAN'S COMBINATION No. 1 REAR SIGHTS.

No. 6F1005 Lyman's Combination Rear Sight No. 1 is the best rear sight made. Anyone can attach it to the tang of the rifle in a few minutes with the assistance of a screwdriver. If they don't "pitch" right, place a piece of writing paper under them. When ordering, state the name of your rifle, also the caliber and model of same, as these sights are made to fit each particular model and caliber of rifle. When using this sight the regular rear sight should be removed and blank piece No. 6F1030 should be used. Shipping weight, 6 ounces. Price.....$2.00
Extra for fitting sight to rifle..... .25

TO REMOVE SIGHTS, drive from left to right, facing the muzzle, and use a brass or copper punch so that it will not deface the sight. To put on a sight, drive from right to left.

This illustration shows how game appears to the hunter when using the Lyman Patent Combination Rear Sight when sighting. It resembles a ring or hoop and when using one of these sights it is not necessary to get a real fine sight, as is the case with open sights, in order to get the game. When the game is seen in the ring or hoop, like the illustration, pull the trigger and you generally get it.

IMPORTANT
WHEN ORDERING, GIVE THE NAME AND CALIBER OF YOUR RIFLE, ALSO, IF POSSIBLE, GIVE THE MODEL OF SAME SO WE CAN SEND YOU THE CORRECT SIGHTS.

NOTICE—Always mention caliber, brand and model of rifle when ordering.

NOTICE—The Coin Silver and Solid Gold Bead Sights are much used by Rocky Mountain hunters. They are very effective in the woods and open country as well as for dark days and twilight shooting. The diameter of bead is about 3-32 of an inch.

No. 6F1055 Our Own Patent Globe Front Sight for single barrel shotguns, a wonderful help to shooters. Made for 10, 12 and 16-gauge guns. Shipping weight, 2 ounces.
Price 38c

No. 6F1057 Our Own Patent Globe Front Sight for double barrel shotguns, a sight which is greatly appreciated by shooters. For 10, 12 and 16-gauge double barrel breech loaders. Shipping weight, 2 ounces.
Price 40c

THE L. H. FOSTER REAR SIGHT FOR SINGLE BARREL SHOTGUNS.

No. 6F1060 Our L. H. Foster Rear Sight for Single Barrel Shotguns is a wonderful assistance to shooters. It helps you to "line up" a single barrel shotgun in a straight line with the object, whereas you now cast your eye down the barrel, which is not always effective and causes you to shoot to the right or left unless you are an expert shot. To attach the sight, place it 12 to 14 inches back of the front sight in a straight line, as shown in the illustration, and fasten it in position with the screw. Shipping weight, 1 ounce. Price, each, for all 12 and 16-gauge single guns.....20c

No. 6F4556 Nicely polished and nickel plated. Price, per pair.....$3.20
Shipping weight, 19 ounces.
No. 6F4558 Extra keys for above handcuffs. Price.....12c

Our Improved Police Dark Lantern has been given the official endorsement of the police and watch service departments in all large cities, being the best lantern of its kind on the market. The slide of this lantern is thrown off or on by means of a thumb latch at the top of the handle, requiring the use of but one hand to operate, unlike other lanterns, which require the use of two hands in operating the dark slide. The handle is hinged, combination ball and grip. The lantern is fitted with a finely ground 3-inch heavy bullseye, which throws a powerful light. Will burn from twelve to eighteen hours without refilling. Use signal oil only. Furnished complete with a burner and wick. Shipping weight, 30 ounces.
No. 6F4581 Price.....78c
No. 6F4582 Signal Oil. Quart.....15c
Gallon 52c
(Oil not mailable.)

REVOLVERS-PISTOLS

A VERY COMPLETE LINE of revolvers of all makes, calibers and descriptions will be found on this and the following pages. In selecting these revolvers we have been careful to select only such makes, styles and sizes as we know are practical and will give satisfaction.

OUR GUARANTEE. Every revolver we sell is carefully inspected and examined by experienced gunsmiths, and we guarantee every revolver sold by us, regardless of price, against defective material or workmanship. It is sold with the understanding that if not entirely satisfactory in every way, it may be returned to us at our expense, and we will return your money and any transportation charges you may have paid.

INSURED MAIL. We advise where a revolver only is ordered, that you have the revolver sent by insured mail, which guarantees delivery, and which costs but 5 cents extra over the regular postage for each revolver under $5.00, and 10 cents extra over the regular postage for a revolver costing over $5.00. For high priced revolvers, such as the Smith & Wesson and Colt, we recommend express or registered mail. Registered mail costs 10 cents over the regular rate of postage. We quote the shipping weight under each description. The postage rate is 1 cent an ounce, to which add cost of insured or registered mail.

REMEMBER that the postoffice does not guarantee delivery on revolvers or any other goods lost in the regular mail, but by sending goods either by insured or registered mail, delivery is guaranteed.

DOUBLE ACTION SELF COCKING REVOLVERS.

No. 6F1182

The revolvers shown below are the best self cocking revolvers made. They are the product of the best Eastern factories. These revolvers are not excelled in workmanship, material or construction by any double action revolvers made today. They have octagon rifled barrels, are full nickel plated, and are fitted with neat rubber stocks, and the cylinders are nicely fluted. By pulling the trigger the revolver is cocked automatically.

COLT'S AUTOMATIC PISTOLS AND REVOLVERS

'S AUTOMATIC PISTOL, 25-CALIBER, 7-SHOT, $12.00.

latest automatic produced by the Colt's Patent Fire Arms Mfg. Co. This pistol is very light and compact. It uses the 25-caliber rim-less, smokeless, center fire, pointed cartridge with great accuracy and penetration. All parts are accurately machined and fitted; the mechanism is simple; the pistol can be taken apart without the aid of any tools; the magazine holds six cartridges, one in the chamber, making seven shots in all. By pulling the trigger the cartridge is fired, the empty shell ejected and a new cartridge is loaded into the chamber. Fitted with slide lock safety, also grip safety, making it impossible that the pistol be fired unless the hand is firmly held in the hand before it can be pulled and positively preventing accidental discharge. Length of barrel, 2 inches; entire length, 4½ inches; weight, 13 ounces; blued finish. Shipping weight, 1 pound.

COLT'S ARMY SPECIAL REVOLVERS MODEL 1908, 32-20 and 38-Caliber. $15.50

This revolver supersedes the model 1892 Colt's Army and the New Navy Revolvers, the manufacture of which has been discontinued. This revolver is made in two calibers, 32-20-caliber, using the regular rifle cartridge, and 38-caliber, using either the 38 long or 38 S. & W. Special cartridges. The cylinder is chambered for six shots. Made with two lengths of barrel, 4½-inch and 6-inch, finished with a dark blue finish. Weight with 4½-inch barrel, 32 ounces; length over all with 4½-inch barrel, 9¾ inches. The cylinder of this revolver revolves to the right, insuring tightness and perfect alignment. The revolver is fitted with Colt's positive lock, which absolutely prevents accidental discharge. Shipping weight, 37 ounces.

BAYARD AUTOMATIC PISTOL, 32-CALIBER, 6-SHOT $12.65

This is the smallest 32-caliber automatic pistol made. It is no larger in size than the regular 25-caliber pistol, but shoots the powerful 32 automatic cartridge. This pistol is unexcelled in construction and finish. It is made by the Anciens Establissements Pieper. The parts are all accurately machined and are all interchangeable. Can be instantly taken apart without the aid of any tools and as readily assembled. Although this pistol is but a midget in size, it shoots with terrific penetration and great accuracy. At 100 yards it has a penetration of three ¾-inch pine boards placed 2 inches apart. Length of pistol, 4¾ inches; thickness, ⅞ inch; weight, 15¾ ounces. Shipping weight, 19 ounces.

OUR IMPROVED RIFLE REVOLVER STOCK. 75c

Our Rifle Revolver Stock converts a revolver into a repeating rifle by attaching this skeleton stock to the butt of any revolver, which can be instantly done by giving the screw on the skeleton stock a few turns to the right. You can shoot at short range as accurately with an ordinary pistol as you can with any rifle. The jaws of this stock are covered with leather, so they will not mar the revolver. The stock is nicely nickel plated and finished. Length of stock, 14½ inches; weight of stock, 16 ounces. This stock will not take a Colt's or Luger Automatic Pistol on account of the magazine in the handles of these pistols. Shipping weight, 20 ounces.

No. 6F1488 Revolver Rifle Stock. Price, for stock only (does not include a revolver) **75c**

The postage rate on revolvers is 1 cent an ounce, to which add the cost of insured or registered mail, as explained on page 938.

COWBOY RANGER DOUBLE ACTION REVOLVER.

$6.60

Made by one of the foremost European manufacturers and patterned after the famous Colt revolver. Solid frame, sliding rod ejector, side or loading gate, checkered rubber target grip. Blued finish. This revolver, while not so well finished or as good a fire arm as the genuine Colt, is nevertheless a good, serviceable, hard shooting fire arm. It will give excellent satisfaction and is exceedingly good value at our price. Shipping weight, 32 ounces.

44-CALIBER FRONTIER REVOLVERS.

$3.75

Takes Cartridge 6F2409

This revolver is known as the imported Frontier Revolver, shoots the 44-40 caliber cartridge, and is the only low priced revolver taking this cartridge. It is made with a solid frame, as shown in the illustration, has 5½-inch barrel, is a 6-shooter; fancy rubber handle, full nickel plated or blued steel finish throughout, and for a person who does not do very much shooting, this revolver will probably answer the purpose of a large caliber low priced revolver, but if you are so situated that you do considerable shooting, we recommend by all means that you purchase a Colt's revolver, either the Single Action Army or the Bisley Model, which are built for hard use. Shipping weight, 32 oz.

LOADED SHOTGUN SHELLS $1.47

BLACK POWDER. 10, 12, 16 AND 20-GAUGE.

POWDER

IN THESE BLACK POWDER SHELLS we use a special black powder of a hard grain, which burns rapidly and leaves far less residue in the barrel than any other black powder. It has enormous penetration with a minimum breech pressure.

GUARANTEE

WE ABSOLUTELY GUARANTEE every loaded shotgun shell we sell against misfire, hangfire or blow backs. We guarantee the maximum of penetration and the greatest possible uniformity in pattern. We further guarantee that our shells will give better satisfaction and are better value than those you can buy elsewhere.

Why not get your friends to join with you and buy shells by the case or 1,000 and ship by freight? It will save you money on freight charges, besides they are cheaper in case lots.

OUR CASE PRICE is for one size and one gauge in a case, just as it comes to us from the factory. We cannot sell less than a case at the case price, nor can we assort the case with different loads.

A case of 500 shells, 12-gauge, weighs about 65 pounds.
A case of 500 shells, 10-gauge, weighs about 75 pounds.
A case of 500 shells, 16-gauge, weighs about 53 pounds.
Our terms on loaded shells are cash with order.

POINTER LONG BRASS SMOKELESS SHOTGUN SHELLS

THE LONG BRASS CUP PROTECTS THE SHELLS, KEEPS OUT MOISTURE AND MAKES THEM BETTER, STRONGER, SAFER.

WE DO NOT EMPLOY PAID OR PROFESSIONAL SHOOTERS TO ADVERTISE POINTER SHELLS.

47c A BOX OF 25

THE POINTER LONG BRASS SHELL.

$1.88 A HUNDRED

An Ordinary Smokeless Shell With Short Brass.

$9.20 A CASE OF 500

With our Pointer Long Brass Loaded Shells we present the unusual combination of highest and lowest prices. There are no better shells than the Pointer Shells. It is impossible to make a shell that will accomplish better results. The long brass cup gives maximum and prevents swelling or bulging of the head and also blow outs. The paper is the strongest waterproof paper that money can buy, and there is no faster, stronger or better than the battery cup No. 3 primer used in the Pointer Shell. The battery cup eliminates the possibility of blow backs or escaping gases. As for the powder, it is absolutely unbeatable. Pointer Shells are loaded with an imported bulk smokeless powder. The duty and tariff alone amount to almost as much as the cost of the ordinary domestic powder. This powder has a hard, clean grain, is quick to ignite, is very rapid, has maximum penetration with minimum breech pressure, is absolutely impervious to climatic changes, will give the same results in any climate, and will positively not deteriorate with age. No more can be claimed for any powder. In fact, in our estimation, and in the estimation of the shooters who have bought millions of these shells in the past season, there is no other powder that comes up to that used in the Pointer Shell. We appreciate that the supreme and absolute test of the shell does not lie in an analysis of its qualities, but in actual trial by the shooter, and our confidence in the sterling qualities of this shell is indicated by our guarantee, as given in the lower right hand corner of this page. **Try our famous Pointer Trap Load. See Catalog No. 6F2287.**

KILLS DUCKS AT 90 YARDS.

Cheyenne, Wyo.
Sears, Roebuck and Co.,
Chicago, Ill.

Gentlemen:—Received order for Improved Pointer Long Base Shells O. K., 500 of them, and am very much satisfied with them. I have tried nearly every shell made. I gave the Pointer Shell, No. 6 shot drop, a fair trial. I shot into a bunch of wild ducks 90 yards away and killed three with the first shot. I have a Winchester shotgun, 12-gauge. I shall never use any other shell than the Pointer.

Very truly yours,
PETER HANSEN.

UNUSUAL PENETRATION AND ONE-THIRD CHEAPER.

Franklin Park, Ill.
Sears, Roebuck and Co.,
Chicago, Ill.,

Gentlemen:—I have just finished an exhaustive test of your Pointer Shotgun Shells, and for closeness of pattern and unusual penetration they are the peer of any shell I have ever used. This, together with their cleanliness, makes them the equal of any other shell on the market, and at 45 cents to 50 cents per box, a saving of from one-fourth to one-third the cost.

Yours very truly,
BYRON E. BEEBE,
(Member Chicago Gun Club.)

The illustration shows one of our Pointer shells cut open and gives you an idea of the high grade manner in which these shells are loaded. The shells are all loaded with improved automatic machinery, and exactly like another. We claim Pointer shells more uniform loading than other shells made. Therefore, in Pointer Smokeless Shells you are sure of more uniform results than could be obtained through the use of any other make.

FREIGHT CHARGES ON A CASE OF SHELLS.

We herewith give you the approximate freight charges on a case of 500 shells, weighing 65 pounds, to the various central points in the East, Middle West, South, Southwest, West and North. By taking the town nearest to where you live, you can approximately determine what the charges would be on a case of shells shipped to your town. You will note that after adding the freight charges to our prices on shells, you will still effect a great saving as against what you would have to pay elsewhere.

FREIGHT CHARGES ON 500 LOADED SHELLS, WEIGHT, 65 POUNDS.

GUARANTEE: Pointer Shells are guaranteed against misfire and hangfire and to have penetration and pattern equal to any shell made, regardless of name or price. If you purchase a case of the Pointer Shells, and, after trying a box of 25, for any reason find them unsatisfactory, return the remaining 475 shells to us at our expense, and we will return you the price you paid for the 500 shells, together with the freight charges.

POINTER SHELLS are the only shells sold under so liberal a guarantee. We have so thoroughly tested out the quality of these shells, as compared with other shells, that we know we are not assuming any risk in making this guarantee and trial offer, as there is no question whatsoever about your being more than pleased with the shells and finding them to be even better than we claim and better than any shells you have ever used.

YOU WILL BE INTERESTED IN OUR IRON BED VALUES.

METALLIC AMMUNITION FOR RIFLES, REVOLVERS AND PISTOLS

HIGHEST QUALITY

IF YOU WANT THE BEST ammunition made, ammunition that is absolutely guaranteed to equal any for penetration, accuracy and uniformity of results, you can serve your interests best by buying the ammunition we handle, as our prices, you will note by comparison, are from 15 to 30 per cent below those asked by others.

THE DIFFERENCE IN PRICE between our ammunition and that handled by others is accounted for by the fact that we are absolutely independent of any association of ammunition manufacturers. We are not limited to any one source of supply in the purchase of our ammunition. We buy our ammunition from independent manufacturers. We absolutely insist that the quality be up to the highest recognized standard, and we make exhaustive tests from time to time to insure that the quality is at all times maintained. Not being obligated or under the control of any so called "association," we are at liberty to fix our selling prices on ammunition in accordance with its cost and in proportion to the values we offer throughout this entire book on all lines of merchandise. The quality of our ammunition is known by thousands of shooters as being the very best.

WE GUARANTEE every cartridge and every shell we sell. If you purchase a quantity of ammunition of us and for any reason do not find it satisfactory, equal in every respect to any ammunition you have ever used at any price, return the balance of the shipment to us, and we will return you the price you paid and make no charge for the box you used for testing. This liberal guarantee speaks for the confidence we have in the ammunition we handle.

No. 6F2336 22 Short.

No. 6F2377 32 S. & W.

No. 6F2388 38 S. & W.

The cartridges above illustrated are the three most popular and if you will refer to prices on these cartridges compare them with the prices asked by others, you will appreciate the wonderful values we are offering in metallic ammunition, quality considered, other calibers represent value.

Remember, we sell only standard, highest quality, guaranteed ammunition.

W EMPIRE EXPERT TRAP

25

The New Empire Expert Trap is made in our own factory and is controlled exclusively by us. We have greatly improved the trap over the original Empire Expert Trap. The carrier that holds the target and the trigger pull are two of the important changes we have made. The new Empire Expert Trap is easily adjusted to the elevation of flight of target, and the angle can be instantly changed by removing the lever to the right or left. The tension of the motor spring is quickly adjusted near the hand. The trap has large extra heavy base. carrier has an extra long full sweep, and will throw any such as the Blue Rock, White Flyer, Black Bird, Dickey shooting weight, boxed, about 40 pounds.

7424 New Empire Expert Trap. Price.....$4.25

THE IMPROVED MODEL J. C. HAND TRAP $2.40

Oxidized Copper Finish.

The construction of this trap is such that when sprung there is but little vibration or jerk. The operator can throw any quantity of birds without being put to any strain or jar whatsoever. Any 16-year old boy can operate this trap. Operating the trap by hand permits a great range of angles in throwing the target. The frame of this trap is made of the finest steel casting. The mainspring is a finely tempered spring. The tension of the spring is regulated by thumbscrew. The hand is made of steel with rubber covered posts. The trap when sprung is 39 inches long, and when set for shooting 24 inches long. Finished in a beautiful oxidized finish. Weight, packed for shipment, about 9 pounds.

No. 6F4430 Improved Model J. C. Hand Trap, finished in oxidized copper, gunmetal finish.

Price $2.40

OUR BLUE ROCK TARGETS.

No. 6F4427 This is the old original standard Blue Rock Target which has been on the market for many years and with which all trap shooters are familiar. Will fly from any standard trap such as the Empire, J. C. Hand and other traps.

Price, per barrel (500). Weight, 150 pounds.....$2.25

Price, per 1,000. Weight, 300 pounds..... 4.39

SHOOTING GALLERY TARGETS.

Per dozen.....$9.98; each.....84c

SEE PAGE 90 FOR TRAPPERS' ANIMAL CHARTS AND ALSO RAT, MOUSE, AND MOLE TRAPS.

Single Spring Otter and Beaver Traps.

No. 6F4044 The Newhouse (Size 2½) Single Spring Otter Trap was designed in response to requests from old and experienced trappers. It is used more especially for catching otters on their "slides." For this purpose a thin, raised plate of steel is adjusted to the pan so that when the trap is set the plate will be a trifle higher than the teeth on the jaws. The points of the teeth are made very sharp, to pierce the animal's breast, and the raised plate can be readily detached if desired, making the trap one of general utility. Spread of jaws, 5⅛ inches. Weight, 32 oz. Shipping wt., 40 oz.
Price, each, with chain.....$0.79
Per dozen.....9.41

No. 6F4045 Newhouse (Size 3½) Otter Trap, single spring, with chain. In some localities the otter grows to an unusual size. The No. 3½ Newhouse was designed to meet these requirements. All the parts are heavier than the No. 2½, the spread of jaws is greater, and the spring stiffer. Spread of jaws, 6⅝ inches. Weight, 50 ounces, long chain. Shipping wt., 60 oz.
Price, each.....$0.88
Price, per dozen.....10.55

Wolf and Panther Trap.

No. 6F4053 The Genuine Newhouse Trap. Size No. 4½, is especially adapted to catching wolves. This trap has 8 9-16-inch spread of jaws, with the other parts in proportion, and is provided with a pronged drag, a heavy snap and an extra heavy steel swivel and chain, 5 feet long, warranted to hold 2,000 pounds. The trap, complete with chain and drag, will weigh 8 pounds 5 ounces. Shipping weight, 9 pounds.
Price, 6 for $11.40; each.....$1.90

Bear Trap.

No. 6F4061 Newhouse Bear Trap No. 15, with chain. New model, with jaws having an offset of ¾ of an inch, to allow the springs to come up higher, giving the jaws a firmer and tighter grip. This improved trap takes the place of the old No. 5 Newhouse. Spread of jaws, 11¾ inches. Weight, 20 pounds. Shipping weight, 23 pounds.
Price.....$5.70

Hawley & Norton Traps.

The Hawley & Norton Game Traps are manufactured by The Oneida Community (Limited), at Kenwood, N. Y., the makers of the genuine Newhouse traps.

The Hawley & Norton, while almost identical in form, is made somewhat lighter than the Newhouse throughout, and therefore cheaper; but it is a good, reliable trap.

No. 6F4066 The Hawley & Norton Game Trap, Size 1, with chain. Spread of jaws, 4 inches. Weight, 10 ounces. Shipping wt., 18 oz.
Price, per dozen, $2.10; each.....18c

No. 6F4067 The Hawley & Norton Game Trap, Size 1½, with chain. Spread of jaws, 4½ inches. Weight, 1 pound. Shipping wt., 24 oz.
Price, per dozen, $3.15; each.....27c

No. 6F4068 The Hawley & Norton Game Trap, Size 2, with chain. Double spring. Spread of jaws, 4⅝ inches. Weight, 21 ounces. Shipping wt., 26 oz.
Price, per dozen, $4.41; each.....37c

No. 6F4072 The Hawley & Norton Game Trap, Size 4, with chain. Double spring. Spread of jaws, 5 11-16 inches. Weight, 37 ounces. Shipping wt., 48 oz.
Price, per dozen, $6.93; each.....58c

Tree Traps.

This Tree Trap is made of finely tempered steel, is an excellent trap for mink, marten, raccoon and opossum. This trap can be fastened securely and quickly with 6d nails. It is never snowed under, easy to locate and will kill instantly.

No. 6F4113 No. 0 Tree Trap, for Weasel, Ermine, etc. Weight, 17 ounces. Shipping wt., 20 oz.
Price, 6 for $1.00; each.....17c

Price, per dozen, $1.95; each.....17c

No. 6F4079 Victor Traps. Size No. 2, fox trap; spread of jaws, 4⅝ inches, double spring, with chain. Weight, 17 ounces. Shipping wt., 24 oz.
Price, per dozen, $2.73; each.....23c

No. 6F4080 Victor Traps. Size No. 3, the otter trap; spread of jaws, 5 5-16 inches; double spring with chain. Weight, 32 ounces. Shipping wt., 40 oz.
Price, per dozen, $3.64; each.....31c

No. 6F4081 Victor Traps. Size No. 4, the beaver trap; spread of jaws, 5⅞ inches; double spring with chain. Weight, 32 ounces. Shipping wt., 40 oz.
Price, per dozen, $4.29; each.....36c

The Oneida Jump Traps, With Chains.

The Oneida Community Jump Traps with chains are lighter in weight and therefore easier to carry than the other styles. They lie very flat and are easily secreted in the runways of animals. The jaws have full, wide meeting faces much less likely to break the animal's leg than are other makes of this pattern. These traps are warranted in every respect.

No. 6F4097 Rat, Weasel or Gopher Trap. Size 0, with chain. Spread of jaws, 4 inches. Weight, 6 ounces. Shipping wt., 10 oz.
Price, per dozen, $1.45; each.....13c

No. 6F4098 Size 1, with chain. Spread of jaws, 4¾ inches. For muskrat, skunk, opossum, rabbit and marten. Weight, 9 ounces. Shipping wt., 13 oz.
Price, per dozen, $1.69; each.....15c

No. 6F4100 Size 1½, formerly No. 2, with chain. Spread of jaws, 5⅛ inches. For mink, muskrat, raccoon, fisher, skunk and opossum. Weight, 10 ounces. Shipping wt., 14 oz.
Price, per dozen, $2.57; each.....22c

No. 6F4109 Size 2, with chain, formerly No. 2½. Spread of jaws, 5⅝ inches. For fox, raccoon, fisher, wild cat and opossum. Weight, 16 ounces. Shipping wt., 22 oz.
Price, per dozen, $3.59; each.....30c

No. 6F4111 Size 3, with chain. Spread of jaws, 6¾ inches. For otter, wild cat, lynx, beaver and fisher. Weight, 21 ounces. Shipping wt., 30 oz.

Price, each, including chain.....$0.11
Per dozen.....1.18

The Sure Death Trap.

A steel trap combining the principles of the old Indian snare and the figure 4. No animal can spring this trap and live. The trap is invisible when set, will not freeze up and is the only trap that can be successfully baited with live bait. It kills its catch and does away with all losses on account of the animals freeing themselves. Guaranteed to catch more mink, muskrats, skunks and gophers than any other trap. A chain is unnecessary, as the trap kills the animal. Full directions on how to set and bait for mink, marten, otter, skunk, muskrats, rabbits, etc., accompany each trap. Length over all, 12 inches; weight, 9 ounces. Shipping wt., 10 oz.

No. 6F4214 Price, each.....40c

Setting Clamps.

No. 6F4089 For setting game traps. Mention number wanted when ordering.

No. 4, for setting No. 4 trap. Weight, 3 ounces. Shipping wt., 4 oz. Price.....11c

No. 5, for setting No. 5 trap. Weight, 15 ounces. Shipping wt., 18 oz. Price.....26c

No. 6, for setting No. 6 trap. Weight, 26 ounces. Shipping wt., 30 oz. Price.....44c

Our Adjustable Steel Fur Stretchers.

These stretchers are made of carefully selected steel, ⅝x12 gauge; adjustable to fit any size pelt, drying it in its correct shape and in one-third the time of other stretchers. Will fold up to a small space when not in use. By using these stretchers your furs will not only dry in one-third the time but will be in better shape and bring you more money than you could possibly get under any other circumstances.

No. 6F4230 Muskrat Stretchers, weight per ½ doz., 6 lbs. Shipping wt., 8 lbs.
Price, per ½ dozen.....52c

No. 6F4231 Skunk and Coon Stretchers, weight, per ½ dozen, 7 pounds. Shipping weight, 8 pounds. Price, per ½ dozen..70c

No. 6F4232 Mink Stretchers, weight per ½ doz., 7 lbs. Shipping weight, 8 pounds. Price, per ½ dozen.....74c

Lightning Tanner.

Lightning Tanner is the very latest mixture for quickly and perfectly tanning furs and skins of every description in from 24 to 36 hours. Very simple to use, requires no experience and first class results can always be obtained. By means of Lightning Tanner you can make your own robes, furs, muffs or caps, and your leather belts, tie straps, halters, etc. Does not, like many other tanning compounds, rot or weaken the leather, but makes it tough, soft and pliable. Full directions for preparing the hides and tanning are furnished with each package.

No. 6F4270 Box with powder sufficient to tan two raccoon skins in 36 hours. Shipping weight, 2 ounces. Price.....15c

No. 6F4271 Box containing three times the above and sufficient for deerskin. Shipping weight, 4 ounces. Price.....28c

No. 6F4272 Box holding about 16 ounces and sufficient for horse or cow hide. Shipping weight, 23 ounces. Price.....75c

Digitized by Google

Animal Scents.

In answer to a large demand for animal scents we have made a contract whereby we are able to offer the famous Burbank Natural Animal Scents at prices lower than those they have ever been sold at before. These scents are not made from drugs, but from parts of the animals they are intended to catch and from their favorite food. Shipping weight, per bottle, 4 to 6 ounces.

No. 6F4260 Burbank's Trout Oil, the best scent made for mink. One bottle sufficient for 120 sets. Price, per bottle.....**70c**

No. 6F4220 Mouse Trap. This is the most successful mouse catcher ever invented. One mouse sets the trap for the next one that comes along; will hold several. Shipping weight, 12 ounces. Price.....**9c**

No. 6F4222 Four-Hole Wood Choker Mouse Trap with improved loop trigger set. Will hold four mice, and is easily set up. Made of gum wood, painted red. Shipping weight, 6 ounces. Price, each...**5c**

CEDAR WOOD DECOY DUCKS.

In making these decoys great care has been used to select only sound white cedar for their construction and to secure a perfect balance. They are light, substantial and naturally painted. They will not sink if you shoot them. $2.85 and $4.20 per dozen. Each dozen contains 8 drakes and 4 ducks. We cannot furnish them any other way except by special order, which causes delay.

They come in mallard, canvasback, redhead, black duck, bluebill, teal or pintail. Weight, 35 to 40 pounds per dozen. State which style you wish.

REMEMBER—We can furnish only 8 drakes and 4 ducks in each dozen.

No. 6F4495 No. 10, our best decoy duck with glass eyes. These decoys are as nicely painted and as well shaped as most decoys which regularly retail at $6.00 to $7.50 per dozen. State which style you wish.
Price, per dozen, **$4.20**; each.....**40c**

No. 6F4496 No. 30, good decoy ducks, nicely painted in natural colors, with painted eyes. These decoys are not quite as well painted or shaped as the No. 10, but are excellent value for the money. State which style you wish.
Price, per dozen, **$2.85**; each.....**30c**

No. 6F4497 Anchors with cord to fasten to breast so they will swim like the natural bird when in the water. Price, per dozen.**45c**

BIRD CALLS.

Kankakee Marsh Duck Call.

We guarantee this call to be equal to any call made regardless of name, make or price. These calls are fitted with best quality German silver reeds and have not the metallic sounds found in many duck calls and sounds which are unnatural to the tones of wild ducks. Each call is toned by an old experienced duck hunter when it leaves us and should not be altered in any way. With a little practice an amateur will soon learn to call ducks as well as an old experienced hunter. Directions for calling accompany each call. Shipping weight, 2 ounces.

No. 6F4461 Our Kankakee Marsh Duck Call. Price.....**32c**

Hard Rubber Duck Call.

No. 6F4462 This call is made entirely of the best quality of hard rubber, has hard rubber reed. Will not check or crack, is not affected in any way by water or the weather, and will stay in perfect tune under all conditions. Has good, strong tone, and is easy to blow. Shipping weight, 4 ounces.
Price, each.....**39c**

Our Crow Caller, 27 Cents.

No. 6F4463 Our Crow Call, made of well seasoned wood, fine reed. With a little practice you can soon learn to call crows successfully. Shipping weight, 2 ounces.
Price.....**27c**

Our Latest Turkey Caller.

No. 6F4464 Our Turkey Caller is made from well seasoned wood, adapted to make the proper sound for decoying wild or domestic turkeys. Hold the caller in the left hand, as shown in the illustration, and with the right hand rub the slate on the side of the caller, either with the edge or with the flat side, and after a little practice you will be able to decoy turkeys successfully. This caller is 4¼ inches long, 2½ inches wide, and may be carried in the pocket. Shipping weight, 3 ounces. Price.....**48c**

Our Hawk Call, 46 Cents.

No. 6F4468 Our Hawk Call is designed and manufactured by a man who has had much trouble by hawks killing his chickens, and the hawk caller pays for itself many times over every time a hawk is killed. Hold the caller in the left hand, as shown in the illustration, and by blowing through it you can soon become expert in decoying hawks toward you. Shipping weight, 2 ounces. Price.....**46c**

No. 6F4224 Steel Bottom Mouse Trap with galvanized pan. Absolutely sure mouse catcher. Mice can't touch the bait and live. Shipping weight of three, 5 ounces.
Price, 3 for.....**8c**

No. 6F4225 Rat Trap. Same as No. 6F4224, only larger in size and made of wood. A sure catch and easy to set. Shipping weight, 3 ounces. Price.....**8c**

VACUUM BOTTLES, $1.45

Keep Liquids Hot Twenty-Five Hours or Ice Cold for Three Full Days.

Not an experiment, but an assured success. Thousands of these bottles in use by tourists, sportsmen, teamsters, hospitals and nurseries. The principle of these bottles is based on the scientific fact that a vacuum cannot conduct heat or cold. A glass bottle is blown within a glass bottle, and the air is exhausted from the intervening space between the two glass bottles, forming a vacuum. We guarantee the bottles sold by us to be equal in every way to the bottles sold elsewhere at $5.00 or more. Our Favorite Vacuum Bottle is constructed especially for us, and the price of $1.45 places it within the reach of all. Every bottle is enclosed in a nicely lithographed metal case with screw off top. Shipping weight, pint size bottle, 2 pounds; quart size bottle, 3 pounds.

No. 6F7388 Favorite Vacuum Bottle, pint size. Price.....**$1.45**

The Peerless Vacuum Bottle is similar to the Favorite, except the case is made of drawn brass, highly nickel plated. Finely finished throughout, comparing more than favorably with bottles sold elsewhere at $5.00.

No. 6F7390 Peerless Vacuum Bottle, nickel plated on brass. Pint size. Price.....**$2.29**

No. 6F7391 Peerless Vacuum Bottle, nickel plated on brass. Quart size. Price.....**$3.55**

CARRYING CASES FOR VACUUM BOTTLES.

Buy a carrying case to protect your bottle against breaking. Our case is made of the very best heavy cane leather, highly finished, russet color, velvet lined and strongly sewed.

No. 6F7393 Single case for one pint bottle. Shipping weight, 16 oz.
No. 6F7395 Double case, for two pint bottles. Shipping weight, 25 oz.
No. 6F7397 Single case, for one quart bottle. Shipping weight, 25 oz.
No. 6F7399 Double case, for two quart bottles. Shipping weight, 32 oz.

Water Cooling Bags.

The hotter the weather, the cooler the water. The sun's rays on the bag starts a process of refrigeration by evaporation. Made of a specially constructed, heavy, linen canvas, which has the peculiar property of holding water and exuding just enough to the surface to keep up a continual evaporation. The bag is fitted with a porcelain mouthpiece and has a good cork attached. A rope handle, which can be adjusted to any size. The water bags are practical and are becoming more popular every year.

No. 6F4666 1-gallon size. Shipping weight, 12 ounces. Price, each.....**58c**

HUNTING CLOTHING

SELL THE BIGGEST GRADE HUNTING CLOTHING in the United States, and our business in this line is the largest in the country. You will find that our hunting clothing has a quality, strength, style and comfort not found in any other make. We use only the very best, full weight materials, selected for this purpose. They are cut on our patterns, which we have designed with a view to giving the comfort and ease required by the shooter.

PATTERN, SIZE AND SUPERIORITY of our hunting clothing, as compared with other makes, are clearly shown in the illustration marked A, and the extra wide, full sleeves, as compared with the coats sold by other dealers and makers. We give you 6 inches more around the skirt than any other maker in the country, 1½ inches longer coat, four buttons in front instead of three, and full length sleeves. It is the excellence of the construction of our hunting clothing, together with the high class material and superior workmanship, that has developed our business and is the largest in the United States.

BEFORE YOU BUY ELSEWHERE, order one of our hunting coats and examine it, and if you do not find it to be the best material of the grade represented, the best pattern, the most comfortable fit and the best coat for the money you ever saw, you may return it to us, and we will send you your money with all transportation expense.

PARCEL SHIPMENTS. If you find it necessary to have any of these goods shipped by mail, **send postage extra, 1 cent an ounce,** according to shipping weight given. The most economical way is to include these goods with orders for other goods in a freight or express shipment.

$3.10 IMPROVED DRYBACK COAT, GUARANTEED WATERPROOF.

No. 6F5135 The Improved Dryback Coat is made from the United States Government New Shelter Tent Duck, which is made expressly for the government for army purposes. This is a fine, closely woven fabric, made from extra long fiber cotton, well twisted. It is not a bulky material, but weighs about 8 ounces to the yard, is very soft, pliable and guaranteed to be waterproof when it comes from the looms. In addition to the waterproof guarantee on the cloth, we have had it put through the best waterproofing process, and we guarantee the coat to be absolutely waterproof. The Dryback Coat is of the latest government shade, olive tan, adopted on account of its neutral color, which renders a man almost invisible against any background at about 40 yards. **The pattern of this coat** is cut specially large and full in size. Extra full skirt, full length, with plenty of room. Most comfortable pattern hunting coat made. The construction of the Improved Dryback Coat is like two coats in one. The entire coat and sleeves are lined with the same material as is used in the outside coat. Reinforced shoulders, 4-inch corduroy collar with throat tab, and four-button front. Double stitched throughout with extra strong thread, which will wear until the coat is worn out. The sleeves are full length, very large and roomy, with gussets under the arms, adjustable cuffs with 4-inch corduroy facing inside. Has two extra large bell shaped pockets, one on each side, 12½ inches wide and 9 inches deep, with large flaps to button. One breast pocket with flap, one whistle pocket and a match pocket inside. The entrances to the game pockets in the skirt are from the side seams and front edge of the coat. Those wishing a hunting coat that is wind and water proof, light and soft as a shirt, comfortable and easy, will find in our Improved Dryback Coat a combination not found in any other coat. Sizes, 36 inches to 48 inches chest measure. **State size desired.** Shipping weight, 45 to 60 ounces.

Price $3.10

THE GOLD MEDAL CANVAS HUNTING COAT. $3.80

WIND AND WATER PROOF.

12-OUNCE OLIVE TAN COLOR GENUINE ARMY DUCK

No. 6F5130 Gold Medal Canvas Hunting Coat, made of the highest grade genuine United States Government army duck, the finest, strongest, toughest duck made. The construction of this coat is such that it combines practically two coats in one, the outer coat being made of 12-ounce tan color genuine army duck and lined throughout with 8-ounce army duck; sleeves lined with the celebrated Walker sateen. Cut on a very large, full pattern, with an extra large, roomy skirt. The coat does not bind anywhere. The sleeves are cut on a very roomy pattern with special gussets under the arm, giving absolute freedom to the arms. The cuffs are adjustable, with deep inside facing of corduroy. Large shoulder pieces of oil tanned horsehide, well padded, giving the greatest possible protection to the shoulders and adding greatly to the strength and appearance. Full size, narrow ribbed corduroy collar, large fancy bone buttons, silk stitched buttonholes, hand worked silk crow feet pocket stays, full leather bound, double stitched throughout. The finest canvas hunting coat that skilled labor and highest quality material can produce. Sizes, 36 to 48 inches. **Give chest measure when ordering.** Shipping wt., about 4½ lbs. Price..... $3.80

$3.55 FOR THIS NEW STYLE SOLID EDGE GUN CASE.

NO SEAM ON LOWER EDGE

No. 6F4721 For years gun case makers have been endeavoring to construct a case without the long seam on the under edge, which receives the hardest wear and has always been the weakest point of the case. We offer in this new style construction a case with the long seam on the side, where it will receive the least strain and where it can be strengthened with the dividing partition, thus making a seamless edge. An important feature of this case is the rib protection, a leather covered block securely fastened to the end of the case to fit over in the rib of the barrel to protect the rib and to prevent it from puncturing the cap of the case. This case is made of good heavy oak tanned cowhide, oak tan color, well made. It has a rod pocket, handle, shoulder sling and brass trimmings. Made to fit double and single guns with 28, 30 or 32-inch barrels. Shipping weight, 64 ounces. Price.....

No. 6F4722 Same style as above, for two sets of barrels. Price.....$3.55
No. 6F4723 Same style as above, for Remington Automatic. Price..... 4.00
No. 6F4724 Same style as above, for Remington Automatic, two sets of barrels. 3.80 4.35

ICE SKATES

When Ordering Ice Skates Give Length of Shoe in Inches.

In measuring shoe, place heel of shoe against the wall and measure from wall to end of toe. We often receive orders like the following: "Send me one pair of skates, No. 9." We do not know if it is for a No. 9 child's shoe, a No. 9 man's shoe, or a 9-inch shoe. We will not attempt to fill orders for skates unless size wanted is given in inches.

Tubular Racing Skates, $4.65.

No. 6F5987 The best and lightest skate made. Highly polished, full nickel plated. Very light and strong. Made of ⅛-inch tempered tube steel. Set in tubular steel frame, which makes the skate strong and rigid. The heel and toe plates are strongly riveted to the hollow steel cone supports, which are securely attached to the frame. All parts, except the runner, are made of cold drawn steel. Length, 10, 10½, 11, 11½ and 12 inches. Give length of shoe when ordering. Shipping weight, 45 to 50 ounces. Price, per pair.....$4.65

Excellent Steel Hockey Skates.

IMPORTANT. Always give exact measurement around the dog's neck. Sizes given below are the sizes of a dog's neck the collars will fit when buckled to smallest size.

DON'T MEASURE THE OLD COLLAR, but measure the dog's neck with tape measure or string, and give us actual measurement, and we will fit him every time.

DOG COLLARS

This is the finest line of dog collars on the market. We call particular attention to our patent lock buckle, used on all collars from Nos. 6F6292 to 6F6341, inclusive. This buckle can be used the same as the ordinary buckle, or padlock can be hooked into the eye of the buckle tongue, making it impossible to unbuckle the collar without removing the lock. **Prices on collars do not include locks.**

NAMES ENGRAVED ON COLLARS and HARNESS For 3 Cents per Letter

Be sure to write name to be engraved very plainly.

Jewel Studded Collars.

A very handsome collar for short haired dogs. Fine black grain leather, double row of ground brass studs with imitation turquoise studs in polished brass mountings, chamois lined. The blue stone mountings, the brass studs and the yellow stitching make a handsome contrast with the deep rich black collar. Fitted with brass name plate, brass ring and patent lock buckle. **When ordering give measure of dog's neck and give number of the size collar that is nearest to length wanted.**

Catalog No.	Neck Measure	Width of Collar	Price	Shipping wt.
6F6267	11 inches	⅝ inch	26c	4 oz.
6F6268	13 inches	¾ inch	33c	4 oz.
6F6269	15 inches	1 inch	39c	5 oz.
6F6270	17 inches	1 inch	46c	7 oz.

Bull Terrier Spike Collars.

These collars are particularly suited to bull terriers, English bulldogs and short hair dogs of this type. Made of heavy black calf leather, leather lined. The 11, 13 and 15-inch collars have each a single row of pointed brass spikes, ⅝-inch long, and a double row of brass ⅜-inch studs. The 17-inch collar has a double row of spikes, treble row of studs. The 19-inch collar has a double row of brass spikes, each spike surrounded with a cluster of brass studs with additional clusters of studs between the spikes. Brass name plates, brass "D" rings, patent brass lock buckles. **When ordering give catalog number and size of the collar that is nearest to the measurement around your dog's neck.**

6F6300	17 inches	1 inch	40c	5 oz.
6F6302	19 inches	1 inch	44c	5 oz.

Pearl Studded Collars.

The handsomest dog collars made. Particularly suited for fox terriers, bulldogs, Boston terriers and short hair dogs up to 15 inches in neck measurement. These collars are made of black calf leather, leather lined. Have a single row of best quality pearl studs with a double row of burnished brass studs. The 9, 11 and 13-inch collars have pearl studs ⅜ inch in diameter. The 15-inch collar has ½-inch pearl studs. These collars are fitted with large square brass name plates, brass "D" rings and brass lock buckles which can be used with or without locks. **When ordering give catalog number and the size collar that is nearest to the measurement around your dog's neck.**

BOXING OR PUNCHING BAGS

$1.05 TO $3.05 OUR COMBINATION SINGLE AND DOUBLE END BAGS.

These bags are all made so they can be used either as single end with platform, or as double end bags with rope and elastic, suspended between floor and ceiling. They have no clumsy loops on the bottom to spoil the looks or throw them out of balance when used as single end bags with platform. To make the double end bag, you simply pass the elastic cord through two holes in the round piece usually found on the bottom of all bags. This end piece on all our bags has an extra heavy reinforcement over which the elastic is passed and which holds it securely and does away with the clumsy loop at the bottom. This neat construction makes it possible to change our bags to either double or single end in a moment's time without any inconvenience.

In the construction of our bags we use only the very best leather suitable for the purpose that can be procured, and this, combined with the best quality linings, workmanship and finish, makes them the best striking bags on the market today that money can buy. The prices are for the bags complete with bladder, rope, elastic and screw eyes.

No. 6F6824 Made of good strong leather, drill lined, strong loop, all well made. This is a practice bag for a very little money. Shipping weight, 16 ounces. Complete.....$1.05

No. 6F6825 Made of gold tan napa leather with strong loop. Drill lined, good, desirable, strong, 30 inches circumference when inflated. Shipping weight, 18 ounces. Complete.....$1.32

No. 6F6829 Best quality, claret color soft tanned leather, strong loop, drill lined, making an extra strong bag, one of the best sellers, 32 inches circumference when inflated. Shipping weight, 20 ounces. Price, complete.....$1.65

No. 6F6834 Black, oil tanned calfskin bag, made of the finest quality oil tanned leather, drill lined, welted and taped seams, treble stitched, one-piece top, double stitched, and securely fastened. A full size bag, made up in the very best manner. Shipping weight, 25 ounces. Price, complete.....$2.40

No. 6F6836 Expert Bag made of specially selected oil tan horsehide, very strong and the best material ever put into striking bags. Drill lined, triple seams, welted, strong and close top, made up first class in every respect, very fast and the finest bag made. Circumference when inflated. Weight, complete, about 14 ounces. Complete.....(Shipping weight, 20 to 25 ounces).....$2.75

PEAR SHAPED SINGLE END BAG.

This is the latest thing in punching bags. The pear shaped bag is so made that the strain is on all sections of the bag instead of one place. The tops and bottoms are stitched by hand and the bag is built to withstand the strain. In fact, the bag is built for work.

No. 6F6838 Made of napa leather, triple stitched seams, canvas lined, 28 inches circumference when inflated. Weight, complete, 11 ounces. Price, with bladder.$1.50

No. 6F6839 Fine quality goatskin, olive green color, napa lined, high eyeleted lace holes, welted triple seams, canvas lined, 32 inches circumference when inflated. Weight, complete, 11 ounces. Price, with bladder.....(Shipping weight, 20 ounces).....$1.85

No. 6F6840 Finest quality selected oil tanned horsehide, tan color, is the finest stock in the world for striking bags, very soft, strong, patent swivel top, bound lips, eyeleted lace holes, canvas lined, 32 inches in circumference when inflated, with very best quality of rubber bladder and stitched bottom, with very best quality of rubber bladder and best bag for professional bag punchers. Weight, complete, 11 ounces. Price, with bladder.....(Shipping weight, 28 ounces).....$3.05

Wisconsin Striking Bag Platform. $2.15

Noiseless, No Jar, Light Weight.

$2.15

No. 6F6848 The Wisconsin Striking Bag Platform is constructed of selected hardwood, securely bolted together, the rim is of maple, one piece, 23 inches in diameter, oil finished; has four rubber pad washers between the rim and frame. The washers act as a cushion and absorb all vibration, besides making the action of the bag extremely lively. The swivel is of new design, made of metal, and is noiseless. The platform is easily adjusted to a wall or ceiling and is very rigid when in position for use. Weight of platform, 12 pounds. Weight, packed for shipment, 15 pounds.

Price, without bag.....$2.15

THE J. C. HIGGINS FIELDERS' GLOVE, $2.50

The J. C. Higgins League Fielders' Glove is the best glove made. It is constructed of the very finest selected light drab boulevard horsehide. It is very soft and pliable and has a beautiful velvety finish, yet is one of the strongest leathers. Cut on the latest improved model, large size pattern, full inside heel pad, leather lined, leather bound, padded with the finest felt. Made up with welted seam, strap and buckle at wrist, web between thumb and first finger. All the best features of the most popular gloves are incorporated with the finest stock and workmanship to make this glove the best it is possible to produce. Comes "ready broke." It carries the J. C. Higgins trade mark, which is a guarantee of quality and perfection of construction. Shipping weight, 20 ounces.

No. 6F6948 To fit left hand. Price $2.50

No. 6F6948½ To fit right hand; for left handed throwers. Price..$2.50

Our Deep Pocket Glove, $2.15 Patent Heel,

This glove has a patent heel elevation, making an extra large deep pocket 50 per cent larger than in the ordinary glove. This glove is made of fine light drab horsehide, leather lined, felt padding, web between the thumb and first finger, and strap and button at wrist, leather bound. The heel is elevated by inserting a piece of heavy tan color shoe leather in the heel of the glove, raising the back edge of the palm and building it up with a soft pliable padding, making the rear of the palm about 1 inch thick, thus forming an extra large pocket. We recommend it to those who like gloves with large deep pockets. The glove is high grade in every respect. Shipping weight, 20 oz.

No. 6F6951 To fit left hand. Price $2.15

No. 6F6951½ To fit right hand; for left handed throwers. Price.....$2.16

Black Cub Professional Glove.

Our J. C. Higgins Brand Black Oil Tanned Horsehide Glove, the latest improved professional style, large size pattern with large little finger, padded with the finest quality of glove felt, with inside heel pad, leather lined, leather bound, welted seams, strap and buckle at the wrist. This is a very pliable glove, with a deep natural pocket "ready broke" when you get it. We guarantee this in every respect to be the very best black glove on the market, the equal of any $3.50 glove sold by any retail house. Very popular. Shipping weight, 16 ounces.

No. 6F6953 To fit left hand. Price $2.20

No. 6F6953½ To fit right hand; for left handed throwers. Price.....$2.21

Neck Protecting Mask, $2.10

No. 6F6970 Men's League Mask with neck protector, electric welded steel wire frame, much stronger, lighter and smoother in finish than the old style construction. Every wire is welded to the one which it crosses, making a solid joint. The neck piece is very strongly braced. All nicely finished in dull black enamel, fitted with full length leather side pads well stuffed and laced to the frame so strongly that they cannot be torn off. Leather adjustable forehead strap, molded chin rest and elastic head strap. Shipping weight, 44 ounces.

Price.....$2.10

Professional League Mask, $1.85

No. 6F6971 Men's Professional League Mask, electric welded steel wire frame. All joints in the frame are electric welded, making solid joints and the frame much more rigid than in the old style mask. This mask is full size, dull black enamel finish and fitted with full length leather pads well stuffed, also forehead pad at the top of the frame instead of head straps. Pads laced to frame, molded leather chin rest, elastic head band making this mask more comfortable and better finished than any other. Shipping weight, 38 ounces.

Price $1.85

No. 6F6977 Men's Professional League Mask. Electric welded frame. Black enameled, which prevents the reflection of the light; temple and cheek pads, with head strap and chin rest; an A1 quality mask; 10½ inches long, 7½ inches wide. A strong mask. Shipping weight, 35 ounces. Price $1.25

HAMMOCKS

STYLES, NEW PATTERNS, GREATER VALUE. The value in a hammock not lie in the fancy pattern or the vivid colors, the value lies in the amount of the material and the method of weaving. We particularly call attention to the sizes and weights of our hammocks as compared with those offered by other dealers at similar prices. You will note our hammocks are larger in size and weigh considerably more than those quoted by others. Most dealers handle hammocks with large, fancy, open designs, frequently described as Jacquard, which, while seemingly attractive and sold at high prices, contain but one-half of the material used in a solid weave, such as is found in our Nos. 6F7343, 6F7344 and 6F7345. We call attention to the fastening at the head and foot used on all our woven hammocks, the strongest and most durable fastening known. Our hammocks are guaranteed not to pull out at the head or foot. No other dealer issues a like guarantee. The colors and designs in our hammocks have been carefully selected.

Our IMPROVED JACQUARD WEAVE HAMMOCK $2.03

No. 6F7336 This Hammock is of the improved and fancy figure type. Improved method of weaving permits no loose threads to catch buttons and hook clothes and tear. This hammock is of same design. Large colors and stripes also in handsome contrasting colors. Deep fringed curtain; large upholstered throwback cushion with tassel fringe; made of the finest fiber cotton two and three-ply yarns; patent Holdfast fastening at head and foot; concealed spreader at head and dividing bar at foot. Size of bed, 38x82 inches. Weight, 6½ pounds. Price.....$2.03

See page 956 for Hooks, Ropes and Chains.

OUR CHALLENGE OFFER $1.89

PATENT HOLDFAST FASTENING AT HEAD AND FOOT; SANITARY SPRING WIRE PILLOW. FULL SIZE.

No. 6F7343 We defy any $2.50 hammock to compete, in value and quality, with this beautiful hammock offered at $1.89. There are many of the so called Jacquard or gingerbread patterns on the market, sold at $2.00 to $3.00, which do not contain half of the yarn employed in this closely woven hammock. The pattern, as illustrated, is simple yet striking. The heavy four-ply special finely twisted yarn used in this hammock gives it the greatest possible strength and brings forth the handsome contrasting colors. This hammock is made with large spring wire sanitary pillow, the most comfortable pillow used on a hammock. Our patent Holdfast guaranteed fastening is used at head and foot, the end connected direct with the spreaders, instead of to the body of the hammock, making this hammock against pulling out or tearing. Made with an extra large, deep pillow as illustrated. Size of bed, 40x80 inches. Weight, 6½ pounds. Price.....$1.89

See page 956 for Hooks and Ropes.

A $4.00 HAMMOCK FOR $2.51

No. 6F7344 Made especially for us, extra large size, beautiful new damask weave, handsome design of stripes and checks, beautiful contrasting colors. Constructed of a fine long fiber firmly twisted yarn, very closely packed together, giving this hammock enormous strength and bringing out the full beauty of its pattern and color. Unlike other hammocks sold for $1.00 to $2.00 more money, this hammock has a firm body, no loose threads to catch in the clothing, no large holes or meshes; has the strength of a heavy piece of duck, and all the beauty in color and design of a beautiful Oriental rug. Fitted with our sanitary spring pillow, improved construction; spreader at head and foot; extra full deep curtain, fine heavy fringe. Size of bed, 40x80 inches. Could not be duplicated elsewhere for less than $4.00. Weight, 5½ pounds.

Our price.....$2.51

See page 956 for Hooks, Chains and Ropes.

OUR DE LUXE HAMMOCK $4.24

No. 6F7335 Something entirely new in design and construction. Unquestionably the handsomest hammock made. This hammock is of improved Jacquard weave, very closely woven in double thickness. This very close weave handsomely brings forth the spider and web, butterfly and floral design. The design is cut out in a clear white against a dark red, green and black background in a beautiful effect. This hammock is woven as close as the finest tapestries. There are no loose threads. Double fabric; will last for years. The yarns are the finest long fiber cotton, finely twisted. Made with large upholstered and enameled button tufted throwback tassel cushion and large pillow. Curved concealed spreader at head and nickel plated capped dividing bar. Size of bed, 38x84 inches. Guaranteed to support 700 pounds. Weight, 7½ pounds. Unquestionably the handsomest hammock made. Regular $7.00 value.

.....$4.24

OUR EXTRA SIZE HIGH QUALITY HAMMOCK, COMPLETE WITH CHAINS, $3.54

No. 6F7345 This Hammock is made in our own factory and we guarantee it to be the strongest and best made hammock on the market, and at our price of $3.54, including chains, it is extraordinary value. This hammock is made of the finest long fiber four-ply cotton yarns, closely woven, and is guaranteed to contain more material to the square inch than any hammock made. Made with a patent fastening which places all the strain on the spreaders and none on the hammock. Fitted with extra large double size sanitary spring pillow. Handsome diamond and stripe pattern, with beautifully contrasting colors; extra deep fluted curtain with heavy fringe. We guarantee this hammock to support 700 pounds, and if given ordinary care, it will last for years. This is our extra large size. The bed is 44x86 inches. Weight of hammock, 8½ pounds.

Price, including one pair of 6-foot steel chains..$3.54

See preceding page for Hammock Hooks.

BASQUETTE COUCH HAMMOCK $3.65

Made of hardwood splints, woven together in basket style. Solid hardwood frame, strongly braced. The hardwood splints are in natural wood finish, and the frame is nicely painted. This hammock possesses great strength; will hold 800 pounds. Will last for years. There is nothing about it to rot, tear or wear. Very comfortable. Makes an ideal bed for sleeping out of doors. Hammock is furnished complete with adjustable ropes. 6 feet long, 30 inches wide. Shipping weight, 35 pounds.

No. 6F7352 Price, without back.....$3.65
No. 6F7353 Price, with back..... 5.20

UPHOLSTERED BASQUETTE HAMMOCK COUCH

$6.10

No. 6F7354 This couch is of the same construction as that above described, made of hardwood splints, with strongly braced hardwood frame. The seat and ends are nicely upholstered and covered with waterproof leatherette. A very attractive hammock couch. Far more comfortable and durable than the ordinary woven or canvas hammock couches. Can be left out in any weather. For attractiveness, durability, strength and value, it is undoubtedly the best hammock couch to buy; 6 feet long, 30 inches wide. Shipping weight, 50 pounds.

Price, complete with adjustable ropes.....$6.10

LAWN AND CAMP FURNITURE

LAWN SWINGS

$8.45 and $9.50

The finest, strongest and best steel lawn swing made, and, at our price, the greatest value ever known in an article of this kind. This swing is made of the best angle iron and steel. All parts are true to gauge. Our angle iron uprights are 3-16 inch thick; all others are only ⅛ inch. Very strongly reinforced and guaranteed to hold 2,000 pounds. The seats are Mission style, extra wide, measuring 34 inches between the arms, from 6 to 8 inches wider than the seats in any ordinary swing. The backs are extra high, being 10 inches higher than regular. The slats in the back and seat are made of the finest hardwood, finely varnished.

A special feature of our swing is the space between the seats. In the ordinary swings, two people cannot comfortably sit opposite each other. The space between the seats of our swing is 8 inches wider than regular, allowing ample room between the seats, even for the tallest people. This swing is made in our own factory, and special attention is paid to strength, finish and particularly to comfort. One of these swings with ordinary care will last a lifetime. The frame and hangers are finely finished with very heavy coats of the best lead paint.

The canopy is made of regular awning stripe duck. This unquestionably is the finest swing on the market, and **at our price the greatest value.** Shipped from our factory in Northern Illinois. Weight of swing, about 200 pounds. Weight, packed for shipment, 200 pounds.

No. 6F7369 Price, with canopy, **$9.50**; without canopy.....**$8.45**

$4.75

All Hardwood Lawn Swing.

A Lawn Swing Regularly Sold for $7.00.

No. 6F7372 This large, roomy four-passenger swing is made entirely of hardwood. The derrick, or framework, stands 8½ feet high. All parts and braces are bolted together and painted a bright red. The seats are 34 inches wide and 20 inches deep, have adjustable arm rest so that the back may be placed at any angle, and there is plenty of room between the two seats to allow four adults to be seated comfortably. Extra strong slats in the seats and backs, securely fastened to the crossbar. The seats, backs and foot platforms are finished in the natural wood, well varnished. This swing is shipped direct from the factory in Central Indiana. Shipping weight, 130 pounds.

Four-Passenger Lawn Swing. Price..$4.75

The Ideal Porch Swing.

ALL HARDWOOD.
Suitable for Porch or Lawn.

Holds four adults or twice as many children. Very fascinating, easy running, with a smooth, easy, horizontal gliding movement of 40 inches. The frame is 7 feet long and 3 feet wide, and rests on 6-inch metal rollers which run on iron ways on inside of base. Cannot run off. Seats are 33 inches wide, 14 inches deep, with high back made of heavy, strong slats, finished in natural wood. Frame is well painted and varnished in red. This is the most popular and desirable swing made. Shipped direct from the factory in Central Indiana. Shipping weight, 100 pounds.

Sunday Pocket Fly Rod, $2.79.

No. 6F8645 This is an ideal rod for the man who wants a rod he can carry in his pocket or in a small grip. The joints of this rod are but 13 inches long, made of select split bamboo, closely wound with two colors of silk, fitted with improved snake guides, banded ferrules, nickel plated reel seat below the cork grip. With the heavy tip you can make a short six-piece rod, 6 feet long, by placing the heavy tip in the fifth joint. By using the light tip **you can make a seven-piece rod, 7 feet long.** This is a high grade rod in every respect, and while the joints are short they do not in any way injure the life and spring of the rod. The rod has as much life as any rod with joints twice as long. Put up in neat partitioned cloth bag. Shipping weight, 10 ounces. Price.....$2.79

Beaver Hand Split Bamboo Fly Rod, 9½ and 10 Feet Long, $3.49.

No. 6F8665 This is strictly a high grade Split Bamboo Fly Rod, and could not be bought for less than $7.00 elsewhere. Our Beaver Fly Rod is made from the very best selected split bamboo, split and glued together by hand by experienced rod makers. To give this rod extra strength, we had strips of cedar inlaid between the bamboo at the butt, giving the rod extra strength and beauty which you could not find in any other rod at double the price. The reel seat, butt cap, ferrules and snake guides are all German silver. The wrappings are of colored silk closely wound at short intervals. The rod has three coats of the best varnish to preserve the split bamboo and silk winding. Very lively and strongly built. Has cork grasp, three joints, with an extra tip. Put up in a handsome covered wood form and in a flannel bag. Weight, about 7 ounces. Shipping weight, 20 ounces. Price.....$3.49

No. 6F8665½ Same as above, fitted with one extra agate tip and guide. Price. 4.60

Beaver Special Hand Made Split Bamboo Bait Rod, $4.95.

No. 6F8666 Made for the fisherman who wants the best. This Beaver hand made rod is made especially for us by one of the best rod manufacturers in the country. The selection of material, splitting, splicing, tapering, glueing and wrapping are all done by experts. This rod has three joints, with an extra tip, is made of the finest selected bamboo, hand split, reinforced at butt above reel seat with strips of cedar inlaid between the bamboo, absolutely guarding against breaking this otherwise weak spot and forming a firm front grip. The reel seat, butt cap, ferrules and guides are all made of the finest German silver. The rod is fitted with one genuine agate guide with agate tips and German silver trumpet guides, is very closely wrapped with red and black silk and is finished with four coats of the best waterproof varnish. Fitted with a short natural cork grip. Put up in a fine flannel covered wood form and strong canvas bag. Weight, 5½ ounces. Length of rod, 5½ feet. Regular price, $10.00. Shipping weight, 16 ounces. Our price.....$4.95

Our German Silver Reel, No. 6F8782, together with this rod, makes an ideal combination.

FISH LINES

THREE QUALITIES.

Every manufacturer of cotton and linen lines makes three qualities — first, second and third. We handle only the first quality in all our fish lines, which are guaranteed to have 33 1-3 to 75 per cent more strength and smoother finish than the second and third grades sold by other dealers at apparently competitive prices. Quality considered, our prices are by far the lowest.

NOTE B. This illustration shows size of braided lines as near as it is possible to print sizes or to illustrate them. Order by catalog number and state size you wish.

The Beaver Cuttyhunk Linen Lines.

Quality Guaranteed. The Strongest Reel Lines Made.

No. 6F8820 Beaver Cuttyhunk Linen Reel Lines, the old reliable, the strongest for their size and the best lines made. There are several lines called the Cuttyhunk, but they are only cheap linen lines, labeled Cuttyhunk. Our Beaver line is made of the finest quality of Irish linen, always runs smooth and even and never kinks. The best linen reel line on the market. Put up 150 feet on a spool, or may be had two spools connected, making 300 feet of line. This line is twisted, and when used with swivel on end will not untwist. Can be used same as a braided line. See illustration for sizes. Order by catalog number and size number. Shipping weight, 4 ounces.

Braided Bronze Wire Fishing Line. Something Entirely New in Fishing Lines.

No. 6F8802 This line is made of very fine bronze wire, closely braided over a silk center. For strength and durability this line cannot be excelled. It is particularly adapted for deep water trolling, no sinker being required, as the weight of this line will sink the bait. This line is not intended to be used on a reel. It is strictly a hand trolling line or for long pole spatting. Put up in coils of 100 feet, three coils connected. Shipping weight, 4 ounces.

Price per coil of 100 feet.....48c

The Maloney Weedless Bass Hook, 8 Cents.

Spring Fish Hook.

No. 6F8858 The Snap and Catch 'Em Spring Fish Hook. The hook's spring points outward, and it is easily set. Fish cannot get away when once hooked. No. 20, for small fish; No. 19, for medium size fish; No. 18, for large fish. Say which you want. Shipping weight, 2 ounces. Price.....8c

Ringed Fish Hooks, Double Refined and Tempered Steel. Large Eyed Kirby and Limerick.

This illustration shows the exact size of the ringed hooks, such as Limerick, Kirby, Carlisle (the Kirby and Limerick have the extra large eye), and all other kinds of hooks, as nearly as possible, measuring from the point of the hook to the shank.

The other difference in the various hooks is in the length of the shank and the style of bend.

We cannot sell less than 100 hooks of a size.

On above sizes, No. 2-0 is the smallest and No. 10-0 is the largest size. The sizes grow larger gradually from No. 2-0 up, as shown in this illustration.

Order by Number.

Be sure to state SIZE WANTED

This illustration shows the Kirby style hooks, about two-thirds the actual size. **Order by size number and catalog number.**

Luminous Tandem Spinner.

FOR BASS, PIKE AND PICKEREL.

No. 6F9002 This Spinner is considered the most successful spinner used today for bass or pickerel fishing. Blades revolve in opposite directions, giving a perfect imitation of a struggling minnow. This spinner is luminous, making it doubly attractive on dark days or in deep water. The blades are fine German silver polished, and the treble hook is heavily feathered, making a very handsome bait. Expose in daylight a few minutes before using. Shipping weight, 3 ounces.
No. 1. Price.....**30c**
No. 2. Price.....**34c**

The Glow Luminous Trout Spinner.

ONE OF THE BEST

FOR GAMY TROUT

No. 6F8989 This is one of the latest and best trout baits made. It is very strong, has two luminous spinners which revolve very freely, and the feathers and spinners are very bright and attractive. Try one of these if you want to catch the gamy trout. Shipping weight, 2 ounces. Price.....**23c**

The Improved German Silver Colorado Spinner.

No. 6F8990 An ideal trout bait, in many cases found superior to flies for trout fishing. Hollow point hooks, two small barrel swivels, a very light and attractive German silver spoon, nothing but the very best material used in the above bait; ¾-inch spoon. Shipping weight, 2 ounces. Price.....**11c**

Our Spinning Coachman.

No. 6F8991 Fine quality, with 1⅞-inch highly nickel plated spoon. No. 1 hook, tied with double gut, brass box swivel. Each bait comes with a Coachman and two other popular bass flies mounted on a handsome enameled card. One of the best bass baits on the market. Shipping weight, 3 ounces.
Price, per card.....**19c**

The New Joliet Aluminum Spinner Bait, 23 Cents.

No. 6F8994 The New Joliet Spinner. This is the latest and best bass and pickerel bait, made of aluminum, on the principle of a wood auger, which causes it to be an excellent spinner in the water, resembling a bright shiner. A very effective bait. For bass and pickerel; 3 inches long. Shipping weight, 2 ounces. Price.....**23c**

Pearl Minnow.

No. 6F8996 One of the new ones for bass and pickerel. Made of bright, clear pearl, in the shape of a minnow, with an attractive free spinning German silver spinner at head, fitted with No. 1 treble hook at tail. Gills are painted bright red. This bait is particularly attractive on dark days or in deep dark waters, and always remains attractive, as the pearl never loses its beautiful, natural gloss. Length of pearl, 2¾ inches. Shipping weight, 2 ounces. Price.....**40c**

Pearl Wobbler Bait.

The peculiar wobbling motion of the spoon shaped pearl makes this a very attractive bait for game fish. The split ring at each end permits immediate change of hook or swivel. Shipping weight, 2 ounces.
No. 6F8988A Trout Size, 1⅜-inch pearl body. Price.....**15c**
No. 6F8988B Bass Size, 2-inch pearl body. Price.....**18c**
No. 6F8988C Pickerel Size, 2¾-inch pearl body. Price.....**20c**

The New Winner Wood Minnow, 35 Cents.

The New Winner Wood Minnow is sold exclusively by us. This minnow, you will note in the illustration above, has glass eyes and the new patented link and detachable hooks. In case you break a hook you can put a new one on in a few seconds by turning the center rod at the head a few turns to the left, which releases the new patent link. This minnow is weighted, so that it will always stay right side up. Nicely enameled; has mottled green back and white belly. Guaranteed to hold its color and not to crack. Has two nickel plated cutwater spinners. Put up in a neat wood box. Shipping weight, 4 ounces.
No. 6F9006 Winner Wood Minnow, 3 inches long with three treble hooks. Price..**35c**
No. 6F9007 Same as above, 3½ inches long with five treble hooks. Price.....**45c**

Pork Rind Bait.

SOMETHING NEW

ALWAYS READY

No. 6F9003 McCurdy's Patented Prepared Pork Rind Bait. Cut in minnow shaped strips, 3 inches long, with red yarn strung through the head to represent red gills. Used by all practical fishermen. Can be used with single hook or spoon. Put up in sealed tin boxes containing about six strips. Will keep fresh for about three months. Shipping weight, 6 ounces. Price, per box.**13c**

Phantom Minnows.

Water proof Silk.

No. 6F9008 The old reliable Phantom Minnow, made of heavy especially prepared waterproof silk, attractively colored and striped, with indestructible metal head; two projecting metal flanges, as illustrated, which create a commotion in the water, attracting the attention of all game fish. This minnow is fitted with brass box swivel and three sets of treble hooks attached to the head and tail of minnow, with heavy, twisted gut leaders, allowing sufficient play and preventing the hooks from being twisted off. There are several grades of phantom minnows. We guarantee those handled by us to be absolutely the best. **Order by catalog number and give size of minnow wanted.** Shipping weight, 2 to 4 ounces.

Genuine Dowagiac Wood Minnows. 48c

These minnows are guaranteed to hold their color and not to chip or crack. They are beautifully finished with mottled green back and white belly. The patent socket device prevents the hooks from interlocking. Spinners at each end revolve freely. This minnow always comes in right side up and is guaranteed to retain its finish and color.

No. 6F9025 Dowagiac Minnow. 2¾ inches long, fancy back and fitted with three treble hooks and two spinners, suitable for bass, pike and pickerel. Shipping weight, 4 ounces. Price.....48c

No. 6F9026 Dowagiac Minnow. large size, 3½ inches long, fancy mottled back, fitted with five treble hooks and two spinners, suitable for large fish, including muskallonge. Shipping weight, 5 ounces. Price.....65c

RUBBER BAIT.

Excellent Substitutes Where the Natural Bait Cannot Readily Be Found.

Helgamites.

No. 6F9014 Helgamite, or Dobson, soft rubber, 2½ inches long, gold head, black body, 2-inch gimp leader and swivel. Shipping weight, 3 ounces. Price.....16c

Special Fly Minnow.

No. 6F9015 1¼ inches long, a good imitation of a minnow; for still fishing. Shipping weight, 2 ounces. Price.....13c

The Kalamazoo Swimming Frog. 70c

No. 6F9018 This frog is made of soft rubber with hollow body. The natural position of the legs of this frog are at right angles to the body. In pulling the frog through the water the legs kick backward with identically the same motion used by a live frog when swimming. Length when extended, 3¾ inches. The hooks being protected by the feet of the frog are practically weedless. Finished in exact imitation of a live frog. Very durable, will catch fish wherever they are to be found. Shipping weight, 5 ounces. Price.....70c

Grasshopper Bait. 12c

No. 6F9019 Soft rubber, 1¼ inches long, quite natural. Shipping weight, 2 ounces. Price.....12c

Soft Red Rubber Angle Worm.

No. 6F9022 A perfect imitation of red live worms; about 3 inches long. Shipping weight, 2 oz. Price.....14c

Shakespeare Aluminum Revolution Killer.

37c

No. 6F9032 This is one of the most popular baits on the market. It is made entirely of aluminum with two paddles and three treble hooks. The body, head and paddles revolve rapidly when the bait is drawn through the water, resembling a fish, making a very attractive lure. Its killing qualities have made it one of the most popular baits now on the market. 4 inches long. Shipping weight, 3 ounces. Price.....37c

Keystone Fish Stringer.

No. 6F9036 Brass needle at one end to string fish and a ring at the other end to loop the first fish. After the first fish is looped you may string as many as the string will hold. The Keystone is 6 feet long. Shipping weight, 4 ounces. Price.....12c

Chain Fish Stringer.

No. 6F9038 Strong links, heavy nickel plated, strong and durable; will hold 100 pounds of fish and not break. Length, 4 feet. Shipping weight, 3 ounces. Price.....10c

Our Sure Catch Minnow Trap.

No. 6F9033 Made of galvanized sheet steel and wire screening with cone shaped ends, and so constructed that it may be separated in the center and one end can be telescoped into the other. When baited with stale bread, meat or other bait, the bait is exposed to view through the wire screen and when the minnows, crawfish or other small fish once get into this trap it is difficult for them to find their way out. The Sure Catch Minnow Trap is 18 inches long, 10 inches in diameter and weighs about 2 pounds. Shipping weight, 44 ounces. Price.....60c

Hand Forged Fish Spear.

The best hand made spear on the market.

No. 6F9050 All best steel socket and wedge, as shown above; beards of each tine made on solid shank, screws into socket and makes its own thread in wood (of handle); the outside tines can be removed if smaller spear is wanted at any time by putting in larger wedge. Width, about 4¼ to 4½ inches; entire length of tines, about 6½ inches; entire length, 22 inches. Weight, about 18 ounces. None better. Shipping weight, 35 ounces. Price.....$1.20

No. 6F9052 Five-Tine Spear. Tines are not removable but are set in heavy head of brass threaded to screw into handle, with socket. Weight, 12 ounces. Total length, 15 inches; length of tines, 4½ inches; width across tines, 3½ inches. An excellent spear. Shipping weight, 23 ounces. Price.....55c

Fish or Frog Spear.

No. 6F9046 Has four tines, 2¾ inches long, guaranteed not to pull out, with socket for pole. Nicely enameled. Shipping weight, 6 ounces. Price.....12c

Fish Spear.

No. 6F9049 Has five prongs, 5 inches long, with socket for pole. Shipping weight, 22 oz. Price.....40c

The Lion Gaff.

The strongest, best Automatic Gaff Hook made. Illustration shows the gaff hook open, ready for action. Owing to the trigger arrangement you can catch a fish lying close to the bottom of the lake as well as up near the surface. To set gaff hook pull jaws apart until they lock. For convenience in transportation and packing we furnish our gaffs without handle, as any broom handle can be fitted to the socket.

No. 6F9055 No. 1 Gaff, blued finish, measuring 8½ inches between the points of jaws when opened. Shipping weight, 28 ounces. Price.....94c

Mosquito and Bee Head Net, 35 Cents.

No. 6F9100 To be worn over the hat or cap. Made of good tarlatan. Fitted with four light steel springs, bottom weighted with shot so as to set close to shoulders. Can be folded up and put in an ordinary coat pocket. Shipping weight, 5 ounces. Price.....35c

Everybody intending to camp or fish should have a Mosquito Head Net.

Trout Baskets With Patent Metal Fastening.

Our baskets are made from select French willow, very strong and light.

No. 6F9103 Capacity, 10 pounds; measures 7½x12 inches on back. Shipping weight, 15 ounces. Price.....99c

No. 6F9104 Capacity, 13 pounds; measuring 9x13 inches on back. Shipping weight, 20 ounces. Price.....$1.16

Patent Trout Basket Strap.

No. 6F9109 The best made; made of webbing and leather; leaves the arms free. See illustration. Shipping weight, 4 ounces. Price.....20c

Tackle Boxes.

46c

No. 6F9060 An excellent Box, 10½ inches long, 4 inches high and 5½ inches wide. Hinged cover with improved locking device. This box is finished on the outside with golden brown japan and ornamented with neat gold stripes; inside the box is black; has one compartment suitable for snelled hooks, floats, spoons, etc.; one compartment large enough to hold one 100-yard reel; one compartment suitable for lines, leaders, etc.; one tray divided into five spaces. Shipping weight, 40 ounces. Price.....46c

67c

No. 6F9061 This box was designed for a fisherman desiring a flat box that can be packed in a suit case or large grip; is 9½ inches long, 3½ inches high, 7 inches wide, with handle on the side the same as a suit case, finish same as No. 6F9062; has one compartment large enough for a 100-yard reel or two smaller reels; one compartment the full length of the box for snelled hooks and flies; three smaller compartments for spoon baits, wood minnows, etc., and one tray divided into four compartments. A strong, well made, finely finished box. Shipping weight, 45 ounces. Price.....67c

70c

No. 6F9062 Our full size box, 12¼ inches long, 5½ inches wide, 6⅛ inches high. This is an extra strong box, with hinged cover, strong hasp and handle on top of box. Finished on the outside with two coats of rich green enamel, gold striped, and finished inside in jet black. Has one compartment large enough for two or three reels; one compartment suitable for leader box, fly book, lines, etc.; one tray divided into three compartments suitable for snelled hooks, spoon baits, floats, etc.; one small tray, as shown in the illustration, divided into six compartments suitable for swivels, sinkers, etc. This is the best box for fishermen desiring a large, roomy box. Do not compare this box with other cheap light tin boxes. Shipping weight, 55 ounces. Price.....70c

Bait Box.

No. 6F9079 The Padlock Bait Box. 3½ inches wide, 3 inches deep, shaped very much like a fish basket, with a top cover and a safety pin on the back so it can be pinned to the coat. No losing of bait or upsetting of bait box. Shipping weight, 4 ounces. Price.....10c

Never Sink Floating Minnow Bucket.

No. 6F9085 All fishermen who use live minnows, frogs or crawfish should have one of the Never Sink Floating Buckets, as it will pay for itself in one trip. When you arrive at the lake or river where you intend to fish, pull out the inside bucket, tie a short piece of string to the handle so it will not float away. The air chamber at the top of this bucket is airtight, with an opening at the top with a self locking hinged, perforated cover to allow you to get at your minnows very easily. The top of the inside bucket floats 2 inches above the water, made of galvanized wire, permitting plenty of fresh air. The cover of the outside bucket has a strong hinge and locking latch, perforated sunk-in cover for putting ice on when in transit on hot days. Made of IX heavy tin plate, with wire bail handle, nicely finished in rich dark green enamel with gold bands and fancy decorations. Weight, 3 and 3½ pounds. Be sure to state size wanted. Shipping weight, 8 pounds.

ISH NETS SEINES, TRAMMEL NETS, GILL NETS, HOOP NETS AND NETTING

HIGH QUALITY OF THE NETS and seines furnished by us and our remarkably low quality considered, have brought a volume of business that the combined business of all other dealers dealing direct with the ers. Our cotton twines are guaranteed full size, made of standard e yarns; other dealers use twelve and sixteen-thread twines made of arns which possess but one-half of the strength of the twines our nets. Our nets are all made and hung by experienced and al people. We use the full quantity of leads and floats. We know ur nets represent greater value and will give better satisfaction hose you could obtain elsewhere.

G TO THE LARGE NUMBER OF SIZES and the varying demands one season over for the different sizes, we do not stock the entire line of nets and ot make the big majority of them specially to order. Such nets as rried in stock we so specify in the descriptions covering these parnets. Gill nets, trammel nets, cotton and gill netting, and all hoop er 4 feet in diameter are not carried in stock, but are made spe- o order. Therefore, when ordering, allow from four to eight days o make and ship the nets.

DVISE anticipating your requirements in fish nets, inasmuch as the bulk of these goods is made to order, and although we eat capacity at our factory, at the same time this capacity, at the limited, and if you wait until the last moment before ordering netines or nets, your order is apt to come in with hundreds of others, and consequently will be subject to some delay which, if you are in urgent need of the nets, might put you to some inconvenience. Understand that we are able to take care of your order at any time, but when the season is at its full height we naturally cannot fill orders as promptly as we are able to when the rush of orders is not so heavy.

ILLUSTRATION SHOWS A 1-INCH SQUARE MESH.

The following seines are hung with leads and lines ready for use, except hauling lines. Compare our prices and quality with those offered by other dealers and you will find that we beat them all.

Weight—A 50-foot seine weighs about 20 pounds; a 100-foot seine weighs about 40 pounds; a 150-foot seine weighs about 80 pounds; a 300-foot seine weighs about 180 pounds.

Improved Good Sense Minnow Seines. 3-16-Inch Mesh.

SHIPPED FROM STOCK.

The Good Sense Minnow Seines sold by us are far superior to the light flimsy nets sold by others, known as Common Sense Nets. One of our Good Sense Nets will outlast three of the ordinary Common Sense Nets. Considering the superiority of our nets over those sold by other dealers, in comparing our prices with those asked by others, you will appreciate the wonderful values we are offering in these goods. We also claim our nets are better rigged than those sold elsewhere. These nets are all 4 feet deep. We cannot furnish in any other depth. We carry a full stock of these nets, all orders are filled from stock, and we therefore guarantee prompt shipment.

Superior Linen Gill Netting.

NETTING ONLY, WITHOUT FLOATS, LEADS OR LINES.

The best linen netting for all gill nets or for inside of trammel nets, made of best silver gray 3-cord linen twine. Any depth required. **Mention depth when ordering.** This netting is for gill or set nets, and not for drag seines, the twine being too small for such use. **NOTICE—We quote square mesh; 1 inch square equals 2 inches stretched. Cannot be returned when made to order. Expect a delay of from four to eight days.**

No. 6F9810 Size of Twine	1-inch square mesh, per lb.	1¼-inch square mesh, per lb.	1½-inch square mesh, per lb.	1¾-inch square mesh, per lb.	2-inch square mesh, per lb.

40x3 cord.....	2.25	2.19	2.15	2.12	2.07

Size 25x3-cord, 1-inch mesh, contains about 275 square feet to the pound. Size, 40x3-cord, 1-inch mesh, contains about 320 square feet to the pound. Larger mesh contains more square feet to the pound in proportion.

Best Quality Trammel Nets.

Our prices are below any competition, quality considered. The Superior Trammel Net has three nets hung upon a single top and a single bottom line. Of the three nets the two outside have large meshes of cotton seine twine. The inside net is made of best linen gilling twine, which is hung slack, forming a bag in which fish coming from either side are caught and unable to escape. **These nets are not "drag seines," but are to be "set" stationary in the water, the same as a gill net.**

Price is per running yard in length, hung measure, for the net complete. The mesh sizes are square mesh. **Weight per yard, about ½ pound. Nets cannot be returned when made as ordered. Expect a delay of from four to eight days.**

These nets are sold by the yard, running measure. Multiply the price per yard by the number of yards wanted.

6F9847	8	8	3	12		23c

Other styles made to order. Meshes as given above are diamond square. Hung complete for use except hauling lines. When ordering nets give size, price and catalog number. Allow us four to eight days to make.

NOTE—TRAMMEL NETS ARE MADE TO ORDER ONLY, and if order is filled correctly we cannot take the goods back, as we seldom have any two orders just alike in every particular. Consequently if the net were returned it would be a dead loss to us.

NOTICE—If you intend to use your net in water where there is a very swift current, same must be rigged accordingly. We can rig trammel nets extra heavy with leads and floats at an additional expense of 20 per cent over catalog prices.

Superior Square Cotton Dip Net

No. 6F9850 Made of cotton seine twine. Roped all around edges, with loops at corners. All are made 1-inch square mesh of No. 12 soft twine. No frame comes with these. **Give size wanted. These nets are carried in and can be shipped promptly.**

Linen Gill or Set Nets.

A gill net is a single net, hung with floats, leads complete, without hauling lines. Made of best imported linen twine. **These nets are used for drag seines,** the twine being too small. They are set in the water and allowed to stay from five to twenty-four hours.

NOTICE—Mesh given is square mesh. One-inch square mesh equals 2-inch stretched mesh.

The fish are caught by the gills, hence the gill or set nets.

Rigged complete ready for use. Made of best twine. Price, per running yard in length, hung measure. **Weight, per yard, about ¼ pound.**

Nets cannot be returned if sent as made. Allow us four to eight days to make.

ULTON BRAND TENTS, MACHINE, STACK AND WAGON COVERS AND AWNINGS

ADE IN OUR OWN FACTORY IN ONLY ONE GRADE OF QUALITY—THE VERY BEST THAT CAN BE PRODUCED WITH BEST QUALITY MATERIAL, EXPERT LABOR, ERAL SUPERVISION AND STRICT OBSERVANCE OF SIZES AND CONSTRUCTION.

THIS LABEL appears on all our tents and is a guarantee of highest quality. Our tent, cover and awning business is the largest of all houses in the United States dealing direct with the consumer.

IT IS REASONABLE to assume that when tents and covers, or any other goods, matter, are sold for less than the cost of honest material and labor, the going to get short measure in quality, size and labor. It is further reasonable to that inasmuch as we own and operate one of the largest tent factories in the world ctually sell from the factory to the consumer with but one profit added to the cost this material and labor, no dealer can offer tents or covers at prices as low or than those quoted by us, and furnish goods that will compare favorably in size, weight, or construction with the Fulton Brand Tents and Covers sold by us.

NG TO THE FACT that the average buyer does not know how to judge the quality of canvas and knows little or nothing about the onstruction of tents and covers, he is taken advantage of by the vast majority of overs and dealers. Substituting light weight duck is a common practice; 7-ounce sold as 8-ounce, 9-ounce as 10-ounce, and 10-ounce as 12-ounce. At the present ovent dock the substitution of 7-ounce for 8-ounce in as small a tent as a 9½x12- the dishonest manufacturer or dealer an additional profit of about 75 cents. If willing to pay for something that you do not get, if you want to be absolutely getting a tent that is made of standard full weight duck, weighing 8, 10 and 12 the yard, 29 inches wide, if you want an absolute guarantee that the tent or cover full size, fitted with the best rope and made in the most workmanlike manner, a Fulton Brand Tent or Cover, sold exclusively by us.

RE BUYING we urge you to send for our free Tent Sample Card, showing the exact quality of the material which will be furnished by us in all and covers. If any dealer quotes prices lower than ours, he is not giving full size, and standard construction such as furnished in our tents. **Our prices on tents and based on the actual cost of material and labor,** and do not include the usual manufacturer and dealer's profit.

AVE BUT ONE GRADE OF TENT — our Fulton grade. Absolutely guaranteed full size and full Other manufacturers make from two to four grades, all of them represented as full 10 and 12-ounce, but actually being short from 1 to 2 ounces a yard in the weight material and the size skimped and shortened in accordance with the grade and the the customer is willing to pay. Send for one of our free Tent Sample Cards, showing the quality of our material and giving you full instructions on how to judge a tent, placing you in a position where you will know that you are getting what you ordered and paid for, and that you have not paid for something you did not get. Quality considered, our prices are from 15 to 25 per cent lower than those quoted by others.

IF OUR PRICES appear higher than those quoted to you elsewhere, ask for a detailed description of the other tents. Ask them for the weight of without the stakes, the width of the duck used, and the quality of the rope, the pull and the height of center, and make them guarantee the tent to be in accordance with specifications; ask them if they will give the same guarantee on the tent that we know that after you have done this and have received your answer, you will to your interest to favor us with your order.

ITY AND PRICE GUARANTEE. We guarantee every tent in this catalog to be lower in price than the same goods can be bought elsewhere. If any house ever meets or cuts our price on any we do it at the expense of quality. If you do not find this so by comparing the we are especially requested to return our goods at our expense and get your money we guarantee our tents and covers to be exactly as described. We guarantee them to eight 29-inch canvas, and to be full size. We guarantee the door of the tent to same weight canvas as the rest of the tent. If you purchase a tent of us and do not find it exactly as we represent it, you may return it to us at our expense and your money and transportation charges will be returned. Weigh one of our tents or covers and one of our competitors' make and note which weighs the most.

Other Makes.

Fulton Brands.

THESE ILLUSTRATIONS will give you some idea of the relative qualities of jute rope, used by other manufacturers, and pure manila and sisal, used on all our Fulton Tents and Covers. Note the short, scanty fiber in the jute rope, indicating that the rope has absolutely no body to it, consequently no strength. Also note the common wire splice used by almost all other manufacturers. Compare this with the rope we use, as shown in the illustration, and note the long, full fiber stock, giving this rope enormous strength, and also note the hand worked sailor splice we use as compared with the wire splice used by others.

A Fulton Tent. Other Tents.

THE DIFFERENCE between a Fulton Tent as compared with any other make. Note the large, full door flap used by us, and note that our door laps over a full half width of canvas, whereas the doors offered on other tents lap over but a few inches. We could reduce the price of our tents materially by making a cheap door, the same as that shown in the competitive tent, but in our Fulton Tents and Covers we aim to represent only the highest quality that can be made in this line. Our object is not to see how cheap we can furnish these goods, but rather how good we can make them and then make the price consistent with the high class of material, labor and workmanship employed.

TWO DOORS. On all wall tents that are 16x24 feet or larger we will furnish a door at each end without additional charge. We believe that a tent 16x24 feet or larger ought to have a door at both ends on account of its size, as a matter of convenience and to secure proper ventilation. We, therefore, will furnish all tents 16x24 feet with a door at each end, if desired, at the regular price quoted. Be sure to state whether you want two doors in your tent if you order a tent 16x24 feet or larger. On tents smaller than 16x24 feet we will furnish an extra door for 60 cents.

DELIVERIES. We carry all sizes of tents from 7x7 to 12x12 feet in stock and make prompt shipment. On all other sizes allow three to five days' time to make the tent. In June and July allow from four to eight days.

WE DO NOT SHIP TENTS C. O. D.

The Fulton Rope Ridge Wedge Tents.

No poles required with this tent. The rope ridge enables you to stretch this tent up between two trees or two forked sticks or in any manner that you can fasten the two end ropes so as to hold the ridge taut. This tent possesses an advantage over the tent with poles, as it can be easily carried from one place to another, the heavy, bulky poles being unnecessary. The following prices do not include the rope for fastening to trees, etc. The rope furnished with the tent is sewed in the ridge and terminates at each end of the tent in a spliced loop, making it easy for the user to attach additional ropes in accordance with his requirements. The 5x7-foot 8-ounce tent weighs 12 pounds. The 7x7-foot 8-ounce tent weighs 14 pounds. The 7x9-foot 8-ounce tent weighs 17 pounds. **Mention size and weight wanted.**

No. 6F10341	Size	Height	8-ounce	10-ounce	12-oz. Single Filled
	5x7 feet	6 feet	$3.41	$4.49	$5.45
	7x7 feet	7 feet	4.48	5.40	6.32
	7x9 feet	7 feet	5.54	6.67	7.80

FULTON WALL TENTS

HIGHEST QUALITY.

6F10350 Wall Tent.

We give weight of tents with poles below on 8-ounce tents. 10-ounce will weigh about one-quarter more and 12-ounce about one-half more than 8-ounce. **The weights may vary slightly, as poles do not always run alike.** A 9½x12-foot tent makes a good outhouse or summer kitchen.

We carry all sizes of tents from 7x7 feet to 12x12 feet in stock and make prompt shipment. On all other sizes allow three to five days' time to make the tent. In June and July allow from four to eight days.

Send for samples of canvas which goes into our tents and instructions on "How to Judge a Tent."

Warning—We do not use jute rope in our tents. We use the best pure sisal rope in tents up to and including the 12x18-foot tent; larger than 12x18, we use the best pure manila rope. On all wall tents size 12x12 and larger, we furnish top guy ropes at each end. Order by catalog number and give size of tent and weight of duck wanted.

Circus, Gospel, Stable and Merry-Go-Round Tents Quoted on Application.

Extras for Tents.

DOUBLE FILLED. Wall tents made of 10-ounce double filled duck cost 5 per cent more than tents made of 12-ounce single filled duck.

HIGHER WALL. Where higher wall than regularly quoted is wanted, add 5 per cent of the cost of tent for each additional 6 inches.

EXTRA DOOR at back end of tent can be furnished on all tents from 12x12 feet to 16x24 feet at an additional charge of 60 cents. Poles and pins are included with tents at the price quoted. When poles are not wanted, we will allow 5 per cent of the 8-ounce price. **Stove Pipe Hole** cut in tent with metal pipe ring sewed in, 80 cents extra.

SOD CLOTH on a tent is sewed to the bottom of the ends and sides of the tent, upon which are placed stones or earth to keep out wind, flies, etc. In measuring amount of sod cloth required, measure distance around A 16x16-foot tent would require 56 lineal feet of sod cloth. **9-inch Sod Cloth.** Price, per lineal foot.....2c

TENT FLIES.

FLY FOR A TENT is an extra removable roof, which is spread over the regular roof and staked down, which serves the purpose of making the tent warmer in winter time. If you have an old tent with a leaky roof, buy a tent fly. The and makes the tent warmer in winter time. If you have an old tent with a leaky roof, buy a tent fly. The fly for a wall tent is one-half the price of a tent of corresponding size and weight of duck. For example, a 7x7-foot wall tent will cost $5.00. **Tents cannot be returned if sent as ordered.**

"A" or Wedge Tents. FULTON BRAND.

The weights which we give include poles. When poles are not wanted with tents, deduct 5 per cent of the price of 8-ounce tent. Give catalog number and style wanted.

No. 6F10340 The following prices include poles:

Style No.	Length and Breadth	Weight, 8-oz.	Height	Price, 8-oz. Duck	Price, 10-oz. Duck	12-oz. S. F. Duck

Refreshment Tents.

FULTON BRAND.

Oblong or Refreshment Tent, made of plain white duck, as shown in illustration. Price includes poles, pins, guy ropes, etc., complete, ready to set up. We furnish all refreshment tents with double corner guy ropes made of best manila. This illustration shows front open and folded at the sides; the front may be closed or stretched out in front for an awning or taken off altogether, as it is put on with hooks for these changes. Tents are made to order and cannot be returned if made as ordered.

Send for free samples of canvas and instructions on "How to Judge a Tent."

TIME REQUIRED TO MAKE REFRESHMENT AND PHOTOGRAPHERS' TENTS.

It usually takes from three to five days, and in June and July it takes five to ten days to fill orders. Tents made to order cannot be returned if made as ordered.

Send for free samples of the canvas used in our tents and covers.

The Fulton Photographers' Tents.

The Fulton Photographers' Tents are designed to meet perfectly every requirement of photographers and are adapted to their every need. Tents made full size and of full weight material, with large size skylight amply protected from weather. If you buy a tent at a lower price, you must necessarily buy lower quality.

The Photographer Tent prices below include one skylight, manila guy ropes, poles and pins. The weights given below include poles, and many vary on account of the poles not always being the same.

Tom Sawyer's Play Tent. $3.75

Shipped promptly from stock.

In answer to a demand for a boys' tent, we offer this tent, which is an ideal tent for the purpose. This tent is made on the style of a lumberman's tent. The front of the tent, as shown in the illustration, can be raised as an awning, or can be let down, thereby having the tent closed on all four sides. This tent is 6 feet wide by 6 feet long; height of upright pole, 5½ feet; height of extra poles used to support the awning, 4½ feet. Made without wall, as shown in the illustration; the roof slopes direct from the ridge to the ground. Made of heavy white drill, well finished throughout, the same as any regular tent. The price includes the tent complete with four poles, necessary ropes and stakes. Carried in stock and can be shipped promptly. Weight, packed for shipment, 26 pounds.

PORCH CURTAINS

Porch curtains are fancy striped or plain duck, furnished with pulleys, ropes and all necessaries and adjusted ready to attach to frame. No experience need to put them up. The curtain is with double pulleys rather is at the top pulling the rope over the roller, the curtain being raised or lowered as desired.

In ordering, give width B (see illustration) and width B to C (see illustration). These curtains are made to order. Cannot be sold if made as ordered. We sell these curtains by the yard; the price per square foot includes all accessories. If 10 feet high and 16 feet wide would contain 160 square feet, and at 4½ cents per square foot would cost $7.20. Time to six days to make.

No. 6F10397 8-ounce white duck. Price, per square foot 4½c

Our Rival Camp Stove, $3.08.

No. 6F10470 Perfect cook stove, good heater, made of heavy sheet iron, heavy ½-in. asbestos all around the top of body, with enameled lining, rolled edges, doors to oven, strong and durable for each purpose. The cooking top is supported by strong angle braces. The oven door is in the corner, increasing the space for cooking. An air space formed by a double wall is made around the oven; this prevents burning of food and keeps the oven cool. The stove pipe is 7 feet long (in six lengths), and 5 inches to 4 inches diameter, to allow it to be so as to pack inside of either the fire box or oven. Burns wood; fire is placed on the ground; burns inside or outside of the tent; is an excellent wood fire all night and keep the tent very comfortable. Length of stove, 29 inches; width, 16 inches; depth, 16 inches. Size of pot holes on top, 7 inches. Size of oven, height, 9 inches; depth, 16 inches. Size of pot holes on top, 7 inches. Weight for shipment, about 40 pounds. Price $3.08

This stove outfit can be packed inside of either the fire box of this stove, making one compact piece of baggage. For the line of Blue Flame Oil Stoves, hard and soft coal and Heating Stoves, see our Stove Catalog.

Portable Folding Cot and Litter.

The Strongest, Most Compact Cot on the Market.

Hardwood, reinforced with tempered brass; side rails project as shown in the illustration, so that the cot can also be used as a litter or stretcher. Made of special weave, full weight, 10-ounce with patent pillow casing, so made that it can be used with hay, straw or clothing. Length, 6 feet 3 inches; width, 2 inches when folded, 6 feet 3 inches wide, 2 inches thick. Weight, 15 pounds.

No. 6F10435 Price $1.56

AWNINGS FULTON ADJUSTABLE WINDOW AWNINGS. SHIPPED PROMPTLY FROM STOCK.

Can be attached in three minutes by anyone, and as quickly removed. The Fulton awning is manufactured and sold by us exclusively. The particular points of merit are the quick adjustment, the rigidity of the frame, the quality of the material used and the excellent workmanship. These awnings are made of handsome blue and white full weight awning stripe with scalloped curtain, as shown in the illustration, and greatly add to the appearance of the house. They come complete ready to hang up. The price includes rope, screws and cleat. They come in five sizes to fit windows, 2 feet 4 inches to 4 feet 6 inches wide. When ordering, give width of your window from center to center of casing on each side and specify number of awning you desire.

No. 6F10399 Be sure to order awning wide enough.

No. 1 Awning, will fit any window from 2 feet 4 inches to 2 feet 7 inches. Weight, 6½ pounds. Price $1.60

No. 2 Awning, will fit any window from 2 feet 8 inches to 3 feet. Weight, 6¾ pounds. Price $1.68

to 3 feet 6 inches. Weight, 7 pounds. Price 1.78
Weight, 7½ pounds. Price 1.85
to 4 feet 6 inches. Weight, 8 pounds. Price 2.00

WE MAKE SPECIAL WINDOW AWNINGS TO ORDER. SEND YOUR SPECIFICATIONS FOR PRICES.

Improved Gold Medal Folding Camp Bed.

This is positively the most substantial folding cot on the market. May be folded into a parcel 3 feet long and 5 inches in diameter, and is guaranteed to hold 1,000 pounds. "SAVED AT LEAST $25.00 BY BUYING A MOTORGO."

Cecil, Wis.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—The engine you sent me is all right. I am well pleased with it. It has a great pulling power for a 2½-horse power engine. I am positive that I have saved at least $25.00 by getting the engine from your company. Other concerns charge $65.00 for the same rated horse power. You certainly will receive more orders for engines from my neighborhood now, as everybody thinks that my engine is a big bargain for the money I paid.

Yours truly,
JOHN J. KAEMPF.

The Moto

The Lowest Prices Ever Made on Grade Marine Engines

Have you decided on the marine engine you are going to put in your boat. If you want an engine that will attract attention, a simple, durable, powerful, easy take you any place you want to go, an engine that you can depend upon under any ditions, by all means buy a Motorgo. It is neat, it is nicely finished, all brass parts it is painted a beautiful shade of gray with a high gloss finish. Besides this, what paint is all engine. It is an engine that will be a credit to the highest priced boat You cannot make a mistake in buying a Motorgo Marine Engine, as we ship days' trial, so if you are not perfectly satisfied with your purchase you may back to us and we will return all your money, together with the freight charges.

Years of experience in manufacturing gasoline engines have taught us that durability are the two qualities most to be desired in a marine engine. unnecessary parts be done away with and that the material used in the of the very best. All parts of the Motorgo are properly placed to give the lubricating device and carburetor give you the proper mixture and good points have all been worked out to perfection on the Motorgo, and we know best engines on the market.

The material used is the best. The bearings are die cast babbitt that are the same as used on the highest priced automobiles. The crank shaft connecting rod is of the drop forged I beam type with bronze bushing at cast bearing at the crank shaft end.

Experience has taught that to give our customers satisfaction, not only the first second and third, and until the engine is worn out, we must be able to repairs on short notice, and they must fit perfectly. The Motorgo Engines built that you could take ten of them apart, throw all parts in a heap, mix ten new engines, and they would run just as well as the first ten. All parts changeable insures repairs fitting perfectly and without any changes. You will not of a mechanic when putting in a new part or fitting new bearings, which a great saving in the upkeep of your engine.

Motorgo Marine Engines are manufactured in large quantities, 100 of at a time. This reduces the cost of construction; it also enables us to materials in large quantities, thus securing the lowest price and getting the est discount. All these economies enable us to build the Motorgo Marine at the lowest possible cost, and, as we sell them in large quantities, shipping direct from the factory to the user, we are able to accept a very small each engine. This is the secret of our low prices and accounts for the we are able to sell a first class high grade guaranteed marine engine for deal less money than you would pay anywhere else. **We guarantee the Marine Engine to be equal to any other marine engine of equal rated horse selling for twice the price we ask.**

EQUIPMENT FURNISHED WITH MOTORGO MARINE ENG

All Motorgo Marine Engines quoted on this page as including full equ are furnished complete all ready to install in boat with mixing valve or carb according to the horse power of the engine, expansion chamber, 6 feet of shafting on the fresh water outfits, bronze shafting on the salt water outfits blade bronze speed propeller, bronze stuffing box, single or double spark coil batteries with connectors, battery switch, primary and secondary wiring terminals, and spark plug for each cylinder, one can of cylinder oil, one grease and a complete instruction book telling how to care for and Motorgo Marine Engines.

NOTE—We will furnish weedless propeller instead of speed propeller if specify in the order, otherwise speed propeller will be furnished.

MOTORGO REVERSE GEARS

A reverse gear is a great convenience in operating a motor boat, as it gives you perfect control with quick results. We have been handling the Motorgo Reverse Gear for three years and every one sold in that time is giving satisfactory service. Quite a number of improvements have been made over last year's model and our 1911 model is better than ever before. It is a stronger gear in every way, one that costs more money to build, but on account of the increase in sales we are still able to give you the best reverse gear on the market at a price that will save you from $5.00 to $10.00. We can safely say you cannot buy a reverse gear that will give you any better results than the Motorgo, regardless of make or price. These gears are shipped on thirty days' trial and are covered by the same binding guarantee of satisfaction that we make on our marine engines.

TAKES FIRST PRIZE WITH AN 8-HORSE POWER MOTORGO.

Tampa, Fla.

Sears, Roebuck and Co., Chicago, Ill.

Dear Sirs:—The Motorgo Marine Engine I bought of you some time ago exceeds all expectations. It starts easy and runs up to its rated speed. I put it into a 20-foot semi-speed model boat and went into a race at Braidentown and took first prize in an 8-mile race, winning by three minutes. Yours truly, C. W. SMITH.

...w the Motorgo Marine Engines are Made

...TERIAL AND CONSTRUCTION—The material used in the construction of Motorgo Marine ...s is the best obtainable. All castings are of close grain gray iron and are carefully ...ed before being machined. Every part of a Motorgo Marine Engine is absolutely inter-...ble, so that repairs will fit perfectly without any alteration or the use of any special tools. ...one does away with a great deal of trouble and expense in replacing defective or worn out ... The material, construction and finish throughout are the same as you will find on the ... priced marine and automobile engines. **CYLINDERS** are cast of close grain gray iron ...ater jacket entirely surrounding cylinder and head. The water compartment is large, ... plenty of cooling surface for continuous running under heavy load. Drain cock is pro-...to prevent freezing. The cylinders are bored and reamed by a special method, insuring ... **PISTON AND RINGS** are cast of close grain gray iron, ground to a perfect fit; three ...properly placed insure the best of compression. **CRANK SHAFT** is of drop forged steel ...the best grade of babbitt bearings, the same as used on all high priced marine engines and ...bles, as we find there is none better. **CONNECTING ROD** is made of drop forged steel, ...with removable die cast babbitt bearings so arranged that you can take up the wear. ...ting rod cap is held in place with studs fastened with castled nuts, which prevent their ...g loose, and insures a tight bearing. The piston end of connecting rod is fitted with a ...r bronze bushing. **PUMP** is of the plunger type, all bronze, fastened to cylinder, water ...r direct to water jacket through bracket support; drain cock is furnished for draining ...from pump and cylinders. All parts of pump are interchangeable and can be replaced at ...e. **TIMER**—We use a lever timer on the 2½ and 5-horse power engines, as shown in ...strations on left hand page; the upright timer on 4 and 8-horse power engines, as shown ... page. We find these timers to be the best fitted for two-cycle engines. **CARBURETOR**—...2½-horse power engine we furnish Lunkenheimer mixing valve, as we find this to be the ...dapted for this size. It is simple, economical and will give as good results as the best ...ever made. On the larger sizes we furnish the Schebler carburetor, which has a reputation ...own. You will find it to be the best carburetor on the market. Complete instructions as ... adjustment will be found in the instruction book which we send with each engine. ...CATION—Each engine is fitted with sight feed lubricator placed between carburetor and ...so that the oil and gasoline are drawn into the cylinder, at the same time insuring ...lubrication of the piston. Grease cups are furnished on all main crank ...bearings. The connecting rod bearings at crank shaft and piston end are ...ed by splash from the crank case. **INTAKE VALVES**—All Motorgo Marine ...s are equipped with specially designed intake valves, so situated as to pro-...higher combustible mixture than would otherwise be obtained. These ...are of the vertical type, of ample size, light and strong, insuring free ...of the gases, quick action at high speed and long life. **REVERSING**—All ...Marine Engines may be started forward or backward as desired. They ...ally as well in either direction. A reverse gear is not necessary; the ...can be reversed almost instantly after one becomes accustomed to it. Full ...ions go with each engine. **TESTING AND INSPECTION**—Every Motorgo ...Engine before being shipped must pass through a very rigid examination ...its being perfect. First, all parts after being properly machined are ...d to see that they are of the proper size and not defective; the engine is ...embled and put on the limbering block, where it is run by belt for a ...length of time to thoroughly limber all parts; it is then put on a test ...and given a severe test at different speeds until it is found to develop the ...horse power and required speed, which insures your getting an engine in ...condition. All you have to do is install the engine and it is ready to run.

...PMENT FURNISHED WITH MOTORGO MARINE ENGINES

...Motorgo Marine Engines quoted on this page as including full equipment ...nished complete all ready to install in boat with carburetor, expansion ...r, 6 feet of steel shafting on fresh water outfits, bronze shafting on salt ...outfits, two-blade bronze speed propeller, bronze stuffing box, single or ...spark coil, 6 dry batteries with connectors, battery switch, primary and ...ry wiring with terminals, and spark plug for each cylinder, one can of ...oil, one box of grease and a complete instruction book telling how to ...and operate Motorgo Marine Engines.

...—We will furnish weedless propeller instead of speed propeller if you so ...in the order, otherwise speed propeller will be furnished.

GUARANTEE

...Motorgo Marine Engines are simple, durable and powerful. They are so well made and pass ...a rigid inspection that we are willing to give you an unlimited guarantee against defect ...and workmanship. If any part of a Motorgo Engine gives out at any time due to defect in ...workmanship, all you have to do is write us and we will adjust the matter to your entire ...We further guarantee the Motorgo Marine Engines to be equal to any marine engines of ...horse power selling for twice what we ask.

THIRTY DAYS' TRIAL

...you buy a marine engine you, of course, want to get the best engine you can for as little ...possible. We are prepared to give you both and are willing to let the engine prove to your ...that our statements are true. With our large buying facilities and figuring on the large ...quantities we sell each year, we are able to sell you a first class, high grade marine engine ...are willing to put against any marine engine on the market. To convince you that ...we are all that we claim, we will ship you one and give you thirty days to try it and prove ...for yourself that it is as good a marine engine as you could buy even though you were to pay con-...siderably more than our price. If you will send us your order for a Motorgo Marine Engine, enclosing ...we will ship you an engine immediately. You may install it in your boat, try it for thirty ...days, compare construction, finish and equipment with any other engine that you know ...of, or not perfectly satisfied that you have the best engine that you could buy, you may ...return it to us and we will send you back your money, together with any freight charges that you ...have paid. There is no other firm selling marine engines today that will give you as liberal a guarantee ...as we make on a trial like this and we could not afford to do it if we did not know that we ...have the simplest and most durable engine made.

CUTLERY HIGHEST QUALITY LOWEST PRICES CUTLER

OUR WILBERT AND DIAMOND "A" BRAND CUTLERY ARE THE FINEST GOODS IN THE WORLD.

THE CUTLERY WE SELL is absolutely the highest quality obtainable from the very best American and foreign manufacturers. We contract direct with the largest cutlery manufacturers in the world. We handle no seconds or culls, but only the very best selected goods, made according to specifications that insure absolute perfection in material, workmanship and finish. There are three or four grades of cutlery and there is a corresponding difference in price. It is an easy matter for other dealers to offer cutlery, claiming it is just as good, at prices probably as low, and in some cases, probably even lower than the prices asked by us, but it is absolutely impossible for any dealer to sell the quality of cutlery sold by us, guaranteeing it, as we guarantee it, to be highest quality, without charging at least 33⅓ to 50 per cent more than we do.

WILBERT BRAND SHEARS AND SCISSORS

ONE QUALITY ONLY, G[illegible] ANTEED ABSOLUTELY THE[illegible]

THIS ILLUSTRATION SHOWS the excellent construction of our Wilbert Shears. Note the fine crucible steel blade which forms the cutting edge and which is welded to a heavy malleable back, making these the strongest and finest cutting shears made. Far superior to solid steel shears or cast shears, the construction enables us to give the steel cutting face all the hardness necessary, and the heavy malleable back gives the shears strength and prevents breakage. Cast shears or solid steel shears, if tempered as hard as we are able to temper our welded shears, would break if dropped or when used on heavy material. Our welded construction is absolutely the best known. Buy Wilbert Shears and you get the best.

ONE-YEAR GUARANTEE. We guarantee every pair of Wilbert Shears and S[illegible] be perfect in workmanship and material and will replace any defective Wilbert [illegible] Scissors for one year after date of purchase. We guar[illegible] grinding, tempering, fitting and finishing to be equal if not [illegible] to the finest goods of this kind on the market, and if found [illegible] they may be returned at our expense and the price paid, tog[illegible] transportation charges, will be returned. Wilbert Shears and [illegible] are guaranteed to cut clean from heel to point. They [illegible] longer than any other shears or scissors on the market.

CHRIS WOLF HAND MADE KNIFE.

46c

No. 6F17199 This knife, as above stated, is made entirely by hand, and for this reason it is probably the ugliest looking knife on the market. No attempt is made to make this knife look attractive, but it contains the very best material and the finest grinding that can possibly be produced. The blade of this knife is hand hammered from a bar of the best crucible steel forged out on an anvil, the same as you have seen your blacksmith forge a bar of steel. The marks of the hammer show plainly on the blade. The handle is made of plain beechwood, not stained or varnished. The linings are of heavy steel. It has but one blade, 3⅜ inches long. Length of knife when open, 7½ inches. Shipping weight, 6 ounces. Price 46c

OUR HERCULES COMBINATION TOOL KNIFE, $1.20

THE MOST WONDERFUL VALUE EVER OFFERED IN A POCKET KNIFE.

$1.20

No. 6F17162 The most wonderful value ever offered in a pocket knife. This knife is a complete tool kit in itself. It is very strong; every tool is guaranteed to be as practical and to give the same service that you would derive from the same tool if bought singly. This is a three-spring knife, brass lined, with a large 2¾-inch spear blade, one large sheep's foot blade and one small pen blade. In addition to these three blades, it has a swaging awl, file, screwdriver and tack puller; fine stag handle with heavy steel bolsters. You could not purchase a regular three-blade knife of like quality from any dealer within 50 cents of our price for this wonderful six-tool knife. The material and workmanship in this knife are absolutely the best. Every knife is guaranteed to give satisfaction or money will be returned. It is very compact. With large blade open it is 6¾ inches long; with blades closed, 4 inches long. Weight, 4 ounces. Shipping weight, 6 ounces. Price.....$1.20

HUNTING KNIVES.

57c

No. 6F16965 Wilbert Hunter's Pride Knife. It has stag handle, long, heavy German silver bolsters, caps and shield, brass lining, highly finished inside and out. The blades open and close freely without wearing. The knife blade is always true in the center, and it is these little points, to which we pay so much attention, that cause our knives to give better satisfaction than those you can procure from any other dealer. Length of handle, 4¼ inches. Length with large blade open, 8 inches. Shipping weight, 6 ounces. Price 57c

60c

No. 6F16970 Wilbert Daniel Boone Hunting Knife. Cocobolo handle, steel lined, iron bolsters and caps, saber clip point blade. Length of handle, 5¼ inches. Entire length with blade open, 9½ inches. A large, strong, well finished knife, fully warranted. Shipping weight, 7 ounces. Price.....60c

70c

No. 6F16973 Wilbert Arkansas Lock Blade Hunter. A knife in which nearly every cent of the cost is spent in quality and not looks. It has clip point saber blade, flush lock back so blade cannot shut on the fingers, curved stag handle which just fits the hand nicely, fancy iron bolsters, steel lining. Length of handle, 4⅝ inches. Length with blade open, 8⅛ inches. Shipping weight, 7 ounces. Price 70c

Wilbert Hunting Knife With Guard.

90c

No. 6F16978 Wilbert Hunting Knife with guard. Genuine stag handle. A very nicely finished hunting knife. Clip point, saber blade, flush lock back, German silver bolster and guard. When blade is closed, guard lies flat with blade. Handle, 4¾ inches; with blade open, 8¾ inches long. This makes one of the best medium size hunting knives we have ever seen. Shipping weight, 6 ounces. Price 90c

SHOOT POINTER LOADED SMOKELESS SHELLS. Quality the best. Prices one-third less than regular. Send for free Ammunition Price List.

PRUNING KNIVES.

35c

No. 6F16936 Wilbert Samson Pruning Knife. Blade made of 10-gauge steel. The shape of blade, method of grinding, etc., are in accordance with the ideas of one of the best fruit growers in the country, who had the original made just exactly the way he wanted it regardless of expense. Has cocobolo handle. Length of handle, 4 inches. Length with blade open, 7 inches. Shipping weight, 6 ounces. Price.....35c

40c

RAZORS

WE DISPLAY A LARGE ASSORTMENT OF RAZORS in various widths of blades, styles of points, and fitted with a variety of handles to suit all tastes. While the general appearance of the various razors differs, the quality in each and every one is strictly upheld, and we absolutely guarantee every razor shown in our catalog, from the cheapest to the very best, to be sharp and to serve the purpose for which it was made, namely, to shave. We have carefully avoided the flashy, showy razors which are sold by so many houses and which have blades of soft steel, poorly tempered and ground, which will never give satisfaction.

OUR RAZORS ARE GUARANTEED TO GIVE SATISFACTION.

Sent on Thirty Days' Trial.

A GOOD RAZOR AND A POOR STROP is a very poor combination. Buy a good single or double swing horsehide strop (see Nos. 6F18678 and 6F18680) and keep your razor in good condition. Do not strop your razor too much. You will do it more harm than good. If the edge is in good condition, it requires but a few strokes over the strop. Keep the strop free from dirt and grit. Occasionally rub off the dirt with a damp cloth. Remember, all razors sold by us are guaranteed to shave, and when taken out of the box all they require is about six strokes over the strop in order to set the edge.

HOW TO USE A RAZOR. Draw the with a diagonal motion against the beard. Do not with the razor, nor hold it at almost right angle face, as you will spoil the edge, irritate the skin cause the best razor to fail. To strop a razor, edge rest on the strop, drawing from heel to lay the blade flat, so that back and with a firm, steady stroke, turning on the back. People who are not adepts in the handling of razors are apt to complain that their razors do not shave well, and to condemn a good razor when the fault lies not in the razor, but in the unskillful use of it. Time spent in softening the beard with hot water and soap adds materially to the comforts of shaving.

EXPLANATION.

Reading the various descriptions shown on this and the following page will note razors described as square hollow point or round point. As our customers might not know what various terms mean, we herewith illustrations which are self explanatory.
A is square point. B is hollow
C is round point.

OUR RAZOR GUARANTEE

WE GUARANTEE EVERY RAZOR we sell to be carefully tempered, ground and finished, and to be set with an edge ready to shave. We will, upon receipt of price, ship you any razor in our catalog on a thirty-day trial. If you do not find it entirely satisfactory in every way, you may return it within the thirty days, and we will return your money and any transportation charges you may have paid. We cannot exchange sharp razors for dull ones, nor can we exchange razors after thirty days. If a razor gives satisfaction for thirty days and is properly handled, it will give satisfaction for a lifetime. It is only when a razor is abused or improperly handled, honed or stropped that it does not give satisfaction after it has been in use for thirty days or more.

Wilbert Elk Razor.

No. 6F17817 This is an unusually well finished razor of our own design. The handle, tang and etching are in keeping with the name, the handle being a beautiful imitation of polished horn; polished horn reinforced tang. The etching is an elk horn design. The blade is full crocus polished, ⅝ inch wide, Irish point, double shoulder, quill back, gimped tang, full hollow ground. No handsomer razor made at any price. The tempering, grinding and workmanship are perfect, and we absolutely guarantee it to cut any beard and to give satisfaction. A razor of like quality would sell elsewhere for not less than $3.50. Remember, if you are not satisfied with this razor, return it to us any time within thirty days and we will return the full price you paid, together with postage. Shipping weight, 5 ounces. Price.**$2.21**

$2.21

The Wilbert Regal Razor.

No. 6F17933 Fancy imitation ivory handle and tang, has ⅝-inch blade, full polished, full hollow ground, fancy back. One of the neatest looking razors and makes an elegant present. shaving qualities and manship it cannot celled. Fully Shipping weight, 5 Price.....

$2.00

Wilbert Cutlery Co. razors are sold only by us. They are the razors made. Every Wilbert Razor is rigidly inspected and guaranteed to be perfect in temper, grinding and finish.

The Regent Gunmetal Back Razor.

$1.50

No. 6F17911 The Wilbert Regent Razor, full hollow ground, with gunmetal, nonrustable tang and back; ⅝-inch square point blade. The tang is shaped to fit the fingers, finely gimped. This razor is full polished; an excellent razor for barbers' or private use. The gunmetal tang and back are nonrustable, and with ordinary care this razor will last a lifetime. Shipping weight, 5 ounces.
Price **$1.50**

Wilbert Acme Razor.

96c

No. 6F17912 Hollow ground, ⅝-inch blade, heavy gimped tang. This razor will probably "fit" more beards than any razor we sell. **It is ground by experts and is suitable for barbers' or private use.** A better razor than those usually sold for $1.50. Shipping weight, 5 ounces. Our price..**96c**

Damascus Steel Razor.

For Stiff Beards.

$1.20

No. 6F17914 Regular English ground, ¾-inch blade, black rubber handle. This razor has a heavy back and a very stiff edge, and is expressly recommended to those having a hard beard or who shave but once a week. It is a razor that gives satisfaction to everyone, but for the coarse, heavy beard it will give better satisfaction than a lighter razor. It is finely finished and fully guaranteed. Shipping weight, 5 ounces.
Price **$1.20**

The Winner Hollow Point.

$1.30

No. 6F17919 Fancy pattern, polished white ivoroid handle, hollow ground, ⅝-inch hollow point full polished blade, graceful double gimped tang, blade finely tempered and ground by experienced workmen. Guaranteed to give satisfaction. An excellent razor for barbers' and private use. Shipping weight, 5 ounces. Price.....**$1.30**

Wilbert Pearl Tang Round Back Razor.

$2.05

A Razor of Quality. For the gentleman who wants the best and wishes style embodied with quality, we offer this pearl tang razor. This razor is full hollow ground by most experienced workmen. The blade has a beautiful mirror polish, heavy double shoulder. The steel tang extends the full length of pearl, insuring the tang against breaking, which is a common fault with other razors of this pattern. The reinforcement on either side of tang is beautiful selected natural pearl, and the tints of color in the pearl tang form a handsome contrast to the mirror polished blade and the fine black rubber handle. The tempering of this blade is absolutely the best, and we guarantee this razor to cut any beard, no matter how stiff. This is a razor that ordinarily sells for from $3.00 up; at our price it is unquestionably one of the greatest values ever offered in this line. Shipping weight, 5 ounces.

No. 6F17820 ⅝-inch square point blade. Price.....**$2.05**
No. 6F17821 ¾-inch square point blade. Price..... **2.10**

Antiseptic Felt Pad Razor.

$2.42

No. 6F17938 This razor, as indicated by the name, is an antiseptic razor; in fact, the best antiseptic razor made. The flat rubber handles are lined with felt pads which are saturated with an antiseptic oil (Parmoline), which protects the sensitive edge of the blade from rust and keeps it sanitary and sharp. The Antiseptic Razor keeps sharp longer than any other razor as the edge is kept free from rust. For private use this razor ought not to require honing more than once a year. Every razor is thoroughly tested and inspected before being shipped. Guaranteed to give satisfaction. ⅝-inch full hollow ground blade, square point, double shoulder, broad, comfortable tang, flat polished black rubber handle, well finished throughout. Shipping weight, 5 ounces. Price, each, including nickel plated oiler filled with Parmoline.....**$2.42**

Wilbert Autocrat Razor.

$1.75

No. 6F17932 Fancy white ivoroid handle, ⅝-inch round point blade, full crocus polished, full hollow ground. Is suitable for barbers' or private use, and is best value ever offered in a high grade razor. Fully warranted. Shipping weight, 5 ounces. Price.....**$1.75**

Arc Magnetic Razor.

$1.75

A highly magnetized blade of the finest quality of steel, hand forged, tempered by a special process which insures uniform and even temper from heel to point. The blades are Hamburg ground, double shoulder, double gimped tang, fitted with polished flat black rubber handles, with gold lettering, as illustrated. The highly magnetized blade prevents irritation and is preferred by many people who experience a burning sensation after shaving with an ordinary razor. Shipping weight, 5 ounces.

No. 6F17813 ⅝-inch hollow point blade, as illustrated. Price.....**$1.75**

This illustration shows the magnetic qualities of this razor. It will lift its own weight in steel.

No. 6F17814 ⅝-inch square point blade. Price..... **1.78**

Price $2.10

WILBERT MADE TO ORDER RAZORS.

It is a known fact that no one razor will shave two or more men equally well. A razor that will fit a tough skin and a stiff beard will not satisfy a man with a tender skin or a light beard. Our made to order razors guarantee satisfaction to all, as we will grind, hone, finish and etch a razor to your order, and guarantee it to give satisfaction. The blades of these razors are forged from the finest Swedish steel; the tempering, grinding and finish are perfect. In order that we may furnish you with a razor that will fit your face, it is necessary that you answer the following questions: How often do you shave? Is your beard stiff or soft? Is your beard fine or coarse? Is your skin tender? What is the color of your beard?

Do not fail to state the name that you wish etched on the razor.

$2.00

The accompanying illustration, showing razor engraved "A. Kelso," is our semi-transparent wine color handle, which forms a handsome contrast with the highly polished blade with gold lettering. Furnished with either hollow or square point, as desired.

Be sure to give catalog number and state which point and width you prefer.

Width of blade	⅝-inch	¾-inch
No. 6F17952 Hollow point	$2.00	$2.05
No. 6F17953 Square point	2.03	2.06

CALDWELL'S HOME BARBER, $2.80.

Be your own barber. With this complete outfit any ten-year old boy can shave and cut or trim hair as well as the most expert barber. It is the only outfit in the world today that reduces the art of hair cutting to an A B C proposition, that makes it so simple that in a few moments any inexperienced person can cut or trim hair. This outfit means a saving of from $25.00 to $35.00 a year to the average family, and it will last a lifetime. It is no longer necessary for a mother to take her children to the barber to have their hair trimmed, or for the men of the household to spend valuable time in traveling to and from the barber shop and awaiting their turn. With this outfit a mother can cut her children's hair in a few moments. The hair cutting outfit consists of one fine pair of nickel plated barber shears, one metal comb with two brass, nickel plated hair cutting gauges. The instructions are simple and complete. In addition to the hair cutting outfit above described, there is one safety razor with six finest steel blades, a stropping handle, one genuine horsehide strop, one aluminum ferrule shaving brush, and one can of Colgate's Rapid Shave Powder.

OUR GUARANTEE.

If you purchase one of these outfits and do not find that you or any ten-year old boy, by following the directions, can cut hair easily, that it saves you its cost in a short time, or if, for any reason, it does not give satisfaction, you may return it any time within thirty days and we will return to you the full amount you paid, together with transportation charges.

No. 6F18202 Our price for the above outfit, with complete illustrated instructions $2.80

WADE & BUTCHER RAZORS.

We herewith illustrate a complete line of this celebrated make of English razors, the oldest razor on the market, one of the few of the old makes in which the quality has been kept up and which today, if anything, is better than fifty years ago. The razors we handle are the genuine Wade & Butcher make, made in Sheffield, England, each razor bearing the registered English manufacturer's trade mark.

Pearl Handle, Silver Lined Wade & Butcher Razor.

$2.95

No. 6F18328 The most beautiful razor made by the famous Wade & Butcher factory. The handle is of genuine, selected, natural pearl, reinforced with a German silver lining, and the blade is the factory's best product, hand forged, full polished, ⅝-inch hollow point, double gimped tang. The blade is the regular old English straight grind, guaranteed to shave any beard. This razor is guaranteed to be the handsomest razor on the market and to give perfect satisfaction. Shipping weight, 6 ounces. Price.....**$2.95**

RAZOR HONES

Better order Razor Hones with other goods to be shipped by express or freight, as they are liable to be broken if sent alone by mail.

THE FAMOUS RAVEN HONE, 75 CENTS.

No. 6F18720 Manufactured for and sold exclusively by us. The marvelous success of the Raven Hone has brought many imitations on the market, but there is only one Raven, both in name and in quality. It is manufactured according to a secret process by one of the most famous hone manufacturers. Our enormous business enables us to contract for this hone in such large quantities as to be able to sell it at the ridiculously low price of 75 cents, although hones of far inferior grade are sold for twice our price. The Raven Hone, a jet black hone, contains no veins or emery grit, and has just the right degree of hardness to place an edge on a razor which will insure a velvet shave. Each hone is packed in a neat hinged cover box. Size of hone, 5½x2 inches. Shipping weight, 10 ounces. Price.....75c

Genuine Belgian Hones.

No. 6F18700 A very good Belgian Razor Hone that will give satisfaction in private use. We sell them for the same amount of money you must pay to have your razor honed once. Shipping weight, 10 ounces. Price 24c

BARBERS' HAIR CLIPPERS.

For Human Hair Only. For Horse and Dog Clippers, see Harness Department.

SPECIAL NOTICE—When ordering repairs for clippers be sure to give us the NAME of the clipper and all marks that appear on it. We do not furnish springs or repairs for any clippers except those that have been purchased from us.

Our Solingen Imported Clippers.

We import these clippers from Solingen, Germany, the greatest cutlery center in the world, where the finest cutlery is made, and offer the following two numbers of clippers to you as being the finest clippers on the market, regardless of name, make or price, far superior to the many imitation French clippers on the market. The plates and cutters are made of the finest crucible steel, the machine work is accurate to the thousandth part of an inch, the clippers are finely finished and are absolutely guaranteed to give satisfaction, or money will be returned. We will ship these clippers to you on thirty days' trial. If at the end of thirty days you are dissatisfied with them, if you do not consider these clippers the best clippers you have ever used and the greatest value for your money, return them to us at our expense, and your money and transportation charges will be cheerfully returned.

No. 6F18840 Our Solingen Outside Coil Spring Clipper, very light (it weighs but 5 ounces), made with tension bolt, accurately machined and fitted, a very fast, smooth working clipper, furnished complete with adjustable comb, which permits of two extra adjustments. Cut can be changed from ⅛ to ⅝ inch. No better clipper made at any price. Every pair guaranteed to give satisfaction or money will be returned. Shipping weight, 9 ounces. Price.....$1.20

No. 6F18841 Extra Springs for the above clipper. Shipping weight, 1 ounce. Price, each.....10c

Our Solingen Special Clipper.

$1.55

No. 6F18842 This clipper is very similar in design to the famous Browne & Sharpe Clippers.

Made of the very best material, has a fine steel malleable frame, the cutting plates, both upper and lower, are made of the finest crucible tool steel, finely tempered and hardened. The teeth are accurately cut and finely finished, the machine work of this clipper is absolutely perfect, the bottom plate is grooved the entire length, as herewith illustrated, operating far better than clippers with the bottom plate half grooved. Made with oil tempered inside coil spring. The design, machine work, fitting and assembling of this clipper is as near perfect as it is possible to produce with skilled labor, improved automatic machinery and the best material, and we guarantee these clippers to be perfect in every respect, to operate smoothly and to cut clean, or money will be returned. With every clipper we include two extra adjustable combs and one extra coil spring. Shipping weight, 12 ounces.

Price, complete with two adjustable combs and one extra coil spring.....$1.55

METHOD OF CONSTRUCTING Our WEHRLE No. 65 U-SO-NA Rust-Resisting Iron Range

BODY.

Having the possibilities for a practical noncorrosive rust-proof iron for building range bodies, we had one of the largest makers make experiments and produce for us a sheet that absolutely resist corrosion better than steel. Working on the lines of the earliest known process of producing iron, the Catalan Forge, from which was developed the Bessemer Process, and later charcoal iron, Bessemer steel and open hearth steel, the results obtained from the analysis of these metals enabled our chemist and the steel furnace metallurgists to introduce an entirely new process, making these experiments in the metal are reduced to a minimum, by which impurities in the metal are reduced and the result of these experiments gives us an iron of all rust-resisting sheets made from iron. To this material as an exclusive product for building our No. 65 Range, and to distinguish it from common iron, charcoal iron, etc., because it is a purer and better, made possible by a new process, the name U-SO-NA RUST-RESISTING IRON was most correctly adopted for it, for it is the purest iron made anywhere.

U-SO-NA RUST-RESISTING IRON IS TESTED.

The illustrations below, made from a photograph of the differ-ent samples, show a comparative corrosion test between U-SO-NA RUST-RESISTING IRON, charcoal iron and sheet steel, made in accordance with the specifications of the American Society for Testing Metals. In this test genuine charcoal iron and the best sheet steel corroded sixty times as much as U-SO-NA RUST-RESISTING IRON.

U-SO-NA IRON. Charcoal Iron. Steel.

Each of these illustrations show results of a sulphuric acid test made with different kinds of iron used in building ranges, and clearly proves that U-SO-NA IRON resists corrosion to a degree never before attained even by the old time iron. U-SO-NA IRON HAS NO EQUAL.

Exactly samples were each weighed, then suspended in a large vessel containing a relative quantity of sulphuric solution. This solution was exactly 20 per cent sulphuric acid and distilled water. When they were thoroughly dried and weighed as shown the comparative corrosion resisting

The result of this test is authentic in every detail, and the illustrations show the samples as they appeared after the test, clearly the remarkable resistance to corrosion of U-SO-NA RUST-RESISTING IRON, even excelling genuine iron.

It proves that U-SO-NA RUST-RESISTING IRON is unsurpassed. It is equal to the old fashioned cast iron, gave satisfaction and resisted corrosion.

Tests have also been made on U-SO-NA RUST-RESISTING IRON, charcoal iron and steel by submerging in a saturated solution of salt water containing 2 per cent sulphuric acid for four months, with the following results due to corrosion: U-SO-NA, .271 per cent; charcoal iron, .397 per cent; steel, .409 per cent. For this reason we guarantee U-SO-NA RUST-RESISTING IRON, made from iron 99.94 per cent pure, and we ask you what percentage with the percentage of the highest grade steel made anywhere, and you will realize why U-SO-NA RUST-RESISTING IRON will and does resist corrosion. You will also understand why it is so eminently suitable for building ranges.

BODY IS THE LIFE OF A RANGE.

Since the body is practically the life of a range, and the life of a range depends upon the material of which it is made, our No. 65 Ranges are made of U-SO-NA RUST-RESISTING IRON, and no other range in the world is made of it. It costs us considerably more than steel, but we find this new Wehrle Range we never considered it worth the time to produce a range that would last three times as long as a steel range.

ASBESTOS LINING.

A thick insulation extends entirely under the bottom of the oven, preventing the heat from burning the floor and keeping the heat in the oven. When no reservoir is used it extends entirely over the right end of the oven, but with a reservoir, the lower half only is insulated. The side flues are similarly insulated. The asbestos, being a nonconductor, retains the heat, and adds to the baking qualities, making it easy to control and economical fuel consumer.

TOP, COVERS, CENTERS AND ANCHOR PLATES.

Cannot be compared with the cheap malleable top, covers and anchor plates some manufacturers use. They will buckle, warp and burn out more easily than cast iron. It is impractical to use malleable iron in stoves and ranges as it is exposed as directly to the fire as in fire boxes and centers. Gray iron castings will resist heat much better. Malleable iron melts at a temperature than gray iron castings, and for this reason we use in our Wehrle No. 65 U-SO-NA Rust-Resisting Iron (hinge) is more durable for use where the parts come in contact with the fire. This range is fitted with covers and one heat or graduated lid, a very convenient device, as the varying sizes of the openings in the lid are found very useful; also fitted with anti-scorch lining or warping of these parts when you buy and use a No. 65 U-SO-NA Range, as we have made provision for the expansion and contraction of the iron which comes into use of the range, and our castings retain their shape as the range is in use.

OVEN THERMOMETER.

A thermometer is built right in the oven door, thus insuring correct and even accuracy, a great convenience and an

GRADUATED LID OR NEST COVER.

View showing feature of Nest Lid furnished free with every Wehrle No. 65 U-SO-NA Range.

A very convenient device. The different sizes of openings in the cover will be found very useful to permit small vessels being placed over the fire. A very handy feature for cooking small quantities of food without having to use a large vessel which will fit only the usual large size lids.

HINGED TOP.

It is easy to lift up the front top of the stove and broil meat or toast bread without having to stand over the red hot fire. By means of a silver nickeled lifter the top or anchor plate directly over the fire can be easily raised and held in place by ratchets at two different heights. This is an easy way to lay the fire, as well as to spread coal over the fire without removing the lids and sliding them around over the top of the range and having the smoke pour into the room, and insures a more even heat with less fuel.

ANTI-SCORCH LID.

Furnished free with every Wehrle No. 65 U-SO-NA Range. A wonderful invention. Lessens kitchen work. Cook oatmeal, rice, cereals of all kinds, boil milk, make frostings for cakes or anything that burns easily, right over the fire in an ordinary saucepan without scorching. A feature that will appeal to all good cooks.

Wehrle Anti-Scorch Lid. Sectional view.

BLUE POLISHED FULL NICKEL STEEL WARMING CLOSET.

Extends along the full length of the range body. It is the proper height for the average person to reach. The roll front door rolls back like the front of a roll top desk, out of the way, permitting the whole of the interior of the closet to be exposed. It will warm and keep the food wholesome without drying it up. Has beautiful silver nickel trimmed steel guard rail across the full length of the back and top of warming closet.

COAL FEED POUCH AND BROILER DOOR

View showing left end of Wehrle No. 65 U-SO-NA Range for hard coal and wood, with swing wood feed door and shaking arrangement.

is hinged on the left end. We provide a capacious coal feed pouch with an "always cold" lift on cover door. On the hard coal range the broiler door drops down instead of lifting up, as shown in small illustration.

DRAFT DOOR.

Attached at the left of the range and directly below the feed and broiler door. It is made unusually long and has two draft registers, insuring a perfect bed of fire with no dead corners. When furnished for hard coal the range has a slide draft with knob instead of drop door with screw registers, as shown in illustration to the left.

WOOD FEED DOOR.

This is next to the oven on the soft coal and wood range and drops down. When furnished for hard coal the door swings to the left instead of dropping down.

LARGE OVEN.

Constructed with great care, so that it will bake to perfection with the least possible labor and fuel. Our ovens are made of extra heavy steel, hand riveted and have cast oven bottoms. No oven ever baked more evenly or quickly. OVEN DOOR is strong, solid and extra heavy, cannot shut suddenly, and drops flush with the oven bottom, forming an extension shelf on which to draw out and turn a roast without having to lift it. The oven door catch has two notches, so that the oven door can be left partly open for cooling or ventilating.

CAST IRON OVEN BOTTOM.

We are using the highest grade cast stove plate for the oven bottom, which gives more heat in the oven with by far less fuel and more quickly than with a steel oven bottom. It will always remain level and will not warp nor buckle as a steel oven bottom is almost sure to do unless thoroughly braced. OVEN RACK is made of wrought steel rods and cannot be easily broken.

CLEAN OUT CHUTE.

This is located under the oven door. It is of good size so the space under the oven can be cleaned out thoroughly and quickly. The panel covering the clean out chute is handsomely nickeled, easily removed and replaced.

OVEN DOOR HANDLE AND CATCH.

The handle is made of Alaska wire, with a double catch, and set out from the range in such a manner that it does not become hot, as oven door handles usually do. The oven door can be let down or raised without the hand coming in contact with anything hot.

HANDY LEVER.

Handy lever for direct draft damper is a feature to be found in Wehrle Ranges only and used exclusively by us. The damper rod and "always cold" silver nickeled handle controlling the direct draft oven damper are located to the right and under the main top in front of the range, as is also the reservoir damper. You need not reach over the hot stove top to open or close either damper.

This picture shows left end of the Wehrle No. 65 U-SO-NA Range for burning wood only; coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven.

SOMETHING WORTH KNOWING ABOUT FIRE BOXES.

HARD (ANTHRACITE) COAL FIRE BOX on all sizes is 7¼ inches wide, 7 inches deep; length for coal is 17¼ inches; for wood is 26 inches with end linings removed. No effort has been spared to equip our Wehrle No. 65 U-SO-NA Range with a most substantial firebrick lined fire box and Dockash grate for the use of hard (anthracite) coal. The fire box and grate conform with each other in shape and operate perfectly, leaving no dead corners for ashes or clinkers to form and there is always an even fire, proving that combustion is perfect. The fire box will retain the fire all night if the dampers are properly adjusted. We furnish an extra bottom grate for burning wood, which is easily dropped into place on top of the Dockash grate. When ordering for hard coal and wood the left end of these ranges appears as shown in the small picture in middle column.

Hard Coal Fire Box, with firebrick linings and Dockash grate for burning hard (anthracite) coal.

DOCKASH GRATE

for hard (anthracite) coal is of the most approved pattern Dockash construction and clears the fire of ashes by a half turn of the shaker. The cog wheels which revolve the grate bars are outside of the fire box and cannot be affected by the heat or become clogged by ashes. A silver nickeled shaking crank is furnished with each range and a full turn of this shaker adjusts the grate, turning the reverse side to the fire, although the surface remains the same.

SOFT COAL AND WOOD FIRE BOX

on all sizes is 9 inches wide, 7 inches deep; length for coal, 18½ inches; for wood, 26 inches with end linings removed. Positively guaranteed to be the most economical and durable made in any range. The cast iron linings are made exceedingly heavy, are corrugated to prevent warping and are constructed to allow ample circulation of air behind them to prevent burning out. This is the only fire box made with a free and constant circulation of air around it and produces better combustion than ever before obtained in a range.

Soft Coal Fire Box, with Cast Iron Linings and Anti-Clinker Duplex Grate for burning soft coal.

DUPLEX ANTI-CLINKER GRATE FOR SOFT COAL AND WOOD

is made in two parts, a half turn of the shaker cuts out all the dead ashes and clinkers, dropping them into the ash pan without disturbing the temper of the operator. It will burn soft coal, wood or corn cobs. For burning soft coal the grate should always have the concave or open side up, as shown in picture above. This allows the draft to circulate through the openings and gives proper combustion. For burning wood be sure to reverse the grate. Simply give it a turn with our perfected shaker crank. Wood requires less draft than coal; therefore the solid side of the grate should be up for burning wood and the slotted side down. Corn cobs can be burned as economically as coal and wood.

Fire Box for burning wood only, with cast iron extension for long sticks of wood. Coal will not burn in the exclusive wood fire box.

FIRE BOX FOR WOOD ONLY

on all sizes is 27 inches long, 10 inches wide and 8 inches deep. When ordered for wood only, we furnish a set of extra heavy fire box linings and our improved grate for burning wood exclusively, as here illustrated. The extension is made of heavy cast iron securely bolted to the end of the fire box, no part of outside body being exposed to the fire. Coal will not burn in the wood fire box.

TEAPOT HOLDERS.

Beautifully silver nickeled swinging teapot stands hang on double brackets at each side of the high closet. They are lifted quickly and easily to attach to either front or back holder at will. An exclusive point.

RESERVOIR TANK.

Made of the highest grade stove plate, white porcelain lined, easily kept clean and easily lifted out. Capacity is from 13½ to 22 quarts, according to size. Reservoir Casing is made of the best cast iron stove plate. It will never rust nor burn out.

GAS ATTACHMENT, $4.50.

We can furnish the Wehrle Nos. 65 and 66 U-SO-NA Ranges in all sizes with gas attachment (as shown in illustration), but without reservoir, at $4.50 extra. Has one giant burner and two star burners, galvanized iron drip pan, silver nickeled supply pipe and air mixers. Top grates are removable and easily cleaned. The top surface of gas attachment is 12x28 inches. Can be connected to gas supply with rubber tubing or iron pipe. Gas attachment cannot be used with gasoline or acetylene gas. If wanted with gas attachment be sure to say, "With Gas Attachment." State whether you use natural or manufactured gas. Price for gas attachment is $4.50 in addition to price of stove ordered without reservoir and is shipped from our Newark, Ohio, foundry only when ordered with gas attachment.

Carefully Selected Assortments of Fine Wool Voile Skirts, $5.00 to $17.00. SEARS, ROEBUCK AND CO., CHICAGO, ILL.

Notice the LIFTING TOP PLATE, which reduces by half the labor of feeding the fire. See how simple it is to raise and lower with one natural way to put on fuel—and how it does away with the constant trouble and bother of removing and replacing the griddles. It also pr CLEANEST, MOST CONVENIENT AND BEST METHOD OF BROILING EVER INVENTED. THE LARGE "NEVER-FAIL" BAKING OVEN for shelf, quick heating RESERVOIR with large White Enameled Tank, the heavy ASH PAN—all these points fully explained on pages 986 and 987.

When ordered complete with Reservoir and Warming Closet we ship from a warehouse in a city very near you.

HOT WATER FRONTS.

WE CAN FURNISH Hot Water Fronts at any time in years to come for all our steel and cast iron ranges for coal or combination coal and wood (except Acme Boomer Range), to connect with hot water tank or range boiler, for running water systems, as shown in this illustration, at the price shown on each page with the ranges They can be easily fitted in the fire box at any time by the most inexperienced persons by simply removing the front fire box lining. For price on the hot water tank or range boiler and stand, see page 1187. Water fronts and hot water tanks or range boilers are used only where there is a supply furnished with constant pressure through pipes, which can be obtained only in towns or cities having waterworks, or where you have an elevated water supply tank. The hot water front gives such ample supply of hot water that you would only require a square range as shown in the illustration. All ranges ordered with hot water fronts will in all cases have the water front fitted to the range before leaving our foundry, unless otherwise ordered. **When ordered with water front the range can be shipped from our Newark, Ohio, foundry only. Our water fronts are tested to 150 pounds pressure.**

THREE-BURNER GAS ATTACHMENT, $4.50.

WE CAN FURNISH the Wehrle No. 65, No. 66, No. 20, No. 22, No. 30, Acme Triumph and Acme Regal Ranges in all sizes WITHOUT RESERVOIR, with gas attachment (like this illustration). It has one **giant and two star burners,** and a galvanized iron drip pan; silver nickeled supply pipe and air mixers. Grates are removable and easily cleaned. **The top** surface of the gas attachment is 12x28 inches. It can be connected to gas supply by rubber tubing or iron pipe. **If you intend using a gas attachment, order it now fitted to the range. Gas attachment cannot be used with gasoline or acetylene gas. If wanted with gas attachment be sure to say "WITH GAS ATTACHMENT" and state whether you use natural or manufactured gas. The price for gas attachment is $4.50 in addition to the price of the range listed without reservoir. If wanted with gas attachment but without reservoir the range can be shipped from our Newark, Ohio, foundry only.**

L SHAPE WATER FRONT. PRICE, $

CAN BE FURNISHED WITH ALL SIZES OF FOLLOWING WHEN ORDERED WITH EITHER SOFT OR HARD (Anthrac FIRE BOX:

WEHRLE No. 65 U-SO-NA RUST-RESISTING IRON RANGE

WITHOUT RESERVOIR

UNCONDITIONALLY GUARANTEED THE BEST RANGE EVER MADE.

Can Be Furnished for Hard (Anthracite) Coal, Cobs and Wood, Soft Coal, Cobs and Wood, or for Wood Only.

THE EXACT SAME RANGE as shown on page 986 with reservoir omitted and in its place we furnish an end shelf. Fire box has our improved **Dockash Grate and Heavy Brick Linings of superior quality for hard (anthracite) coal, which we guarantee to hold fire over night, has extra grate for burning wood, has our anti-clinker Duplex Grate and Cast Iron Linings for soft coal, cobs and wood; special grate and heavy linings for burning wood only.** Lift top enables the user to spread coal evenly over the fire and serves admirably for broiling steaks or chops or toasting bread. Has four solid covers, one nest or graduated lid which will be found a very convenient little device, as the varying sizes of the openings in the cover are very useful, and one or all of the sections may be lifted out at one time for using small vessels or cooking utensils and have them come in direct contact with the fire. **An anti-scorch sectional lid,** as illustrated, is also furnished. You can cook oatmeal, rice, all kinds of cereals, frosting for cakes, boil milk or anything that burns easily in an ordinary sauce pan on our **anti-scorch lid** without stirring and without the slightest possibility of even scorching it.

Sectional View Anti-Scorch Lid. A Wonderful Invention.

COMPARE THE WEHRLE No. 65 U-SO-NA Rust-Resisting Iron Range, part against part, feature against feature, design against design, material against material, with any range, regardless of name or make selling at almost double our price, and if you are conscientious in the comparison and your purchase is influenced thereby, we will get your order. **For complete method of construction see page 987.**

THIS STYLE WILL BE FOUND VERY DESIRABLE for hot water fronts, which we furnish at $2.50 or $3.50 extra. When ordered with water front it will in all cases be fitted in the range before leaving our foundry unless otherwise ordered. **We make no charge for this work.** Water fronts and pressure boilers can be used only where there is a water supply furnished with constant pressure through pipes, which can be obtained only in towns and cities having water works, or from an elevated water pressure tank.

GAS ATTACHMENT for natural or manufactured gas can be used with this style. Price, $4.50 in addition to the price of range. If you intend using gas attachment, order it now, fitted to the range. Gas attachment cannot be used with gasoline or acetylene gas. See page 988.

WEHRLE No. 66 U-SO-NA RUST-RESISTING IRON RANGE

WATCH THE PROGRESS OF BAKING THROUGH WINDOW IN OVEN DOOR WITHOUT OPENING

Every Housewife Appreciates Its Value.

UNCONDITIONALLY GUARANTEED

The BEST LOOKING, BEST COOKING and BEST BAKING RANGE MADE IN THE WORLD

Can Be Furnished for Hard (Anthracite) Coal, Cobs and Wood, Soft Coal, Cobs and Wood, or Wood Only.

Conserves the heat because unnecessary open the oven door. Saves fuel. Requires little or no attention. Articles baked constantly in sight. A positive guarantee against burned cakes, pies, bread.

A companion range to our Wehrle No. 66 U-SO-NA Rust-Resisting Iron Range illustrated on page 986 and 988, having exact same features and substantially same construction throughout, the only difference being in the base. Wehrle No. 65 is on legs, built up from the floor, so you can sweep under it.

BODY, which is practically the whole of the range, is made of our Rust-Resisting U-SO-NA Rust-Resisting Iron and no other range in the world is made of this material. It costs considerably more than steel in building our Wehrle No. 66 and Wehrle No. 65 Ranges. We never considered cost when we saw a chance to produce a range that would last two or three times as long as a steel range. Positively the best and most wonderful range ever made. Let you let us prove it with our NINETY DAYS' TRIAL OFFER.

Water front for Wehrle No. 66 U-SO-NA Rust-Resisting Iron Range, $2.50 and $3.50 extra, according to style. Do not mistake water front for water reservoir. See page 988 about hot water fronts.

To make sure that we send you the right kind of fire box be particular to tell us if you burn hard (anthracite) coal and wood, soft coal and wood, or wood only.

Send us your order for Wehrle No. 66 U-SO-NA Rust-Resisting Iron Range, at price as named below, giving catalog number and size, and the kind of fuel you burn, and we will ship the range from our foundry in Newark, Ohio, on the understanding and agreement that you can use it in your home NINETY DAYS, during the tests you please, and if you are not entirely satisfied at the end of ninety days, write us and we will instruct you how to return the range back and without question or hesitation we will refund your money, together with the freight charges you paid. Your judgment is the matter. We make a fairer proposition.

Prices for the WEHRLE No. 66 U-SO-NA RUST-RESISTING IRON SIX-HOLE RANGE, complete with Reservoir and Warming Closet, made in six sizes, securely crated, ready for immediate shipment from our foundry at Newark, Ohio. For Detailed Description, and Prices, Either With or Without Reservoir or Warming Closet, See Page 993.

OUR FOOD AND MEAT CHOPPERS ARE THE BEST.

Details of Construction WEHRLE No. 20 BLUE POLISHED STEEL RANGE

AND PRICES EITHER WITH OR WITHOUT RESERVOIR AND WARMING CLOSET.

...made of WELLSVILLE BLUE POLISHED STEEL, the best to be had at any price. It is beautifully smooth and uniformly colored, and simply wiping it with a cloth serves to keep it clean. It is built strong and rigid, no seams or joints to rust out, permit leakage or escape of heat. The body is riveted with the best of steel head rivets.

Heavy ribbed lids and centers on Wehrle No. 20 Blue Polished Steel Range.

MAIN TOP, COVERS, CENTERS AND ANCHOR PLATES are extra heavy, made from highest grade stove plate, as shown in illustration. Every range is fitted with five solid covers and one nest cover or graduated lid.

LIFT TOP. By means of a silver nickeled lifter the top or anchor plate directly over the fire can be easily raised, and it is automatically held in place by ratchets at two different heights, as shown in illustration. The hinge or lift top enables the user to spread coal evenly over the fire and serves admirably for broiling steaks or chops or toasting bread.

ASBESTOS LINING. The heavy thick insulation extends entirely over the bottom of oven flue, preventing the heat from warming the floor and retains the heat in the oven. When no reservoir is attached it also extends entirely over the right end of the range, and when with reservoir the upper half only is insulated. The flues are similarly insulated. The liberal asbestos lining protects and insures the steel from either burning or rusting out.

Elevated Top makes broiling a pleasure.

COAL FEED POUCH OR BROILER is hinged on the left end. We provide a capacious coal feed pouch with an always open cover or door, which gives us a combination coal feed and broiler door at the same time. Coal may be placed on the fire through the coal feed door without disturbing what is cooking on top of range. Lift the door and a broiler inserted through the opening and you can broil to a turn. On the hard coal range the door drops down instead of lifting up, as shown

COAL FEED DOOR next to the oven on the soft coal and wood range drops down. When furnished for hard coal the door swings to the left instead of dropping down.

LARGE OVEN has been constructed with great care, so that it will bake to perfection with the least possible labor and fuel. Our ovens are made of extra heavy steel, hand riveted, and have cast iron oven bottoms. No oven ever baked more evenly or quickly.

THE OVEN DOOR is strong, solid and extra heavy, cannot shut suddenly and drops flush with the oven bottom, forming an extension shelf on which to draw out and turn a roast without having to lift it.

OVEN TOP is protected with a corrugated cast plate, which also serves to distribute the heat evenly to all parts of the oven.

CAST IRON OVEN BOTTOM. We are using the highest grade cast stove plate for the oven bottom, which gives more heat in the oven with by far less fuel and more quickly than with a steel oven bottom. It will always remain level and will not warp nor buckle as a steel oven bottom is almost sure to do unless thoroughly braced. **OVEN RACK** is made of wrought steel rods and cannot be easily broken.

OVEN THERMOMETER is built right in the oven door. The indicator shows accurately the heat of oven. The most inexperienced can bake and roast perfectly. A great economy and unsurpassed fuel saver.

HANDY LEVER for direct draft damper is a feature to be found in Wehrle Ranges only and used exclusively by us. The damper rod and always cold silver nickeled handle controlling the direct draft oven damper are located to the right and under the main top in front of the range, as is also the reservoir damper. You need not reach over the hot stove top to open or close either damper.

TEAPOT HOLDERS. Beautifully silver nickeled swinging teapot stands hang on double brackets at each side of the high closet. They are lifted quickly and are easy to attach to either front or back holder at will; an exclusive point.

CAST IRON FLUE BACK is made in one solid piece of cast iron and guaranteed not to rust or burn out. This solid piece of extra heavy cast iron is securely bolted to the back of the range, through which the products of combustion pass to the chimney, and is built to last.

RESERVOIR CASING is made of the best cast iron stove plate. It will never rust or burn out. A depression in the bottom of the casing receives and holds all condensation until it is absorbed by the heat. **RESERVOIR TANK** is of large capacity, perfectly sanitary, porcelain lined, easily kept clean and easily lifted out. **RESERVOIR COVERS** are beautifully designed. They are highly japanned, the japan finish being baked on by our new and original process.

SOFT COAL AND WOOD FIRE BOX, shown on page 995. On all sizes, it is 9 inches wide, 7½ inches deep; its length for coal is 18½ inches and for wood, 26 inches, with end linings removed. The castings are made exceedingly heavy, corrugated to prevent warping, and are constructed to allow ample circulation of air behind them to prevent burning out.

DUPLEX ANTI-CLINKER SOFT COAL AND WOOD GRATE. Made in two parts, so that a half turn of the shaker cuts out all the ashes and clinkers without loss of a particle of the fire. It is so constructed that it will burn soft coal, wood or corn cobs. **For burning soft coal** the grate should always have the concave or open side up. **For burning wood** always be sure to reverse the grate. Simply give it a turn with our perfected and easily operated grate shaker. **When the range is used for burning wood** the two end linings should be removed, thus giving a larger fire box, so that a long stick of wood can be used. The length of this wood burning fire box with end linings removed is 26 inches on all sizes.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX. On all sizes it is 7¼ inches wide, 7 inches deep. Its length for coal is 17¼ inches and for wood 26 inches, with end linings removed; has substantial firebrick linings and Dockash grate (as shown on page 995) for the use of hard coal. The fire box and grate conform with each other in shape and operate perfectly, leaving no corners for ashes or clinkers to form, and there is always an even fire, proving that combustion is perfect. The fire box will retain the fire all night. A large **wood fire box** is secured by removing the end linings. **When ordered for hard coal and wood** we furnish, free, a high grade **cast iron bottom grate** for burning wood, which is easily put in place on top of the Dockash grate.

DOCKASH GRATE FOR HARD COAL is of the most approved pattern. Dockash construction and clears the fire by a half turn of the shaker. The cog wheels which revolve the grate bars are outside the fire box and cannot be affected by the heat or become clogged by ashes.

FIRE BOX FOR WOOD ONLY. On all sizes it is 10 inches wide, 8 inches deep, 26 inches long. The wood extension is made of heavy cast iron, no steel being exposed to the fire. The grate and linings are very heavy and lasting. Coal will not burn in the wood fire box.

This picture shows left end of the Wehrle No. 20 Range for burning wood only. The coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven.

GAS ATTACHMENT. We can furnish Wehrle No. 65, No. 66, No. 20, No. 22, No. 30, Acme Triumph and Acme Regal Ranges in all sizes when ordered without reservoir, with three-burner gas attachment at $4.50 extra. Top surface is 12x28 inches. Has one giant and two star burners, galvanized iron drip pan, silver nickeled supply pipe and air mixers. Grates are removable and easily cleaned. It can be connected to gas supply with rubber tubing or iron pipe. Cannot be used with gasoline or acetylene gas. If wanted be sure to say "With Gas Attachment," and state whether you use natural or manufactured gas. The price for gas attachment is $4.50 in addition to price when ordered without reservoir, and range can be shipped from our Newark, Ohio, foundry only when ordered with gas attachment.

WEHRLE No. 20

WITHOUT RESERVOIR, BUT WITH WARMING CLOSET. WHEN ORDERING BE SURE TO TELL US THE KIND OF FUEL YOU BURN.

THIS IS THE EXACT SAME RANGE as our Wehrle No. 20, illustrated on page 992, the only difference being in the equipment. Water front, $2.50 or $3.50 extra. See page 988 about hot water fronts. PRICE LIST of our Wehrle No. 20 Six-Hole Nickeled Blue Steel Range, without reservoir, but with warming closet. Made in sizes as listed below, strongly crated, ready for immediate shipment from our Newark, Ohio, foundry only. Prices do not include pipe or cooking utensils. For cooking utensils see page 1046. For stove pipe see page 1016.

Range No.	Price for Soft Coal and Wood	Price for Hard (Anthracite) Coal and Wood	Price for Wood Only	Size of Lids	Shipping wt., lbs.
7-14	$25.65	$26.06	$25.37	7	450

TAILED DESCRIPTION AND PRICES EITHER WITH OR WITHOUT RESERVOIR OR WARMING CLOSET

WEHRLE No. 22 SIX-HOLE BLUE STEEL RANGE ON LEGS

COMPANION STOVE TO OUR WEHRLE No. 20 STEEL illustrated and described on pages 992 and 993. We have followed the same patterns, the same idea of building; in fact, we have brought out a range built along lines as the Wehrle No. 20, embodying all the strong features. We are using the same blue polished steel in building the body and riveting it with the best steel head higher grade than ever used in steel range making. **Asbestos sheets** are used where with as a protection against overheating the exposed parts and also to retain heat. ng about this magnificent range is the very best.

N TOP, COVERS, CENTERS AND ANCHOR PLATES, as shown on page made of the very best pig iron, constructed in such a manner as to prevent warping and Every range is fitted with four solid covers and one three-part nest cover or graduated anti-scorch lid.

TOP. By means of a silver nickeled lifter the top or anchor plate directly over the fire can be easily raised and held in place by ratchets at two different heights. an ideal arrangement for laying the fire, also serves admirably for broiling steaks or toasting bread. See illustration on page 988.

L FEED POUCH OR BROILER DOOR. By referring to the large illustration on the preceding page we provide a capacious coal feed pouch with always cold lift on cover of door, ne as a combination coal feed and broiler door at the same time. On the hard coal broiler door is slightly different than shown in illustration. It drops down instead ve as shown on page 993.

WOOD FEED DOOR is extra large. It drops down at right angles to the stove when opened. The nickeled panel on the outside silver nickeled casting. When furnished for hard coal the door swings to the left dropping down.

T DOOR is attached at the left of the range and directly below the feed or broiler door. It is unusually long and has two draft registers, insuring a perfire with no dead corners. When furnished for hard coal or wood the range has a with knob instead of draft door and screw registers.

Coal Fire Box With Firebrick ings and Dockash Grate.

ASH CHUTE below the fire box conducts the ashes direct to the large wire bailed ash pan.

FIRE BOX FOR HARD (ANTHRACITE) COAL AND WOOD on all sizes is 7¼ inches wide and 7 inches deep; its length for coal is 17¼ inches and for wood 26 inches. Is large and has heavy firebrick linings, also an extra bottom grate for burning wood. Guaranteed to operate perfectly under all conditions.

DOCKASH GRATE. The illustration to the left shows our improved Dockash grate for hard (anthracite) coal. A full turn of the shaker adjusts the grate, turning the reverse side to the fire. A wood grate is from with the hard coal range for burning wood, and by removing the end linings a suring 26 inches in length can be had.

COAL AND WOOD FIRE BOX on all sizes wide and 7½ inches deep; its length for coal is and for wood 26 inches. Castings are made heavy and are corrugated to allow ample circu- behind them to prevent burning out. The illus- the right shows the soft coal fire box with Duplex and linings in proper position for burning coal.

EX ANTI-CLINKER SOFT COAL WOOD GRATE. Made in two parts so that a turn of the shaker cuts ashes and clinkers, dropping them into the less of a particle of fire. Will burn soft wood or corn cobs. When burning soft coal the always have the concave or open side up, For burning wood be sure to reverse the gives it a half turn. The ribbed side of the is up for burning wood and the slotted side the range is used for burning wood the two should be removed, thus giving a larger fire box. ing wide of wood can be used.

Soft Coal Fire Box. Cast Iron Linings and Duplex Grate

FIRE BOX FOR WOOD ONLY is large and roomy; on all sizes it is 26 inches long, 10 inches wide and 8 inches deep. The wood extension is made of heavy cast iron, no steel being exposed to the fire. The grate and linings are very heavy and lasting. Coal will not burn in the wood fire box.

> To make sure that we send you the right kind of fire box for the fuel to be used, be sure to tell us in your order whether you burn hard coal only, or soft coal only, or hard coal and wood, or soft coal and wood, or wood only.

CAST IRON FLUE BACK. This feature of our Wehrle No. 22 Six-Hole Steel Range is made of cast iron and we guarantee it will not rust or burn out.

CLEAN OUT CHUTE is located underneath the oven door. It is of good size, so the space under the oven can be cleaned out thoroughly and quickly.

DAMPER. The direct draft damper mounted on the outside of the range does not come in contact with the fire, consequently cannot burn out or warp. It is operated from front of stove, avoiding the necessity of your leaning over the hot stove.

This picture shows the left end of the Wehrle No. 22 Range for burning wood only. The coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven.

RESERVOIR CASING. Every part of our reservoir casing is made of the best cast iron stove plate, is of extremely handsome rococo design and beautifully ornamented with handsome silver nickeled medallion. We guarantee it never to burn or rust out. A depression in the bottom of the casing receives and holds all condensation until it is absorbed by the heat. Steel or sheet iron reservoir casings used on ranges by many manufacturers are not found to be practical, for they soon corrode and rust out from creosote and moisture.

RESERVOIR TANK is of large capacity, white porcelain lined, easily kept clean and easily lifted out. The capacity is from 13½ to 22 quarts, according to size. By turning the reservoir damper, heat is thrown under the reservoir, heating the water hot.

CAST IRON OVEN BOTTOM. This is another new and original feature to be found in Wehrle Ranges only. Our many tests and long experience have proven the many advantages of a cast iron oven bottom. Cast iron, being by far more porous than steel, has about 75 per cent greater radiating efficiency, and by using the highest grade cast stove plate for the oven bottom in this Wehrle No. 22 Steel Range, we get much more heat in the oven with by far less fuel, and get it more quickly, and it will give an even and uniform heat in all of its parts, making it bake evenly over its entire surface. It will positively never warp or buckle and always remain level.

OVEN DOOR is handsomely carved, silver nickel plated, and drops flush with the oven bottom, thus forming an extension shelf which makes it possible to draw out and turn a roast without having to lift it. For slow baking the oven door catch is provided with two notches, so that the door may be partially closed if desired and cold air admitted. This does away with the necessity of propping the door of the oven open to keep the heat at a low point.

OUR DEPENDABLE OVEN THERMOMETER as shown in the illustration on the preceding page, is the only absolutely positive means by which an oven can be regulated. The oven thermometer is built right in the oven door, thus insuring absolute and even accuracy, a great convenience and an unsurpassed fuel saver.

WARMING CLOSET. Large, roomy, blue polished warming closet with rolling front. This equipment extends along the full length of the range body. It is just the proper height for the average person to easily reach. It has a roll front door which rolls back, like the front of a roll top desk, entirely out of the way.

TEAPOT HOLDERS. Beautifully silver nickeled swinging teapot stands hang on double brackets at each side of the high closet. They are lifted quickly and are easy to attach to either front or back holder at will. An exclusive point.

GAS ATTACHMENT as shown on page 988, can be supplied with the Wehrle No. 22 Blue Steel Range instead of reservoir at $4.50 in addition to the price when ordered without reservoir. When ordered with gas attachment the range can be shipped from our Newark, Ohio, foundry only.

WEHRLE No. 22

SIX-HOLE BLUE POLISHED STEEL RANGE WITHOUT RESERVOIR, BUT WITH WARMING CLOSET AND HANDSOME END SHELF.

WHEN ORDERING BE SURE TO TELL US THE KIND OF FUEL YOU BURN.

WITH THE EXCEPTION OF THE RESERVOIR this is the exact same range as shown on page 994 and is offered to our customers direct from our foundry at Newark, Ohio.

WATER FRONT, $2.50 OR $3.50 EXTRA.

See page 988 about water fronts.

Furnish this style in any size with gas attachment (as shown on page 988) at $4.50 in addition to the prices below.

PRICE LIST of our Wehrle No. 22 Six-Hole Full Nickeled Blue Polished Steel Range without reservoir, but with warming closet, Strongly crated ready for immediate shipment from our Newark, Ohio, foundry only. Prices do not include pipe or cooking utensils. For cooking utensils see page 1046. For stove pipe see page 1016.

A FEW SPECIAL POINTS ABOUT OUR ACME TRIUMPH WHOLE STEEL RANGE SHOWN ON THIS AND THE PRECEDING PAGE

IT WILL REACH YOU READY TO SET UP AND USE, BLACKENED AND BEAUTIFULLY POLISHED.

IT LIKE A BOILER. Made of Wellsville blue polished steel; strong, rigid, no seams or joints to rust out, permit [illegible] escape of heat. This steel requires neither blackening, enameling nor [illegible] process of manufacture it is passed and repassed through ponderous [illegible] and repolish it until a permanent and beautiful blue color is obtained.

OS LINING. All parts of steel body exposed to the direct action of fire are lined with asbestos. This protects and insures the [illegible] burning or rusting out. The asbestos being fireproof and a nonconductor, [illegible] to the life of range, adds to its baking qualities, makes it easy to [illegible] fuel consumer.

EED POUCH AND BROILER DOOR. This new invention and device on the left end of the [illegible] coal feed pouch with a lift cover or door, as shown in the large [illegible] page. Fresh fuel may be placed on the fire through the broiler or [illegible] what is cooking on top of range. On the hard coal range, [illegible] right, the broiler door is slightly different from that shown in large [illegible] drops down instead of lifting up.

FEED DOOR has silver nickeled panel and hinge plus with an Alaska cold wire silver [illegible] swings to the left and is lined to prevent the [illegible] the inside and falling to the floor when [illegible]

DRAFT REGISTERS are attached to the left of the range directly [illegible] and broiler door. They are fitted in a drop door, [illegible] access to the bottom of the grate for convenience [illegible] With this draft device the air passes through [illegible] fuel evenly and getting the full benefit of [illegible] thereof. When furnished for hard coal the range has [illegible] with ash, as shown in illustration to the right. [illegible] draft door and screw registers.

E ASH PAN has a strong wire handle or bail and is made of the highest grade of refined [illegible]

T DOOR is independent of the pan and is carefully fitted in place so that there [illegible] at this point to interfere with the control of the fire.

OUT CHUTE is located underneath the nickeled oven door, as shown in illustration [illegible] It is a good sized, liberal opening, from which [illegible] the oven can be cleaned out thoroughly and quickly.

RON FLUE BACK. The greatest improvement embodied in the construction [illegible] steel ranges. Made in one solid piece and guaranteed [illegible] burn out. This solid piece of extra heavy cast [illegible] bolted to the back of the range, through which the products of combustion [illegible] chimney, and is built to last. Many ranges are made with light sheet steel flue [illegible] last, for the reason that the creosote and condensation which accumu- [illegible] from the smoke pipe and chimney eat out and perforate sheet steel in [illegible]

View showing the left end of Acme Triumph Range for hard (anthracite) coal and wood.

ARMING CLOSET. The beautiful blue polished full standard steel high warming closet extends along the full length of the [illegible] large capacity and is a great convenience. It is at just the proper height [illegible] to easily reach. Has a roll front door which rolls back like the front [illegible] out of the way, taking up no room and exposing the whole of the interior [illegible]

COVERS, CENTERS AND ANCHOR PLATES. All of these [illegible] are made of the finest cast stove plate, composed of the purest Birmingham pig [illegible] made for the expansion and contraction which come with daily use of the [illegible] fire solid lids and one sectional or nest lid, all made from the best stove [illegible] is very convenient, as one or both of the rings may be lifted out at will [illegible]

ENT, shown on page 988, can be supplied with the Acme Triumph Steel Range instead of reservoir, at $4.50 in addition to the [illegible] when ordered with gas attachment, we ship from Newark, Ohio, only.

THE LARGE OVEN has been constructed with great care and intelligence, so that it bakes to perfection with the least possible labor and fuel. No oven ever baked more evenly or quickly. No oven made receives so much praise from users as the oven of our Acme Triumph Steel Range.

OVEN DOOR is handsomely carved, silver nickel plated and drops flush with the oven bottom, forming an extension shelf on which to draw out and turn a roast without having to lift it.

OVEN THERMOMETER. This handsome range is equipped with our dependable oven door thermometer, which will be found a great convenience and an unsurpassed fuel saver.

SPECIAL AND IMPROVED RESERVOIR CONSTRUCTION. The reservoir tank is of large capacity and sanitary, white porcelain lined, easily kept clean, and easily lifted out. THE RESERVOIR CAPACITY IS 22 QUARTS. By turning the reservoir damper heat is thrown under the reservoir, thereby heating the water.

RESERVOIR CASING is made of cast iron stove plate, handsome rococo design, ornamented with a handsome and elaborate silver nickeled medallion. It will never rust nor burn out. A depression in the bottom of the casing receives and holds all condensation until it is absorbed by the heat.

> To make sure that we send you the right kind of fire box for the fuel to be used, be sure to tell us in your order whether you burn hard coal only, or soft coal only, or hard coal and wood or soft coal and wood, or wood only.

DOCKASH GRATE FOR HARD COAL. The illustration on page 995 shows our improved Dockash grate for hard (anthracite) coal. A half turn of the shaker adjusts the grate, turning the reverse side to the fire, although the surface remains the same. By this means both sides of the grate are used and it will not burn out as quickly as it would if the same side were always to the fire. The wood extension is made of extra heavy cast iron, no steel being exposed to the fire. Wood can be burned in the hard coal fire box by placing the bottom wood grate (which is furnished with every range) on top of the Dockash grate. (When ordered for hard coal and wood the left end of the range appears as shown in small illustration to the left.)

FIRE BOX FOR HARD (ANTHRACITE) COAL AND WOOD on all sizes is 7¼ inches wide, 7 inches deep; length for coal is 17¼ inches and for wood, with end linings removed, 25½ inches. It is fitted with fire brick linings of superior quality. It is proportioned with a view to securing the most perfect combustion with the least amount of fuel and to work quickly. From the illustration on page 995 you will see the fire box is made with a tight frame, on which the brick linings set, making it impossible for the air to leak through the joints of the linings.

FIRE BOX FOR SOFT COAL AND WOOD on all sizes is 9 inches wide, 7½ inches deep; length for coal 18½ inches, and for wood, with end linings removed, 26 inches. It is made with iron linings and Duplex grate. It is not only a great saver of fuel, but one that will give the best possible results in operation. The fire back and all other linings are of proper weight to withstand the heat and are well braced and ventilated by air chambers.

DUPLEX GRATE FOR SOFT COAL AND WOOD Our best mechanics construct this grate and it always operates perfectly, and with our poker device and crank shaker it is easily and quickly cleaned. A half turn will drop all ashes and large clinkers into the ash pan and return the grate to its proper position again without the loss of a particle of the fire. When burning soft coal the grate should always have the concave or open side up. For burning wood always be sure to reverse the grate, leaving the solid side up. Simply give it a turn with the shaker. This gives you an entirely new design of grate, made especially for burning wood. When the range is used for burning wood the two end linings should be removed, thus giving a larger fire box, so that a long stick of wood can be used.

This picture shows the Acme Triumph Range for burning wood only. The coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven.

FIRE BOX FOR WOOD ONLY is large and roomy, 10 inches wide, 8 inches deep and 27 inches long on all sizes. The wood extension is made of heavy cast iron, no steel being exposed to the fire. The grate and linings are heavy and lasting. Coal will not burn in the wood fire box.

THE SIX-HOLE BLUE POLISHED STEEL RANGE WITHOUT RESERVOIR

Exactly the same Acme Triumph illustrated on preceding page, but without the reservoir.

We can furnish this style with 3-Burner Gas Attachment shown on page 988 at $4.50 in addition to the prices named below.

Can be furnished for hard (anthracite) coal, cobs and wood; or soft coal, cobs and wood, or wood only. When ordering be sure to tell us the kind of fuel you burn.

Water front $2.50 and $3.50 extra, according to style. See page 988 about hot water fronts.

MADE IN SIX SIZES, AS LISTED BELOW.

The Acme Triumph Six-Hole Blue Polished Steel Range without reservoir, but with handsome end shelf and with [illegible] strongly crated and delivered on the cars at Newark, Ohio, only. Prices do not include [illegible] utensils. For cooking utensils see page 1046. [illegible] see page 1016.

ACME RENOWN SIX-HOLE STEEL RANGE

WITH RESERVOIR AND WARMING CLOSET

Be Furnished for Hard (Anthracite) Coal, Coke and Wood, or for Soft Coal, Cobs and Wood, or for Wood Only.

A Bargain in a Popular Priced Steel Range That Cannot Be Duplicated Elsewhere at $8.00 to $10.00 More Than Our Price. Only Our Exceptional Manufacturing Facilities in the Largest Stove Foundry in the World Admit the Selling of Such a Well Made, Full Size, Correctly Proportioned, Thoroughly Satisfactory Range at the Astonishingly Low Prices of $21.75 to $24.89.

DETAILED DESCRIPTION.

BODY is made of very carefully selected cold rolled steel, given a high black finish, closely riveted throughout, insuring a perfect fit, making it economical in the consumption of fuel, even in the distribution of heat, easy to operate and a perfect baker. The body is closely and heavily riveted, reinforced and strengthened throughout.

HIGH WARMING CLOSET is made of polished steel plate. It is just the right height, is easily reached and will be found a wonderful convenience when it is necessary to keep victuals warm for any length of time. **The door** is carefully balanced and may be easily opened without effort. It is trimmed with nickeled steel bands along the front, as shown in the illustration.

SMOKE PIPE connecting with the main top of the Range passes up through the closet, going out at the closet top, as shown. This clear joint of smoke pipe passing through the closet is made of polished steel plate, and on its front, below the closet, is a register draft check, handsomely silver nickeled, which may be opened to reduce the draft when necessary.

MAIN TOP, COVERS AND CENTERS are made from the very best quality of cast iron stove plate and guaranteed not to crack, warp or buckle. One of the top covers is made in three parts so as to admit of the use of different size cooking utensils.

COAL FEED POUCH AND BROILER DOOR is on the left end of the range, as shown in the illustration. Lift the feed cover and a broiler may be inserted through the opening. On the hard coal range, the door drops down instead of lifting up. All the fumes of the broiler are carried up the smoke flue, while the steaks or chops broiled over the bed of red hot coals remain sweet and wholesome. It also forms a good chute for feeding coal to the fire.

WHEN ORDERED FOR WOOD ONLY, the coal feed door is omitted, as the wood is fed through the end door to the left of the oven.

WOOD FEED DOOR is of generous proportions and its superior construction prevents the ashes from accumulating against it and falling out upon the floor when the door is opened. **It is silver nickeled.**

SOFT COAL AND WOOD FIRE BOX on all sizes is 7½ inches wide, 7 inches deep; length for coal is 18 inches and for wood with end linings removed, including extension, 25½ inches. Has anti-clinker Duplex Grate and heavy cast iron linings: the very best type of construction and guaranteed to give absolute satisfaction. The Duplex Grate may be quickly converted from a coal burning into a wood burning grate, and from a wood burning into a coal burning grate, by a half turn of the shaker crank. For burning coal the grate should always have the concave or open side up. This allows the draft to circulate through the opening and give proper circulation. For burning wood be sure to reverse the grate, leaving the solid side up. Simply give it a turn with the shaker. When burning wood the two end linings should be removed, giving a larger fire box so that longer sticks of wood can be used.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX on all sizes is 7½ inches wide, 7 inches deep; length for coal is 18 inches and for wood with end linings removed, including extension, 25½ inches. Has **Dockash Grate** and **firebrick linings** of superior quality. Is proportioned with a view to securing the most perfect combustion with the least amount of fuel, and so constructed that it is impossible for the air to leak through the joints of the linings.

Guaranteed Rustproof Cast Iron Reservoir Casing.

FIRE BOX in all sizes is 9½ inches wide, 6½ inches deep and 25½ inches long. Extension is made of heavy cast iron, no steel being exposed to the fire. The grate and linings are very heavy and lasting. Coal will not burn in the wood fire box.

OVEN is of generous proportions and is built along our well known lines of oven construction and is a strictly first class and economical baker.

DOOR is strong and solid, **handsomely silver nickel plated,** and opens evenly on bottom, forming an extension or shelf which makes it possible to draw out and turn heavy baking to lift it. **Oven door handle** will not get hot.

RESERVOIR CASING is made of the best cast stove plate, guaranteed not to rust or burn out.

RESERVOIR TANK is white porcelain lined just like a china dish and is easily kept clean and easily lifted out. It is very large and **holds 22 quarts** of water, which may **be kept** at a temperature by opening the reservoir damper.

PAN is extra large and **has a strong wire handle or bail.** It fits so perfectly that the water flows directly from the grate into the pan and do not dribble over and drag down on the floor when the ash pan is taken out. **The ash pit door** is independent of the pan, extends the full width and length of the ash pit, is of handsome design and beautifully silver nickeled.

HEIGHT TO MAIN TOP, 30½ inches. Height of Warming Closet, 27 inches on all sizes.

IF WANTED WITHOUT WARMING CLOSET, but with reservoir, deduct $2.00 from the prices listed below.

IF WANTED WITHOUT WATER RESERVOIR, but with extension end shelf and warming closet, deduct $2.75 from the prices listed below.

IF WANTED WITHOUT WARMING CLOSET AND WITHOUT RESERVOIR, deduct $4.75 from the prices below.

WATER FRONT for the Acme Renown, price $2.50. See page 988, about Water Fronts.

MADE IN FOUR SIZES AS LISTED BELOW. Prices with Warming Closet and White Porcelain Lined Reservoir Tank, strongly crated and delivered on the cars at our foundry in Newark, Ohio, only. Prices do not include pipe or cooking utensils. For stove pipe see page 1016. For cooking utensils see page 1046.

ely Modern. Its Construction Leaves Nothing to Be Desired. Has Plain, Smooth Castings. Will Not Catch and Hold Dirt. Easy to Keep Clean, and All the Necessary Features for Those Who Wish a Perfect Baker and Wonderful Fuel Saver.

BODY.

de from Rust-Proof Rolled-Iron. The purest, toughest metal manufactured in this **strongly put together by skilled workmen. Is guaranteed rigid, airtight and durable. ishere needed with asbestos millboard, which retains the heat and saves fuel.**

TOP WARMING CLOSET.

be found convenient—just the right height for the average person to easily reach. and beautiful and has a revolving door which swings up under the top of the of this way, taking up no space and permitting the whole interior of the closet used while placing in the food to be warmed. Has a steel guard or rail across the of the back top, ornamented with silver nickeled trimmings.

ASBESTOS LINING.

asbestos, being fireproof and a nonconductor, retains the heat, adds wonderfully to **the possibilities of the range, making it easy to control and makes an economical fuel**

SECTIONAL MAIN TOP, COVERS AND CENTERS.

constructed to stand hard usage for many years and to prevent cracking from **tent. We furnish this range with six 8-inch lids, made from the best stove plate, one graduated or sectional lid, made in three parts to accommodate different size utensils. Has long cut center supported by post.**

EXTRA HEAVY DUPLEX GRATE.

most satisfactory grate made for burning soft coal, cobs or wood. It is simple and **to operate.** One movement of the shaker cuts out all cinders and dead ashes. **the grate, turning the ribbed side up and removing the end linings forms a perfect for a wood fire, and thus it will be seen that our special Duplex grate can be used soft coal or wood.**

IMPROVED DOCKASH GRATE.

ordered for hard (anthracite) coal the range is supplied with our improved GRATE. A half turn of the shaker adjusts the grate, turning the reverse side **although the surface remains the same. By this means both sides of the grate and it will not burn out as quickly as it would if the same side were always to**

FIRE BOX FOR SOFT COAL.

this and correctly proportioned to the size of flue so as to give the best results for amount of fuel consumed, and it is easily adapted for the consumption of soft or corn cobs. The linings are heavy and so constructed that they will give **they are sectional and easily removed and protected by an air space behind is furnished with an extension at the back end of the fire box and with end permits the use of wood 23 inches in length.**

FIRE BOX FOR HARD (ANTHRACITE) COAL.

with fire brick linings of superior quality. It is proportioned with a view to secur- **perfect combustion with the least amount of fuel, and works quickly. The made with tight frame, on which the brick linings set, making it impossible for leak through the joints of the linings.**

FIRE BOX FOR WOOD.

and roomy, and with the end linings removed is 24 inches in length. The wood **is made of extra heavy cast iron, no steel being exposed to the fire. Wood can in the hard coal fire box by simply removing the end linings and placing the bot- grate (which is furnished free with every range) on top of the Dockash grate.**

OVEN.

of the best quality of smooth rolled iron, securely riveted and braced to the range in such a manner as to make all the joints perfectly tight. All seams and

OVEN DOOR.

Oven door is strong and solid, handsomely silver nickel plated, and opens even with the oven bottom, forming an extension or shelf which makes it possible to draw out and turn a roast without having to lift it. The oven door handle will not get hot.

OVEN BOTTOM.

Made of the highest grade, best selected rolled-iron stock, so constructed, bolted, braced and reinforced that we guarantee it to always remain level and never buckle, warp nor sag.

OVEN TOP

is properly protected by a corrugated cast plate extending back from the fire box, which makes the heat in the oven uniform.

COAL FEED POUCH AND BROILER DOOR.

On the left end of the range we provide a capacious coal feed pouch with an Alaska nickel wire lift on the door, as shown in the illustration. It can be used for putting in fuel when coal is used, also for broiling purposes. This is an ideal arrangement and one which will be found very convenient. **When ordered to burn wood only the coal feed door is omitted as the wood is fed through the end door to the left of the oven.**

ASH PAN.

Extra large, heavy, reinforced ash pan, with wire handle. Ash pit provided with guards, which make all ashes fall into the ash pan.

FLUE BACK

which conducts the heat from the flue beneath the oven to the stove pipe, is made of the highest grade cast iron stove plate. This is a very important feature. Nearly all ranges sold for even double the price of our **Wehrle No. 47 Rust-Proof Rolled-Iron Range** are made with a thin sheet steel flue back.

RESERVOIR CASING.

This is entirely new and original. Every part of the casing is made of cast iron stove plate. The steel or sheet iron reservoir casings used on ranges of other manufacturers are found not to be practical nor serviceable, for they soon corrode and rust out by condensation or creosote moisture and we do not use them. A depression in the bottom of the casing **receives** and holds all condensation until it is absorbed by the heat. The **reservoir tank** is removable, white porcelain lined and **holds 13½ quarts** of water. By turning the reservoir damper heat is thrown under the reservoir, heating the water quickly. The two covers are heavily japanned and operate on center divide hinges.

OVEN THERMOMETER.

We equip our Wehrle No. 47 Rust-Proof Rolled-Iron Range with a dependable Oven Thermometer. It is mounted in the oven door and it accurately shows the temperature of the oven without the necessity of opening the door.

Our Written Binding Guarantee

Wehrle No. 47 Rust-Proof Rolled-Iron Range is built for heavy work and heavy duties. It is guaranteed to give absolute satisfaction under every condition and under the most trying test. Use it in your kitchen NINETY DAYS, and if you do not find it absolutely satisfactory in every particular you may ship it right back to us at our expense and we will not only return your money as cheerfully as we accepted it, but we will also return all the freight charges you have paid. You do not take the slightest

EAD EACH POINT ABOUT THE WONDERFUL RANGE VALUE
CME CHARM SIX-HOLE STEEL RANGE

IT'S ON LEGS. BUILT UP FROM THE FLOOR. YOU CAN SWEEP UNDER IT. BLACKENED, BEAUTIFULLY —POLISHED, READY TO SET UP AND USE. AN EXCEPTIONALLY ATTRACTIVE RANGE VALUE.—

S ABOUT OUR ACME CHARM STEEL RANGE THAT INSURE MOST PERFECT BAKING.

main top, covers and centers are made from the highest grade Birmingham pig iron, constructed to stand hard usage. Oven is an even baker. Oven door drops flush oven bottom, forming a convenient shelf; Fire Box, Duplex or Dockash Grate and flue are built for economy in the consumption of fuel; the deep ash pit, the large ash pan, large pouch feed door with Alaska nickel wire handle, cast iron flue smoke box, securely braced oven bottom, high closet with roll top door, handsomely handle and ornament; full cast left end guaranteed not to warp nor buckle, and our oven door thermometer give the range many strong features.

HIGH WARMING CLOSET.

large, commodious roll top closet is made of cold rolled sheet steel, beautifully and handsomely finished. The closet has a highly polished nickel handle and bands door door is so carefully counterbalanced that it works very easily, the weight of being sufficient to open it. It is trimmed with nickel steel bands along the front, in illustration. The teapot holders to the left and right are handsomely nickeled conveniently arranged.

BODY.

from Wood's cold rolled open hearth steel, the very best we can buy. The most part of a steel range is the body. The body of this wonderful value Acme Charm like a boiler, strongly put together with wrought rivets and bands, reinforced at every body is given a high black finish. It is constructed by skilled workmen from which is rigid, airtight and durable; no seams or joints to rust out, leak ashes, the escape of heat. Has full cast iron left end. Guaranteed not to warp, buckle cut.

ASBESTOS LINING.

parts of the steel body exposed to direct action of the fire are lined with asbestos, care being taken in doing this work. This protects and insures the steel body from burning or rusting out. The asbestos being fireproof and a nonconductor, retains heat greatly to the life of the stove, adds wonderfully to its baking possibilities, easy to control and makes an economical fuel consumer.

MAIN TOP, COVERS AND CENTERS.

sectional main top and centers are cut and braced in exactly the same manner as first grade ranges, and are constructed to stand hard usage for many years and to cracking from excessive heat. We furnish this range with six 8-inch lids, including solid or sectional lid, made from the best stove plate. Has long cut center supported

DUPLEX GRATE.

with our special Duplex grate, extra heavy; the most satisfactory grate made and burning soft coal, cobs or wood. It is simple and very easy to operate. One of the shaker cuts out all cinders and dead ashes. Reversing the grate, turning side up and removing the end linings, forms a perfect fire box for a wood fire, and be seen that our special Duplex grate can be used either for soft coal or wood.

DOCKASH GRATE.

ordered for hard (anthracite) coal the range is supplied with our improved GRATE. A half turn of the shaker adjusts the grate, turning the reverse side although the surface remains the same. By this means both sides of the grate and it will not burn out as quickly as it would if the same side were always to

FIRE BOX FOR SOFT COAL.

size and correctly proportioned to the size of flue so as to give the best results for amount of fuel consumed, and is easily adapted for the consumption of soft coal, coal and cobs. The linings are heavy and so constructed that they will give long service; sectional and easily removed and protected by an air space behind them. It is with an extension at the back end of the fire box which permits the use of wood length.

FIRE BOX FOR HARD (ANTHRACITE) COAL.

Fitted with firebrick linings of superior quality. It is proportioned with a view to securing the most perfect combustion with the least amount of fuel, and works quickly. The fire box is made with tight frame, on which the brick linings set, making it impossible for the air to leak through the joints of the linings.

FIRE BOX FOR WOOD.

Large and roomy, and with the end linings removed is 24 inches in length. The wood extension is made of extra heavy cast iron, no steel being exposed to the fire. Wood can be burned in the hard coal fire box by simply removing the end linings and placing the bottom wood grate (which is furnished free with every range) on top of the Dockash grate.

OVEN.

Made of the best quality of smooth cold rolled steel, securely riveted and braced to the body of the range in such a manner as to make all the joints perfectly tight. All seams and joints are carefully riveted airtight. The oven is made in one size only and measures 18x20¾x12 inches, and is furnished with steel slide oven rack which cannot be broken.

OVEN BOTTOM.

Made of the highest grade, best selected sheet steel stock, so constructed, bolted, braced and reinforced that we guarantee it to always remain level and never buckle, warp nor sag.

OVEN TOP

is properly protected by a corrugated cast plate extending back from the fire box, which makes the heat in the oven uniform.

COAL FEED POUCH AND BROILER DOOR.

On the left end of the range we provide a capacious coal feed pouch with an Alaska nickel wire lift on the door, as shown in the illustration. It can be used for putting in fuel when coal is used, also for broiling purposes. This is an ideal arrangement and one which will be found very convenient.

ASH PAN.

Extra large, heavy, reinforced ash pan, with wire handle. Ash pit provided with guards, which make all ashes fall into the ash pan.

FLUE BACK

which conducts the heat from the flue beneath the oven to the stove pipe, is made of the highest grade cast iron stove plate. This is a very important feature. Nearly all ranges sold for even double the price of our wonderful value Acme Charm Steel Range are made with a thin sheet steel flue back, which easily rots out by condensation or creosote moisture, which sometimes runs down the chimney into the flue back. We guarantee our cast iron flue back never to burn nor rust out.

RESERVOIR CASING.

This is entirely new and original. Every part of the casing is handsomely carved and made of cast iron stove plate. The steel or sheet iron reservoir casings used on ranges of other manufacturers are found not to be practical nor serviceable, for they soon corrode and rust out by condensation or creosote moisture and we do not use them. A depression in the bottom of the casing receives and holds all condensation until it is absorbed by the heat. The reservoir tank is removable, white porcelain lined and holds 13½ quarts of water. By turning the reservoir damper, heat is thrown under the reservoir, heating the water boiling hot. The two covers are heavily japanned and operate on center divide hinges.

OVEN THERMOMETER.

We equip our wonderful value Acme Charm Steel Range with a dependable Oven Thermometer. It is mounted in the oven door and it accurately shows the temperature of the oven without the necessity of opening the door.

—OUR WRITTEN BINDING GUARANTEE—

WEHRLE No. 41 RUST-PROOF ROLLED-IRON RAN

PLAIN HANDSOME DESIGN. EASY TO KEEP CLEAN

CAN BE FURNISHED FOR HARD (ANTHRACITE) COAL; OR SOFT COAL, COKE AND CORN COBS, OR WOOD ONLY.

Just fills the bill for those who are looking for a range very reasonable in price, thorough in construction, heaviest and best for the money. Guaranteed to give absolute satisfaction under the most trying test and backed by the makers, who enjoy an enviable reputation for making and selling the best stoves and ranges made in the world.

DETAILED DESCRIPTION.

BODY is made of Rust-Proof Rolled-Iron, strongly reinforced and braced in every part. Lined where needed with asbestos millboard which retains the heat and saves fuel. Is thoroughly put together, riveted with wrought iron rivets, strongly reinforced and braced in every part. **HIGH CLOSET is of generous proportions.** Just the right height, and has a balanced door and steel guard across the full length of back on top. Its height is 27 inches. **MAIN TOP, covers and centers are made of the highest grade gray iron,** which stands the heat better and is less liable to crack or warp than any other material. This range is furnished with five solid lids and one in three sections. It has long cut centers, and all loose parts are fitted with allowance for heat expansion. **FIRE BOX is equipped with heavy cast iron linings and Duplex grate for soft coal and wood, is easily and quickly converted from a coal burning grate to a wood burning grate at the will of the operator, and has firebrick linings and Dockash grate for hard coal and wood. When ordered for hard coal an extra wood bottom grate is furnished. COAL FIRE BOX is 8 inches wide, 5½ inches deep.** Length for coal, 17 inches. **FIRE BOX FOR WOOD ONLY is 8½ inches wide, 7 inches deep and 23½ inches long.** Wood extension is made of extra heavy cast iron, no steel being exposed to the fire. Grate and linings are heavy and lasting.

WEHRLE No. 41 RUST-PROOF ROLLED-IRON RANGE.

Without reservoir but with warming closet.

Catalog No. 22F186 $17.69 for wood only. $17.87 for soft coal and wood. $18.88 for hard (anthracite) coal and wood.

COAL WILL NOT BURN IN THE WOOD FIRE BOX. When ordered for wood only the coal feed door is omitted, as wood is fed through the end door to the left of the oven. OVEN is 18x 20¾x12 inches, is equipped with a dependable oven thermometer, which accurately shows the temperature of the oven without the necessity of opening the door. **Main top has six No. 8 cooking holes. OVEN DOOR has silver nickeled panel and Alaska wire handle, drops flush with the oven bottom,** forming a convenient shelf. Top cooking surface with reservoir extension is 42½x29 inches; without reservoir, including end shelf, 39½x28½ inches. Height from floor to main top, 29½ inches. Distance from main top to top of warming closet, 27 inches. Total height, including closet 56½ inches. **Size pipe to fit collar, 7 inches. Furnished with large steel ash pan.** Capacity of reservoir, 13½ quarts.

WATER FRONT FOR WEHRLE No. 41 RUST-PROOF ROLLED-IRON RANGES, $2.50. **See page 988 about hot water fronts.**

Made in one size for wood only, or soft coal, wood and cobs, or hard (anthracite) coal and wood. Prices, strongly crated and delivered on the cars at our foundry at Newark, Ohio, ONLY. Prices do not include pipe or cooking utensils. For cooking utensils see page 1046. For pipe see page 1016.

This range is furnished with five solid lids and one in three sections. It has long cut centers, and all loose parts are fitted with allowance for heat expansion. **FIRE BOX is equipped with heavy cast iron linings and Duplex grate for soft coal and wood, and firebrick linings and Dockash grate for hard coal and wood. DUPLEX GRATE is easily and quickly converted from a coal burning grate to a wood burning grate at the will of the operator. When ordered for hard coal an extra wood bottom grate is furnished. COAL FIRE BOX is 8 inches wide, 5½ inches deep.** Length for coal, 17 inches. **FIRE BOX FOR WOOD ONLY is 8½ inches wide, 7 inches deep and 23½ inches long.** Wood extension is made of extra heavy cast iron, no steel being exposed to the fire. Grate and linings are heavy and lasting.

COAL WILL NOT BURN IN THE WOOD FIRE BOX. When ordered for wood only the coal feed door is omitted, as wood is fed through the end door to the left of the oven. **OVEN is 18x20¾x12 inches. Has six No. 8 cooking holes. OVEN DOOR drops flush with the oven bottom,** forming a convenient shelf. Top cooking surface with reservoir extension is 42½x29 inches; without reservoir, including end shelf, 39½x28½ inches. Height from floor to main top, 29½ inches. Distance from main top to top of warming closet, 26½ inches. Total height, including closet, 56 inches. Size pipe to fit collar, 7 inches. **Furnished with large steel ash pan.** Capacity of reservoir, 13½ quarts.

WE GUARANTEE OUR SEWING MACHINES TWENTY YEARS.

ME BOOMER SIX-HOLE STEEL RANGE

WITH RESERVOIR AND WARMING CLOSET

ANY KIND OF FUEL, HARD COAL, SOFT COAL, WOOD, COKE OR CORN COBS.

WONDERFUL ILLUSTRATION of what we can do in our Newark, Ohio, stove foundry, the in the world, and a positive proof of our ability to build better stoves and ranges and sell them prices than any other manufacturer or dealer in the world. This stove at $11.98, complete reservoir and high warming closet, is offered in competition with stoves widely advertised by ufacturers and dealers at $18.00 to $22.50. While advertisements of such stoves have repre- them to be strictly high grade in every respect, we purchased samples of them, and discovered defects and inferior construction, and to show how much greater value we can offer you, our expert range builders build the Acme Boomer to take the place of these $18.00 to $22.50 and in building it included the best features of all of the different makes. This being done, we that we could sell the range to you at $11.98—the saving is all yours.

DERSTAND, WE DO NOT OFFER this Acme Boomer as a high grade range, because it is equal of any other steel range shown in our catalog; but we do guarantee it to be just as stoves and ranges offered by others at from $18.00 to $22.50. It is a very satis- durable, economical in the consumption of fuel, quick to heat and quick to act. In making have constructed the main top and covers of good stove plate. It has six cooking holes, and ordinary care and usage the main top and covers will last for years. It has a convenient shelf.

OUR ACME BOOMER IS MADE IN ONE SIZE ONLY. Oven 16x18x11 inches, has six No. 8 cooking holes. Size of cooking top, 30½ x 21½ inches. Height from floor to main top, 26 inches. Distance from main top to top of high closet, 23 inches. Total height, including closet, 49 inches. FIRE BOX is 7 inches wide and 5 inches deep. Its length is 17½ inches. Capacity of reservoir, 21 quarts. Size of pipe to fit collar 6 inches.

DETAILED DESCRIPTION.

BODY is manufactured from cold rolled sheet steel heavier and stronger gauge than used by foundries and dealers in their ranges at prices ranging from $18.00 to $22.50.

MAIN TOP AND COVERS are made of good stove plate. All parts of the main top are fitted, with sufficient allowance for heat expansion.

HIGH WARMING CLOSET is of generous proportions, is just at the right height, and will be very convenient. The height of warming closet is 23 inches.

FIRE BOX of improved construction with our flat dump style grate. This grate is lighter than perfect Duplex grate used in the highest grade ranges made by us. With every range furnish, free of cost, an extra grate for wood, so that you can burn either hard coal, soft coal or wood.

ASH PAN is made of cold rolled steel with handsome draw out handle.

OVEN is of very generous proportions, perfectly square, is a very satisfactory, quick, even baker, and is furnished with a steel wire oven rack and convenient clean out directly under the oven.

OVEN DOOR is our latest swing pattern, attractive rococo design, steel lined, perfectly square and fits snug to the body of the range, thus retaining all the heat in the oven.

RESERVOIR is made of galvanized iron and heats by direct contact with the end of the range. Attached to either end and, if so desired, can also be used on top of the range. Being made of galvanized iron, it will not rust nor corrode and is by far a better reservoir than that on ranges sold at $18.00 to $22.50 by other dealers. This is the only steel range we build without cast iron, which is used by us on all our other ranges. In shipping this range we pack the reservoir inside the oven. It is easily attached to the right or left end of the range.

FLUE BACK which conducts the heat from the flue beneath the oven to the stove pipe is made of the highest grade cast iron stove plate. This is a very important feature. Nearly all stoves sold for more than double the price we ask for this, our Acme Boomer Range, are fitted with a thin sheet steel flue back, which easily burns out.

PRICES, STRONGLY CRATED AND DELIVERED ON THE CARS AT OUR NEWARK, OHIO, FOUNDRY.

No. 22F200	Square Top Range, without high closet or reservoir, but with end shelf.	Shipping weight, 185 pounds. Price	$ 9.60
No. 22F201	Reservoir Range, without high closet, but with reservoir.	Shipping weight, 190 pounds. Price	10.35
No. 22F202	Square Top Range, without reservoir, but with high closet and end shelf.	Shipping weight, 215 pounds. Price	11.62
No. 22F203	Steel Range complete, just as illustrated, with high closet and reservoir.	Shipping weight, 220 pounds. Price	11.98

These Prices Do Not Include Pipe or Cooking Utensils. We Do Not Furnish Water Front for the Acme Boomer Range.

ME ROVER GENUINE STEEL FOUR-HOLE COAL AND WOOD STOVE

WITH OR WITHOUT RESERVOIR. 1911 MODEL.

GREATEST STOVE VALUE EVER OFFERED.

WE GUARANTEE OUR STOVES TO REACH YOU IN PERFECT CONDITION, BLACKENED, BEAUTIFULLY POLISHED, READY TO SET UP AND USE.

Three sizes, direct from our foundry, offered at $6.74, $7.74 and $8.74 without reservoir, as shown in small illustration, and $7.75, $8.75 and $9.75 with reservoir, according to size, as listed below.

COMPARE THE PRICES with any prices you have ever seen or heard of, in either a steel or cast iron cook stove, and you will find the price we are offering on this steel cook stove less than one-half what others charge, and it is positively THE GREATEST STOVE VALUE THE WORLD HAS EVER SEEN.

COMPARED WITH THE LOWEST PRICES we could possibly make you on any of our cast iron cook stoves we save you easily from $4.00 to $7.00, and compared with any other steel cook stove we could sell you, we show you a saving of from $6.00 to $8.00; and compared with any price any other maker or dealer could offer you, we show you a saving in cost on this, OUR ACME ROVER STEEL COOK STOVE, of easily $7.00 to $15.00.

DETAILED DESCRIPTION.

BODY is built of heavy smooth steel plate, is substantially put together, riveted with wrought iron rivets, strongly reinforced and braced in every part. The heavy plates are well riveted and jointed. The size of pipe collar is 6 inches on all sizes.

MAIN TOP AND COVERS are made of good stove plate. It has four cooking holes and with ordinary care and usage the main top and covers will last for years. All parts of the main top are carefully fitted, with sufficient allowance for heat expansion.

FIRE BOX is provided with practical cast iron linings, with shaking and dumping grate. With every stove we include, free of cost, an extra grate for wood so you can burn hard coal, soft coal or wood.

FIRE DOOR is beautifully designed and swings to the left.

ASH PIT is large and roomy and is provided with a large ash pan.

DRAFT SLIDE is in front, of more than usual capacity.

OVEN is of very generous proportions, perfectly square, is a very satisfactory, quick and even baker, and is furnished with a steel wire oven rack.

ACME ROVER, WITHOUT RESERVOIR.

OVEN DOOR is on the right side (the left side is left blank). Our latest swing pattern, attractive rococo design, steel lined, perfectly square, and fits snug to the body of the stove, thus retaining all the heat in the oven.

FLUES are ample and provided with clean out in rear of ash pit, which is reached from the left end of the stove.

RESERVOIR is made of galvanized iron, heats by direct contact with either end or left side of the stove, lifts off easily and can be used on either end or rear side at pleasure or can be used on top of stove as occasion requires.

GOOD SERVICE. The long looked for steel cook stove for practical people, neat, compact, serviceable and cheap. No such value in a cook stove ever offered before. This, our Acme Rover Steel Cook Stove, is shipped ready to set up, the four legs and all other loose parts packed inside. When received you have only to put on the legs, pipe and other loose parts, when it is ready for fire, the same as if you were moving an old stove from one room to another.

TO SELECT A STOVE LARGE ENOUGH to meet your requirements. Catalog No. 7-12 is the smallest Acme Rover Steel Cook Stove we make. It has lids and a small 12-inch oven. Refer to the sizes below, noting the stove number, size of lids, size of oven, and select a stove large enough to fit your cooking utensils.

DELIVERED ON BOARD THE CARS AT OUR FOUNDRY IN NEWARK, OHIO, FOR OUR ACME ROVER STEEL COOK STOVE, FOR COAL AND WOOD, FOUR COOKING HOLES, DUMPING GRATE, LARGE ASH PAN, STEEL OVEN RACK. WHEN ORDERED WITHOUT RESERVOIR AN END SHELF IS FURNISHED.

ATERIAL AND CONSTRUCTION OF WEHRLE No. 30 SIX-OLE FULL NICKEL TRIMMED CAST IRON RANGE

SHOWN ON THIS AND PRECEDING PAGE.

N TOP, COVERS, CENTERS AND ANCHOR PLATES. These ARE the of the range, exposed to the direct action of the fire, and must stand the test of fire. Because of the strict attention which we give to each and every one of these will never have any trouble due to cracking or warping, as we guarantee our cast- the very best stove plate. These plates must not be compared with the cheap malleable iron main tops, covers, centers and anchor plates some manufacturers use in their so called steel ranges. Every range is fitted with four solid covers and one nest cover or graduated lid made in three sections, one anti-scorch cover.

Ribbed Lids and Centers Wehrle No. 30 and 65 Cast ranges.

COAL FEED POUCH AND BROILER DOOR. For the convenience of the user we have equipped our Wehrle No. 30 Range with a feed pouch and broiler door, which is hinged on the left end of this magnificent range. It can be easily utilized for broiling or placing fresh fuel on the fire without disturbing what is cooking on top of the range. By simply lifting the door with the Alaska wire handle, a broiler may be inserted through the opening and you can broil and toast to your entire On the hard coal range the broiler door is slightly different from that shown in illustration on preceding page. It drops down instead of lifting up. See small

T DOOR will be found directly below the feed pouch and broiler door. It has two check registers, insuring a perfect bed of fire with no dead corners. By turn key, the entire door can be dropped. When furnished for hard coal the range draft with knob instead of draft door and check registers, as shown in illustration.

WOOD FEED DOOR is the full size of the fire box, substantially and is furnished with an Alaska "never hot" silver The nickeled panel on the outside is a separate silver the process of nickeling being so perfect that dis- the action of the fire is impossible. When furnished the door swings to the left instead of dropping down.

View showing left end of Wehrle No. 30 Range for hard coal and wood, with swing wood feed door, drop coal feed pouch and shaking arrangement.

TED TOP. By means of a silver nickeled lifter the top or anchor plate directly over be easily lifted and held in place by ratchets at two heights. The introduction of this lift or elevated top has solved the problem of broiling meat and toasting bread ordinary way and without smoke or smell. It has also with having to lay the fire by removing the lids and around over the main top, and it enables the user to evenly over the fire, which naturally means more uni- See illustration on page 988.

OVEN. In building the oven of this, our Wehrle No. 30 Six-Hole Cast Iron Range, constructed a perfectly square and airtight oven, sur- heavy iron plates that absorb and radiate the heat, uniform temperature, even with an unsteady fire. To its quick and unusual baking qualities we have made of this oven by placing a biscuit in each of the four in every instance all of them were baked alike, and in this oven retain from 15 to 20 per cent more would in ovens of different construction. Oven door carried, with beautiful silver nickeled panel, is spring gently to a horizontal position, forming an extension shelf which makes it easy and turn a roast without having to lift it, and it is easily closed. Oven door out from the range in such a manner that it does not become hot, as oven door easily do. The oven rack is made of wrought steel rods, is the full width of the constructed that it works perfectly free and cannot be broken. The oven ther- the exact same guaranteed thermometer as described on page 990.

LEVER OF DIRECT DRAFT DAMPER is located to the right and under the main of the range, as is also the reservoir damper. The original construction of our damper does away altogether with the necessity for the user reaching over the hot open or close the damper, and by reason of its being out of the direct course of handle is always cool and will not burn the fingers, as would be the case were located alongside the pipe collar.

HIGH CLOSET WITH ROLLING FRONT Extends the full length of the range of blue polished steel, with beautiful silver nickeled bands, highly finished and appearance. It is just the proper height for the average person to easily reach.

TEAPOT HOLDERS. Beautifully silver nickeled swinging teapot stands hang on double brackets at each side of the high closet. They are lifted quickly and easily attached to either front or back holder at will; an exclusive point.

RESERVOIR CASING is cast iron and artistically carved, the front being decorated with nickeled panel. The tank is made of the highest grade stove plate, white porcelain lined, easily kept clean, easily lifted out and of large capacity. Heats the water quickly. The two reservoir covers are of Art Nouveau pattern, highly japanned.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX. No effort spared to equip our Wehrle No. 30 with most substantial firebrick lined fire box and Dockash grate for the use of hard coal. The fire box and grate conform with each other in shape and operate perfectly, leaving no corners for ashes or clinkers to form and there is always an even fire, proving that combustion is perfect. Fire box will retain the fire all night if the dampers are properly adjusted. When arranged for wood a large fire box is secured by removing the end linings and, with the extension, it measures from 20 to 22 inches, according to size, as shown in table of sizes on preceding page. When ordered for hard coal and wood we furnish a bottom grate for burning wood, which is easily dropped into place on top of the coal grate. When ordered for hard coal and wood the left end of this range appears as shown in the small picture to the left.

DOCKASH GRATE for hard (anthracite) coal is of the most approved pattern Dockash construction and clears the fire of ashes by a half turn of the shaker. The cog wheels which revolve the grate bars are outside the fire box and cannot be affected by the heat or become clogged by ashes. A half turn of the shaker adjusts the grate, turning the reverse side to the fire, although the surface remains the same.

SOFT COAL AND WOOD FIRE BOX is positively guaranteed to be the most economical and durable made in any range. It is the proper size, not too deep. The linings are made exceedingly heavy, are corrugated to prevent warping and are constructed to allow ample circulation of air behind them to prevent burning out. This is the only fire box made with a free and constant circulation of air around it, and produces better combustion than ever before obtained in a range. The fire back or back lining in the fire box is extra heavy and corrugated. All our linings are of proper weight to withstand the heat and are well braced.

> To make sure that we send you the right kind of fire box for the fuel to be used, be sure to tell us in your order whether you burn hard coal only, or soft coal only, or hard coal and wood, or soft coal and wood, or wood only.

DUPLEX ANTI-CLINKER GRATE FOR SOFT COAL AND WOOD. We call especial attention to the adaptability of our Duplex Anti-Clinker Grate for burning soft coal, wood or corn cobs. It is made in two parts, so that a half turn of the shaker cuts out all the dead ashes and clinkers, dropping them into the ash pan without disturbing the temper of the operator. For burning soft coal the grate should always have the concave or open side up. This allows the draft to circulate through the opening and gives proper combustion. For burning wood always be sure to reverse the grate. Simply give it a turn with our perfected shaker crank. This gives you an entirely new design of grate, made especially for burning wood. The solid side of the grate should be up for burning wood. When the range is used for burning wood, the two end linings are removed, thus giving a larger fire box, so that a long stick of wood can be used. See illustration of our soft coal and wood Duplex grate on page 995.

LARGE ASH PAN. Made in one piece, and it will never have to be taken out to be emptied more than once in twenty-four hours. It has heavy wire bailed handle.

ASH PIT DOOR is perfectly fitted and securely mounted. It is finished by our silver nickeling process, has "never hot" silver nickeled knobs and circular check draft for controlling the fire.

LARGE ASH CHUTE, securely riveted and bolted directly under the fire box, forms a funnel, compelling the ashes to fall into the wire bailed ash pan, which is very large and convenient.

ANTI - SCORCH LID furnished free. Made in two sections—the top section having a series of holes which admit the circulation of air between it and the lower section. You can cook oatmeal, rice, all kinds of cereals, frosting for cakes, boil milk or anything that burns easily in an ordinary saucepan on our anti-scorch lid without stirring and without the slightest possibility of even scorching it.

GAS ATTACHMENT We can furnish Wehrle No. 30 Cast Iron Range in all sizes without reservoir, with gas attachment, as shown in illustration on page 988 at $4.50 extra. It will be found an ideal arrangement for convenience in quick boiling, heating, frying, etc., when not using coal or wood.

WEHRLE No. 30 ST IRON RANGE

With Warming Closet, but without Reservoir.

THE EXACT SAME RANGE shown on opposite page without the reservoir. A popular style for towns and cities having water systems.

Water front, each $2.50 and $3.50. See page 988 about hot water fronts. If wanted with gas attachment, add $4.50 to price.

PRICES for Wehrle No. 30 Cast Iron Range, with warming closet, but without reservoir, strongly crated ready for immediate shipment from our foundry at Newark, Ohio, only. Prices do not include pipe nor cooking utensils. For cooking utensils, see page 1046. For stove pipe, see page 1016.

When ordering be sure to tell us the kind of fuel you burn.

ALL NICKELED PARTS LIFT OFF THE RANGE FOR CLEANING.

WEHRLE No. 60 SIX-HOLE CAST IRON RANGE

CAN BE FURNISHED TO BURN SOFT COAL AND WOOD, HARD COAL AND WOOD, OR WOOD ONLY

DETAILED DESCRIPTION.

MASSIVE CAST IRON WARMING CLOSET has double closet doors ornamented with removable applique highly nickeled panels. Closet door handles are silver nickeled, is very roo the bottom on the outside is finished with our removable wave line silver nickeled band.

PIPE SECTION AND BRACKET supporting this high closet is substantially built, attractively designed and has rem applique silver nickeled panel, and on each side has a silver nickeled teapot holde will swing over the stove sufficiently close to the cooking surface to gently steep the tea or keep it warm after it is m

MAIN TOP OR COOKING SURFACE is of very generous proportions cooking holes and is made in allow for expansion and contraction. Front edge is tr heavy cast wave line silver nickeled band which fits the stove is being blackened and is quickly replaced b

TOP, COVERS AND CENTERS are heav and re made of the very highest grade stove plate to stand wear and tear and, because of the strict attention and every one of these parts, you will have no trouble cracking or warping. It is fitted with five solid cove nest or graduated lid made in three sections.

LARGE OVEN in the largest size measures 21 at the door opening, 21 inches the swell of the oven door, and 13 inches high.

OVEN DOOR has our dependable oven therm set in a gorgeous removable sp nickeled medallion panel, as shown in illustration. Ha foot trip, by the use of which it may be automatically the foot while the hands are full, and extending tom of the oven is a handsomely silver nickeled ov

COMBINATION BROILER AND FEED DOOR on th of th ample capacity for receiving lumps of soft coal, making it very con inserting broiler or toaster over the surface of the hot fire. When ordered this door is omitted, as the wood is fed through the end fire door to the left

ASH PIT DOOR is ornamented with a handsome silver nickeled name plate. It opens to the left, permitting the of the extra large reinforced top wire bailed ash pan.

BROAD HEARTH is finished all around the top edge with our fi nickeled band. Ash pit and ash pan are bro

RESERVOIR is large; inside tank made of the best cast iron, thor with pure white porcelain. Reservoir covers are co may be removed and the inside reservoir tank quickly lifted out for clean

REMOVABLE ORNATE HIGH ART TRIMM

All parts shown white in the illustration are fully our famous silver nickeling process. All the gorgeous medallion applied and detached by our most modern method, avoiding gum to hold them. All door handles are nickeled. Has nickeled shelf and nickeled automatic oven door opener. The large left covered by a magnificent silver nickeled name plate.

HARD (ANTHRACITE) COAL FIRE BOX is made of very heavy firebrick linings of superior quality. Dockash Grate is the most approved pattern, clears the fire of ashes by a half turn of the shaker. Cog wheels are outside the fire box and cannot be affected by the heat nor clogged by ashes. A half turn of the shaker adjusts the grate, turning the reverse side to the fire, although the surface remains the same. By this means both sides of the grate are used and, of course, it will not burn out as quickly as it would if the same side were always to the fire. When ordered for hard coal and wood we furnish a bottom grate for wood to be used on top of Dockash grate, and straight nickeled ash catch instead of nickeled panel as shown in illustration. The broiler and feed door drop instead of lifting up.

SOFT COAL AND WOOD FIRE BOX has heavy cast iron lining. Has our hot blast smoke consumer or gas back, governed by a little lever handle at front edge of main top. When starting the fire the lever handle should be thrown to the right; when the coal is burning throw the lever handle to the left, which admits oxygen in contact with the heavily laden carbon smoke and the smoke itself springs into flame, consuming the gas which would otherwise be wasted up the chimney and avoiding heavy festoons of soot in flues around the oven.

DUPLEX Soft Coal and Wood Anti-Clinker Grate is built unusually heavy and so accurately fitted, well balanced and thoroughly constructed that it works easily and perfectly and gives universal satisfaction. For burning soft coal grate should always have concave or open side up. For burning wood always be sure to reverse the grate. Simply give it a turn with shaker. The two end linings are then removed, giving larger firebox so a long stick of wood may be used.

All Nickeled Parts Lift Off the Range for Cleaning.

No. 1.

If wanted without reservoir, but with warming closet, like illustration No. 1, deduct $3.00 from price of any size listed below.

No. 2.

If wanted without reservoir, but with warming closet, like illustration No. 2, deduct $2.50 from price of any size listed below.

WHEN THE EXCLUSIVE WOOD BURNING RANGE IS ORDERED we furnish an especially designed fire box, arranged so that long sticks of wood can be used and fed to the fire through the large wood feed door at end of the fire box, just to the left of oven.

Be sure to tell us in your order the kind of fuel you burn. Say whether you use hard (anthracite) coal and wood, soft coal and wood, or wood only.

PRICES FOR THE WEHRLE No. 60 SIX-HOLE CAST IRON RANGE, COMPLETE WITH RESERVOIR AND WARMING CLOSET. Made in six sizes, securely crated ready for immediate shipment from our foundry at Newark, Ohio. Prices do not include pipe or cooking utensils. For cooking utensils see page 1046. For stove pipe see page 1016.

WATER FRONT for or WATER COIL for $2.50 extra. Do not for water reservoirs. for water fronts.

BOX FOR ONLY con- back, and grate, highest iron. per- open- proper the wood, the ashes. vision heavy cast the fire box roomy, in used fire box.

FOR THE EXCLUSIVE USE OF HARD (ANTHRACITE) COAL OR WOOD our entirely new **Acme Lehigh Hard Coal Range** embodies all the best and desirable features of both the Eastern and Western construction, with the defects of none. There isn't a handsomer exclusive hard coal range made.

IT IS ESSENTIALLY AN EASTERN STOVE FOR PENNSYLVANIA, NEW YORK, NEW ENGLAND AND THE EAST, WHERE HARD COAL IS BURNED ALMOST EXCLUSIVELY. AT THE SAME TIME IT IS VERY POPULAR IN THE NORTHWEST; IN FACT, IN EVERY LOCALITY WHERE A HARD COAL OR WOOD BURNING RANGE IS DESIRED.

Shipped complete with RESERVOIR and WARMING CLOSET, from a warehouse in

Albany, N. Y. Harrisburg, Penn.
Syracuse, N. Y. Newark, Ohio

Pay only the little bit of freight from the warehouse nearest you to your railroad station.

MAIN TOP is made of the best grade iron stove plate, in four sections, to prevent warping or cracking by heat expansion. The long centers, short centers and lids are strongly braced and are carefully fitted with just enough play to allow for expansion, and a detachable highly polished nickeled band ornaments the outer edge of the main top, adding beauty to this handsome new range. **NICKELED BAND LIFTS RIGHT OFF FOR CLEANING.**

LIDS. This range is fitted with four solid lids, one nest or sectional lid in three parts and anti-scorch lid. Any one or all of the sectional lids may be lifted out at one time to fit the different size cooking utensils.

ANTI-SCORCH LID. Made in two sections, the top section having a series of holes which admit the circulation of air between it and the lower section. You can cook oatmeal, rice, all kinds of cereals, frosting for cakes, boil milk or anything that burns easily in an ordinary saucepan on our **Anti-Scorch Lid** without stirring and without the slightest possibility of even scorching it. Shown on page 988.

LARGE STOCKS INSURE PROMPT SHIPMENT.

RESERVOIR AND RESERVOIR CASING. The handsomely carved reservoir casing is made of cast iron and we have taken special pains to make the solid copper tin lined tank of large capacity, a feature which we feel sure will be appreciated by every housekeeper. The tank is removable and easily kept clean.

IT IS NOT INTENDED TO BURN SOFT COAL.

IF WANTED WITHOUT WARMING CLOSET BUT WITH RESERVOIR, DEDUCT $3.00 FROM THE PRICE OF ANY SIZE. When ordered without warming closet we furnish a very handsome tea rail.

IF WANTED WITHOUT RESERVOIR BUT WITH WARMING CLOSET and end shelf, deduct $2.50 from the price of any size.

IF WANTED WITHOUT WARMING CLOSET and without reservoir, deduct $5.50 from the price of any size.

ALL NICKELED EDGES AND NICKELED MEDALLION PANELS LIFT OFF FOR CLEANING WITHOUT REMOVING A BOLT OR SCREW. THIS RANGE WILL REACH YOU READY TO SET UP AND USE, BLACKENED AND BEAUTIFULLY POLISHED.

ASH PIT AND ASH DOOR are full length, high, wide and deep. The large, heavy steel bailed ash pan will hold a large amount of ashes and can be easily lifted from the hearth and removed through the ash door. The ash door is fitted with a draft slide, through which the air passes, burning the coal evenly and getting the full benefit of every particle of fuel.

OUR WRITTEN BINDING GUARANTEE.

WE POSITIVELY GUARANTEE THE CASTINGS used in our Acme Lehigh New Modern Six-Hole Cast Iron Range to be made of pure blended iron, analyzed and tested for its strength and heat giving properties. We guarantee it to operate perfectly, to bake well, to be saving in the use of fuel, and to burn hard coal and wood or wood only with the very best results. Our ACME LEHIGH has been thoroughly tested and we know positively it will do all and even more than we claim for it, and we are ready to back these claims by shipping the range upon receipt of our price to any address in the United States, in any size or style listed. We will agree to pay all freight charges both ways, and return your money if not perfectly satisfactory and found exactly as represented.

A Plain Range With Smooth Castings, Easy to Keep Clean.

When you buy this WEHRLE No. 85 Big Six-Hole Cast Iron Range from us you get the best stove for the money that it is possible to produce in any foundry, a range built on principles that are absolutely correct and designed to meet the growing demand for a range with perfectly plain castings, very little nickel, and easy to keep clean. We guarantee it to last longer, bake better, use less fuel than ranges of the same kind selling at double our price. You can try this WEHRLE No. 85 Big Cast Iron Six-Hole Range in your own kitchen thirty days, and if you do not find it perfectly satisfactory, exactly as represented and the peer of any range you ever saw, regardless of name or make, selling at double our price, ship it right back to us and we will not only return your money but will return all the freight you have paid.

BIG SQUARE OVEN is extra large and the upper half is as serviceable as the lower. All oven plates are smooth and of uniform thickness. Each oven plate is specially arranged to prevent warping or cracking. Has deep nickel plated outside oven shelf.

OVEN DOOR is handsomely carved with nickel name plate and door knob; is substantially mounted with hinge pins, provided with kicker or foot opener, thereby avoiding the inconvenience of stooping over to open it. Has our special oven door thermometer, which measures heat just as a clock measures time or a steam gauge measures steam pressure.

CLEAN OUT is large and convenient, fastened underneath the oven shelf with a turn key.

RESERVOIR has removable lift out porcelain lined tank. The reservoir casing is made of heavy cast pletely surrounds the tank, forming a chamber, and by operation of the special reservoir damper the heat is forced reservoir, heating the water. Reservoir covers are japanned, highly polished, made in two parts with lift out

WEHRLE No. 87 SIX-HOLE CAST IRON RAN

We challenge competition to produce a range selling at $12.00 to $15.00 more than our price to equal this, our WEHRLE No. 87 Cast Iron Range, in material, workmanship, style, ornamentation, finish and improved features of practical utility.

Why buy ranges of other makes when you can secure a dependable, perfect baking, long lasting, fuel saving WEHRLE Range at lower prices than you would have to pay for those of inferior construction?

LEADING FEATURES:—Wonderful Baker. Large Roll Top Warming Closet. Big Cooking Top. Oven Door Well Braced, Drops Flush, Forming a Convenient Shelf. Ideal Fire Box Arrangement for Hard (Anthracite) Coal and Wood, Soft Coal and Wood, or Wood Only. Oven Thermometer Registers the Heat in the Oven. Anti-Scorch Lid Lessens Kitchen Work. Porcelain Lined Reservoir Tank. Silver Nickeled Front Towel Rail.

BROILER DOOR has check slide to control the fire and is a great convenience for feeding coal and broiling.

When ordered for wood only this door is omitted, as the wood is fed through the end fire door to the left of the oven.

SOFT COAL FIRE BOX has heavy cast iron linings, correctly proportioned, securing the greatest efficiency for the amount of fuel used.

DUPLEX SOFT COAL GRATE. One or two movements of the crank cuts out the dead ashes and clinkers and drops them into the ash pan. Will burn soft coal only or both soft coal and wood. An extension lengthens the fire box when end linings are removed, and very long wood may be burned. A half turn of the shaker crank reverses the grate for wood.

HARD COAL FIRE BOX has very heavy firebrick linings of superior quality, and Dockash grate. It will hold fire over night. A full turn of the shaker adjusts the grate, turning the reverse side to the fire although the surface remains the same. By this means both sides of the grate are used and, of course, it will not burn out as quickly as it would if the same side were always to the fire. When ordering for hard coal and wood we furnish, free, a bottom grate for burning wood, which may be easily put in place.

FIRE BOX FOR WOOD ONLY is large and roomy, linings heavy and lasting. The wood extension is made of extra heavy cast iron. Coal will not burn in the wood fire box.

NEAT AND PLAIN. SMOOTH INGS. NO CARVINGS TO CATCH HOLD DIRT. EASY TO KEEP C

For Hard (Anthracite) Co and Wood; Soft Coal, Co Wood; or Wood Only.

CME GRAND SIX-HOLE CAST IRON RANGE

A Splendid Baker, a First Class Cooker and Great Fuel Saver. Quality Guaranteed All That Could Be Desired in a Range. Price One-Third Less Than Other Dealers Charge.

E FURNISHED TO BURN HARD (ANTHRACITE) COAL, WOOD AND COBS, OR SOFT COAL, WOOD AND COBS, OR WOOD ONLY.

TOP, COVERS AND CENTERS are made of high grade stove plate of superior quality. Furnished with one three-piece sectional or nest lid and five solid covers. Provision is proper expansion of the iron when submitted to the most intense heat without warping or breaking. **Has a nickeled band on front edge.** in a quick, even and satisfactory baker; has deep nickel Plated outside oven shelf and strong oven rack. **Oven door** is substantially mounted, aluminized on inside, provided with sponer to open it. Has our **special oven door thermometer,** which measures heat just as a clock measures time. **COAL FIRE BOX is large and commodious,** so constructed that it is not necessary to have a big fire to heat the cooking surface. The linings are extra heavy.

L REACH YOU READY TO P AND USE, BLACKENED POLISHED.

TO $22.35, according to size and fuel used, are for our high grade, new style, up to **ACME GRAND SIX-HOLE RANGE** with reservoir and high making this range we use nothing highest grade stove plate made from pig iron, and at these special prices for hard (anthracite) coal and wood, and wood or wood only, exactly as and described, complete with high shelf and porcelain lined reservoir, board the cars at our foundry at Ohio, from which point you pay the The stove, complete as weighs 410 to 450 and the freight will aver- 500 miles from $1.50 to or less distances in So you see the freight will

DUPLEX GRATE for soft coal and wood is absolutely the best made; gives free access of air to all parts of the fuel. The grate will burn soft coal only or both soft coal and wood. A half turn of the shaker crank reverses the grate for wood or coal. An extension lengthens the fire box when end coal linings are removed, and very long wood can be burned. **Be sure to state the kind of fuel used.**

HARD (ANTHRACITE) COAL FIRE BOX has heavy firebrick linings of superior quality and DOCKASH GRATE for burning hard (anthracite) coal. A half turn of the shaker adjusts this grate, turning the reverse side to the fire, although the surface remains the same. By this means both sides of the grate are used and it will not burn out as quickly as it would if the same side were always to the fire. When ordered for hard (anthracite) coal and wood, we furnish free a bottom grate for burning wood, which may be easily put in place.

FIRE BOX FOR WOOD ONLY is large and roomy. The wood extension is made of extra heavy cast iron. The grate and linings are heavy and lasting. **Coal will not burn in the wood fire box.** When ordered for wood only, the coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven. **Be sure to state the fuel you burn.**

HEARTH is large and smooth and draws out so that the entire ash pit is exposed for removing the ash pan.

RESERVOIR CASING is handsomely carved, made of the highest grade stove plate; has removable lift out white porcelain lined **reservoir tank** of large capacity.

DIRECT DRAFT DAMPER HANDLE is located at the right of the pipe collar. When baking it should be pulled up as far as possible.

RESERVOIR DAMPER is very simple. When turned up all the heat passes beneath the reservoir, heating the water in it very quickly. When baking turn it down.

LARGE ROCOCO HIGH BACK SHELF with nickel plated teapot holders is the very handsomest design, made of high grade material with the same care and superior workmanship that characterizes our entire line.

OR FEED DOOR is mounted to the left has check slide fire. for wood only this as the wood is fed door to the **DOOR below the feed** large and swings free access to the lighting it; has regulating the fire. large, with heavy wire handle or bail, commodious ash pit.

WATER FRONT for Acme Grand, extra, $2.50. Do not mistake water front for water reservoir. The small illustration to the left is a popular style for Water Front used only where there is a water supply furnished with constant pressure through pipes, which can only be obtained in large towns or cities having waterworks, or from elevated pressure tanks. See page 988 about hot water fronts.

BY OUR TRIAL OFFER you can order this range, enclose our price, and we will send it to you with the understanding and agreement that you can give it thirty days' trial and if for any reason you become dissatisfied with your purchase, if you do not find, after comparing it with stoves sold by others, that it is a better stove than you could get elsewhere and at a saving of $10.00 to $15.00, you may return the stove to us at our expense and we will return your money, together with any freight charges you paid.

BE SURE TO STATE THE FUEL YOU BURN.

WEHRLE No. 90 FIVE-HOLE CAST IRON RANG

POSITIVELY THE NEWEST, MOST MODERN, LOWEST PRICED AND IN EVERY WAY THE BEST FIVE-HOLE CAST IRON RANGE EVER MADE.

CAN BE FURNISHED FOR HARD (ANTHRACITE) COAL, SOFT COAL, COKE OR WOOD.

When ordered for Hard (ANTHRACITE) Coal or Soft Coal, we furnish Free a High Grade Cast Iron Bottom Grate for Burning Wood.

Blackened and polished, ready to set up and use.

PLAIN SMOOTH CASTINGS, EASY TO KEEP CLEAN, MADE OF THE HIGHEST GRADE STOVE

We guarantee our Wehrle No. 90 Five-Hole Cast Iron Range will do more and better work greater satisfaction for a longer period than similar ranges sold at double our price

MAIN TOP has big cooking surface and is cut and braced to prevent fire cracking and warping.

BROILER DOOR is large, fits flush with the main top and drops down, catching any loose coals or ashes near Through this opening a broiler may be inserted over the bed of red hot coals.

MANTEL HIGH SHELF is an entirely new, perfectly plain pattern. It is large and roomy; can be easily be found very convenient.

SOFT COAL AND WOOD FIRE BOX has heavy cast iron linings and flat dump grate, guaranteed to economical and durable made in any range. We also furnish a flat dump grate to fit in place of the coal grate for

HARD COAL FIRE BOX has firebrick linings of superior strength and quality and Dockash Grate in right and cast iron front and back end linings. It is long, wide, deep, of big capacity, and its construction prevents the ashes from clinkering. It is guaranteed to hold fire over night.

DOCKASH GRATE for hard (anthracite) coal clears the fire of ashes by a half turn of the shaker. The cog wh revolve the grate bars are outside the fire box and cannot be affected by the heat or become clogged with ash furnish a flat grate to fit on top of the Dockash Grate for burning wood.

WOOD FIRE BOX has heavy cast iron linings, consisting of a flat bottom grate, front grate and fire back.

OVEN is high, perfectly square and thoroughly ventilated, and will bake perfectly with very little fuel; has oven rack. The plain outside **oven shelf** adds to the beauty of the range.

OVEN DOOR is substantially mounted, has highly nickel finished name plate with our dependable thermometer, which registers the heat of the oven and makes baking a pleasure, forming a pleasing contrast with the smooth black surface of the range. The door is aluminized on inside and is supplied with oven pedal (or kicker), enabling the operator to open the door with foot without effort or bending down.

HEARTH is broad, plain and smooth, without nickel ornaments.

ASH PIT DOOR has draft slide, through which air passes, burning the coal evenly and getting the full benefit out of every particle of fuel.

ASH PAN is made of heavy sheet steel, with draw out handles; it is large and roomy, extending under the entire grate surface.

RESERVOIR CASING is made perfectly plain, of extra quality stove plate.

REMOVABLE RESERVOIR TANK is of large capacity, white porcelain lined and easy to keep clean.

WEHRLE No. 48 FOUR-HOLE CAST IRON RAN

Burns Anything, Hard Coal, Soft Coal, Coke, Wood, Chips or Cobs.

A SPLENDID FOUR-HOLE FAMILY RANGE WITH PERFECT OVEN AND OUR DEPENDABLE OVEN THERMOMETER, LARGE, ROOMY COOKING TOP, CONVENIENT HIGH SHELF WITH TWO SILVER NICKELED TEAPOT HOLDERS.

OUR WEHRLE No. 48 FOUR-HOLE CAST IRON RANGE is steadily growing in popular favor for its many advantages over the ordinary cook stove. It takes up less room in the kitchen and with it more work can be accomplished in the same space of time and done easier and more economically. Offered to meet the wants of those who wish to spend only a small amount for a strictly modern, first class four-hole cast iron range. **Attractive in appearance, substantial in construction, perfect and economical in operation and has all the modern improvements.** In mounting, fitting and finish it receives the exact same care and attention that characterize our higher price ranges.

If you send us an Wehrle No. 48 F Cast Iron Range or any in this catalog, the sta to you with the understa agreement that you can thirty days' trial, and find it throughout the gre value you have ever seen satisfactory in every re it to us at our expense return your money, tog any freight charges paid

DETAILED DESCRIPTION.

MAIN TOP has a large cooking surface; is of the sectional style to allow for expansion and contraction without fire cracking, and contains four cooking holes.

COAL FEED OR BROILER DOOR at left of the main top fits flush, is large and so arranged that coal may be fed to the flames, or a broiler may be inserted over the bed of red hot coals.

ASH PIT DOOR is directly under the coal feed door, has draft slide to control the fire.

ASH PIT is of large capacity and is provided with a heavy bailed ash pan.

HEARTH is large, smooth and deep, and draws out the full width, exposing to view the full size of the ash pit, making it extremely easy to remove the **ash pan,** also giving access to the flue stopper behind the ash pan, through which to clean soot and dust from under the oven. When ordered for **wood only, ash pan** is omitted; it is not needed.

FIRE BOX is built for burning either hard coal, soft coal or wood. When ordered **for wood only** the fire box is furnished with a **heavy built-in fire back,** which is not removable, and when ordered for **burning coal** we furnish an additional extra **heavy removable fire back** in three sections, which enables the user to replace one section when necessary without purchasing an entire new fire back.

GRATES. We furnish a full shaking and dumping grate for the use of hard or soft coal, and when ordered for wood only we furnish our **improved bottom wood grate** and, with the end linings removed, you have an extra large fire box for burning wood only.

WOOD FIRE DOOR is the full width of the fire box.

OVEN is full size and is so constructed that you have an even distribution of heat, making it an ideal baker.

OVEN DOOR is substantially mounted, aluminized on the inside and ornamented with a handsome silver nickeled medallion. It is supplied with a kicker or foot opener, to avoid unnecessary stooping when the hands are full. Has our **special oven thermometer,** which tells you when your oven has reached the degree of heat desired, makes it easy to maintain a uniform temperature and makes good baking easy to the most inexperienced.

RESERVOIR AND RESERVOIR CASING are made of the best cast iron. Reservoir tank is white porcelain lined to prevent rusting and keeps the water pure and clean. Easily lifted out and holds 11½ quarts.

HIGH SHELF is one of our very latest designs, attractive and convenient.

IF WANTED WITHOUT RESERVOIR, but with high shelf, just like this small illustration, deduct $2.00 from the price of any size.

IF WANTED WITHOUT HIGH SHELF, but with reservoir, deduct 75 cents from the price of any size.

IF WANTED WITHOUT RESERVOIR AND WITHOUT HIGH SHELF, but with tea rail with two teapot holders and end shelf, deduct $2.75 from prices listed below.

Be sure to say whether you burn wood only, or coal and wood.

WATER FRONT

FOR THE WEHRLE No. 48 RANGE. $2.50 EXTRA.

It can be easily fitted into the fire time by simply removing the front not mistake water front for water The small illustration to the left sho lar style for water fronts, used only is a water supply furnished with pressure through pipes, which can tained in towns and cities having or from an elevated water pressure page 988 about Water Fronts.

Prices, with reservoir and high shelf, delivered, strongly crated, on the cars at our Newark, Ohio, foundry. Prices do not include pipe or cooking utensils. For cooking utensils see page 1046. For stove pipe see page 1016.

...le and Elegant Design, Plain ...th Castings, No Carvings to ... and ... Dirt, ...ouble ...Keep ...e. A ...Labor

...ere is say ...you burn ...Coal and ...Soft Coal ...Fuel, or ...ly.

METHOD OF CONSTRUCTION.

MAIN TOP is extra broad, sectional style, to allow for expansion and contraction without fire cracking. Long center is cut, supported by post; will not warp. Has four heavy solid lids and two heavy short centers.

DROP COAL FEED DOOR is arranged so that coal may be fed to the fire, and through this opening a broiler may be inserted over the bed of red hot coals. Has draft slide and Alaska wire handle.

THE FIRE BOX is unequaled for burning either coal, wood or corn cobs. Has our famous Anti-Clinker Duplex Combination Coal and Wood Grate. For burning coal the grate should always have the concave or open side up. For burning wood be sure to reverse the grate. Simply give it a turn with the shaker crank, turning the solid side up, and with the end linings removed, gives a perfect wood fire box.

FIRE BOX TO BURN WOOD ONLY is extra large, has heavy ribbed fire back, solid fire bottom and front swing fender.

RESERVOIR CASING made of the best cast iron, neat carved design, and has convenient damper.

TANK is white porcelain lined to prevent rusting and keeps the water pure and clean. It is easily lifted out for cleaning.

DAMPERS. Has convenient direct draft and reservoir dampers.

BOTTOM FLUE CLEAN OUT is in ash pit back of the ash pan, and in addition the stove has two round flue covers on main top for cleaning back flues.

...is of large ca... ...ed with a lift out ...ash pan. Can be ...d from the front.

DESCRIPTION.

MAIN TOP is fitted together in a manner to overcome warping; has heavy cut centers, supported by post.

ASH PIT DOOR is substantially mounted, supplied with check draft to control the fire.

HEARTH. Draws out sufficiently for the easy removal of large ash pan.

FIRE BOX has heavy linings, with very heavy sectional fire back, and is fitted with a convenient and substantial flat dump coal grate, and when ordered for wood only we furnish flat dump wood grate and one-piece fire back.

FIRE DOOR for wood is large and opens the full size of the fire box.

POUCH FEED, mounted to the front of the main top, is very convenient for putting in coal when coal is used for fuel.

OVEN will be found unequaled in baking and roasting qualities, is well constructed and well fitted, and has handsome outside oven and shelf.

OVEN DOORS. The Acme Globe has two oven doors, aluminized on inside, handsomely nickeled door knobs. The right hand door has foot trip, by the use of which the door may be opened while the hands are full.

RESERVOIR. The reservoir casing is made of extra quality stove plate and the tank is white porcelain lined.

All sizes take 6-inch pipe. See further description to the right.

WHEN ORDERING A WEHRLE No. 52 STOVE be sure to say whether you wish a combination stove for burning coal and wood, as illustrated, or a stove for burning wood only. When ordered for wood only the swing feed door is omitted, as the wood is fed through the end fire door.

The prices named below are absolutely the lowest prices ever made on a ... Cook Stove for Burning Wood or for a combination Coal and Wood burning ... with reservoir, and we know these prices are lower than any other manufac... possibly make and offer a stove that would begin to compare with these in quality of materials, draft control, accurate fitting and general control.

DESCRIPTION.

MAIN TOP, COVERS AND CENTERS are of standard weight and durable, made of No. 1 pig iron. When you buy a stove from us you get the best that can be made in material, construction and design.

FIRE BOX is large and exactly the length shown opposite each catalog number and price below or to the left. It is fitted with a substantial flat dump grate, is equipped with an extra flat grate for burning wood and can be easily converted for burning either coal or wood. Fire back is one solid piece of extra heavy casting, substantially mounted in the stove, which also serves as the upper front oven plate and is not detachable. To change for wood, remove both end linings and dump grate and put in the extra flat wood grate.

Wehrle No. 52 Cast Cook Stove With Reservoir. If wanted without reservoir see prices and illustration to the left.

OVEN measures exactly as we state below or to the left without including ... oven doors, of which there are two—one on each side.

ASH PIT DOOR swings to the left and is supplied with slide check draft to ... **RESERVOIR CASING** made from heavy stove plate, nicely designed ... is cast iron, lined with white enamel, easy to keep clean and easily lifted out. ... japanned covers. **HEARTH TOP** swings to the left, exposing a large ash pit ... heavy ash pan. When ordered for burning WOOD ONLY ash pan is omitted.

New Style Round Acme Radiator.

Can be placed on a stove pipe in the same room with a stove, or it can be placed in an upstairs room on a stove pipe by running through from any kind of a stove below and will heat the upper room without the expenditure of a single extra cent for fuel. When used in the same room with the stove the feet for the radiator are not required, but when you attach it to the stove pipe in the upper room it has a set of feet to support it on the floor. For use with stove burning hard (anthracite) coal or wood. Weight, crated, 30 pounds. Shipped from Chicago or Rochester, N. Y.

No. 22F539 For 6-inch stove pipe, made of smooth, cold rolled steel. Diameter, 12 inches. Height, with feet, 30½ inches. Price $2.60

No. 22F540 For 6-inch stove pipe, made of highly polished American patent planished iron. Diameter, 12 inches. Height, with feet, 30½ inches. Price.....$3.25

PATENT STOVE PIPE.

We do not handle made up (put together) stove pipe, for the reason that the cost of crating single lengths, together with the high freight rate, would make it an unprofitable purchase for our customers. Freight rate on made up stove pipe is more than double the first class rate, while the patent stove pipe we sell can be shipped fourth class, with a very low freight rate. This pipe is not made up, but the seam is formed and the edges turned over. Easy to put together by simply joining the two laps, interlapping the crimp end, which locks the joint firmly together, and then tightening the seam with a mallet or hammer. Nested for shipping, a dozen joints do not occupy any more space than one joint put together. Full crates contain twenty-five joints.

We guarantee this pipe to reach you in good condition. Pipe and elbows shipped only from Newark, Ohio, or Chicago, Ill.

No. 22F615 Patent Stove Pipe. 28-gauge smooth steel. 24 inches long.

Diameter, inches	5	6	7
Weight, per joint, pounds	1¾	2½	2¾
Price, per length	$0.08	$0.09	$0.10
Per crate of 25 joints	1.80	2.10	2.25

No. 22F616 Wellsville Polished Blue Steel Pipe, made the same as No. 22F615. Length, 28 inches. Only an expert can tell this from genuine Russia iron pipe. The best pipe to use.

Diameter, inches	5	6	7
Weight, per joint, pounds	2¾	2¾	3½
Price, per length	$0.16	$0.17	$0.20
Per crate of 25 joints	3.80	4.05	4.80

ree-In-One Parlor Heater With Oven

WEHRLE No. 109 CAN BE FURNISHED FOR WOOD ONLY, OR COAL ONLY, OR COAL AND WOOD.

HEAT, BAKE AND COOK AT THE SAME TIME WITH THE SAME FIRE

WE RECOMMEND THIS, our Wehrle No. 109 Parlor Heater With Oven, to those who want to **do light housekeeping and care for but one fire;** also to those who must consider economy of space in living rooms as well as saving in fuel in cooking and heating. It is **especially desirable** for summer cottages, and is built to meet the requirements of a cook stove and heater, being a combination of both.

MADE OF THE VERY BEST MATERIAL and in the most careful manner, strong and durable. **CASTINGS** are plain, smooth and easy to keep clean. **ORNAMENTAL TOP** is in two parts, swings to either side or may be removed entirely when cooking. **MAIN TOP** has two cooking lids and removable center, permitting the use of cooking utensils or a wash boiler. **OVEN** is directly under the fire box; it is much larger than in most stoves of this class and with its perfect fire construction gives it baking qualities equal to the best cook stove. **PLAIN OUTSIDE OVEN SHELF** adds to the beauty of the stove. **CAST IRON MANTEL SHELF** on the back of the stove is an entirely new feature, perfectly plain. It is large and roomy and very convenient. **FIRE BOX** has heavy cast iron linings, with **SHAKING AND DUMPING GRATE** for burning coal and **FLAT DUMP GRATE** for burning wood. When ordered for coal and wood both grates are furnished. Has **COAL FEED POUCH** and **BROILER DOOR** for burning coal, and **WOOD FEED DOOR** for burning wood. **ASH PIT DOOR** is substantially mounted and has slide draft register, through which air passes, burning the fuel evenly. **HEARTH** is broad, plain and smooth, opens wide for the removal of the ash pan. **ASH PAN** is wired around the top, with ball for carrying. **FIRE BOX** on stove for **WOOD ONLY** is 3 inches longer than on the **COAL STOVE.** Height from floor to swing top, 31¼ in.

We guarantee our Wehrle No. 109 Three-In-One Parlor Heater to reach you in perfect condition. BLACKENED and POLISHED ready to set up and use. An ornament for any room.

me Moose Laundry Stove and Neverbreak Drum Oven

SHIPPED FROM WAREHOUSE IN CITY NEAR YOU

3.90 Acme Moose Four-Hole Laundry Stove

Has Four 8-Inch Cooking Holes.

THIS FOUR-HOLE LAUNDRY STOVE, burning any kind of fuel with our new and improved dumping grate, is the very best laundry stove manufactured in any stove foundry in the world. It is really the most wonderful value; has four covers, each fitting in a No. 8 cooking hole; top measurement over all is 21x22 inches—big enough to accommodate a great big wash boiler and cooking utensils at the same time. It will also ake the new style steel or galvanized iron tubs now in common use, and the arrangement of the fire pot and construction of main top is such that the heat is evenly distributed and it is a quick heater, economical in the use of fuel. Made from the very highest grade of selected Southern pig iron.

WE FURNISH OUR NEVERBREAK ALL STEEL DRUM OVEN at $1.52 extra, as illustrated and ...on this page, and which in connection with this laundry stove makes a complete ...stove. This stove has four 8-inch cooking holes. Diameter of fire pot, 12½ inches. ...of fire pot, 6½ inches. Top cooking surface, 21x22 inches. Height, 23½ inches. ...stove pipe collar. Shipping weight, 105 pounds.

...22F530 Price.....$3.90

Quick shipment from any of the following cities, the one nearest you:

Albany, N. Y.	Indianapolis, Ind.
Syracuse, N. Y.	Kansas City, Mo.
Harrisburg, Penn.	St. Louis, Mo.
Newark, Ohio	St. Paul, Minn.
Chicago, Ill.	Fargo, N. Dak.
Milwaukee, Wis.	Sioux Falls, S. Dak.
Grand Rapids, Mich.	Davenport, Iowa
Omaha, Neb.	Waterloo, Iowa

Our New Neverbreak All Steel Drum Oven $1.52

Will make a good cooking stove out of any heater or laundry stove. Attach this oven to any 6-inch stove pipe and to any laundry or heating stove and you will have an ideal cooking stove and heater or laundry stove combined in one. **Body** made of cold rolled steel, with pipe collar on top and bottom to fit 6-inch pipe. Fitted with removable steel rack. Oven measures 8⅞ inches wide, will easily accommodate an 8-inch pie plate or an 8x17-inch baking or roasting pan. Guaranteed to heat evenly and thoroughly, making it a first class baker. We especially recommend that in ordering a laundry stove or a small heating stove you order one of our Neverbreak All Steel Drum Ovens. Shipment will be made from our Newark, Ohio, foundry.

When ordered with our Acme Moose Laundry Stove we ship from a warehouse very near you. Even though you have a cook stove or range in your kitchen, you will find our Neverbreak oven almost indispensable attached to your laundry stove or heater, for oftentimes you will find it convenient on washday to get your lunch or dinner on the laundry stove in connection with the Neverbreak All Steel Drum Oven, or, in the evening, a quick luncheon or small supper or dinner can be conveniently prepared on one of our heating stoves in combination with this new 1911 Neverbreak all steel oven. **Drum** measurement outside is 12x18 inches. Shipping weight, 13½ pounds. It is a wonderfully quick baker, saves the waste of heat passing up the pipe; tends, in connection with the heating stove, to give more radiation, therefore more heat out of a given amount of fuel, and is especially efficient when used in connection with a laundry or heating stove. Can be shipped from a warehouse in a city near you when ordered with our Acme Moose Laundry stove.

No. 22F531 Price.....$1.52

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

TO $3.82 Acme Pride

Special Hard or Soft Coal or Wood Burning Laundry Stove.

BLACKENED AND POLISHED, READY TO SET UP AND USE.

Our new model 1911 improved special coal and wood burning laundry stove, our Acme Pride, which we offer at only $3.06 and up, prices representing the mere cost of materials and labor in our own stove foundry at Newark, Ohio, where manufacturing costs are lower than in any other stove foundry in the world, and to this very low manufacturing cost we add only one small margin of profit, so that this stove, when sent to you at our $3.06 to $3.82 price, represents better value and it is a better laundry stove than you could secure elsewhere at a much higher price.

Our Acme Pride New Improved Laundry Stove is made with two cooking holes, has a very liberal top and has special eight-faced fire pot equipped with special holders, so that you may heat eight sadirons at one time. **These special features make it an ideal laundry stove,** and as it is a splendid heater and the irons lie close to the fire they heat quickly while you may be using the top of the stove for cooking or some other purpose. It has large special pouch feed for coal and our special dumping grate.

Immediate Shipment. We have a large stock securely crated, blackened and polished, ready for immediate shipment.

Acme Pride, made in three sizes as listed below, and delivered on cars at Newark, Ohio.

$1.87 TO $3.34 Acme Pet

Laundry Stove, Burns Anything Used for Fuel.

BLACKENED AND POLISHED, READY TO SET UP AND USE.

Our Acme Pet Laundry Stove burns anything used for fuel. Has every improvement, including our own dumping grate; is made with two cooking holes. Has a large front pouch feed for putting in coal, large size top to take on a big wash boiler, and is made **to take 6-inch stove pipe.**

If you have any use for a laundry stove to burn any kind of fuel, and do not require a stove as large as our Acme Moose at $3.90, illustrated on this page, you will certainly make no mistake in ordering our **Acme Pet Laundry Stove,** in any of the four sizes, at $1.87, $3.03, $3.07 or $3.34, according to size. The freight charges on this laundry stove will amount to practically nothing at all compared with our saving to you in price, as 25 to 75 cents will pay the freight on this stove to any point from 100 to 1,000 miles from our foundry at Newark, Ohio.

We furnish this stove under our binding guarantee, blackened and polished, ready to set up and use, all complete, securely crated, delivered on board cars at Newark, Ohio, at the different prices as listed below.

THIS BIG HARD COAL HEATING STOVE is in use in almost every part of the United States where hard coal is used for fuel.

WEHRLE No. 100 HARD COAL BASE BURNER

HIGHEST GRADE, MOST POWERFUL DOUBLE HEATING, SELF FEEDING HARD COAL OR CRUSHED COKE HEATER MADE IN THE WORLD.

Blackened and polished ready for immediate shipment from a warehouse in either of the following cities:

Fargo, N. Dak.	Davenport, Iowa	Grand Rapids, Mich.
Omaha, Neb.	Chicago, Ill.	Indianapolis, Ind.
Kansas City, Mo.	Newark, Ohio	Harrisburg, Penn.
St. Louis, Mo.	Albany, N. Y.	Syracuse, N. Y.
St. Paul, Minn.	Milwaukee, Wis.	Sioux Falls, S. Dak.
Waterloo, Iowa		

The raw material in this magnificent hard coal heating stove is the very best. IMPROVED DUPLEX GRATE with shaking ring cleans itself when dumped, cuts out the clinkers and dead coal and has ample space to turn them into the large heavy wire bailed ash pan without crushing the clinkers or necessitating the use of a poker. **SELF FEEDING MAGAZINE built with a view to saving fuel** and carrying coal enough at one filling to run the heater twenty-four to thirty-six hours. **ASH PIT AND ASH PAN hold a large quantity of ashes.** It is only necessary to empty the ash pan once a day when the stove is in ordinary use. **MICA DOORS are absolutely airtight,** and by means of silver nickeled turnbuckles are held firmly in place against a cast iron bar extending from the upper edge of the upper mica doors to the lower edge of the lower mica doors. **MICA ILLUMINATION is full and complete** on three sides of the stove. **DOUBLE HEATING CONSTRUCTION provides heat for the main floor and living room** and surplus heat for upstairs. **HOT AIR FLUE has a collar at the top** to which a pipe can be connected for carrying the heated air to the upper rooms. **SCIENTIFIC FLUE CONSTRUCTION provides four times the usual base burner heating capacity. The lower portion of the DOUBLE REFLECTOR PANELS is silver nickel polished** and mirror finished. The upper portion is artistically carved, satin nickel finished. All four corners ornamented with a handsome silver nickeled casting carved in a most artistic lion's head design. **FRONT SIDE ORNAMENTS OR PILASTERS are an original dolphin design.** They are highly polished and in keeping with all the other elaborate nickel parts and ornamentation. **LARGE MASSIVE SIDE FOOT RAILS are easily attached** to the sides of the stove, highly silver nickel polished. **HIGH ART FULL NICKELED LOWER BASE, on which the main body of the stove rests,** is elegantly carved and gorgeously silver nickeled.

Prices of Wehrle No. 100 Base Burner, securely crated ready for immediate shipment from our foundry at Newark, Ohio, or from a warehouse very near you.

With always cold knob** on the right hand front corner, this top is swung to the left, automatically raising the magazine cover, allowing the coal to be poured into the magazine. **DOUBLE HEATING FLUE. Just back of the swing cover is the hot air collar,** from which comes the hot air acquired in the full length double heating flue with which this stove is equipped. Taking advantage of the heat in the smoke gas flues we conduct a hot air flue from the lower main body upward between them and in contact with the fire chamber to the top of the stove. We have gained 100 per cent additional radiation, utilizing it within the same room or sending it to an upper room through a hot air pipe and floor register as may be desired. **SILVER NICKELED DOME TOP. The front corner ornaments are extra large,** heavily nickel plated and highly polished. **Has a rich rococo nickel plated base,** foot rails, front plate, corner ornaments, nickeled swing top, handsome swell nickeled dome with nickeled reflectors, nickeled check drafts, knobs, handles, ornaments, trimmings, etc. Has an extra large self feeding magazine with capacity sufficient for supplying coal for an entire day. Fire chamber made in the three different sizes. Has the celebrated Duplex grate, with oscillating shaking ring; has tea kettle attachment with kettle hole on the back of the stove.

Prices of Acme Corona Base Burners, blackened and polished, strongly crated and delivered on the cars at a warehouse in a city very near you.

Catalog No.	Stove No.	Price	Size of Fire Pot, inches	Floor to Base of Urn, inches	Floor Space, inches	Shipping Weight, pounds

ACME PREMIER

THE CHAMPION HARD OR SOFT COAL AND WOOD BURNING DIRECT DRAFT HOTBLAST HEATING STOVE

Blackened and beautifully polished. Ready to use.

Guaranteed the most beautiful, most richly nickel trimmed, most showy and massive, by far the most elaborate extra large wood or coal burning direct draft heating stove ever built. The top ornamental urn is splendidly finished with a beautiful polish. Just below is our new full swing top, highly nickel plated and polished dome. The outer main top and concave reflector sides are highly nickel plated, nickel swing top turning aside for access to the cover. Inner body is made of heavy cold rolled sheet steel rapidly radiating the heat through the open fretwork. **DOUBLE HEATING FLUE. Beginning near the base in the back of the stove** and extending upward against the fire pot and against the rapidly radiating sheet steel, diverging to the right and left, it passes the smoke collar, returning to the hot air collar in the main top. Back of the swing cover is the hot air collar, taking the heat radiating from the back of the stove that it may be utilized through a hot air pipe in the room above or in the same room with the stove, as may be desired. The upper fire door is mica (isinglass) and remains closed when burning coal, as lower fire door is amply large for any ordinary size lump of soft coal. The lower fire door is double; main door being black casting covered with an outer detachable nickeled plate, as illustrated, and has our latest nickel plated screw check register. **Has our famous indestructible fire pot,** so well known for never having required duplication during the life of any of our Oak stoves. It is fitted on the inside at the top line with our smoke consuming hot blast device, through which air is conveyed (or cut off as desired) by the hot blast door on the outside front roll ring of the fire pot. The fire pot is fitted with a standard draw center shaking grate for coal, or wood grate of the same construction when it is desired to burn wood. **The ash chamber is large and deep,** fitted with a large ash pan. There is a depression in the bottom of the ash pit to keep within any ashes that may occasionally spill over the edge of the pan. When wanted for anthracite (hard coal) we furnish a magazine which goes inside the stove, making it an automatic, self feeding hard coal burning heater. **If you wish to burn anthracite coal don't fail to add, for magazine on any size, $1.13 extra.**

Prices of Acme Premier, strongly crated and delivered on the cars at our Newark, Ohio, foundry ONLY.

ST. LOUIS, MO.

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

The two smallest sizes, Catalog Nos. 22E690 and 22E691, are shipped only from foundry at Newark, Ohio.

DESCRIPTION.

Body, heavy smooth steel. **Main Top** latest Rococo pattern. **Swing Top** when moved to the left discloses a cooking lid which may be used for heating water and other purposes. Urn, medallions on doors, name plate, door knobs, hinges and skirting are all handsomely silver nickel plated. **Fire Pot** made of very best cast iron. **Draw Center Shaking Grate for coal. Wood Grate** is the same type of construction. **Feed Door** opening is large. When both doors are opened large sticks of wood can be used as fuel. When **hard coal** is used for fuel and magazine used with stove fuel can be fed through opening at top by removing lid. If used for fuel it is only necessary to open the lower door.

Self feeding magazine for burning hard (anthracite) coal can be furnished at the following prices: For stove 284 add $1.00, stove 286 add $1.25, stove 288 add $1.25.

Made in two sizes, blackened and polished, carefully crated and delivered on board the cars, at the following special prices:

WEHRLE No. 162 OAK HEATER

Burns Hard or Soft Coal, Wood, Chunks, Cobs, Blocks, or anything that may be burned in any heating stove.

The material used in the construction of this stove is the best to be had and specially selected for its particular purpose. The castings are extra heavy, made of the best quality of Iron. **All parts** are fitted with utmost care, **making** the stove as nearly airtight as it is possible to make any stove.

DESCRIPTION.

Body made of polished heavy **cold rolled oak body steel** fitted absolutely airtight, and will not warp or buckle. Years of testing and experimenting have proven the quality of this steel to be more durable and best adapted for a stove of this kind. **Main Top** is cast in the latest pattern. Ornamented with pressed steel nickel plated band. **Swing top** is a handsome openwork pattern. When moved to left discloses a cooking lid which may be used in heating water and for a great many other purposes. Pipe collar is cast on the main top. **Handsome Urn** ornaments entire stove. **Fire Pot** is extra deep with liberal grate surface. Made of heavy cast iron ribbed and carefully fitted so as to insure the greatest economy in the consumption of fuel. **Grate for Wood** is heavy and durable. Made in two parts. Has draw center so that ashes can be dropped into the ash pan quickly. **Grate for Coal** is made of extra weight and fitted with **draw center** making it possible to clear the fire pot of clinkers and ashes in the least possible time. **Ash Pit** is good size section, airtight, allowing a free circulation of air under grate, adding to their lasting qualities. **Ash Pan** is made of heavy iron. Strong and durable, fitted with bail. **Ash Pit Door** ground and fitted absolutely airtight when closed. Has nickeled lever handle and draft register. **Feed Door** made in one piece of heavy cast iron. **Nickel.** Top Band, Name Plate, Draft Chambers, Lever Handles. Shaker furnished with each stove; in short, it represents all that is possible in the construction of stoves of this kind.

Self feeding magazine for hard (anthracite) coal can be furnished at the following prices: For No. 22F302 add 75 cents, for No. 22F303 add $1.00, for No. 22F304 add $1.25.

Made in four sizes. Blackened and polished, securely crated and ready for immediate shipment from our foundry at Newark, Ohio.

WEHRLE No. 156 OAK HEATER

LASTING AND SERVICEABLE.

Saves Fuel
Holds Fire
Heats Quickly

In our Wehrle No. 156 Oak Heater, $3.99 to $5.99, we demonstrate our leadership as stove builders and this illustration, made direct from a photograph of the stove itself, shows it just as it appears in all its beauty of design and finish.

In this, our Standard Wehrle No. 156 Oak Heating Stove, offered you at $3.99 to $5.99, according to size and style of grates, we offer the stove buyer an oak stove which we guarantee to be superior to the oak stoves offered by many dealers and stove builders at prices ranging from $8.00 to $15.00, and we offer it also as the superior in every way to many advertised stoves of oak pattern which are heralded far and wide as wonderful values at prices in some instances double those asked by us for this highly ornamental and perfect heating stove.

DESCRIPTION.

Sheet steel of the body is heavier than that of oak heaters offered by other manufacturers or dealers. Fire pot has our extra strong ribbed construction; it is perfect in shape and so carefully fitted as to insure the greatest economy in the consumption of fuel, a splendid distribution of heat and an airtight lower body, which makes the stove easily controlled by means of the front draft register. **Broad base** and the top as well are cast in the latest rococo design; **swing top** when moved to the left discloses a cooking lid which may be used for heating water and for a number of other purposes. **We furnish our improved draw center shaking grate for coal and an extra disc for wood.** Ash pan fits perfectly in the ash pit, so that all the ashes fall into it; **pipe collar** is cast on the main top of the stove and takes 5-inch pipe. **Urn** which surmounts the swing top, the band around the main top, the pressed steel nickel plated ring, supported by three pressed steel hangers, are all silver nickel plated.

The freight charges on this, our Wehrle No. 156 Oak Heater, will be almost nothing compared with what we will save you in price. Please remember that you have thirty days in which to use it in your own home, and if at the end of that time you do not find that you have made a big saving in price and received a better stove than you could have procured elsewhere at a much higher price, you may return it at our expense and we will return your money.

WE CAN ALWAYS FURNISH REPAIRS FOR OUR STOVES AND RANGES.

We can furnish the largest size, Catalog No. 22F429, stove No. 115, Wehrle No. 156 Oak Heater, with a self feed magazine for hard (anthracite) coal at 75 cents extra.

We furnish this, our Wehrle No. 156 Oak Heater, in three sizes, carefully crated and delivered on board the cars at our foundry in Newark, Ohio, at the following special prices:

ACME SURPRISE-SUCCESS.

BASE HEATING, FRONT DIVING FLUE, COMBINATION COAL AND WOOD OR EXCLUSIVE WOOD HEATING STOVE.

The only successful Base Burning stove adapted to any sort of fuel.

DESCRIPTION—Has a handsomely designed urn as shown in the illustration. Elegant oval dome swing top, heavily nickel plated and polished to the highest finish. Main top has griddle cover in the center, furnishing a cooking hole when dome is swung aside, and main top in which the griddle cover rests will lift out entirely, leaving the whole main top open to receive irregular chunks of wood which might not go in the large fire door. The main body is made of highest quality stove plate castings which make for it strength, durability and finish unexcelled by any other stove made in the world. In the lower front is the screw draft register, highly nickeled and polished, through which the draft supply is obtained and by which the draft can be cut off airtight. The large fire door is at right end, has a large nickeled hand grip turnkey. A full silver nickeled ash catch or small hearth is at the bottom of this door and the grate being considerably below this line, combines to make it impossible for ashes to spill on the floor when the door is opened. Ash pan is large and full length of the bottom grate. Has standard Duplex grate, quickly converted into a wood burner by removing the Duplex grate bars and placing in the wood grate found packed in the stove. The draft is down the main front to the base flues, passing back and upward to the pipe collar and into the smoke pipe. There is an automatic damper, the handle of which is shown in contact with a "trip" at the back of the fire door, so that when opening the door the direct draft is also opened automatically and no smoke creeps out at the top line of the door when putting in fuel. **Burns hard coal, soft coal or wood**—anything that can be burned in any stove. **The Acme Surprise-Success cannot be furnished with a self feeding magazine.**

The coal fire box on all sizes is 6 inches deep. On stove No. 21, 9 inches wide and 19 inches long; on No. 23, 10 inches wide and 21 inches long, while stove No. 25 has fire box 11 inches wide and 23 inches long. All sizes take **6-inch stove pipe.**

Prices, strongly crated and delivered on the cars at our foundry in Newark, Ohio.

WEHRLE No. 136 HOT BLAST HEATER,

FOR HARD OR SOFT COAL, SIFTINGS, SLACK, LIGNITE, COKE, COBS, ETC.

Economy in the use of fuel is the strongest argument in favor of any stove. This is notably true of our Wehrle No. 136 Hot Blast Heater, which we guarantee to burn soft coal, siftings, slack or lignite with perfect cleanliness, and will hold fire several hours without attention. Burns a very large percentage of the gas which is thrown off from soft coal under heat, together with a good part of the soot, converting them into heat.

DESCRIPTION—BODY is heavy cold rolled steel fitted absolutely airtight. Ornamented with a handsome bronze plated name plate. **FIRE POT** is deep. Made of heavy corrugated cast iron, extends upward sufficient height to protect the body from the action of the fire. Ornamented with a three-piece nickel skirting. **IMPROVED DRAW CENTER SHAKING GRATE FOR COAL.** Wood grate has the same type of construction, the same draw center and the same shaking features. **ASH PIT** is very roomy and provided with heavy bail handle ash pan. Shaker furnished with each stove. **ASH PIT DOOR** swings to the right and closes with nickeled lever handle, making it airtight. **HOT BLAST ATTACHMENT** is a cast iron tube fitted with register draft at top, opens or closes with ease, supplies quantity of heated air to combustion chamber, consuming all the smoke and gases arising from the fire. **SWING TOP**, plain openwork design, ornamented with a handsome urn. Combination lift feed door with Alaska wire handle permits the feeding of small or large pieces of coal. **Pipe collar** is cast on main top.

Made and fitted throughout with just as much care as our highest priced stoves. We stand right back of every stove we make and sell them under our absolute guarantee of safe delivery and satisfaction or your money back. Made in four sizes as listed below. Securely crated. Delivered on cars at our foundry in Newark, Ohio.

THE ACME CARBON DOUBLE HEATER.

DOUBLE SUPERHEATED AIR CIRCULATING SYSTEM, THE NEW IMPROVED 1911 MODEL.

Made from the heaviest and highest grade material.

An ideal soft or hard coal double heater, nickel trimmed heating stove for home use. It does not come with a self feeding magazine. The coal is placed through the front door, the same as in our regular oak heating stoves, but it has the latest double hot air circulating system which makes it the most economical heater made in the consumption of coal. **DESCRIPTION — Latest new 1911 improved rococo design,** an openwork, cast iron, nickel trimmed stove throughout. **ORNAMENTAL URN.** A new design, beautifully finished in nickel. **SWING TOP AND MAIN TOP.** The swing top swings conveniently aside, exposing to view the hot air collar, to which can be attached the hot air pipe for an upper room, if desired. The top construction is of a beautiful design, and presents an appearance seldom found on heating stoves. **HOT AIR COLLAR** being made beneath the openwork swing top allows the excess of superheated air to pass immediately into the same room with the stove or into a hot air pipe, conducting it to an upper chamber when desired. **DOME FIRE CHAMBER.** This inner airtight chamber is really a stove, even when separate from the outer ornamental fretwork casing. Heavy and durable and especially adapted to the economical consumption of soft coal. **FIRE DOOR** is hinged to the inner dome chamber and fits airtight. Has check draft slide and mica lights, with a large nickeled hand turnkey. **ASH PIT** is large and contains a full size ash pan. The direct draft supply is through the ash door by means of the nickel plated screw draft shown in illustration. **ASH DOOR** is fitted with a hand grip turnkey. All sizes take **6-inch stove pipe.** We will always carry a full line of castings on hand so that in the years to come you can always be supplied with any parts for repair and always at foundry cost. **We furnish the stove at $10.78, $12.58 and $14.44 in the following sizes. Strongly crated and delivered on the cars at our foundry at Newark, Ohio.**

OUR ACME HOTSPUR.

AIRTIGHT SHEET STEEL HEATER FOR HARD OR SOFT COAL. GREATLY IMPROVED, BETTER THAN EVER.

Our special $5.73 price is made possible by reason of our producing these in our own foundry; our quantity is so great we have been able to reduce the cost of material, the cost of labor, and the price we quote you is based on the actual cost of material and labor, with but our one small percentage of profit added. They are made from the very best of sheet steel in our own foundry, the best equipped steel stove foundry in America, whose reputation alone is a guarantee of quality. **The body is made of smooth steel,** has cast ornamented top, cast fire pot, cast lining extending up as far as the draft inlet, with 20-gauge steel lining above that. Furnished with the popular **draw center shaking grate and ash pan.** These stoves are claimed, without any contradiction, to consume 85 per cent of the smoke. All sizes use **6-inch stove pipe.** From this illustration you can form an idea of the appearance of this handsome new model airtight hot blast heater. It is handsomely ornamented with silver nickel plated foot rails, nickel plated hot blast dampers, screw adjustment, highly ornamented with nickel plated ornaments, patent double cover on top. Coal dealers claim that 1¾ tons of ordinary grade soft coal will last as long and give as much heat as one ton of the very best hard coal and that it will hold fire of soft coal over night. From this it will be seen that **it is one of the most economical coal burners you can buy.** Our special prices of $5.73 to $6.90, according to size, as listed below, are very much lower in price than these goods have ever been sold. **We can always furnish repairs for Acmes.**

We guarantee safe delivery. Every stove is covered by our binding guarantee.

Prices, strongly crated and delivered on the cars at our foundry in Newark, Ohio.

ACME GOVERNOR CANNON HEATING STOVE.

A First Class Low Priced Coal Heater. Burns Wood or Any Kind of Fuel as Well as Coal.

$3.77 to $6.79

The larger sizes are suitable for railway stations, stores, printing offices, churches, schools, public halls, factories, machine shops, laundries, lodge rooms, etc. Also used in some of the large dwellings where one or more rooms upstairs and down are to be heated by one stove.

Smaller sizes are especially suitable for small living rooms, dining rooms, bedrooms and other small rooms.

The stove is heavy and made in a substantial first class manner. Has all the latest improvements. **The top** is so arranged that our **Never Break Steel Drum Oven** shown on page 1017 can be attached at any time. **The smooth castings** are of the same high grade iron as is used in our other stoves. **Body** is closely fitted, made strong and heavy. **Top** is large and supplied with griddle cover. **Feed Door** swings to the right and has check register. **Improved flat bar dumping grate** made strong and heavy to stand all kinds of usage. **Ash pit** is large and roomy. **Base** is extra strong and heavy throughout. **Foot rails** at sides of stove are plain, smooth, easy to keep clean and add very much to the general appearance of the stove.

THE FREIGHT CHARGES on stoves are very little. The freight will figure about 25 to 50 cents per 100 pounds for 200 miles, greater or less distance in proportion, and will amount to only a small charge, almost nothing compared with the saving in price. Don't be afraid of the freight charges, because we guarantee that after you pay the freight charges you will make a great saving at our special low prices.

MADE IN FOUR SIZES, securely crated, blackened and polished and delivered on board the cars at our foundry at Newark, Ohio, from which point the customer pays the freight. Prices do not include any pipe. For pipe and elbows see page 1016.

ACME RUSTIC GLORY.

A Heating Stove Without an Equal for Coal or Wood.

WHEN ORDERING BE SURE TO STATE WHETHER YOU WANT THE COAL OR WOOD BURNING STYLE.

BLACKENED AND POLISHED, READY TO SET UP AND USE.

The illustration shows our ACME RUSTIC GLORY Cottage Heater with handsome ornamented Mica Front, giving a brilliant illumination so that the cheerful glow of the burning fire is reflected into the room. Both the coal and wood stoves are constructed in the most up to date manner. Has a first class nickeled urn, open-work swing top, elaborately carved and very handsome. **Main top** has one 7-inch cooking hole in the smaller size; the two larger sizes have two 7-inch griddle covers and a short center. **Fire chamber** for coal has a flat dump grate with grate rest, heavy cast iron fire back, end linings and front grate. When ordered **for wood only,** the stove is supplied with a large wood fire chamber consisting of front wood fender and heavy wood fire back, admitting large and irregular chunks or knots of wood. **Grate** for the wood stove is not needed and not furnished. **An ash pan** is furnished with the coal stove only; it is not needed for the wood stove. **Swing ash pit** door has a perfect draft slide. **Swinging smoke guard** is attached to the inside of the stove above the feed door to prevent smoke from escaping into the room when the door is open. Both the coal and wood stoves are ornamented with a silver nickeled foot rail. **Fire box** for coal in all sizes is 5 inches deep and 9 inches wide; on stove No. 21 the length for coal is 14 inches; on stove No. 23 is 16 inches, and on stove No. 25 is 18 inches. The wood stove on these three sizes takes 21, 23 and 25-inch sticks.

This heater positively cannot be equaled by any offered you at double the low prices we quote below.

Made in three sizes, securely crated and delivered on board cars at our foundry at Newark, Ohio.

HOT BLAST SHEET STEEL AIRTIGHTS.

This illustration shows a high grade airtight heater with hot blast down draft. A better stove than our Dot Airtight quoted below for the following reasons: **The hot blast draft heats the air before it reaches the fuel, thus producing perfect combustion.** The double lining extends up 12 inches from the bottom. The body is made of 20-gauge smooth steel, the lining is 20-gauge. Has fine nickel urn. **It will burn chunks, knots, chips, straw, cobs, hay or trash, or anything used for fuel,** except coal. The pipe should be provided with a damper. Put 2 or 3 inches of ashes in bottom of stove before building fire, and always leave about this quantity when cleaning the stove. In setting up this stove, put the crimped end of stove pipe down. All sizes take 6-inch stove pipe. It has a check draft in the stove top. Strongly crated and delivered on the cars at our foundry in Newark, Ohio.

SHEET STEEL AIRTIGHT HEATING STOVES.

OUR DOT AIRTIGHT HEATER FOR WOOD. While it is small it is good and suitable for small rooms. It is a direct draft stove, taking in the draft at the ash opening. Has oval sheet body 18, 20 and 24 inches long according to size, and is not lined on the inside like our better airtights. The small size has but three legs equal distances apart to support it. The two other sizes have four legs or feet.

WEHRLE No. 192
AIRTIGHT HOT BLAST WOOD HEATER

Burns wood, knots, corn cobs, shavings, or anything used for fuel except coal or coke. Attractive, well made, quick heater.

$11.11 and up

DESCRIPTION.

BODY made in one-piece heavy polished steel highly finished, requires no blackening. Easy to keep clean. **HEAVY CAST IRON LININGS** extend half way up to the main top of the stove and protect the steel body from action of the heat. Fire chamber is part of main front and extends its full length and breadth and made to burn large chunks of wood. **LARGE REGISTER GRATE** drops ashes into a roomy ash pit and with the shaking handle can be regulated to give just the amount of draft required. **ASH PIT DOOR FRAME** is provided with an indicator showing when grate is closed or open. **ASH PIT** is extra large and deep and made to hold a big accumulation of ashes. No ash pan is furnished with this stove. **HAS LARGE ONE-PIECE FEED DOOR** with swinging cast smoke curtain which keeps smoke from escaping when feeding the fire. **SWING TOP** is plain black openwork pattern, swinging to the side, exposing to view a large lid on main top, which is provided with a handle, and so arranged that the user can swing the ornamental top to one side alone, or both the cooking lid and swing top may be opened at the same time. **PIPE COLLAR** is cast on main top and all sizes take 6-inch pipe. **HAS HANDSOME SILVER NICKEL FOOT RAIL** on each side and **SWING ASH DOOR** has silver nickel knob. **SIZE OF TOP FEED OPENING** on Nos. 22F627 and 22F628 is 9 inches; on 22F629 is 11 inches.

We guarantee this Wehrle No. 192 Hot Blast Wood Heating Stove positively the highest grade, best made, most economical in the consumption of fuel, and best distributer of heat of any airtight hot blast stove made.

We could easily cover several pages in describing all the features of this stove, but the picture is made from an actual photograph of the stove, from which you can get some idea of its general appearance.

Made in three sizes. Securely crated, blackened and polished, delivered on cars at our foundry in Newark, Ohio.

WEHRLE No. 193
AIRTIGHT HEATING STOVE

Burns Wood, Chips, Shavings, Knots, Corn Cobs, Hay, Peat or Anything Used for Fuel Except Coal or Coke.

$8.30 and up

We recommend this, our Wehrle No. 193 Airtight Heating Stove, to those who are looking for a high class wood heater at a very low price. Made throughout of the very best material and guaranteed to give absolute satisfaction under all conditions. Materials used in manufacturing are the very finest grades it is possible to procure. The top and bottom are very ornamental stove plates cast from the best grade pig iron. The pattern is new and attractive, perfectly made, handsome in appearance and positively the best medium priced wood airtight heating stove on the market. It is a better looking and better working stove than can be bought at home or elsewhere for almost double the prices we ask.

DESCRIPTION.

MAIN BODY made of smooth, heavy polished steel, reinforced with heavy cast iron bottom to protect it from the action of the fire. **ORNAMENTAL SWING TOP** is surmounted with a handsome urn and swings to one side, exposing to view a large lid, and so arranged that either the top or lid can be swung to one side, or both of them at the same time. **MAIN BOTTOM** made of heavy cast iron and provided with a handsome nickel plated foot rail on each side. **LARGE ASH OPENING** at bottom of main front, supplied with a drop cover fitted with nickel steel draft damper. **PIPE COLLAR** is cast on main top. **All sizes take 6-inch pipe. SIZE OF TOP FEED OPENING** on Nos. 22F443 and 22F444 is 9 inches; on 22F445 is 11 inches.

Understand that even though these prices are surprisingly low, this, our Wehrle No. 193 Airtight Heater, is in every way a high grade wood heating stove and is guaranteed by us as a substantial stove notwithstanding these startling prices, prices which have never been equaled and which never can be equaled by any other stove foundry or stove dealer in existence.

Made in three sizes. Securely crated, delivered on cars at our foundry at Newark, Ohio.

OUR ACME NUTWOOD

Burns Wood Only.

$6.83 and up

A direct draft Todd pattern, fitted and finished in the most elaborate manner, at the very low cost of $6.83 to $9.10 according to size. While this is not a return flue Todd stove, like the Acme Wildwood, it presents to those who admire the Todd pattern, a low priced direct draft horizontal oak stove at these unheard of prices. It is made in four sizes, full 26 inches, 28 inches, 30 inches and 32 inches, inside measurements. **DESCRIPTION.** Top ornament consists of a modest and handsome nickeled urn, fitted to a full nickel swing top as shown in the illustration. **MAIN TOP** is elaborately carved, as illustrated, and when the swing top is turned to the left one cooking hole is exposed for use as desired. The pipe collar attached to this main top is for fitting on the stove vertically as shown, but can be unbolted and reversed to accommodate a horizontal stove pipe entering the chimney directly back of the stove if desired. **MAIN BODY** is made of cold rolled sheet steel with elaborate rococo design cast ends, and the right end is fitted with a capacious wood fire door measuring from 16½ inches high to 18 inches high, and from 10¼ inches wide to 11¼ inches wide, according to size. The door is fitted with a screw draft register, and below the door is a hearth shelf to prevent ashes from falling on the floor when being removed. **INSIDE LINING** is a heavy cast stove plate shaped to conform to the oval pattern of the chest body and the body of the fire box is sufficiently below the lower edge of the door to prevent ashes falling out when the door is opened. In addition to the nickeled urn and nickeled swing top is the nickeled name plate on the front, the nickeled foot rail and the nickeled screw draft register in the firebox. All sizes take 6-inch pipe.

Prices, strongly crated and delivered on the cars at our foundry in Newark, Ohio.

ACME BUCKEYE
WOOD BURNING HOT AIR CIRCULATOR

$6.16 AND $6.98

Burns wood, straw, hay, cobs, corn, peat, trash or anything used for fuel excepting coal or coke.

It has the hot blast draft and circulating system, and burns anything excepting coal, the screw drafts making it airtight when keeping fire. Has nickeled top band and foot rails. BODY is made of heavy swaged steel, and top and bottom of the best stove plate. This Hot Blast Down Draft and Hot Air Circulator is made with a flue running from top to bottom of stove between the inner and outer jackets. The cold air in the room is drawn in the stove at the bottom and coming in contact with the hot inner jacket, is heated as it rises and is discharged at the top of the stove into the room. It is a well known fact that with stoves without this feature floors are frequently cold while the ceilings are hot. Our Acme Buckeye is not designed or offered as a foot warmer, but is intended to heat by circulation and keep a large room comfortably warm in the coldest weather. **Size of pipe to fit collar is 6 inches on both sizes.**

Price list of the Acme Buckeye, with hot air blast draft and hot air circulating system, strongly crated and delivered on board cars at our Newark, Ohio, foundry.

ACME HICKORY WOOD BURNING AI
HIGHEST GRADE DIRECT DRAFT HI

AT $4.98 AND $5.69

For wood, hay, cobs, straw, corn stalks, brush ... anything but coal or coke.

For Wood, Hay, Cobs, Straw or anything but Coal.

Our Acme Hickory at $4.98 and $5.69 is a direct radiator, instead of a hot air circulator. It has the hot blast down draft with screw adjustment, the large ash opening with direct draft screw adjustment, making it airtight when desired to keep fire. The urn and foot rails are handsomely nickeled. This direct draft airtight heater differs from most all other direct draft airtight heaters in that it has a hot blast down draft with the latest screw attachment, making it more economical in the consumption of fuel, more even in the distribution of heat, holding your fire more easily under control. The difference in the cost of the fuel consumed in this ... against the ordinary direct draft airtight ... will in one winter far more than pay the ... ask for the stove. We use stronger, heavier ... fitting and better finished castings; ... more nickeling and trimming and we guarantee ... furnish you a better air tight heater than ... get elsewhere, and that at a little more ... half the price charged by others. Size of ... fit collar is 6 inches on both sizes.

Price list of the Acme Hickory with hot air draft, strongly crated and delivered on the ... our foundry in Newark, Ohio.

WEHRLE No. 200 GAS RANG

WITH WARMING CLOSET, TOP SHELF, ELEVATED OVEN AND BR

PLAIN SMOOTH CASTINGS WITH SIL NICKELED DOORS, EASY TO KEEP CL

A WINDOW IN THE OVEN DOOR SAVES GAS, TIME AND WORRY.

Do you know that every time you open the oven door of a gas range, the oven temperature is disturbed? The heat, gas and your time wasted?

WE HAVE A REMEDY.

We are equipping this WEHRLE No. 200 VISIBLE OVEN GAS RANGE exactly as shown in the illustration, with an extra heavy CLEAR GLASS DOOR PANEL, guaranteed not to crack, break or chip.

HEAT HAS NO EFFECT ON IT.

It enables you to cook anything from "START TO FINISH" without ever opening the oven door. Your eyes will tell you when the food requires more or less heat.

Elevated oven and broiler allow the user to stand erect, naturally and comfortably.

If wanted without window in Oven Door, deduct $3.00 from price of any size.

When ordered without window, oven and broiler door frames are plain smooth castings instead of silver nickeled, as shown in illustration, are easy to keep clean and oven door is fitted with an oven thermometer, which is right before you. The least change of heat in the oven can be immediately noticed.

DOUBLE ECONOMY—With one set of burners you can bake and broil at the same time with the same fire, accomplishing two purposes with one expenditure of gas.

BODY. Sides and back of W cold rolled steel. Front and t highest grade cast iron stov When furnished for natural g solid covers; for artificial gas t top grates.

WARMING CLOSET has roll will be found most desirable for food warm that has been cooked heating plates. No expense co with heating the warming clo waste heat which passes up the fl the oven or broiler is in operati the closet. It is provided with namental back guard.

BAKING AND BROILING are conveniently located. T roomy and allow the user to stan naturally and comfortably. T for both is furnished by two m erful one-piece cored cast iron

OVEN DOOR is silver nickel when open drops flush with th bottom and forms a shelf. When without glass window, it is fitte thermometer.

BROILER DOOR has plain sm ver nickeled cast iron frame, easy clean; drops flush with bottom o and is handsomely ornamented ver nickeled name plate. Broil and rack furnished with each ra

OVEN AND BROILER HANDLES are hardwood, be polished, set out from the range manner that they do not become oven and broiler doors can be le raised without the hand coming with anything hot.

BURNERS are the acme of perfecti standard star, drilled, one giant and pendent simmering burner. Each se sharp blaze which causes intense heat at the proper distance from the top so th is brought in direct contact with placed over it at its hottest part. The in construction and easily removed f The lever valves are conveniently arrang ing and are adjusted for the differen of gas, and by them you can tell whether the gas is on or off. The st most practical made. Handles al The burners for the baking and bro are tubular cast cored so as to produ surface inside insuring a proper flow of

SAFETY OVEN LIGHTER. The safe plest device of the kind ever used. The ers cannot be lighted without openin door. There is no popping nor explosion tion with operation.

LOWER COMPARTMENT underneath ing oven can also be used as a warming will be found very useful for dishes an utensils.

SHELF UNDER BODY will be found lent place for keeping cooking utens making the range perfectly rigid and floor.

Be sure to state whether you use gas or natural gas. Ranges for manufa have open top grates instead of solid for natural gas have three solid made in two sections for heating These ranges cannot be used with gasoline gas.

IF WANTED WITHOUT WINDO OVEN DOOR, DEDUCT $3.00 FROM OF ANY SIZE.

IF WANTED WITH SIX COOKING INSTEAD OF FOUR, AS ILLUSTRAT $3.00 TO THE PRICE OF ANY SIZE

PRICE LIST of Wehrle No. 200 Four-Hole Gas Range. Made in three sizes complete with warming closet, top shelf, oven and broiler, exactly as illustrated, strongly crated and delivered on the cars at our foundry at Newark, Ohio.

Catalog No.	Stove No.	WITH WINDOW IN OVEN DOOR: Manufact'd Gas	WITH WINDOW IN OVEN DOOR: Natural Gas	Baking Oven, Inches	Broiling Oven, Inches	Size of Top, Including End Shelf, in.	Floor Space, Inches	Shipping Weight, pounds

On the above three sizes the height from floor to cooking top is 28 inches; height from floor to top of warming closet, 62¼ inches. All three sizes take 6-inch pipe. For stove pipe see page 1016.

WEHRLE INDEPENDENT WATER HEATE

FOR NATURAL OR FOR MANUFACTURED GAS

Heats a given amount of water quicker and with less gas than any other gas water heater on the market. All the water in a 30 to 40-gallon boiler can be heated in from 45 to 60 minutes. Furnishes sufficient water for bath in ten minutes. Can be connected with kitchen boiler without interfering with coal range or furnace connections, as shown in small illustration.

MADE IN TWO STYLES. **Illustration No. 1 shows heater with cast iron casing and swing front;** a style preferred by many for the reason that cast iron is not subject to rust or corrosion. **Illustration No. 2 shows the style with polished steel casing,** lined with asbestos, which is interlined with galvanized iron, making a triple wall. This construction retains all the heat in the casing and prevents waste. The steel casing can be removed when necessary by simply unscrewing two bolts.

BOTH STYLES are made in two sizes. The 30-gallon capacity has five hollow discs with openings through which the heat passes, and the one with 40-gallon capacity has seven discs, giving it almost one-half the additional capacity over the one of 30-gallon capacity. The arrangement is such that the water is forced to circulate around each disc before it enters the section above it.

BURNERS. Both styles of Wehrle Independent Gas Heaters are fitted with a two-piece star drilled burner, set in place without bolts. Are easily removed for cleaning. Each half of the burner is controlled by separate wood handle lever valve, adjustable to different gas pressures. Burners are fitted with adjustable air mixers. Style 206 has burner box fitted with swinging door which contains a mica light, through which the burner can be seen without opening the door. No lighter is necessary, as they are easily lighted through the door opening.

INDEPENDENT GAS HEATERS are used only where there is a water supply furnished with constant pressure through pipes, which can only be obtained in towns and cities having waterworks, or where you have a pneumatic water supply system or an elevated water pressure tank.

PRICE LIST Wehrle Independent Gas Water Heater, securely crated and delivered on board cars at our foundry at Newark, Ohio:

WEHRLE No. 76
TRIPLE OVEN CABINET
GAS RANGE

HAS EVERY FEATURE OF CONVENIENCE IN GAS RANGES AND IS BY FAR THE MOST COMPLETE AND HIGHEST GRADE GAS RANGE EVER BUILT. AN IDEAL CONSTRUCTION. MOST SATISFACTORY AND THE GREATEST GAS SAVER YOU CAN BUY. ELEVATED OVEN AND BROILER ALLOW THE USER TO STAND ERECT NATURALLY AND COMFORTABLY WHILE COOKING. NO STOOPING; NO BACK BREAKING.

BODY. Sides and top are made of Wellsville cold rolled steel. Front is made of the highest grade cast iron stove plate, carved in a most magnificent design.

MAIN TOP is made of high grade stove plate. When arranged for natural gas, has solid covers; for artificial gas, has open top grates.

BURNERS for cooking top consist of three of our regular size Star cast burners and one giant and simmering burner. Oven burner is oval in shape and is a double line burner. All are removable for cleaning. Provided with mixer caps to regulate the amount of air to the burner, and all controlled by always cold wood handle lever valves.

BROILER. Has cast iron door of artistic design, drops flush with the bottom of the broiler. Has heavy gauge steel linings, easily removed. Furnished with heavy stamped steel drip pan and special wire broiling rack.

ASBESTOS LINING is placed between the inside and the main outside body. It retains the heat in the oven most effectually and also aids in preventing the heat from being radiated into the room.

BAKING OVEN has cast iron bottom, guaranteed not to warp or buckle. The special ventilating flue construction insures perfect baking and the greatest economy in gas consumption.

OVEN PARTS. The interior of the oven, including the sides and racks and the oven bottom, can be removed in less than a minute's time without removing a bolt, nut or screw.

OVEN DOOR, when open, drops and forms a most convenient shelf flush with the oven bottom.

OVEN THERMOMETER is right before you, placed in the door of the oven.

PATENT SAFETY LIGHTER. All our Wehrle Gas Ranges are equipped with a patent safety lighter, illustrated and described below.

REMOVABLE STEEL DRIP PAN, heavily galvanized to prevent rust, is placed under the cooking top burners.

A SHELF UNDER THE BODY, CONVENIENT for cooking utensils, makes this Cabinet Gas Range perfectly rigid and firm on the floor.

WARMING CLOSET above the baking oven will be found very useful. It has a roll front door which rolls back into the top of the closet without interfering with the space inside. It is so perfect in construction that it keeps the food warm and wholesome without drying it up.

BAKING AND BROILING ON A LINE WITH THE EYE. NO STOOPING; NO BACK BREAKING.

PRICE LIST WEHRLE No. 76 GAS RANGE, complete with Warming Closet and Top Shelf, exactly as illustrated, strongly crated and delivered on cars at our foundry in Newark, Ohio.

DO NOT FAIL to state whether you use manufactured gas or natural gas. These ranges cannot be used with acetylene or gasoline gas.

WEHRLE No. 81 Cast Iron Gas Ran

The Solid Substantial Kind That Makes People Happy and Satisfied.

These four illustrations, engraved by our artist from photographs, are exact reproductions of our WEHRLE No. 81 CAST IRON GAS RANGES and will give you an idea of the general construction of the four styles in which we furnish them. **Smooth castings. No carvings to catch and hold dirt. Easy to keep clean.**

BODY. Made of highest grade gray cast iron throughout.

MAIN TOP is heavy cast iron. When furnished for natural gas has solid covers; for artificial gas has open grates.

BURNERS are the acme of perfection. Three standard star-drilled, one giant and simmering burner. Each jet produces a sharp blaze which causes intense heat and is placed the proper distance from the top so that the flame is brought in direct contact with the utensil placed over it at its hottest part. They are easily removed for cleaning.

VALVES are of lever type, have always cold wood handles and are easily adjusted to any gas pressure. You can tell at a glance whether the gas is off or on. There is nothing about them to wear out.

REMOVABLE STEEL DRIP PAN, heavily galvanized to prevent rust, is placed under the cooking top burners.

BURNER for baking and broiler ovens is tubular cast cored so as to produce a smooth surface inside, insuring a proper flow of gas and regulated by but one valve.

BAKING OVEN has cast iron bottom and sides and heavy wire racks. The special ventilating flue construction insures perfect baking and the greatest economy in gas consumption.

OVEN DOOR is heavy cast iron, plain, smooth pattern. Easy to keep clean. When open drops flush with oven bottom and forms a shelf. Is tastefully ornamented with silver nickeled name plate and **oven thermometer,** with which the least change of heat in oven can be immediately noticed. Has ebony wood handle.

Sold Under a Positive Guarant to Be the Highest Class Cooker a Most Excellent Baker Ever Mad

BROILER DOOR is plain, sm cast iron. No carvings to catch hold dirt. Easy to keep clean. D flush with broiler. Heavy stam steel broiler pan with handle nished with each range.

SAFETY OVEN LIGHTER. safest and simplest device of the ever used. The oven burners ca be lighted without opening the door. There is no popping nor plosion in connection with operat

WARMING CLOSET has roll door, will be found most desir for keeping food warm that has cooked, and for heating plates. advantages of a hot closet are ily seen; it is most difficult to food warm after it is cooked using the old style ranges. No pense connected with heating warming closet; the waste heat passes up the flue when the ove broiler is in operation heat closet. It is provided with an namental back guard.

Be sure to say whether you manufactured gas or natural These ranges cannot be used acetylene or gasoline gas.

When furnished for natural gas, three solid lids and one made in sections for heating small ve For manufactured gas, has open grates instead of solid covers.

WEHRLE No. 200 GAS RANGE

With Warming Closet, Low Oven and Broiler, WITH OR WITHOUT GLASS WINDOW IN OVEN DOOR

The very Highest Grade Gas Range possible to build and sold at the very lowest price. Cast parts are made from special iron, making smooth, strong castings. The design is plain. No carvings to catch and hold the dirt. Always neat, clean and attractive. Ovens are large, high and square.

Think of Broiling, Frying and Stewing All on the One Range, With the Right Fire Under Each Article to Do It in the Right Way

BODY. WEHRLE No. 200 Gas Ranges are constructed from the very best material obtainable, only Wellsville polished steel, the most expensive kind of steel manufactured for stove making, being used.

VALVES are of lever type, have always cold wood handles and are a decided improvement over the ordinary valves. They can be easily adjusted to any gas pressure and a slight turn of the handle regulates the flame to any desired height. You can tell at a glance whether the gas is off or on. There is nothing about them to wear out. They will not leak gas nor turn too freely after being in use for a short time.

BAKING OVEN, made in three sizes as listed below, is the crowning feature of the range. It is made large and square, saves gas, insures perfect circulation of the heat currents. **The CAST IRON OVEN BOTTOM, guaranteed not to warp or burn out,** provides the most perfect baking oven ever installed in a gas range, one that bakes perfectly in the quickest time with the least amount of gas.

LININGS are heavy stamped steel. Can be easily and quickly removed for cleaning, as no bolts or nuts are employed to hold them in place.

OVEN DOOR has silver nickel panel and clear glass window. When open, drops flush with oven bottom, forming a convenient shelf.

BROILING OVEN has heavy gauge steel linings, easily removed and similar to those used on the sides of baking oven. It is furnished with a wire rack and a drip pan of open hearth steel, making it firm and substantial. It will not buckle nor warp when subjected to the intense heat of the burner which furnishes the heat for the broiling and baking oven.

BROILER DOOR. Made of the best cast iron. With wood handle, always cool to take hold of. When open, drops down even with the broiler.

SAFETY OVEN LIGHTER. The advantage of this lighter is that it is more convenient to light, because it is placed in the front of the oven and does away with the inconvenience of the old style side lighter. It is the safest and simplest device ever made for this purpose.

OVEN AND BROILER DOOR HANDLES are made of hardwood, beautifully polished, set out from the range in such a manner that they do not become hot as oven door handles usually do. Either one of the doors can be let down or raised without the hand coming in contact with hot doors.

MAIN FRONT is made of the highest grade stove plate. No carvings to catch and hold dirt. Easy to keep clean.

BURNERS. On the four-hole range there are three powerful and economical top burners, one giant burner of triple capacity, and a simmering burner. Oven and broiler burners are of the two-line one-piece type which evenly distributes the heat through the entire oven.

WARMING CLOSET has roll top door, a very desirable arrangement for keeping food warm that has been cooked, and for heating dishes. There is no expense connected with heating the hot closet, for the waste heat, which usually passes up the flue when the broiler or oven is in operation, heats the closet, which is 27 inches high from top of range. **Size pipe, 5 inches.** Height from floor to cooking top, 35 inches on all sizes.

TEAPOT HOLDERS hang on double brackets at each side of warming closet; are easily and quickly attached to front or back holder.

For Manufactured Gas, range has open top grates instead of solid covers. **For Natural Gas,** range has three solid lids and one made in two sections for heating small vessels.

PRICE LIST WEHRLE No. 200 FOUR-HOLE GAS RANGE WITH WARMING CLOSET, made in three sizes, as listed below, strongly crated, delivered on cars at our foundry at Newark, Ohio.

EASY TO KEEP CLEAN. New for this season. first class in every particular. A sure and ready baker. The most economical in the The illustration shows it ready for natural gas. When ordered for artificial gas with open top grates.

SINGLE OVEN RANGE is made in the same substantial manner in which the entire series of Wehrle No. 200 Gas is made. By our methods of manufacture we can make stoves and ranges cost than any other manufacturer in the world. We operate the largest equipped stove foundry in the country. We have the most up to date, accu- machinery; we employ the best skilled labor, and use the best materials that can buy. We make all our own castings; turn out all our own burners, valves, and operate our own stamping presses; do our own silver nickeling. All these things saving in the cost of materials, saving of time, saving of labor, and this saving is our customers in the very low prices of our line of gas ranges.

MAKE NO MISTAKE when you buy a Wehrle No. 200 Gas Range, for we have a thoroughly organized force of expert mechanics and experienced who turn out ranges of the highest order. Send us your order, enclose our price, be state whether you use **natural or artificial gas,** and we will ship the range at once.

MAY TRY IT THIRTY DAYS and if you do not get the most work with the least amount of fuel; if it does not operate perfectly; if you it by far the most wonderful labor and fuel saving range you ever used; and if you have not made a tremendously big saving in every way, you are at perfect liberty to send to us and you will not be out one cent, for we will gladly return your money, together all the freight charges you have paid.

PRICE LIST OF WEHRLE No. 200 FOUR-HOLE SINGLE OVEN GAS RANGE WITH WARMING CLOSET. Made in three sizes. Securely crated ready for immediate ship- from our foundry at Newark, Ohio.

Do not fail to state whether you use manufactured gas or natural gas. These ranges cannot with gasoline or acetylene gas. All sizes take 5-inch pipe. Height of warming from top of stove, 27 inches.

n anything be more simple? No ying in coal or wood. No smoke, soot rt. No ashes to carry out.

ENERAL CONSTRUCTION

URNERS. The pipe line runs across the front carrying five of our well own controlling burners which been doing such successful k. Three of them are directly r the pipe line and stationary, ting that they are full au-atic and move up and down operation; whereas, two of operate from the same pipe but are supported by a arm or arm and swing on the . The burners swing to side, forming a group of which, for some big work a wash boiler or something wish to give an unusually g cooking, gives you great ities for doing so. Each ner is provided with a silver nded lever to control the flow . The indicator plainly shows when the is too low or out. The burner bowl ised or lowered at will. **One gallon of osene (common) coal oil,** costing about ents, will run a large burner at full e ten hours.

HTING RINGS, which fit in the oil bowl, are made of ss and are practically indestructible. grow hard after being used a while, l the impurities of the oil collect on , consequently they will not light as y after being used for quite a while en new. It is simply a matter of own convenience, but we would rec-end that the lighting rings be renewed six weeks or two months if the stove d regularly, **and we suggest that you an extra dozen with your range.**

No. 22F590 "F. B. Q." Lighting Rings. Per dozen.....96c

IN TOP is prettily covered with removable open grate section. Made of the best quality gray iron. Provision for the rent positions of the burners has been made without the grate interfering with the flame. Each stove furnished with **a water-steel cooking disc,** which prevents contents of a vessel from boil-over into the burner.

RMING CLOSET has a lift door which when open rests upon top of oven. Will be found most desirable for g dishes warm that have been cooked or for heating plates. pense connected with heating the hot closet, for the waste heat passes up the flue when the oven is being used heats the closet.

KING OVEN is conveniently located and allows the user to stand erect, naturally and comfortably. The burners are ranged that slow baking can be done to perfection. Every unit of is utilized and the oven heated without any dead corners, with a small amount of fuel. Will bake evenly, top and bottom, the most ate cake or pastry on either the upper or lower rack, or both at ame time.

EN DOOR. Heavy stamped steel, beautifully ornamented with a silver nickeled name plate. Drop pattern and when forms a shelf flush with the bottom of the oven. The entire oven can be easily lifted from the stove or be drawn to one side, on an adjustable bracket furnished for this purpose, giving a amount of additional cooking space.

Ready Whenever You Want It.

Its Use Means a Cool Kitchen.

OVEN THERMOMETER is mounted in the oven door. It accurately shows the temperature of the oven without the necessity of opening the door.

ADJUSTABLE CABINET SHIELD. Burners are provided with a shield, which can be easily lowered or raised, to protect the flame from drafts, from open windows or doors. Its use also contributes to the concentration of heat at the burner and gives the largest and hottest blue flame of any oil stove made.

DOUBLE OIL RESERVOIRS. Of large capacity, and may be removed for filling without extinguishing the fire, as sufficient oil remains in the lower reservoir to temporarily feed the flame. This is an excellent feature, as there is not the slightest danger of accident for the reason that the reservoir must be removed in order to fill it, and there is no possibility of an overflow of oil. **Tank holds 4½ quarts.**

A THIRTY DAYS' TRIAL given to prove this absolutely the best stove for all general purposes that has ever been offered. You can return it to us and we will give you back your money and freight charges if you are disappointed in the slightest.

PLAIN PRINTED DIRECTIONS ARE SENT WITH EACH STOVE, and on account of their simplicity of construction they are easily understood, and by following our plain directions there should be no difficulty in operating the stove with the greatest success from the very start.

Price of our "FINEST BEYOND QUESTION" WICKLESS KEROSENE OIL RANGE, complete with warming closet, oven and broiler, carefully crated, delivered on cars at Chicago, Ill., or Boston, Mass.

THE WORLD FAMOUS ACME KEROSENE OIL COOKING RAN

WITH OVEN THERMOMETER. THE LEAST CHANGE OF HEAT CAN BE IMMEDIATELY NOTICED.

WE LEAD ALL COMPETITION in the oil stove business with our Acme Wickless Smokeless Blue Flame Kerosene Oil Stoves shown on the following pages. But, although they are the standard of America, we are ever striving to improve the quality, realizing that inasmuch as people must eat, anything which is needed to aid in the preparation of their foods is a household necessity. For this reason we brought out this highest grade Acme Wickless Smokeless Oil Range shown herewith, which we now offer.

NEW AND IMPROVED FOR 1911. For originality, convenience, compactness and beauty it blazes the way of progress. For sheer merit and work it is without a peer in stovedom. Simple, convenient and handsome; it is all that and more; it is efficient and inexpensive to operate beyond any other fuel. Experience has proved that the Acme is an eminently satisfactory and desirable article, and at the extremely low prices which we are able to make it is a wonderfully profitable and economical investment.

EVERY WOMAN ENJOYS A STOVE that will do good cooking and baking without any fuss, and therefore she will appreciate and ought to have our Acme Oil Cooking Range, which will perform any feat of cooking or baking that any kind of stove will do, and at a fraction of the cost. Besides, it does away with all the annoyance of coal and ashes. The same cooking utensils used on your coal and wood burning stove can be used on any of our oil-gas stoves with equally good results.

SOME WOMEN dread baking day, but they will no longer do so when they own an Acme Wickless Kerosene Oil Range. It's ready at an instant's notice, without dumping any ashes or without breaking your back by lugging hodfuls of coal; and the beauty of it all is that it does the cooking just as well and quicker.

WE OFFER IN OUR ACME Cabinet, Wickless, Smokeless Kerosene Oil Cooking Range a stove not only attractive in design but one that will prove economical in use and a perfectly satisfactory cooking stove. Using kerosene oil for fuel and converting this cheap product into gas by the use of our new process burners, by burning more air than oil, we place within the reach of every housewife, no matter how far removed from the conveniences of the city, all the advantages the city users of gas may have, at a mere fraction of the charge for gas. Indeed, so economical is this stove in its consumption of fuel that hundreds of them have taken the place of gas ranges in the cities and towns.

FOR ALL AROUND USE the Acme Wickless, Smokeless Kerosene Oil Range will be found an almost indispensable cooking stove. All the heat generated is at the burner, where it is required for cooking and baking. As it is unnecessary to light the fire until you are ready to begin cooking or baking, and the flame is instantly extinguished when the cooking or baking is completed, it is the most satisfactory stove for all around use on the market. It is no longer necessary to swelter in an overheated kitchen if you use an Acme Cabinet, Wickless, Smokeless Oil Range.

IN CONSTRUCTION this Acme Kerosene Oil-Gas Range is the very best product of skilled labor in one of the largest and best equipped stove foundries in the world. It has a very strong steel cabinet frame, finished in baked black japan, and is handsomely ornamented with elegantly designed corner brackets, nickel plated valve handles, brass finished reservoirs and nickel plated name plate. Every joint of the Acme Oil Stove is made solid and strong by electric welding. The bowls and T pipes are welded together, likewise the stand pipes to the main pipe lines.

CLEANLY. There are no complicated parts. By simply removing the grates and chimneys, every part of the Acme is easily accessible for cleaning. This appeals to the particular housewife.

ITS DISTINGUISHING FEATURE IS THE OVEN. This important feature has been very carefully constructed and the double burners beneath it give ample heat for the most difficult baking. The flues are so constructed that the heat is very evenly distributed, and it is impossible for the products of combustion to enter the baking chamber. This makes it possible to bake the most delicate cake and brown top and bottom without the slightest danger of contamination from the flames of burning oil, as in other stoves. The oven door and the oven bottom may be removed when so desired, and it is therefore possible to use the two oven burners for cooking purposes. This converts the two-burner stove into a four-burner for cooking purposes and the three-burner into a five-burner cooking stove. This is a feature which cannot be found in any other range on the market.

OVEN THERMOMETER built right in oven door. A great convenience. Wonderful fuel saver. The least change of heat can be immediately noticed. Indicator is in plain sight all of the time and makes the maintenance of an even temperature a very simple matter, insures cooking of a uniform standard of excellence, even to the most inexperienced.

$11.25

Cooking Utensils not furnished.

Illustration shows the broad general utility of these ranges.

No. 22F579

NEW PROCESS BURNERS which we use on all our wickless, odorless, Blue Flame Kerosene Oil-Gas stoves produce a perfect fuel gas by converting air and oil into the cheapest fuel it is possible to use in cooking have so simplified and perfected the vaporizing of common kerosene oil

DOUBLE RESERVOIRS. The cooking burners and the oven burners are provided with double reservoirs the main reservoir may be removed for filling without extinguishing the sufficient oil remains in the lower reservoir to temporarily feed the flame. This is an excellent feature, as the the slightest danger of accident, for the reason that the reservoir must be removed in order to fill it.

FRONT VALVES. It will be noticed by consulting the illustration that all the valves on the Acme Kerosene Oil-Gas Range are at the front of the stove. This overcomes the danger operator's clothes catching fire from reaching over the flame, as it is necessary to do when operating the oil-gas stoves manufactured and sold by many other dealers.

WARMING SHELF. The Acme Cabinet Kerosene Oil-Gas Range has a generous warming shelf built warm air flue running to the top of the shelf, which makes it possible to keep desired thoroughly warm. This is a feature not to be found in any other oil-gas stove on the market.

ADJUSTABLE CABINET SHIELD. The burners are provided with a shield which protects the from drafts of air from open windows and doors; their use tributes to the concentration of heat at the burner and gives the largest and hottest blue flame of any oil

ACCESSIBILITY. Please note that every part of the Acme Cabinet Kerosene Oil-Gas Range is easily cleaning purposes without removing any other parts. It is a very simple matter to Acme Kerosene Oil-Gas Range and you will find it a decided labor saver in the kitchen.

PROMPT SHIPMENT. We have a large stock on hand, crated, ready for immediate shipment from or our factory near Boston, Mass., and when you send us your order, enclose and the stove will be sent direct to you without any delay whatever.

THE SMALL PICTURE TO THE LEFT shows the broad general utility of these ranges. It No. 22F579 and is just the same as Catalog No. 22F580 the big picture, except that it has only two burners on top instead of three.

30 DAYS' TRIAL. We accept your order for one of our Acme Wickless Kerosene Oil Stoves with standing and agreement that you can give it THIRTY DAYS' TRIAL, and if during you have any reason to feel dissatisfied, if it does not operate perfectly, if you find it is not by far wonderful labor saving and fuel saving stove you have ever used, and if you find you have not made saving in every way, and that we have not furnished you one of our Acme Wickless Kerosene Oil Stoves price such a stove would cost you from any other dealer, you are at perfect liberty to return the stove to expense, and we will immediately return your money, including the transportation charges you have paid.

OUR WONDERFUL NEW WICKLESS KEROSENE OIL-GAS STOVES

A MONEY SAVER FOR ANY HOME

CALL SPECIAL ATTENTION to the substantial framework of the Acme Kerosene Oil-Gas Stoves. Note the heavy ...ce of the top—this means stability. Note further the heavy tube steel supports—...ce rigidity. Another important feature, the tops of all Acme Wickless Kerosene ...ves and Ranges present a perfectly smooth, flat surface, with no bolts or screws ...to catch the wiping cloth. All Acme Wickless Kerosene Oil-Gas Stoves are made ...ade and of heavy gauge stock, and the dead black japan is relieved by the handsome, ...ed trimmings.

IS A BLUE FLAME. Whether you open the valve too wide or remove it altogether, the flame in the Acme Wickless Kerosene ...ve will go to the right height and no farther, but you may quickly reduce the ...ever you desire to do so by partially closing the valve.

RESERVOIRS are double and the upper supply tank, which holds 2½ quarts of kerosene oil, may be removed for filling, without necessitating the ...ing of the fire, as the lower tank holds a sufficient quantity of oil to feed the flame.

BURNERS as shown in accompanying illustration, are extra large and powerful and will, without exception, generate the hottest blue flame of any ...ove. Their combustion is superior and the process by which the oil vapor and air ...d in the generating chamber is so perfect that the combustion of the stove is abso...ent and clean. The perfect blue flame cannot smell or smoke, and perfect com...ustion fuel expense reduced to the lowest possible terms.

THIS IS A PICTURE OF THE BURNER SECTION of one of our Acme Wickless Kerosene Oil-Gas Stoves. The flame is shown arising from the perforated burner section which rests upon the oil cup which holds the oil and lighting ring, furnishing the oil-gas, which mixes with just enough air coming through the perforations in the chimney to form the blue flame of proper combustion.

THE LIGHTING RINGS which fit in the oil bowl are made of asbestos and are practically indestructible; they grow hard after being used a while, for all the impurities of the oil collect on them, consequently they will not light as readily after being used for quite a while as when new. It is principally a matter of your own convenience, but we would recommend that the lighting rings be renewed every six weeks or two months if the stove is used regularly, and we suggest that you order an extra dozen with your range or stove.

THIS IS OUR NEW Watershed Steel Corrugated Cooking Disc, furnished free with every Wickless Kerosene Oil-Gas Stove or Range. ...open grates over the burner and prevents the contents of a vessel boiling over ...burner below.

SPECIAL OVENS. We offer a special oven, designed for use on these stoves, illustrated and fully described at the bottom of this page. We guarantee them to be of perfect construction and to give absolute satisfaction.

PROMPT SHIPMENT. We have a large stock on hand, crated, ready for immediate shipment, and when you send us your order, enclose our price, and the stove will be sent direct to you without any delay whatever.

A WORD ABOUT FREIGHT CHARGES. The freight charges on one of our Acme Wickless Kerosene Oil-Gas Stoves will amount to next to nothing in comparison to what you save in price. Any one of them can be shipped to almost any point in Ohio, Indiana, West Virginia or Kansas for from 25 cents to $1.25; other states in proportion, according to distance.

Every stove is thoroughly inspected and tested before shipment.

Before ordering an Acme Wickless Kerosene Oil-Gas Stove, please see pages 1029 and 1030 for "F. B. Q." and Acme Kerosene Oil-Gas Ranges.

Acme High Frame Wickless Blue Flame Kerosene Oil Stove, $8.64

$8.64 With Step

Shipped from Chicago, Ill., or Boston, Mass.

No. 22F581 Step Stove No. 533, as illustrated. Price.....$8.64

For those who require a slightly different type of stove from our ordinary 2-burner and 3-burner Comet illustrated on page 1033 and Acme Wickless Kerosene Oil-Gas Stove shown on this page, we commend this 1911 model. It has three burners on top and one burner on step. This style of construction is the same and its method of operation, economy in fuel consumption and perfection in operation are the same as distinguish the entire line of our Acme Wickless, Odorless Blue Flame Kerosene Oil-Gas Stoves. Its top size is 33x15½ inches. Size of step is 12x15½ inches. Height from floor to top of stove is 24 inches. The step attachment is very convenient, as it can be used for heating a wash boiler or for baking with oven without interfering with the use of the top burners for cooking. **IF BAKING OVEN IS DESIRED, Our Portable Drop Door Steel Oven,** illustrated and described on this page, placed over the burners, will be found very economical and convenient. Weight, crated, 66 lbs.

High Frame Wickless Blue Flame Three-Burner Cabinet Kerosene Oil-Gas Stove, $5.96

No. 22F583 Strongly constructed, perfectly operating, it has strong steel cabinet frame with closed front, wind shield, handsomely finished, high grade in every respect. It is supplied with all the improved features that have made our Acme line standard. This stove is exactly the same as catalog No. 22F581 as described on this page, with the only exception that it does not have the step attachment. The top size is 33x15½ inches. Height from floor to top of stove, 24 inches. Weight, crated, 49 pounds.

...Chicago, Ill., ...Mass.

...22F583 High Stove No. 523, as illustrated. Price.....$5.96

Acme High Frame Wickless Blue Flame Step Stove, $7.44

$7.44

Step Attachment is very convenient; it can be used for heating wash boiler or for baking with Acme Drop Door Portable Steel Oven without interfering with the use of top burners for cooking.

Shipped from Chicago, Ill., or Boston, Mass.

No. 22F582 Step Stove No. 532. For those who require a slightly different type of stove from our ordinary two-burner or three-burner Acme Wickless Oil-Gas Stove we commend this 1911 model. It has two burners on top and one burner on the step. It is possible, by the use of our **Acme Drop Door Portable Steel Oven,** to bake and cook at the same time without inconvenience. The size of the top is 22½x15½ inches, size of step, 12x15½ inches, height from floor to top of stove, 24 inches. In construction it is the same as the other Acme Oil-Gas Stoves described above, with fine cabinet steel frame handsomely japanned, all valves and name plate nickel plated, and brass finished reservoirs. Weight, crated, 56 pounds.

Price $7.44

High Frame Wickless Blue Flame Two-Burner Cabinet Oil-Gas Stove, $4.70

No. 22F584 High Stove No. 522. This fine, high cabinet oil-gas stove has all the superior features common to all Acme Oil-Gas Stoves. It has two burners, and its top size is 22½x15½ inches; its height from the floor is 24 inches. It is well made, having a full cabinet steel frame, handsomely japanned and ornamented with nickel plated valves and name plate. A very satisfactory stove at an exceedingly low price. Weight, crated, 39 pounds.

Price **$4.70**

Shipped From Chicago, Ill., or Boston, Mass.

Our Acme Drop Door Portable Steel Oven, described and illustrated on this page, will be found an ideal arrangement and convenience when using these stoves.

ACME DROP DOOR PORTABLE STEEL OVEN, $1.83

This is a special oven which we have made particularly for our gas, gasoline and oil-gas stoves. No better oven is on the market; in fact, we consider it the best oven in every respect that is manufactured. We have spared no trouble or expense in producing these beautiful and perfect portable ovens. They are thoroughly constructed of polished steel, with drop door and they are larger than other ovens on the market, with a great deal of room inside, and wide space between the grates, so roomy that they will receive the largest loaves of bread or roasts of meat without touching the upper grate. They are full flued, bright corrugated, tin lined, perfectly ventilated, and are first class in every respect. They have heavy wire racks and Alaska "Never Hot" wire handles. Everything done in them comes out sweet, clean and wholesome. The heat is evenly distributed, baking the tops of articles as thoroughly as the bottoms without change of position. These ovens come in two sizes, as follows:

Can be shipped from Chicago, Ill., Boston, Mass., Milwaukee, Wis., or Newark, Ohio.

No. 22F593 Size, outside measurements, 13x20x18 inches. Can be used over one or two burners. Weight, crated, 17 pounds. Price.....$1.83

No. 22F594 Size, outside measurements, 13x13¼x18 inches. To be used over one burner. Weight, crated, 14 pounds. Price.....$1.50

OUR NEW HANDSOME LINE OF "CLOVER" SMOKELESS, ODORLESS, SAFE OIL HEATERS.

The drums are made of American planished steel and can at all times be easily kept clean. They have our SAFETY REMOVABLE FOUNTS AND BURNERS, which are scientifically constructed with two air spaces between the burning wick and the oil fount. Also a large air chamber passes through the burner, thereby guaranteeing not only perfect combustion but absolute safety. The oil is always kept cold and explosions are impossible. Don't be backward about ordering one on account of the disagreeable features of other oil heaters, which smell and smoke, as you will be pleasantly surprised with one of these stoves. If not found all we claim, the purchase price will be returned upon request. The top is handsomely nickeled and is removable, leaving openings in the disc for the purpose of quickly heating anything placed thereon. All sizes have center mica section which reflects a brilliant light when stove is in use. They cost less money and produce more heat than any other oil heaters in the market.

No. 22F595 Height, bail down, 23 inches; diameter of steel drum, 7 inches; tank holds 2 quarts; takes 8-inch circular wick. Weight, crated, 11 pounds. This size will heat a small bedroom or bathroom nicely. Price.....$3.15

THE MOST WONDERFUL STOVE OF THE CENTURY, THE MOST ECONOMICAL, THE MOST SATISFACTORY, THE SAFEST COOKING STOVE SOLD AND THE FIRST PERFECT OIL-GAS STOVE INVENTED.

IS NEW COMET MAKES ITS OWN GAS. **This wonderful new stove manufactures its** **from common kerosene (coal) oil and air.** It has a new process burner in which oil is mixed with enormous quantities of air, and gives you the cheapest and the best in the world. Just think of it! The oil is automatically mixed with air, producing gas to cook for hours, an intensely hot flame, at an expense of only a fraction of a This wonderful burner of the Comet Oil-Gas Stove burns 19,750 gallons of air (which nothing) to one gallon of kerosene oil (common coal oil), costing about ten cents. practically an air burning stove, its consumption of oil being so small that the expense is next to nothing.

E PROCESS **by which the Comet Oil-Gas Stove converts kerosene (common coal oil) and air into fuel gas, which produces a hot blue gas flame at the at the very spot where it is required to do the cooking or baking, is very simple.** the reservoir with common kerosene oil, turn the knob so that the oil may run into burner bowl, touch a match to it, the gas begins to generate, and passing through the chamber, is properly mixed with air at the ratio of one barrel of air to one spoonful giving perfect combustion and an intense heat at the burner. A slight turn of the way or the other gives the amount of heat required. **That is all you have to do.** the Comet Oil-Gas Stove just as you would light a lamp; turning the knob makes high or low. No trouble at all; it is self regulating; it requires no more attention and will remain the same, hour after hour. You will be surprised at the simplicity Comet Stove and how quickly and thoroughly it converts this common coal oil into a giving a blue gas flame of intense heat without dust, dirt, soot or odor—a perfect absolute control—**a stove with all the objectionable features of all other stoves**

RY WOMAN NEEDS A COMET OIL-GAS STOVE. **She needs it oftener** **other article she uses in housekeeping.** Just think of the millions of carpet sweepers are used but once a day, millions of washing machines and wringers used once a millions of ice cream freezers used only occasionally in the summer time, tens of mil- sewing machines which stand idle for weeks at a time. Yet here is an article more valuable to the household economy of every home, which you may have for that saves a woman's health, her looks, labor, time and temper, that cuts the next to nothing, that is ready at a moment's notice, summer or winter, to do all can do and more than any other stove has ever done.

STOVE IN THE WORLD EQUALS THE COMET **Blue Flame, Wickless, Odor-** **Gas Stove for use in the warm summer months.** All the heat it generates is right at where it is required for cooking and baking, and it does not heat up the kitchen as stoves. You can cook in comfort on a Comet Oil-Gas Stove in the hottest weather. also, it requires no kindling of fire; simply turn the knob and light the match and operation begins. When the meal is prepared turn it off and the heat stops.

CRIPTION. **Our Wonderful New Comet, Two-Burner, Blue Flame, Wickless, Oil-Gas Stove is just like the illustration.** It is 14 inches high, of weight, and may be set upon a table, shelf or cabinet in almost any out of the way niche in the kitchen. Its top size is 14x22 inches, and it has two grates, each 8 inches in diameter. The 4-inch burners are protected by black japanned outer drums, affording absolute protection against gusts of wind from open doors or windows. They facilitate the generation of gas, and their use on the Comet Oil-Gas Stove reduces the consumption of oil and fuel bills. The comet has full cabinet frame (closed back and sides), is very strongly put together and finished in baked black japan, nicely ornamented with handsomely nickel plated name plate and nickel plated valve handles. The operating valves are very conveniently located, and every part of the stove is accessible without removing any other part, so that it may be easily kept clean. There are double reservoirs finished in brass and connected with the burners with aluminated pipe line, and full aluminized oil bowls. The workmanship is first class in every respect, all the connections so carefully made that you will never have trouble from leaks of any nature. The upper reservoir, which holds two and a half quarts of kerosene oil, may be removed for filling without affecting the temporary operation of the stove, as the lower reservoir carries sufficient oil to feed the flame. Asbestos kindler is new metal woven, 1911 patent, made only by us, and is practically indestructible. **With each stove we furnish a corrugated steel disc,** as shown in small illustration to the left. It prevents the contents of a vessel boiling over into the burners.

13 Our New Comet Three-Burner Oil-Gas Stove

A Remarkably Low Price at Which We Sell This New 1911 Comet Three-Burner, Blue Flame, Wickless, Odorless Oil-Gas Stove.

Be sure to include a drop-door portable steel oven shown on preceding page, with your order for an oil stove.

No. 22F588
Three-Burner Comet Oil Gas Stove.
$4.13 Shipping weight, 40 pounds.
Securely crated for shipment from Chicago, Ill., or Boston, Mass.

THE SAME IDENTICAL STOVE DESCRIBED ABOVE IN EVERY PARTICULAR WITH THE SINGLE EXCEPTION THAT IT HAS THREE BURNERS INSTEAD OF TWO. It is 14 inches high and its top size is 32x14 inches. The illustration is an exact reproduction of the Comet Three-Burner Stove, which we are offering at a price lower than many dealers and manufacturers are asking for their unsatisfactory, imperfect two-burner oil stoves. **Corrugated steel disc, as shown above, goes with the three-burner without additional charge.**

WE DO NOT SELL **skeleton frame stoves.** All the gas, gasoline, and oil stoves sold by us have enclosed backs and sides, because this full cabinet frame gives strength and durability and adds to the appearance of the stove 100 per cent. If you will examine the low priced stoves offered by others you will discover that they have the skeleton frame construction, a cheap, undesirable and out of date style. The wonderfully low price we quote on the Comet Oil-Gas Stove is so low, lower in fact than other dealers quote on so called blue flame oil stoves of this inferior skeleton construction, that there is now really no reason whatever why you should buy a stove without the full cabinet frame.

THERE ARE THOUSANDS **of oil stoves, many of them burning a wick on the principle of a lamp.** These stoves burn only the oil and the wick and give off a bad odor which is not only annoying but injurious to the health. These stoves are expensive in operation and invariably unsatisfactory. There are others which are alleged to be blue flame oil stoves. They are better than the wick stoves and will cook and bake, but are not what you want. They have faults, many of them serious faults, and the users of these stoves are continually in trouble. The Comet Oil-Gas Stoves are just as far in advance of so called blue flame oil stoves sold by other dealers as the ordinary blue flame stove is in advance of the wick burning stove. The Comet stoves do better work. They reduce the cost of fuel, because the wonderful new burners on these stoves in the process of manufacturing gas from common coal oil burn much more air than oil. **In fact, when you use a Comet Oil-Gas Stove you take most of the fuel from the atmosphere.** This is a demonstrated, proven fact, and if you will send us $3.09 for one of the two-burner Comets, or $4.13 for one of the three-burner Comets, we know that your verdict after thirty days' trial will be an unqualified indorsement of all that we have said of the marvelous qualities of these stoves.

No. 22F588 **Three-Burner Comet Oil-Gas Stove.** Shipping weight, 40 pounds. Price **$4.13**

Asbestos Lighting Rings.

Asbestos Lighting Rings or Kindlers for Comet Wickless Blue Flame Oil-Gas Stoves grow hard after being used a while, for all the impurities of the oil collect on them. For this reason they will not light as readily after they have been used quite a while, as when new. We, therefore, recommend that the Lighting Rings be renewed every four or five weeks, if stove is used regularly. **When you order the stove, include an extra dozen Lighting Rings, Catalog No. 22F591. Price, 72 cents per dozen.**

Plain, Printed Directions Sent With Each Stove.

Because of their simplicity of construction, our Wickless Oil-Gas Stoves are easily and by following the plain directions you will have no trouble in operating perfect success from the very start.

Shipped Ready for Use.

Our New Wickless and Comet Oil-Gas Stoves ready for use, in good strong leaving our factory every stove is set up and tested, so when shipped it is sure working order, and when received it is only necessary to unpack the stove, fill common kerosene (coal) oil, and it is ready for use.

As a Summer Stove.

For hot weather use our Wickless Oil-Gas Stoves are unequaled. They will do all that a coal, wood or gas stove will do. They are always ready for a quick, hot fire. **No special cooking vessels are required.** The same pots, pans, kettles and skillets used on your coal or wood stove, may also be used on our Wickless Oil-Gas Stove. You do not have to buy any new kitchen utensils to use with these stoves.

The Ideal Stove for Canning Fruit, Making Jellies, Preserves, Etc.

In the laundry they quickly heat water for boiling clothes. You do not have to stand over a hot stove and do your ironing and smother. On a Wickless Oil-Gas Stove, with very little expense, you can do your work quickly and not be tired to death afterwards.

ACME DROP DOOR PORTABLE STEEL OVEN, DESCRIBED AND ILLUSTRATED ON PAGE 1032, WILL BE FOUND A GREAT CONVENIENCE WHEN USING THESE STOVES.

$23.50 Reliance Self Generating Gasoline Stov

Complete With Oven and Step Attachment.

SIMPLEST, SAFEST, ODORLESS, QUICKEST AND BEST STOVES FOR GASOLINE. UNSURPASSED FOR ALL AROUND KITCHEN USE.

est Grade ADVANCE Gasoline Stoves

WITH SAFETY LAY DOWN TANK

Same Cooking Utensils Used on Your Coal and Wood Burning Stove Can Be Used on Any of Our Gasoline Stoves With Equally Good Results. These Stoves Are Not Self Generating; Generating Cup Must Be Filled and Burner Heated (Which Requires Only a Minute or Two) Before the Flame Is Ready for Use.

ADVANCE GASOLINE VAPOR STOVES as shown in the six illustrations below, are ...ed by us to be the very best gasoline stoves manufactured, and they are offered at ...small margin of profit above the manufacturing cost. They are guaranteed absolutely and entirely free from the serious objections of smoke and odor.

...TRUCTION. The Advance Gasoline Stoves have full cabinet frame as illustrated; ...in appearance, beautifully finished, finely japanned and tastefully decorated.

...ERS. The Advance Stove is fitted with individual generating burners scientifically constructed, and which will generate a powerful blue flame without smoke ...m from one to one and one-half minutes. All step stoves are fitted with a double ...step, which insures thorough and uniform baking when an oven is used.

...y All stoves are furnished with safety lay down tank, which cannot be filled while ...is in an upright position. The tank does not have to be removed to refill, as ...is connected to stove with a swivel joint, allowing the tank and pipe to drop level ...e, thus extinguishing the flame.

THE LAY DOWN TANK removes the chief cause of danger which in the past has attended the use of gasoline stoves.

CONVENIENCE. These Advance Gasoline Stoves work easily. Directions for operating sent with each stove. Requires no skill to operate.

ECONOMY. Any one of our Advance Gasoline Stoves will, in a single season, save more than its cost by the economy of fuel consumption as compared with coal or wood, and especially where fuel gas cannot be obtained. One gallon of gasoline will run a single burner, full flame, for over ten hours. They do quick work. Cold water can be brought to a boil over one of these burners in five minutes.

DON'T FAIL TO ORDER an Acme Drop Door Steel Oven with your stove. It is a wonderful convenience, such as you will not appreciate until you have tried it. Bakes perfectly. See bottom of this page for catalog numbers and prices.

OUR GUARANTEE AND TRIAL OFFER. Sold under our binding guarantee of satisfaction after trial or your money back.

$7.13

Step Attachment is very convenient. Can be used for heating wash boiler, or for baking with our Acme Drop Door Portable Steel Oven, without interfering with the use of the top burners for cooking.

...609 Gasoline Step Stove. Three burners on ...double burner on step. Size of top, 14x32 ...step, 14x14 inches; height to main top, 24 ...weight, 70 pounds.
Price.....$7.13

$6.03

No. 22F612 Gasoline Step Stove, with two burners on top and one double burner on step. Size of top, 14x22 inches; step, 14x14 inches; height to main top, 24 inches. Shipping weight, 60 pounds.
Price.....$6.03

Find the Man

Find the Man Who Would Do But One Day's Washing by the Old Fashioned, Back Breaking Rub Board Meth

It's safe to say there is no such man in your home. The modern man, well acquainted with the conveniences, time and labor saving qualities of the telephone, the harvester, the riding plow, gasoline engine and automobile, surely is in favor of a time and labor saving device for the household, namely, a good washing machine, but not doing the housework has not given the weekly washing any serious thought. The women folks have no doubt wished for a way to clean the clothes that would be easier and quicker than the washboard, and also that would eliminate the hired washerwoman question. Perhaps like a great many others they tried so called washing machines which did not do the work, and have come to the conclusion that no washing machine would wash clothes clean.

Every progressive man as well as every woman is interested in making washday easier, shorter and cleaner. You want to wash in the most sanitary way and make your clothes last as long as possible. A washing machine is the only way to accomplish this result, and when you have such a machine as will do all this and more, your weekly washing troubles will be ended and your laundry work will be up to the of speed, efficiency and economy that belongs to the present ag provement. The washing machine we recommend for you to bu High Speed Wizard guaranteed by us to wash clothes cleaner, easier and with less wear than any machine sold by others. Yo need a High Speed Wizard Washing Machine. If you have ever washing machine and were not satisfied with it, we want you to High Speed Wizard so you can see what a good machine will do. have never used a machine, we want you to try it, because we you will be so pleased with it you would never go back to method of washing.

SATISFACTION GUARANTEED OR MONEY BACK—If y reason you are not satisfied with our High Speed Wizard W Machine send it back to us and get your money back, including cent of freight charges paid on it.

Think it over. In view of all the above, can you afford to continue washing the old way, wasting time, energy, health and

Read This Description of the High Speed Wizard Washing Machine.

The best material is used in every part of the High Speed Wizard Washer. THE TUB is of the best selected cedar, the best wood known for washing machine purposes. It measures 22¾ inches inside diameter at the bottom, 21½ inches at the top and 12 inches deep inside. Height from the floor is 31 inches, just the right height to work at conveniently. **HOOPS** are electric welded and galvanized wire at the bottom and center, and a heavy flat galvanized hoop at the top. **COVER** is of two-ply construction securely hinged to the tub and will never split or warp. The tub is provided with a well braced board to which a wringer can be attached and wringer need not be removed, ample provision being made to permit cover to open with wringer in place. Cover can be locked steam tight with a simple and strong cover catch, thus retaining the heat in the water for a long time. **THE MECHANISM** is made of the best quality gray iron castings which are cast from machined brass patterns, all bearings run on steel shaftings. This insures long wear and easy and quiet running. The mechanism of the High Speed Wizard Washer is fully protected by patents which we control. You will notice that our gearing has been closely copied by other manufacturers, but there are certain movements involved which are thoroughly protected by patents and cannot be copied. This is the reason no other high speed machine compares favorably with ours.

This shows corrugated sides and bottom and the six-pin dolly we use.

You will notice in figure 1 on this page that the sides and bottom of the tub are fully corrugated. These corrugations are smoothly finished so there is no possibility of tearing the clothes. The dolly or agitator inside the tub is also shown in figure 1, and you will notice that it is fitted with six pins instead of the usual four used by others. This agitator is of oak, securely braced with a heavily galvanized plate and will never split or warp.

In operation, as explained on the next page, the dolly works back and forth, drawing the clothes through the water, and this, in connection with the gentle rubbing by the corrugated sides and bottom of tub, is what cleans the clothes so quickly and thoroughly.

Remember, the High Speed Wizard Washing Machine is guaranteed to please you or you can send it back and your money and freight charges paid will be returned without quibble or question. If you want to wash your clothes in the easy up to date way be sure to send for a High Speed Wizard Washing Machine and give it a trial. You don't have to keep it unless you want it and when you see how easy it runs, how quickly it washes the clothes, how clean it washes them and how well built the machine is we are sure there will be no desire whatever on your part to return the machine. Anyway you don't take one chance in ordering because we will send your money back if you don't want to keep the machine.

Send your order today and do your next washing the "Easy" High Speed Wizard way.

No. 11F7513 **High Speed Wizard Washing Machine.** Shipping weight, 90 pounds. Price..... **$7.15**

MPROVED HIGH SPEED WIZARD WASHING MACHINE

RE THAN 20,000 HIGH SPEED WIZARD WASHING MACHINES IN USE

K IT OVER. **We have sold more than 20,000 High Speed Wizard Washing Machines and every one of them is giving** satisfaction. This surely means something to you. We control the pro- of the High Speed Wizard Washer, and never before have we a machine which runs so easy, does such good work, wears so gives such all around universal satisfaction as our High Speed Washing Machine. Get one and be happy. Instead of dreading as you do now, the washing with a High Speed Wizard can be so quickly and easily that it is a pleasure to do it. This machine inate washday almost entirely.

may have to ask some one the date of Thanks- Day, or the date of Easter Sunday, or the day week on which the Glorious Fourth comes, but one thing certain, you are never in doubt of of Washday—it comes every week for fifty- a year. Your husband also knows the date, washday he does not come home to lunch. At hour the breakfast dishes are still stacked kitchen table unwashed and you are slaving steaming washtub. The boiler with the pro- stick is bubbling over onto the stove that you polishing yesterday. Perhaps Mary helps you tub from sliding off the bench while you turn ger. At 4 o'clock the children come home from school—have you the time or mood to welcome your children, or are you still hanging the clothes on the line? Do you give your husband a piping hot dinner that night, or just cold meat left over from the day before? Do you read a book or do your fancywork that night, or do you just go to bed at 7 o'clock?

TO MAKE WASHDAY EASIER; **to make your clothes and table linen much cleaner; to wash in** the most sanitary way and to make your clothes last longer, use an Improved High Speed Wizard; let a modern washing machine do your laundry work. Save time, save money, save labor, and save your health. In California and in Maine, in Idaho and in New York, in Iowa and in Illinois, there is a washday every week in every home. Why not lessen the drudgery when washday comes in **your** home. Don't keep beating over the same old road, don't keep washing in the same old way; get away from washday slavery; make your home a home in reality; make it up to date.

We ask you to read the letters published on this page, to remember our thirty days' free trial and our "satisfaction guaranteed or money returned" proposition. You take no chances whatever. If you are not satisfied, send the machine back to us and every cent of your money, including freight charges, will be returned to you. A fairer or more liberal offer than this could not be made.

OW IT WORKS

ERATION of the High Speed Wizard Washer is very simple. on the opposite page shows the strong, simple gear- ing. The handle socket engages with the bar top of the tub. The other end of this bar engages attached to the dolly shaft. All cogs are extra most wear and they are located so children cannot fingers caught. Now, without considering the two in the illustration, you will note that if the moved back and forth it causes the dolly inside of to revolve back and forth and our gearing is so that the dolly makes full three-fourths revolution back and of only one-half as in other machines. This is one reason machine does the work so well and so fast. So far we have a and easy running gearing. The large spur wheel and fly are so connected with the remainder of the gearing that the revolves at a high speed when the handle is moved back and forth. This revolving fly wheel is what does most of the work in operating the machine after it is once started. It does for the High Speed Wizard Washing Machine what the fly wheel does on a corn sheller or feed cutter, and you undoubtedly know how much the fly wheel adds to the ease of operation of these machines. However, instead of the tiresome crank movement you simply move the handle back and forth or up and down with the little exertion. If you wish to change your position you can take the handle out of one socket and put it in the other, thus changing from a standing to a sitting position or vice versa. It is very easy to operate the High Speed Wizard Washer from either position. Remember, we guarantee the High Speed Wizard to run easier, to do better work and to last longer than any hand power washer on the market. Better order one right now and do your next washing the easy "High Speed Wizard" way. **Your money back if you are not satisfied.**

HIGH GRADE WASHING MACHINE

OUR ADVICE ON THIS SUBJECT.

On this page we show a line of medium and low priced washing machines which we recommend to anyone who wants to put only a very small amount in a washer. While we advise you to buy our High Speed Wizard Washer, which is the best machine on the market, yet if you feel that you do not want to pay $7.15 for a washing machine you can easily make a selection from the line shown herewith. The machines we show on this page are equal in every respect to machines usually sold at prices ranging from $3.50 for a machine similar to our Quick and Easy Washer No. 11F7530 up to $10.00 for a machine similar to our Golden Crown Washer, No. 11F7524, which we sell at $5.25.

QUALITY. **We wish to call your particular attention to the fact that each machine on this page is high grade in every respect.** We use high grade material and all machines are assembled by expert workmen. Remember that the High Speed Wizard is the very best hand power machine and it is the one we advise you to buy. If you don't want to invest $7.15 in a washing machine select one from this page and we know it will satisfy you. Your money back if you are not satisfied in every way.

WASH BY MACHINERY. **Our price for a high grade washing machine is so low that you really cannot afford to stick to the old fashioned back breaking method of washing.**

BE UP TO DATE. **Do your weekly washing in one of our washing machines,** which will not only do it better than any other way, but quicker and easier as well. Don't upset the entire house, don't neglect your other work and spend all day with a washboard and tub when for a few dollars you can get a machine from us that will do your washing in less than half the time, and better than you can do it on the board. The children will find pleasure in helping you wash by turning the machine for you. Be sure to look over our line of washing machines. Remember, the High Speed Wizard is the one that does the best and quickest work with the l labor. Also remember, your money back if you are not satisfied.

WATER POWER. **If you have water power of twenty pou pressure or more** you can wash by water pe with our Water Witch Water Power Washing Machines shown on 1040. With this machine you simply connect one hose with the fa put the other hose in the sink and turn on the water. The water ning through the motor does the work quickly and with no labo attention on your part. If desired the water that runs through motor can be used for rinsing, or other purposes, as it is perfectly c

ELECTRIC POWER. **We show two styles of electrically oper machines on page 1040,** which are arra for operation by merely inserting a plug in any convenient ele light socket, the same as a lamp. By turning a switch the machi driven by the high grade electric motor attached to it which does washing very quickly, thoroughly and with no labor on your The expense for electric power amounts to about 2 cents an hour can save you from $10.00 to $25.00 on an electric washing machine will give you a more liberal and stronger guarantee than any concern. Better order one of our washing machines today and the next washing the easy way. You will wish you had bought a ma long ago after you do one washing in it and when you are the with the washing you will miss the old tired feeling you have ha had on wash days. Don't forget, if you don't like the machine can send it back and get your money back, including all freight ch you paid.

PLEASE TAKE NOTICE. **We wish to call your attention t fact that all our washing ma are finished with oil and varnish in the natural color of the wood.** do not paint or deeply stain our woodwork to hide defects in the ber, which is a practice followed by a great many manufacturers.

The Golden Crown Washer

A High Grade Direct Drive Rotary Washing Machine usually sold at $10.00, but by our methods of selling direct from factory to user we are able to save you the middlemen's profit and offer it at $5.25. This is the best rotary fly wheel type of washer on the market. It runs easily and will do good work. However, the high speed type of rotary washer is the best style to buy as it runs easier and washes quicker. For this reason we recommend the High Speed Wizard Washer shown on page 1036, which is positively the best machine for hand operation that you can buy at any price. If you don't want to invest $7.15 in a washer you will find the Golden Crown machine to be a bargain at our price of $5.25.

THE TUB **is made of best selected Louisiana cypress,** one of the best lumbers obtainable for washing machine construction, and is securely held together with three wide and heavy iron hoops. The tub measures 25¼ inches in diameter at the bottom and 23¼ inches inside diameter at the top and is 12 inches deep. Sides and bottom are fully corrugated, and cover is two-ply construction and will never warp or split. Wringer box is large enough for any family wringer and is securely attached with bolts. Legs are detachable and are well bolted and braced in position. Gearing is of best quality gray iron castings and runs very quietly and easily. Dolly has full three-quarter movement and reverses automatically. Wood parts are finely finished in the natural wood and gearing is gold bronzed. This is the best medium priced washer you can buy and is a big bargain at our low price of $5.25. Shipping weight, 85 pounds. Shipped from factory in New York or from Chicago when other goods are ordered.

No. 11F7524 Golden Crown Washing Machine. Price..... **$5.25**

Improved Curtis Washing Machine

Many prefer a washing machine which operates on the rubbing principle. That is, the clothes are placed between two baskets or rubbing devices in the machine and when the machine is operated the clothes are rubbed between the rubbing devices much the same as on a board. To those who prefer a machine of this kind we recommend our Curtis Washer. It is well constructed throughout of well selected materials. Sides and cover are of best Louisiana cypress, and bottom is of heavy rustproof galvanized iron put on in a way that will never leak. Inside dimensions are 27½x17¾x19½ inches.

THIS MACHINE **is fitted with two well constructed baskets or rubbing devices** which work in opposite directions when the wheel is turned. This gives the same results as a long stroke rub board with but very little movement and little labor.

COVER IS WELL FITTED **and retains the heat water a long time,** betw other machines of this type, which are almost entirely open. the water to cool rapidly. Provision is made for attaching which need not be removed to open the machine.

THE CURTIS WASHER **is well finished in the natural** with oil and varnish, and th is nicely bronzed with aluminum bronze. The few metal part which do not touch the clothes, are heavily galvanized so th is absolutely no danger of rust spots. Shipping weight, 9 Shipped from factory in New York or from Chicago when oth are ordered.

No. 11F7535 Improved Curtis Washing Machine. Price. $

The Harvard Washing Machine

This is the old reliable lever movement rotary type of washer, a style so well known that but little description is needed. Our Harvard Washer is built throughout of the best materials, and while it will do good work and is sold for about one-third less than is usually asked for machines of this type, we would advise you to invest a few dollars more and get a machine with fly wheel movement which is easier to operate and will, therefore, be more satisfactory. The tub is made of cypress and is 25¼ inches in diameter at the bottom and 23¼ inches at the top and 11 inches deep. It stands 29 inches high from floor to top of tub. Legs are detachable and secured with bolts. Ample space is provided for wringer. Gearing is finished in black enamel. No metal parts inside of tub. Finished in the natural wood, with oil and varnish. This machine is well made throughout and ordinarily sells at $4.00 to $4.50. Shipping weight, 65 pounds. Shipped from factory in New York or from Chicago when other goods are ordered.

No. 11F7527 Harvard Washing Machine. Price..... **$2.93**

The Quick and Easy Washing Mach

To meet the big demand for an open rubber type washer and to get away from the usual grade of this type of machine, we have had our Quick and Easy Washing Machine designed expressly for us and we guarantee it to be better in finish and material than the machines of this type usually sold. We recommend the Curtis Washer described above to those who prefer the rubber type of washer as it is covered and will hold the heat and steam and is also larger in size. If you only want a cheap machine you can do no better than to buy this one. The sides are each made of one piece of selected lumber. Bottom is non-rusting galvanized iron securely attached and will never leak. Bottom rubber is mounted on flexible strips and can be easily removed for cleaning. Top rubber is and slats are smoothly finished so it cannot tear the clothe ber, this machine is much better throughout than the ar washer of this type. It is nicely finished in the natural measures 19x30x13½ inches, inside measurements. Fully g Shipping weight, 45 pounds. Shipped from factory or fro when other goods are ordered.

2c TO 12c DOES WONDERS, AS PAGES 1 TO 10 WILL PROVE.

5.95 IMPROVED SUPERBA BALL BEARING WASHING MACHINE

This Is Absolutely the Best and Highest Grade Swing Washing Machine on the Market.

Dealers get $8.00 to $10.00 for washing machines of this type which are not nearly so well made, which will wash the clothes as clean or run as easily.

ANY PREFER A SWING MACHINE. While the best washing machine made, the one which will give the best service, wash the clothes cleanest and in the shortest time is High Speed Improved Wizard Washer, illustrated and described on pages 1036 and 1037 there are many who r a swing type of machine and who do not want a machine with a fly wheel working on the rotary principle the High Speed Wizard works. To those we offer this Improved Superba Ball Bearing Washer as absolutely the swing washer ever built.

RUNS VERY EASILY. One of the remarkable features of this machine is the ease with which it is operated. The Improved Superba Ball Bearing Washing Machine is a triple motion reciprocating oscillating washing machine. The hardened steel pivot on which the tub is mounted operates ball bearings and is a little to one side of the center, which gives the tub an oscillating move- d in addition to the reciprocating action. A steel roller, operating in a slot, conveys the motion the agitator, which moves in the opposite direction inside of the tub, giving three separate and ct motions. As the tub swings one way the agitator inside of the tub turns in the opposite ction and this compound motion in combination with the oscillating motion of the tub quick reverse movement creates powerful cleansing currents olling water which by centrifugal force and suction are d through and through every thread and fiber of the clothes at swing of the tub, cleansing them with three times the rapidity, ing them with one-third of the labor of the old way of washing, ing them more thoroughly than any other way and doing it almost no labor at all. The Improved Superba Ball Bearing Machine will wash a big tubful of dirty clothes in from five to ten minutes easily and do it better than could be done by hand or by any other machine of this type. It does not pull off buttons nor tear the clothes; it does not wear them out by rubbing them over hard surfaces, but simply washes the dirt out of them more quickly and thoroughly than can be washed by any other machine of this type.

Top View of Tub.

THE TUB is of the best quality Louisiana cypress, strongly bound together with three wide hoops forced on by hydraulic pressure. It measures 23¼ inches in diameter at the top and 25¼ inches at the bottom, giving you the room just where you need it. It is full 12 inches deep inside.

Bottom View of Tub.

THE AGITATOR OR RUBBER is well constructed of two-ply lumber reinforced with a galvanized iron cleat, and will never warp. It slides up or down on the center post of the machine, adjusting itself to the amount of clothes in the tub.

BALL BEARINGS on which the machine runs are of the best quality steel balls securely incased in a tempered steel case, doing away with any possibility of the bearings getting out of order and need of adjustment. The ball bearings on this machine enable you to operate it very easily. Look out for swing machines that are not fitted with ball bearings.

BALL BEARINGS.

Shipped From Factory or From Chicago When Other Goods Are Ordered.

RUNS SO EASILY A CHILD CAN OPERATE IT.

FINISH. We finish the wood work of our Improved Superba Washing Machine in the natural wood, highly varnished so that it presents a very attractive appearance. The hoops and all metal parts outside the tub are black enameled. The post and casting on the dolly inside the tub are heavily galvanized, so you will never be troubled with rust spots. We guarantee the finish of our Superba Washer to be better than the finish on any other type of machine sold by others.

GUARANTEE. We guarantee the Improved Superba Ball Bearing Washing Machine to give perfect satisfaction. You may try it at our risk, and if after a thorough trial you are not satisfied you may send it back and we will return your money, including freight charges. We do this without any questioning or quibbling. We know what the machine will do and can well afford to make this offer. We further guarantee each and every part of the machine to be perfect in material and workmanship and will replace without expense to you any part which breaks or gives out on account of defect.

7.35 IMPROVED BALL BEARING SUPERBA COMBINATION WASHER

S IS OUR IMPROVED SUPERBA BALL BEARING WASHER mounted on a combined wringer board and basket bench. It saves separate wash bench and it saves taking off or replacing the wringer with each tubful. The machine plete in itself, as shown in the large illustration. The basket stand can be folded, as shown in the small ow, so that the machine can be set aside and still take up no more space than an ordinary washing or washtub.

TUB AND WORKING PARTS are exactly the same as used in our Improved Superba Ball Bearing Washer, described above. This machine is operated by the same power- tor spring, is equipped with ball bearings, which make it an easy running washer and has the same tention which makes our Improved Superba Washer so desirable. In addition to all these advantages of the Improved Superba machine, described above, the wringer board and bench make this machine the most desirable swing machine sold by anyone. The stand is made up of hardwood, securely bolted together and braced with steel braces, which make it perfectly rigid.

THE TERMS AND TRIAL on this machine are the same as on our Improved Superba, and if you are not perfectly satisfied with the machine after you have tried it out thoroughly you can return it to us and we will send back your money, together with the freight charges. We are so confident that this machine will satisfy that we are able to make this very liberal offer. We further guarantee the machine to be perfect in material and workmanship, and any part that gives out because of defect in material or workmanship will be replaced free of charge to you. If you want a swing machine we by all means recommend that you buy the Improved Superba Combination Washer. You will find that the wringer board and basket rack or tub stand are of great convenience on a machine of this type.

No. 11F7517 Improved Superba Combination Washing Machine. Price.....$7.35
Shipping weight, about 105 pounds. Shipped from factory in New York or from Chicago when other goods are ordered.
